The audited financial statements for the financial years ended March 31, 2024 have been audited by our Statutory Auditors. The audited financial statements for the years ended March 31, 2023 and March 31, 2022 have been audited by the previous statutory auditors, Manish Kumar Agarwal and Co., Chartered Accountants. The special purpose Ind AS financial statements for the years ended March 31, 2023 and March 31, 2022 have been audited by another peer reviewed auditor.

There are significant differences between Ind AS, Indian GAAP, US GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or US GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our Company’s financial data. For details in connection with risks involving differences between Ind AS, U.S. GAAP and IFRS, see “*Risk Factors – 57. Significant differences exist between Ind AS and other accounting principles, such as US GAAP and International Financial Reporting Standards (“IFRS”), which investors may be more familiar with and consider material to their*

assessment of our financial condition” on page 64.

The degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, 2013 and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited. Further, any figures sourced from third-party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places. In certain instances, discrepancies in any table between the sums of the amounts listed in the table and totals are due to rounding off.

Further, any figures sourced from third party industry sources may be rounded off to other than to the second decimal to conform to their respective sources.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” on pages 33, 194 and 342, respectively, and elsewhere in this Draft Red Herring Prospectus, unless otherwise stated or context requires otherwise, have been derived from Restated Financial Information or non-GAAP financial measures as described below.

Non-Generally Accepted Accounting Principles Financial Measures

Certain measures included in this Draft Red Herring Prospectus, for instance Net Asset Value per Equity Share, EBITDA, EBITDA Margin, Profit After Tax, Profit After Tax Margin, Capital Employed, Return on Equity, Return on Capital Employed, Debt to Equity Ratio, Revenue CAGR, EBITDA CAGR, PAT CAGR, Order Book, Order book to Revenue from Operations and Net Worth (the “**Non-GAAP Measures**”), presented in this Draft Red Herring Prospectus are supplemental measures of our performance and liquidity that are not required by, or presented in accordance with Ind AS, IFRS or US GAAP. Furthermore, these Non-GAAP Measures, are not a measurement of our financial performance or liquidity under Indian GAAP, IFRS or US GAAP and should not be considered as an alternative to net profit revenue from operations or any other performance measures derived in accordance with Ind AS, IFRS or US GAAP or as an alternative to cash flow from operations or as a measure of our liquidity. Further, these Non- GAAP Measures and other statistical and other information relating to operations and financial performance should not be considered in isolation or construed as an alternative to cash flows, profit for the years or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. In addition, these Non-GAAP Measures and other statistical and other information relating to operations and financial performance, are not standardised terms and may not be computed on the basis of any standard methodology that is applicable across the industry and therefore, may not be comparable to financial measures of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS and may not be comparable to similarly titled measures presented by other companies. Further, they may have limited utility as a comparative measure. Although such Non -GAAP financial measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate a company’s operating performance. For further information, see “*Management’s Discussion and Analysis of Financial Position and Results of Operations – Non-GAAP Measures*” on page 359.

Industry and Market Data

Unless stated otherwise, industry and market data used in this Draft Red Herring Prospectus has been obtained or derived from the report titled “*Assessment of the infrastructure EPC industry in India*” dated September 2024, prepared by CRISIL (“**CRISIL Report**”) who were appointed pursuant to an engagement letter dated September 18, 2024, that has been commissioned and paid for by our Company and prepared by CRISIL exclusively for the purpose of understanding the industry our Company operates in, in connection with the Offer.

The CRISIL Report is available on the website of our Company at the web-link www.vikranguroup.com/media/ until the Bid / Offer Closing Date.

Unless otherwise indicated, all financial, operational, industry and other related information derived from the Industry Report and included in this Draft Red Herring Prospectus with respect to any particular year, refers to such information for the relevant calendar year.

CRISIL has confirmed that it is an independent agency, and is not related to our Company, our Directors, our Promoters,

our Key Managerial Personnel and Senior Management or the Book Running Lead Managers.

The CRISIL Report is subject to the following disclaimer:

“CRISIL Market Intelligence & Analytics (CRISIL MI&A), a division of CRISIL Limited, provides independent research, consulting, risk solutions, and data & analytics to its clients. CRISIL MI&A operates independently of CRISIL’s other divisions and subsidiaries, including, CRISIL Ratings Limited. CRISIL MI&A’s informed insights and opinions on the economy, industry, capital markets and companies drive impactful decisions for clients across diverse sectors and geographies. CRISIL MI&A’s strong benchmarking capabilities, granular grasp of sectors, proprietary analytical frameworks and risk management solutions backed by deep understanding of technology integration, makes it the partner of choice for public & private organisations, multi-lateral agencies, investors and governments for over three decades.

For the preparation of this report, CRISIL MI&A has relied on third party data and information obtained from sources which in its opinion are considered reliable. Any forward-looking statements contained in this report are based on certain assumptions, which in its opinion are true as on the date of this report and could fluctuate due to changes in factors underlying such assumptions or events that cannot be reasonably foreseen. This report does not consist of any investment advice and nothing contained in this report should be construed as a recommendation to invest/disinvest in any entity. This industry report is intended for use only within India.”

Industry publications generally state that the information contained in such publications has been obtained from publicly available documents from various sources believed to be reliable but accuracy, completeness relevance of such information shall be subject to the disclaimers, context and underlying assumptions of such sources. The data used in these sources may have been selective and may be reclassified by us for the purposes of presentation and may also not be comparable. The excerpts of the Industry Report are disclosed in this Draft Red Herring Prospectus and there are no parts, information, data (which may be relevant for the proposed Offer), left out or changed in any manner. The extent to which the industry and market data presented in this Draft Red Herring Prospectus is meaningful and depends upon the reader’s familiarity with, and understanding of, the methodologies used in compiling such information. There are no standard data gathering methodologies in the industry in which our Company conducts business and methodologies, and assumptions may vary widely among different market and industry sources. Such information involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “Risk Factors – 44. This Draft Red Herring Prospectus contains information from industry sources including the industry report commissioned by the Company from CRISIL and reliance on such information for making an investment decision in the Offer is subject to certain inherent risks.” on page 60. Accordingly, no investment decision should be solely made on the basis of such information.

In accordance with the disclosure requirements under the SEBI ICDR Regulations, “Basis for the Offer Price” on page 115 includes information relating to our peer group companies. Such information has been derived from publicly available sources specified therein.

Currency and units of presentation

All references to:

- “₹” or “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India;
- “US\$” or “USD” are to United States Dollars, the official currency of the United States of America; and

All the figures in this Draft Red Herring Prospectus, except for figures derived from the Industry Report (which are in million or billion), have been presented in million or in whole numbers where the numbers have been too small to present in million unless stated otherwise. One million represents 1,000,000 and one billion represents 1,000,000,000.

Certain figures contained in this Draft Red Herring Prospectus, including financial information, have been subject to rounding adjustments. Any discrepancies in any table between the totals and the sum of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given, and (ii) the sum of the figures in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

However, figures sourced from third-party industry sources may be expressed in denominations other than million or may be rounded off to other than two decimal points in the respective sources, and such figures have been expressed in this Draft Red Herring Prospectus in such denominations or rounded-off to such number of decimal points as provided in such respective sources.

Exchange Rates

This Draft Red Herring Prospectus may contain conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI ICDR Regulations. These conversions should not be construed as a representation that such currency amounts could have been, or can be converted into Indian Rupees, at any particular rate, or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the ₹ and certain currencies:

Currency	As at [#]

DISCLAIMER

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States, and unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and in accordance with any applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold outside the United States in 'offshore transactions' in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdictions where such offers and sales are made. The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain statements which are not statements of historical fact and may be described as “forward-looking statements”. These forward-looking statements include statements which can generally be identified by words or phrases such as “aim”, “anticipate”, “are likely”, “believe”, “continue”, “can”, “could”, “expect”, “estimate”, “intend”, “may”, “likely”, “objective”, “plan”, “propose”, “will continue”, “seek to”, “will achieve”, “will likely”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe the strategies, objectives, plans or goals of our Company are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, plans, revenue, and profitability (including, without limitation, any financial or operating projections or forecasts) and other matters discussed in this Draft Red Herring Prospectus that are not historical facts. However, these are not the exclusive means of identifying forward-looking statements.

These forward-looking statements are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. This may be due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the industries we cater and our ability to respond to them, our ability to successfully implement our strategies, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and globally, which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in our industry and incidence of any natural calamities and/or acts of violence.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- (i) *All projects we operate have been awarded primarily through competitive bidding process. Failure to qualify for, complete or win new contracts could negatively impact our business, potentially affecting our financial condition, operational results, growth prospects, and cash flow stability.*
- (ii) *Our business is significantly dependent on tenders from government authorities, public sector undertakings, and private sectors, which account for approximately 46.45%, 21.03% and 32.52% of our revenue for Fiscal 2024. Delays or a lack of tenders from government entities, along with adverse changes in government policies, could materially impact our business through contract foreclosures, terminations, restructurings, or renegotiations, affecting our operations and financial performance.*
- (iii) *Our Order Book may not be representative of our future results, as projects included in our Order Book particularly for the projects where we are the lowest bidder, may be cancelled, modified, or delayed beyond our control, leading to significant deviations from estimated income and adversely affecting our business, reputation, financial condition, and future prospects.*
- (iv) *A significant portion of our Order Book and revenue from operations is attributable to certain key customers and to projects located in India, and our business and profitability is dependent on our ability to win projects from such customers.*
- (v) *The majority of our Order Book is concentrated on power transmission and distribution and water infrastructure sector. Significant Social, political, or economic changes in the power transmission and distribution sector could adversely affect our business, results of operations, financial condition, and cash flows.*

For a further discussion of factors that could cause our actual results to differ from the expectations, see “Risk Factors”, “Our Business” and “Management’s Discussion and Analysis of Financial Position and Results of Operations” on pages 33, 194 and 342, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially be different from those that have been estimated. Forward-looking statements reflect our current views as of the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management’s belief and assumptions, which in turn are based on currently available information. Although we believe that the assumptions on which such statements are based are reasonable, any such assumptions as well as statements based on them could prove to be inaccurate and the forward-looking statements based on these assumptions could be incorrect.

Neither our Company, nor the Promoter Selling Shareholder, nor our Directors nor the Syndicate or any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the SEBI ICDR Regulations, our Company will ensure that investors in India are informed of material developments pertaining to our Company and the Equity Shares from the date of the Red Herring Prospectus until the date of Allotment. In accordance with the requirements of SEBI and as prescribed under applicable law, the Promoter Selling Shareholder shall ensure that investors in India are informed of material developments in relation to the statements and undertakings specifically undertaken or confirmed by it in the Red Herring Prospectus until the date of Allotment. Only statements and undertakings which are specifically confirmed or undertaken by the Promoter Selling Shareholder in relation to itself as a Promoter Selling Shareholder and its portion of the Offered Shares, as the case may be, in this Draft Red Herring Prospectus shall be deemed to be statements and undertakings made by the Promoter Selling Shareholder.

SUMMARY OF THE OFFER DOCUMENT

This section is a general summary of certain disclosures included in this Draft Red Herring Prospectus and is not exhaustive, nor does it purport to contain a summary of all the disclosures in this Draft Red Herring Prospectus or all details relevant to prospective investors. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Draft Red Herring Prospectus, including the sections “Risk Factors”, “Our Business”, “Industry Overview”, “Capital Structure”, “The Offer”, “Restated Financial Information”, “Objects of the Offer”, “Management’s Discussion and Analysis of Financial Position and Results of Operations” and “Outstanding Litigation and Material Developments” on pages 33, 194, 135, 88, 73, 272, 107, 342 and 367 respectively of this Draft Red Herring Prospectus.

Summary of the primary business of our Company

We are one of the fast-growing Indian Engineering, Procurement and Construction (EPC) company. We have successfully executed projects for government entities, public sector undertakings and private companies. Our focus on operational excellence, and efficient cost structure, and has enabled us to deliver high-value projects that meet stringent regulatory and quality standards. (Source: CRISIL Report). We provide end-to-end services from conceptualisation, design, supply, installation, testing and commissioning on a turnkey basis and has presence across multiple sectors including power, water, and railway infrastructure.

Summary of the industry in which our Company operates

The transmission sector, a crucial part of the power industry, required more attention to meet the growing demand for electricity and the expanding generation capacity. Existing investments from budgets, internal funds, and PSU loans were insufficient to meet this demand. To address this issue, the Electricity Act allowed private companies to participate in the power transmission sector through a competitive bidding process called tariff-based competitive bidding (TBCB). The National Tariff Policy of 2006 provided guidelines for this process, aiming to promote competition, attract private investment, and increase transparency in constructing transmission infrastructure. India stands out as one of the few countries that have opened its transmission sector to private participation, generating significant interest from private businesses. The Electricity Act, 2003 coupled with TBCB for power procurement, encouraged private participation in the power transmission sector and has supported the growth of transmission lines in India sector (Source: CRISIL Report).

SECTION II: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also have an adverse effect on our business. If any or a combination of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occurs, our business, financial condition, results of operations and cash flows could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Furthermore, some events may be material collectively rather than individually.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risks where the effect is not quantifiable and hence have not been disclosed in the applicable risk factors. Prospective investors should read this section together with “Our Business”, “Industry Overview” and “Management’s Discussions and Analysis of Financial Condition and Results of Operations” on pages 194, 135 and 342, respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus. In making an investment decision, prospective investors should rely on their own examination of us and the terms of the Offer, including the merits and risks involved. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares. Potential investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to legal and regulatory environment which may differ in certain respects from that of other countries.

This Draft Red Herring Prospectus also contains forward-looking statements that involve risks and uncertainties where actual results could materially differ from those anticipated in these forward-looking statements. For further details, see “Forward-Looking Statements” on page 20.

Unless the context requires otherwise, the financial information used in this section is derived from our Restated Financial Information on page 272. Our fiscal year ends on March 31 of each year, and references to a particular fiscal are to the twelve months ended March 31 of that year.

*Unless stated otherwise, industry and market data in this Draft Red Herring Prospectus is derived from the report titled, “Assessment of the infrastructure EPC industry in India” dated September 2024 (“**CRISIL Report**”) prepared by CRISIL Limited, appointed by our Company pursuant to an engagement letter dated September 18, 2024, and such CRISIL Report has been commissioned by and paid for by our Company, exclusively in connection with the Offer. The CRISIL Report is available on the website of our Company at www.vikranguroup.com/media. INTERNAL RISK FACTORS

- 1. We are one of the fast-growing EPC companies and some of our projects have been completed either ahead of schedule or within the contractual time periods. Majority of our projects have been awarded through competitive bidding process. Failure to complete our projects within contractual time may affect our future business prospects and financial performance. Failure to qualify for, complete or win new contracts could negatively impact our business, potentially affecting our financial condition, operational results, growth prospects, and cash flow stability.***

We are one of the fast-growing Indian Engineering, Procurement and Construction (EPC) company (Source : CRISIL Report). While our revenues from operation, EBITDA, profit after tax have grown during last 3 Fiscals, we cannot assure that we will be able to maintain our growth in future. In previous years, we have been able to complete several projects ahead / within the time stipulated in the contractual agreements, however, there is no certainty that we will continue to complete our current or future projects within the contracted timelines. Majority of our projects are primarily through a competitive bidding process, and our business depends on our ability to bid for and be awarded contracts for projects by project owners. Typically, project owners advertise potential projects in newspapers or on their websites by publishing pre-qualification notices. If any of such project is of interest to us, we evaluate our credentials considering the eligibility criteria specified for the project. We endeavour to qualify on our own for projects that are of interest. In the event that we do not qualify due to eligibility requirements, we may seek to form project-specific joint ventures with other relevant experienced and qualified contractors. Once we pre-qualify for a

bid, tender documents are sent to pre-qualified bidders (including our Company) by the project owner. We then submit a financial bid, along with any technical bid details required, to the project owner. For further details on the bidding process, see “Our Business - Project Cycle” on page 215. Our Company has made the following number of bids during Fiscals 2024, 2023 and 2022. The value of the projects awarded against these bids are also as provided below:

Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022
Number of bids made	28	43	75
Value of projects awarded (in ₹ million)	10,267.20	21,712.25	4,164.71

We cannot assure you that we will be able to meet the pre-qualification criteria prescribed by project owners. If we are not able to qualify for bidding for larger projects, we cannot assure you that we will be able to find a suitable joint venture counterparty on acceptable terms or at all. If we are unable to partner with other companies or lack the credentials to be the partner-of-choice for other companies, we may lose the opportunity to bid for large EPC projects, which could affect our growth plans. While there have not been any such instances in the last three Fiscals, however, if we are unable to partner with other companies, it could result in an adverse effect on our business, financial condition, results of operations, and prospects.

Finally, even if we pre-qualify for a project, we cannot assure you that our bid, when submitted, will be successful. Further, certain project owners from the private sector may only invite a select group of contractors to participate in the bidding process. In such instances, we cannot assure you that we will be invited to bid for such projects or that our bid in a non-competitive bidding process will be successful.

Once the prospective bidders satisfy the qualification requirements of the tender, the project is usually awarded based on the quote by the prospective bidder. We spend considerable time and resources in the preparation and submission of bids. We cannot assure you that we will bid where we have been prequalified to submit a bid or that our bids, when submitted or if already submitted, would be accepted. In addition, tender processes are regularly subject to changes in eligibility criteria, unexpected delays and other uncertainties, depending upon the nature of the project and its location or that of the project owner. Further, all our ongoing projects have been awarded to us for a definite term and the relevant authorities may float tenders for such projects after expiry of the current term. There can be no assurance that we will be awarded such projects at the end of the tender process. In case we lose out on bid, there could be adverse effect on our business, financial condition, cash flows, results of operations and growth prospects. Our future results of operations and cash flows can fluctuate materially from period to period depending on the timing of contract awards.

Further, undertaking new projects depends on various factors, including our ability to identify cost-effective opportunities and integrate acquired operations. We may need consents from concession authorities, regulatory bodies, and lenders. Failure to identify suitable projects, secure necessary consents, or adapt to changing tender processes could lead to uncertainties in our business. In addition, government tenders may face delays or changes in criteria, affecting our ability to bid successfully. Legal challenges from unsuccessful bidders could delay project awarded to us, incur additional costs, or even lead to contract terminations, adversely affecting our results of operations and financial condition.

- Our business is driven by a diversified mix of tenders from government authorities, public sector undertakings, and private sectors, which account for approximately 46.45%, 21.03% and 32.52% of our revenue for Fiscal 2024. However, delays or a lack of tenders from government entities, along with adverse changes in government policies, could materially impact our business through contract foreclosures, terminations, restructurings, or renegotiations, affecting our operations and financial performance.***

During Fiscals 2024, 2023 and 2022 we derived 46.45%, 68.82% and 66.11% respectively, of our total revenue from operations from the tenders released by government entities including central or state governmental organizations. In the event any one or more these customers cease to release tenders, our business may be adversely affected. The table below sets out details of the contribution to our Order Book by our customer category, as of the dates mentioned:

(Amount in ₹ million, unless otherwise stated)

Category of customers	Fiscal 2024		Fiscal 2023		Fiscal 2022	
	Gross Amount	% of Order Book value	Gross Amount	% of Order Book value	Gross Amount	% of Order Book value
Government ⁽¹⁾	9,823.05	46.45%	14,079.97	68.82%	3,420.29	66.11%
Public sector undertakings ⁽²⁾	4,447.66	21.03%	2,375.03	11.61%	1,737.53	33.59%
Private sector	6,877.31	32.52%	4,002.85	19.57%	15.67	0.30%
Total	21,148.02	100.00%	20,457.85	100.00%	5,173.49	100.00%

1. *Comprises state and central governments in India*
2. *Comprises government agencies and government-owned enterprises*

There can be no assurance that the central or state governments will continue to place emphasis on the sectors, where we operate. In the event of an adverse change in budgetary allocations or a downturn in available work for such sectors resulting from a change in government policies or priorities, our business prospects and our financial performance may be adversely affected. Contracts with government and government-owned customers may be subject to extensive internal processes, policy changes, government or external budgetary allocation, insufficiency of funds and political pressure, which may lead to a lower number of contracts available for bidding, an increase in the time gap between invitation for bids and award of the contract, a renegotiation of the terms of these contracts after they are awarded, or delays in payments against our invoices. Further, in relation to such contracts, we may be subject to additional regulatory scrutiny associated with commercial transactions with governments and government owned or controlled entities and agencies.

If a government or government-owned customer terminates its agreement with us, we are typically entitled to compensation, unless the agreement is terminated pursuant to a material breach of contract by us. However, the recovery of such compensation is typically a time-consuming process and the amount we are paid may not be adequate to recover the costs already incurred. Further, government and government-owned customers typically have the right to change the scope of work to include additional work which was not contemplated at the time of execution of the contract. Although we may be entitled to additional fees for such increased scope of work (subject to a fixed cap), we may be required to mobilize additional resources, which may not be readily available on reasonable terms or within the stipulated project timelines. If we fail to comply with contractual or other requirements or if there are any concerns that arise out of a technical audit, we may be subject to monetary damages or civil penalties. Further, if any of our contracts with a government or government-owned customer are terminated, we may not be considered favourably for other government contract work. While there have been no such instances in the past three Fiscals, any of the foregoing in the future could adversely affect our business, financial condition and results of operations.

With reference to projects where our bids have been successful, there may be delays in award of the projects and/or notification of appointed dates, which may result in us having to retain resources which remain unallocated, thereby adversely affecting our financial condition and results of operations. Any adverse changes in the Gol or state government policies may lead to our contracts being foreclosed or terminated. In addition, we may be restricted in our ability to, among other things, increase toll rates, sell our interests to third parties, contract with certain customers or assign our rights or obligations under our contracts to any person. These restrictions may limit our flexibility in operating our business, which could have an adverse effect on our business, prospects, results of operations, cash flows and financial condition. Any withdrawal of support or adverse changes in their policies may lead to our agreements being restructured or renegotiated and could, though not monetarily quantifiable at this time, materially and adversely affect our financing, capital expenditure, revenues, development or operations relating to our existing projects as well as our ability to participate in competitive bidding or negotiations for our future projects. This in turn could materially and adversely affect our results of operations and financial condition.

3. *We have Order Book of ₹ 19,557 million as on August 31, 2024. However, our Order Book may not be representative of our future results, as projects included in our Order Book particularly for the projects where we are the lowest bidder, may be cancelled, modified, or delayed beyond our control, leading to significant deviations from estimated income and adversely affecting our business, reputation, financial condition, and future prospects.*

As on August 31, 2024, our Order Book was ₹ 19,557 million. The projects in our Order Book are subject to changes in our scope of undertakings as well as adjustments to the costs relating to the contracts. Our Order Book represents the estimated contract value of the unexecuted portion of our existing assigned EPC contracts. As on August 31, 2024, for the purposes of calculating the Order Book value, our Company does not take into account any escalation

or change in work scope of our ongoing projects as of the relevant date, or the work conducted by us in relation to any such escalation of change in work scope of such projects until such date. The manner in which we calculate and present our Order Book is therefore not comparable to the manner in which our revenue from operations is accounted, which takes into account revenue from work executed, revenue relating to escalation or changes in scope of work of our projects, other income, etc. Project delays, modifications in the scope or cancellations may occur from time, due to delay in payments by our customers or our own defaults, incidents of force majeure, adverse cash flows, regulatory delays and other factors beyond our control. In view of the above, projects can remain in Order Book for extended periods of time because of the nature of the project and the timing of the particular undertakings required by the project. Our Order Book may be materially impacted if the time taken or amount payable for completion of any ongoing orders of our Company exceeds the contractual estimate.

Please see the table below for the total Order Book in hand, Order Book realization, cancelled and outstanding orders for the periods indicated below:

Particulars	August 31, 2024	Fiscal 2024	Fiscal 2023	Fiscal 2022
Opening Total Order Book in hand as on the specified date ⁽¹⁾ (in ₹ million)	21,148.02	20,457.86	5,173.49	6,593.54

(1) Our Order Book as at a particular date is calculated based on the aggregate contract value of the ongoing projects as of such date reduced by the value of work invoiced by us until such date.

(2) Value of Order Book as on the specified date invoiced by the Company until the specified date

(3) Value of Order Book cancelled as on the specified date deducted by value of addition order to the existing projects the Company until the specified date.

(4) Value of Order Book yet to be invoiced by our Company until the specified date.

Set forth below is the number of completed projects as at March 31, 2024, March 31, 2023 and March 31, 2022:

Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022
Number of completed projects	11	6	9

We cannot guarantee that the income anticipated in our Order Book will be realised or if realised, will be realised on time or result in profits. The number of orders we have received in the past, our existing Order Book and our historic growth rate may not be indicative of the number of orders we will receive in the future. While none of our contracts have been cancelled by our customers during the last three Fiscals, any such instances in the future could have a material impact on our business.] Further, we cannot guarantee that our Company will always receive applicable termination payments in time, or at all, or that the amount paid will be adequate to enable our Company to recover its costs in respect of the prematurely cancelled order. In such events, we may have to bear the actual costs for such production incurred by us, which may exceed the agreed work as a result of which, our future earnings may be lower from the amount of the Order Book and if any of the forgoing risks materialize, our cash flow position, revenues and earnings may be adversely affected.

The completion of our orders involves various execution risks including delay or disruption in supply of raw materials, unanticipated cost increases, force majeure events, time and cost overruns, geo-political issues and operational hazards and therefore, we may not always be able to execute our projects within the scheduled time. In the event of any disruptions while executing our projects, due to natural or man-made disasters, workforce disruptions, fire, explosion, failure of machinery, or any significant social, political or economic disturbances or civil disruptions in or around the jurisdictions where such projects are located, our ability to execute our projects may be adversely affected. While there have been no instances in the past, where our operations were affected due to such disruptions, we cannot assure you that our operations will not be affected if any such disruptions occur in future. Project delays, modifications in the scope or cancellations may occur from time to time, due to delay in payments by our customers or due to our own defaults on account of delay in delivering the order, incidents of force majeure, cash flows problems, regulatory delays, need for change in measurements and estimates used by us and any other factors beyond our control. In view of the above, projects can remain outstanding in the Order Book for extended periods of time due to the nature of the project and the timing of the services required for completion of such projects. Delays in the completion of a project for any reason whatsoever can lead to delay in receiving our payments and thereby leading to variability in revenue.

Delays in the execution of projects results in the cost overruns and affects our payment milestones, subsequently impacting our revenue recognition and exposing our business to variability in revenue thereby creating an adverse impact on our revenue, financial condition and cash flows. We may not be able to maintain and enhance our production capabilities within scheduled time or implement our production plans effectively at all.

4. *Contribution of our top customers has been diversified over the period. However, a significant portion of our Order Book and revenue from operations is attributable to certain key customers and to projects located in India, and our business and profitability is dependent on our ability to win projects from such customers.*

A significant portion of our Order Book and revenue from operations have been attributable to, and will continue to be attributable to, certain key customers. The following tables set forth the value of our Order Book attributable to our top customer and top three customers, respectively, in absolute terms and as a percentage of our total Order Book value as of the dates indicated.

Particulars	As at March 31, 2024		As at March 31, 2023		As at March 31, 2022	
	Amount (₹ million)	% of Order Book value	Amount (₹ million)	% of Order Book value	Amount (₹ million)	% of Order Book value
Order Book value attributable to our top customer	3,431.49	16.23%	4,855.47	23.73%	1,652.46	31.94%
Order Book value attributable to our top ten customers	18,502.83	87.49%	18,004.19	88.01%	4,838.86	93.53%

The following tables set forth the value of our revenue from operations attributable to our top customer and top three customers, respectively, in absolute terms and as a percentage of our total revenue from operations as of the dates indicated.

Particulars*	Fiscal 2024		Fiscal 2023		Fiscal 2022	
	Amount (in ₹ million)	% of Revenue from Operations	Amount (in ₹ million)	% of Revenue from Operations	Amount (in ₹ million)	% of Revenue from Operations
Revenue from top customer	1,670.50	21.25%	1,346.92	25.69%	1,094.74	23.09%
Revenue from top ten customers	6,026.39	76.68%	4,645.01	88.59%	4,440.76	93.65%

* For further details please refer to "Our Business – Our Customers" on page 221.

There are a number of factors outside of our control that may result in a customer's decision to discontinue awarding projects to us or prematurely terminate existing projects, including changes in strategic priorities, a demand for price reductions, market dynamics and financial pressures. If our customers do not award additional projects to us or if we fail to expand the size of our business with them, or expand to additional customers, our business, profits and results of operations could be adversely affected.

5. *The majority of our Order Book and our revenues are from power transmission and distribution sector and water infrastructure sector. Significant social, political, or economic changes in the power transmission and distribution sector could adversely affect our business, results of operations, financial condition, and cash flows.*

A significant portion of our Order Book value and our revenue are generated from projects in the power transmission and distribution sector and water infrastructure sector. The tables below set out details of our Order Book by business verticals, as of the dates mentioned:

(Amount in ₹ million, unless otherwise stated)

Business Vertical	As at March 31, 2024		As at March 31, 2023		As at March 31, 2022	
	Order Book	% of Order Book	Order Book	% of Order Book	Order Book	% of Order Book
Power transmission and distribution	12,252.49	57.94%	10,629.55	51.96%	4,634.05	89.57%
Water infrastructure	8,449.04	39.95%	9,093.34	44.45%	-	-
Railway infrastructure	446.49	2.11%	734.97	3.59%	539.44	10.43%
Total	21,148.02	100.00%	20,457.86	100.00%	5,173.49	100.00%

Further, the details of contribution to revenue from operations by each vertical is set out below:

(Amount in ₹ million, unless otherwise stated)

Vertical	For the Fiscal 2024		For the Fiscal 2023		For the Fiscal 2022	
	Revenue from operations	% of revenue from operations	Revenue from operations	% of revenue from operations	Revenue from operations	% of revenue from operations
Power Transmission and Distribution	3,875.83	49.31%	2,530.80	48.27%	4,742.12	100.00%
Water Infrastructure	3,873.37	49.28%	2,590.08	49.40%	-	-
Railway Infrastructure	110.28	1.40%	122.17	2.33%	-	-
Total	7,859.48	100.00%	5,243.05	100.00%	4,742.12	100.00%

If we are unable to diversify our Order Book by successfully securing projects in other verticals such as water infrastructure and railway infrastructure, or securing additional projects in the power distribution and transmission sector, our business, profitability, and results of operations could be adversely impacted. Additionally, any slowdown in the power transmission and distribution sector or unfavourable developments in government policies or funding could exacerbate this risk, potentially affecting our long-term growth and stability.

6. *We are required to furnish bank guarantees as part of our business. Our inability to arrange such guarantees or the invocation of such guarantees or our inability to fulfil any or all of the obligations under such bank guarantees/surety bonds may or may not adversely affect our cash flows and financial condition.*

In terms of our EPC contracts and requirement of the government customers, we are required to provide certain financial guarantees such as bid security, advance security, performance bank guarantees, and retention bank guarantees for our projects. We typically issue bank guarantees to the relevant authority with whom the contractual arrangement has been entered into. These guarantees are typically required to be furnished within a few days of the signing of a contract and remain valid up to around 3 to 15 months beyond the scheduled completion period or as required under specific contracts, after the defect liability period prescribed in that contract. In addition, letters of credit are often required to satisfy payment obligations to suppliers and sub-contractors. We may not be able to continue obtaining new financial, performance and retention bank guarantees in sufficient quantities to match our business requirements. If we are unable to provide sufficient collateral to secure the financial bank guarantees, performance bank guarantees, retention bank guarantees or letters of credit, our ability to enter into new contracts or obtain adequate supplies could be limited and could have a material adverse effect on our business, results of operations and financial condition.

Set out below is the amount of bank guarantees furnished by our Company for Fiscals 2024, 2023 and 2022:

Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022
Amount of bank guarantees furnished (in ₹ million)	2,288.00	2,121.19	1,367.71

We may be unable to fulfil any or all of our obligations under the contracts entered into by us in relation to our ongoing projects due to unforeseen circumstances which may result in a default under our contracts resulting in invocation of the bank guarantees issued by us. While we have not had any instances in Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022, if any or all the bank guarantees are invoked, it may result in a material adverse effect on our business and financial condition. Also see, “Risk Factor – 14. We have certain contingent liabilities, which, if they materialize, may or may not adversely affect our results of operations, financial condition and cash flows” on page 45.

7. If any of our projects are terminated prematurely, we may not receive payments due to us, which could adversely affect our business, financial condition and results of operation.

Our agreements with project owners can be terminated prematurely by project owners for several reasons, including:

- failure to comply with operational or maintenance standards prescribed under agreements;
- failure to provide, extend or replenish performance security required under agreements,
- failure to cure a default within the stipulated cure period;
- failure to achieve project milestones to complete a project within the prescribed timelines;
- abandonment or intention to abandon construction or operation of a project by us without the prior written consent of the project owner,
- occurrence of a material adverse effect, as defined under our agreements,
- any assignment of rights, obligations, or assets by our Company or the relevant subsidiary or joint venture,
- occurrence of a force majeure event, such as an act of god, act of war, expropriation or compulsory
- bankruptcy, insolvency, initiation of liquidation, dissolution, winding up or amalgamation of our Company or the joint venture,
- have an execution levied by any competent court/authority on the goods or property on the work;
- disregard the instruction of the customer or contravene any provision of the contract;
- fail to adhere to agreed programme of work, programme of billing schedules, arrange reconciliation of materials and adhere to the specifications of work;
- fail to take steps to employ competent or additional staff, labour or workmen as required by the Customer;
- fail to resolve disputes if any, between the partners/ owners/ management of the Company leading to stoppage of work, reduction in levels of work progress required under the said contract;
- fail to co-operate with other agencies simultaneously working at site under first party and/or the customer.
- failure to comply with any other material term of the relevant agreement;
- failure to perform work in accordance with the terms of the agreement or stoppage of work, resulting in a breach of our agreements,

- or for convenience, with prior written notice.

If any of the foregoing occur, project owners may terminate our agreements with them, which will adversely affect our business, financial condition, cash flows and results of operations. For example, Rajasthan Solarpark Development Company Limited (“**RSDCL**”) had awarded contract to the Company for constructing 4 park pooling sub-station in Nokh, Rajasthan. The project got delayed for varied reasons attributable to RSDCL. However, RSDCL on the basis of project delay and attributing the reasons for the same to the Company, prematurely terminated the contract. The Company has filed legal proceedings against RSDCL towards increased costs of equipment due to delay attributable to RSDCL, termination costs, interest costs overrun and additional costs incurred towards change order. The matter is currently pending. For further details see, “*Outstanding Litigations and Material Developments*” on page 367.

If our agreements are terminated for reasons attributable to the project owner, we are typically entitled to receive a termination payment in accordance with the terms of the agreement. However, we cannot assure you that project owners will actually make such payments or that such payments will be adequate to recover our costs. If any of the foregoing occur, project owners may terminate our agreements with them, which will adversely affect our business, financial condition, cash flows, and results of operations. While there have been no such instances in Fiscals 2024, 2023 and 2022, we cannot assure you that we will receive termination payments if the agreements are terminated for reasons attributable to the project owner, nor can we guarantee that such payments will be sufficient to cover our costs.

8. ***Our business typically required significant amounts of working capital and historically, our business growth has been dependent on high working capital requirements. If we experience insufficient cash flows or are unable to access suitable financing to meet working capital requirements and loan repayment obligations, our business, financial condition and results of operations could be adversely affected.***

We have faced significant working capital requirements in Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022, respectively. Details of our working capital is set out below:

(in ₹ million)

Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022
Working capital	4,145.24	2,087.66	1,643.73

Our business requires a substantial amount of working capital which is based on certain assumptions, and accordingly, any change in such assumptions will result in changes to our working capital requirements. Working capital is required for mobilization of resources, including construction materials and labour, and for other work on projects before payment is received from our customers. Further, since the contracts we bid for typically involve a lengthy and complex bidding and selection process, it is difficult to predict whether or when a particular contract will be awarded to us. As a result, we may need to incur expenses in anticipation of contract awards, which may not eventually materialize, and finance such expenses by incurring additional indebtedness. Our working capital requirements may increase in the future if we undertake larger or additional projects or projects with a long gestation period, if payment terms do not include advance payments or if contracts have payment schedules that shift payments towards the end of a project or otherwise increase our working capital burden. We finance our working capital requirements through a variety of sources including cash credit facilities, working capital demand loans, bill discounting and vendor financing.

Further, we cannot assure you that market conditions will allow us to access working capital facilities on terms which are acceptable to us or of sufficient limits or at all. As of March 31, 2024, we had utilized working capital demand loans from banks amounting to ₹ 1,169.77 million, respectively. Our ability to arrange for financing and our cost of borrowing depend on a number of factors, including general economic and market conditions, credit availability from financial institutions, the amount and terms of our existing indebtedness, investor confidence, and the continued success of current projects. In addition, our ability to raise funds is limited by certain restrictions imposed under applicable laws, including foreign exchange regulations.

We strive to maintain strong relationships with banks, as well as non-banking financial institutions. However, we cannot assure you that our relationships with lenders will not change. Additionally, certain banks may perceive EPC companies as risky borrowers, due to the risks associated with the EPC business. As a result, we may find it difficult to establish credit relationships with new lenders or obtain additional facilities from our existing lenders or may not be able to access credit on terms which are comparable to those which are available to companies in other industries.

It is customary in the industry in which we operate to provide bank guarantees or performance bonds in favor of customers to secure obligations under contracts. See also “*We are required to furnish bank guarantees/ surety bonds as part of our business. Our inability to arrange such guarantees or the invocation of such guarantees or our inability*

to fulfill any or all of the obligations under such bank guarantees/surety bonds may or may not adversely affect our cash flows and financial condition.” In addition, letters of credit are often required to satisfy payment obligations to suppliers and sub- contractors. If we are unable to provide sufficient collateral to secure the letters of credit, bank guarantees or performance bonds, our ability to enter into new contracts or obtain adequate supplies could be limited. Providing security to obtain letters of credit, bank guarantees and performance bonds increases our working capital needs. We may not be able to continue obtaining new letters of credit, bank guarantees, and performance bonds in sufficient quantities to match our business requirements. Our expansion plans require significant expenditure and if we are unable to obtain necessary funds for expansion, our business may be adversely affected. Due to various factors, including certain extraneous factors such as changes in tariff regulations, interest rates, insurance and other costs or borrowing and lending restrictions, if any, we may not be able to finance our working capital needs, or secure other financing when needed, on acceptable commercial terms, or at all, which may have a material adverse effect on our business, financial condition, growth prospects and results of operation.

We make provisions for doubtful debtors/advances and also recognize expenses for expected credit losses on contract assets and trade receivables, based primarily on ageing and other factors such as special circumstances relating to specific customers. For further details on provisions made for doubtful debtors/ advances, see the “*Restated Financial Information*” on page 272. We cannot assure you that interim and final invoices and retention monies will be remitted by our customer to us on a timely basis or at all, or that provisions made in this regard will be sufficient. Our working capital position is therefore also dependent on the financial position of our customers. Any of the foregoing could adversely affect our business, financial condition and results of operations.

9. Certain emphasis of matter are reported in the Restated Financial Information.

Certain emphasis of matter have been included in the examination report on the Restated Financial Information:

Fiscal 2024:

“We draw attention to Note 13.1 to the financial statements, which describe an uncertainty to the outcome of an ongoing litigation with a customer on recoverability of balance amounting to INR 292.90 million due from such customer, which is currently pending in the Commercial Court, Jaipur. The management based on their internal evaluation and legal advice as obtained, is of the view that the aforesaid amount receivable is good and recoverable and no liability is likely to arise on the aforesaid matter, and accordingly, no adjustments have been made to the financial statements in this respect. Our opinion is not modified in respect of this matter.”

Fiscal 2023:

“We draw attention to:

“In the FY 2019-20 a survey by the DGGI (GST) department was conducted w.r.t to transaction for the FY 2017-18. Where company had accepted the GST liability of INR 133.60 Millions on pretext to buy peace of mind and started paying GST amount. Upto 31 March, 2022 company had paid GST amounting to INR 86.20 Millions against the same. During the current financial year company has received the SCN from the DGGI department and based on the legal opinion obtained, management is of the view that neither the balance GST amount of INR 47.40 Millions is payable by the company nor there is requirement of making any provision for interest and penalty. Hence company has reversed the GST liability of INR 127.40 Millions during the FY 22-23 and disclosed under exceptional item and recognised assets of INR 80.00 Millions. Presently the matter is under litigation.”

“As on 31 March, 2023 company is custodian of customer owned inventory amounting to INR 3901.79 Millions, where execution/handover to customer is pending. Further during the year company has supplied material having sales value of INR 1279.62 Millions, which are yet to be invoiced to the customer, was under certification from respective customers,. As per the management, these inventories are lying at different/ remote locations at various stages of project execution. Hence, physical verification of inventory was not possible.”

“We draw attention to Note No. 32 to the financial statements, we had sent positive external confirmation requests through electronic modes. However, there are fewer confirmations received than anticipated. In respect to trade receivable, trade payable and advances are subject to confirmation from respective parties and consequential reconciliation/adjustment arising there from, if any. However, management anticipates that there is no material impact due to such reconciliation and confirmations.”

“The Company enters into Engineering Procurement and Construction (EPC) contracts, which are complex in nature and span over a number of reporting periods. AS 7, Contracts Accounts, Revenue from construction contracts is recognised based on the stage of completion determined with reference to the actual costs incurred up to reporting date on the construction contract and the estimated cost to complete the project. Cost estimates involves judgments including those relating to cost escalations; assessment of technical, political, regulatory and other related contract risks and their financial estimation; scope of deliveries and services required for fulfilling the contractually defined obligations and expected delays, it relies on management’s estimates of the final outcome of each contract, and involves management judgement, particularly in forecasting the cost to complete a contract, valuing contract variations, claims and liquidated damages.”

“During the year company has accounted the work execution of INR 1786.20 Millions which were under certification by the respective customers as on 31 March 2023. Company has started practice of raising proforma Invoice on uncertified work, where GST liability was not provided. Later as the work get certified, company raises the Tax Invoice including the GST amount. Company has taken a legal opinion according to which, GST liability is applicable only when amount is received or milestone achieve as per the contract terms. However company has reversed the uncertified sale to complied with AS-7.”

“At the year end, company has booked unbilled sub-contract services amounting to INR 446.90 Millions based on the proforma invoice and joint measurement sheet between sub-contractor and company. However till signing of the financials statements out of the provision for INR 446.90 Millions, tax invoice has been received for INR 267.40 Millions. Management explain that balance work is under certification from respective customers and tax invoice will be received once the work is certified by the customers”

“As fully explain in Note no 28 of the financial statement, in the month of April 23, one of the client has short closed the ongoing project. The Company has accounted the project loss of INR 160.20 Millions in AS-7 working during the current financial year. Further, Company has taken a legal opinion based on which management is confident that it will get the refund. Hence, no provision against advances received, debtors outstanding and performance liability was made in the current financials statement . However as the matter of abundant precaution the amount is duly disclosed the amount as contingent liability.”

“The Company is principally engaged in the EPC business where majority of erection/installation work are carried through various sub-contractors. As a principal contractor company is liable for various labour compliance as per provisions of Employee Provident Fund Act, 1952 and allied labour Act’s. During our course of audit, we found unsatisfactory compliance of labour laws by some sub-contractors. However, management has explained that they have the practice of deducting and retaining five percent amount from the invoices of sub-contractor for the PF Compliance.”

“The Company is principally engaged in the EPC business where majority of erection/installation work are carried through various sub-contractors. Company has a practice of material reconciliation with sub-contractor at the closer of project, whereas it should be done periodically. However, management has explained that they have the practice of deducting and retaining ten percent amount from the invoices of sub-contractor till the material is reconciled.”

“We draw attention to Note no 6 of the Financial Statements regarding classification of retention payable to certain vendors as non-current Trade Payable. These retention to vendors are payable only on completion and reconciliation of ongoing project which involves management’s judgement.”

Fiscal 2022:

“As on 31 March 2022 company is custodian of customer owned inventory amounting to INR 3330.38 Millions, where execution/handover to customer is pending. As per the management, these inventories are lying at different/ remote locations at various stages of project execution. We are not able to verify the physical inventory neither able to satisfy ourselves with the alternative procedures.”

“We draw attention to Note No. 30 to the financial statements, we had sent positive external confirmation requests through electronic modes. However, there are fewer confirmations received than anticipated. In respect to trade receivable, trade payable and advances are subject to confirmation from respective parties and consequential reconciliation/adjustment arising there from, if any. However, management anticipates that there is no material impact due to such reconciliation and confirmations.”

“The Company enters into Engineering Procurement and Construction (EPC) contracts, which are complex in nature and span over several reporting periods. “The Company is principally engaged in the EPC business of transmission and distribution sector where majority of erection/installation work are carried through various sub-contractors. Company has a practice of material reconciliation with subcontractor at the closer of project, whereas it should be done periodically. However, management has explained that they have the practice of deducting and retaining ten percent amount from the invoices of sub-contractors till the material is reconciled.”

“As of 31 March 2022, trade receivables of INR 318.36 Millions related to amount collectible in respect of the operationally closed project. In determining whether provision is required, the management takes into consideration the ageing status and likelihood of collection based on contractual terms, experience, customer correspondence etc. Based on such assessment, specific allowances are made for receivable that are unlike to be collected. There is the involvement of material amount which are based on the management judgement. Out of INR 318.36 Millions of trade receivable, INR 113.69 Millions have been disputed by certain customers on account of liquidated damages/price variation/others. Management is confident that Company is following the contractual terms with the customers and accordingly amount would be realized in due course of time. However, as a matter of abundant precaution, it has made total provision of INR 33.97 Millions against disputed trade receivables.”

“We draw attention to Note no 6 of the Financial Statements regarding classification of retention payable to certain vendors as non-current Trade Payable. These retention to vendors is payable only on completion and reconciliation of ongoing project which involves management's judgement.”

For further information, see, “Restated Financial Information” and “Management's Discussion and Analysis of Financial Conditions and Results of Operations” beginning on pages 272 and 342, respectively.

There can be no assurance that any similar emphasis of matters or other matters will not form part of our financial statements for the future fiscal periods, which may adversely affect our reputation, credit position and financial condition.

10. There are outstanding legal proceedings involving our Company, Promoters and Directors. Any adverse decision in such proceedings may adversely affect our business, financial condition and results of operations.

There are outstanding legal proceedings involving our Company, Promoters and Directors. These legal proceedings are pending at different levels of adjudication before various courts and tribunals. The following table sets forth a summary of the litigation involving our Company, Promoters, Directors and Group Company, in accordance with the materiality policy adopted by our Board. **These are the same matters involving the Promoters of the Company, namely Rakesh Ashok Markhedkar and Nakul Markhedkar.

We cannot assure you that legal proceedings will be settled in our favour or at all, or that no additional liability will arise out of these proceedings. Further, such proceedings could divert our management's time and attention and consume financial resources in their defense or prosecution. Further, an adverse outcome in any of these proceedings may affect our reputation, standing with customers and future business, and could adversely affect our business, financial condition and results of operations.

- 11. We face certain competitive pressures from the existing competitors and new entrants in both public and private sector. Increased competition and aggressive bidding by such competitors are expected to make our ability to procure business in future more uncertain which may adversely affect our business, financial condition and results of operations.**

Our business is highly competitive as we face competition from the competitors in the domestic market. For details on our listed peers, see “Basis of Offer Price- Comparison of accounting ratios with listed industry peers” on page 116. Our Company primarily procures projects on the basis of competitive bidding which entails significant managerial time to prepare bids and proposals for contracts and at times requires us to resort to aggressive pricing to be able to be awarded the contracts. We may not be in a position to aggressively price our services in the future which may result in loss of business and adversely affect our future prospects. With increased competition, our ability to estimate costs to provide services required under the contracts and ability to deliver the project in a timely manner will determine our profitability and competitive position in the market. The possibility exists that our competitors might develop new technologies that might cause our existing technology and offerings to become less competitive. Our ability to anticipate such developments and deploy improved and appropriate technologies through development acquisitions will determine our competitive position in the market place. Any failure on our part to compete effectively in terms of pricing of our services or providing quality services could have a material adverse effect on our operations and financial condition.

The market competition in the EPC sector is intense, characterized by a multitude of competitors competing for the same projects. This coupled with rising input costs will make it difficult for the EPC players to further pass on the costs to their customers. Further, staying abreast of with technologies in power generation and storage poses a significant challenge, necessitating ongoing investments in research and development to remain competitive in the market (*Source: CRISIL Report.*) There can be no assurance that we will be able to compete successfully against our competitors as well as new entrants in our industry in the future, or that the companies that are not directly in competition with us now will not compete with us in the future. Accordingly, our business, financial condition, results of operations and future prospects would be adversely and materially affected if we are unable to maintain our competitive advantage and compete successfully against our competitors and any new entrants to our industry in the future.

- 12. Executive Director/Gati Shakti (Elect.) Railway Board has passed an Order dated July 26, 2024, in terms of which CORE/Vigilance has held that the Ministry of Railways should ban the Company for a period of two years for breaching code of integrity and involvement in illegal gratification.**

Executive Director/Gati Shakti (Elect.) Railway Board has passed an Order dated July 26, 2024 (the “said Order”),

in terms of which CORE/Vigilance has held that the Ministry of Railways should ban our Company for a period of two years for breaching code of integrity and involvement in illegal gratification. The Company has filed Writ Petition bearing No. W.P.(C) 11215/2024 & CM APPL 46390/2024 before the Hon'ble High Court of Delhi at New Delhi against Union of India and Another (the “**Respondents**”) challenging the said Order and refuting the allegations of giving bribe and indicating that there is no provision in the conditions of tender documents and contract, which debars or bans any business with the contractor on the grounds of mere allegations of giving bribe. Our Company has also pointed that General Manager, Railways failed to follow principles of natural justice in deciding whether such transactions as alleged has been committed or not. Vide its Order dated August 13, 2024, the Hon'ble High Court of Delhi (the “**Hon'ble High Court**”) held that prima facie it is of the opinion that the said Order is unsustainable. The Hon'ble High Court has also directed the Respondents to file reply within two weeks from August 13, 2014, which has not yet been filed. In the meantime, the Hon'ble High Court has also stayed operation of the said Order.

There can be no assurance that this litigation will be resolved in a way that benefits the Company. Consequently, it may divert the attention of the management of the Company and consume the corporate resources of the Company. The Company may incur significant expenses in such proceedings and may have to make provisions in its financial statements, which could increase its expenses and liabilities. Further, as of August 31, 2024, ₹14.14 million aggregating 0.61% of our total revenue from operations is generated from projects under the railway infrastructure sector. If such claims are determined against the Company or the said Order is upheld, there could be a material adverse effect on our reputation, business, financial condition and results of operations. For the further details of this matter, see “*Outstanding Litigations and Material Developments- Litigation filed against our Company- Outstanding actions by regulatory and statutory authorities*” on page 367 of this Draft Red Herring Prospectus.

13. We have experienced growth in recent years and may be unable to sustain our growth or manage it effectively. We cannot assure you that we will be able to successfully execute our growth strategies, which could affect our business, prospects, results of operations and financial condition

We have expanded our operations and experienced growth in recent years. Our revenue from operations grew at a CAGR of 28.74% from ₹4,742.12 million in Fiscal 2022 to ₹7,859.48 million in Fiscal 2024, based on our Restated Financial Information. Our profit for the year, calculated on the basis of our Restated Financial Information, increased from ₹65.91 million in Fiscal 2022 to ₹748.31 million in Fiscal 2024 at a CAGR of 236.94%. For further details, see “*Management's Discussion and Analysis of Financial Condition and Results of Operations*” and “*Restated Financial Information*” on pages 342 and 272 respectively.

As of August 31, 2024, we have undertaken 35 projects across 17 states in India. Sustaining our growth will require working capital investments and will also put pressure on our ability to effectively manage and control historical and emerging risks. We may not be able to sustain our growth rates due to a variety of factors such as a work stoppages, labour or social unrest, environmental activism, adverse weather conditions such as cyclones and monsoons, natural calamities, delays in construction, delays in clearances, increased cost of raw materials, unavailability of adequate funding, inability to onboard experienced members for our management team or a general slowdown in the economy or the industries in which we operate.

Our growth has placed, and continues to place, significant demands on our internal administrative infrastructure, our managerial, technical and operational capabilities as well as our financial, management and other internal risk control systems. We may not be successful in controlling our input costs, effectively managing our internal supply chain. If we are unable to complete our projects on time in line with our customer requirements with our ability to maintain high levels of customer satisfaction and quality standards. develop and maintain relationships with our suppliers, improve our operations and technology systems and maintain risk management standards, operate in markets or geographies where we have limited experience and preserve a uniform culture, values and work ethic in our operations.

As part of our growth strategy, we propose to continue to strengthen our core competencies in power transmission and distribution and water infrastructure sectors, expand our footprint in overseas markets, expand our EPC portfolio into other allied/ancillary EPC sectors and capitalize on Government initiatives and policies. Our growth strategies could place significant demand on our management and our administrative, technological, operational and financial infrastructure. Any failure to sustain our growth or an expansion in the scope and complexity of our operations as a result of any or a combination of the foregoing factors may have an adverse effect on our revenues and our operating margins may also decline, which may adversely affect our business, results of operations and financial condition.

14. We have certain contingent liabilities, which, if they materialize, may adversely affect our results of operations, financial condition and cash flows.

Our contingent liabilities for as at March 31, 2024, are as follows:

Particulars	Amount as of March 31, 2024 (₹ in million)
Income tax demand in respect of earlier years under dispute*	41.50
Goods and service tax demand in respect of earlier years under dispute*	603.60
Claims against the Company not acknowledged as debt	1.50

*Future cash outflows in respect of above matters are determinable only on receipt of judgements / decisions pending at various forums / authorities. The management, based on their assessment, does not expect these claims to succeed and accordingly, no provision has been recognised in the financial statements. These amount represents gross demand raised by the authorities and the amount paid under protest is not charged to the statement of profit and loss by the Company.

We cannot assure you that we will not incur similar or increased levels of contingent liabilities in the future. If any of these contingent liabilities materialize, our financial condition and results of operation may be adversely affected. For further details on our contingent liabilities, see “Summary of the Offer Document” and “Restated Financial Information – Note: 40: Contingent liabilities and Commitments” on pages 22 and 318, respectively.

15. Our financing agreements contain covenants that limit our flexibility in operating our business. Further, our Company has availed unsecured loans from banks and other financial institutions, which may be recalled on demand. If we are not in compliance with certain of these covenants and are unable to obtain waivers from the respective lenders, our lenders may accelerate the repayment schedules, and enforce their respective security interests, leading to a material adverse effect on our business and financial condition.

As on August 31, 2024, our borrowings were 1,799.12 million. A portion of these borrowings is secured by first and exclusive charge by way of hypothecation over identified receivables, hypothecation of movable assets including current assets (both present and future), demand promissory note, bank guarantees, fixed deposit, security cheques, investment in mutual funds and personal guarantees from the Promoters and certain members of promoter group of our Company. Our existing financing arrangements contain a number of restrictive covenants that impose significant operating and financial restrictions on us and may limit our ability to, without prior consents from the lenders, engage in acts that may be in our long-term best interest, including restrictions on our ability to, among other matters, change in our capital structure, ownership or shareholding pattern including transfer or issue of shares and in the management control of our Company, change in our ownership or capital structure where the shareholding of certain of our existing Promoters gets diluted below current levels or leads to dilution in controlling stake, any scheme of merger, amalgamation, de-merger, re-arrangement, reorganization, compromise or reconstruction by our Company or investing in third parties, change in the management or management set up of our Company or any change in the composition of our Board, management control of our Company including resignation of promoter or director, undertaking any expansion, diversification or further capital expenditure except being funded by our Company’s own resources, any changes in the Memorandum of Association and Articles of Association our Company, selling, assigning, mortgaging or disposing off any fixed assets of our Company charged with the Bank, creating charge, lien or encumbrance over the Company’s undertaking or any part thereof in favor of any financial institution, bank, company, firm or persons.. If we are not in compliance with certain of these covenants and are unable to obtain waivers from the respective lenders or if any events of default occur, our lenders may accelerate the repayment schedules or terminate our credit facilities. We have applied to our lenders and we have received consents from the relevant lenders, in relation to this Offer. However, we cannot assure you that such consents will be granted in the future or at all. While there have been no such instances in the three preceding Fiscals, our failure to meet our obligations under our financing agreements could have an adverse effect on our business, results of operations and financial condition. If the obligations under any of our financing agreements are accelerated, we may have to dedicate a substantial portion of our cash flow from operations to make payments under such financing documents, thereby reducing the availability of cash for our business operations. Our future borrowings may also contain similar restrictive provisions. As of August 31, 2024 and for the Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022, we have outstanding unsecured loans amounting to ₹152.78 million, ₹137.12 million, ₹73.93 million and ₹64.53 million, respectively, from banks and other financial institutions, which are repayable on demand to them. These loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. In such cases, we may be required to repay the entirety of the unsecured loans together with accrued interest. There can be no assurance that the lenders will not recall such borrowings or if we will be able to repay loans advanced to us in a timely manner or at all. Subsequently, if we are unable to pay our debt, affected lenders could also proceed against any collateral granted to them to secure such indebtedness. Further, such covenant defaults could result in cross-defaults in our other debt financing agreements. In the event our lenders accelerate the repayment of our borrowings, there can be no assurance that we will have sufficient assets to repay our indebtedness.

If our future cash flows from operations and other capital resources become insufficient to pay our debt obligations or our contractual obligations, or to fund our other liquidity needs, we may be forced to sell assets or attempt to restructure or refinance our existing indebtedness. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. The terms of existing or future debt instruments may restrict us from adopting some of these alternatives. In addition, any failure to make payments of interest or principal on our outstanding indebtedness on a timely basis would likely result in a reduction of our creditworthiness or credit rating, which could harm our ability to incur additional indebtedness on acceptable terms.

16. *We may not be able to collect receivables due from our customers, in a timely manner, or at all, which may adversely affect our business, financial condition, results of operations and cash flows.*

As of Fiscals 2024, 2023 and 2022, ₹ 549.03 million, ₹ 136.21 million, and ₹ 342.79 million or 11.56%, 3.63%, and 9.20%, respectively, of our total trade receivables (excluding expected credit loss allowance) had been outstanding for a period exceeding six months from their respective due dates of payments. Arbitration, litigation or other dispute resolution proceedings could also arise from additional payments claimed from customers for additional work and costs incurred in excess of the contract price or amounts not included in the contract price.

For the Fiscals 2024, 2023 and 2022, our bad irrecoverable debtors/unbilled revenue written off amounted to ₹ Nil million, ₹154.96 million and ₹ Nil million, respectively. We cannot assure you that we will be able to collect our receivables on time or at all, which could adversely affect our cash flows, results of operations and financial condition. We may also incur costs in collecting payments from our customers and we may not be able to recover such costs.

We require significant working capital requirements in our business operations and such delays in the collection of receivables or inadequate recovery on our claims could adversely affect our business, cash flows, financial condition and results of operations.

17. *Delays in the acquisition of private land or rights of way, eviction of encroachments, environmental clearances for the projects or resolution of associated land issues, which are though attributable to our customers, may adversely affect our timely performance of our contracts and lead to disputes and losses.*

Pursuant to the agreements, government customers are typically required to acquire, lease, or secure rights of way, over the land underlying the projects we construct. The land to be free of encroachments and encumbrances and with environmental clearances are beyond our control and contingent on the government providing the tracts of land. Their failure to acquire the relevant land, free of encumbrances and on time, may cause project delays, cost overruns or even force us to change or abandon the projects completely. We may be entitled to terminate such contracts on the basis of our counterparty's default, such as the failure to acquire or lease the requisite land or right of way, and be entitled to a termination payment from the customer. However, such payment may not be sufficient to cover the losses incurred by the project companies in the construction of the projects. There may be cases which may further lead to disputes and cross-claims for liquidated damages between us and the customers. These factors, either individually or collectively, could have an adverse effect on our business, financial condition and results of operations.

Failure to acquire land may lead to a change of scope of the project or payment delays or disputes with the government entity for claims in connection with a completed project's eligibility for an early completion bonus (if any). We will continue to face risks associated with implementation which could be due to reasons beyond our control such as delays from the concession authority or joint venture partners with whom we have entered into contractual arrangements. Further, any delay or inability to complete such land acquisitions may also result in termination of our project contracts, increase in the price of construction materials from original estimates, which we may not be able to pass on to the contractors or users of projects. While we have had not faced any instances where the government customer was unable to provide the project land and the contract was consequently terminated, any such instances in the future could have an adverse effect on our business, results of operations and financial condition.

In addition, relevant laws and regulations may change in the future, requiring the expenditure of resources and any changes in development plans and development control regulations of the various cities in which we operate are subject to change which may affect our business. Any changes and related uncertainties with respect to the implementation of new regulations may have an adverse effect on our business, financial condition and results of operations, including delays in commissioning schedule of our projects.

18. We require various statutory and regulatory permits and approvals in the ordinary course of our business, and our failure to obtain, renew or maintain them in a timely manner may adversely affect our operations.

We require various statutory and regulatory permits, approvals, licenses, registrations and permissions for our business and operations some of which may have expired and for which we may have either made or are in the process of making an application for obtaining the approval. For details of the key laws and regulations applicable to us, see “Key Regulations and Policies” on page 225. We may need to apply for further approvals in the future including renewal of approvals that may expire from time to time. We cannot assure you that the relevant authorities will issue such permits or approvals in the timeframe anticipated by us or at all.

Failure to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may adversely affect our business, financial condition and results of operations.

Further, we cannot assure you that the approvals, licenses, registrations, and permits issued to us will not impose onerous requirements and conditions on our operations or will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Failure to renew, maintain or obtain, or any suspension or revocation of, the required permits or approvals at the requisite time may result in stringent restrictions or interruption in all or some of our operations. Any failure to renew approvals that have expired or apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of approvals, licenses, registrations and permits that have been or may be issued to us, may adversely affect our business, reputation and financial condition.

19. We are highly dependent on our Key Managerial Personnel, Senior Management Personnel and skilled professionals for our business. The loss of or our inability to attract or retain such persons could have an adverse effect on our business performance.

Our business and the implementation of our strategy is dependent upon our, Key Managerial Personnel and our Senior Management Personnel, who oversee our day-to-day operations, strategy and growth of our business. If one or more members of our Key Managerial Personnel and Senior Management Personnel are unable or unwilling to continue in their present positions, such persons could be difficult to replace in a timely and cost-effective manner. There can be no assurance that we will be able to retain these personnel. The loss of our Key Managerial Personnel or members of our Senior Management or our inability to replace such Key Managerial Personnel or members of our Senior Management may restrict our ability to grow, to execute our strategy, to raise the profile of our brand, to raise funding, to make strategic decisions and to manage the overall running of our operations, which would have an adverse impact on our business, results of operations, financial position and cash flows.

During Financial Years ended March 31, 2024 March 31, 2023 and March 31, 2022, we have experienced certain changes to our Key Managerial Personnel and our Senior Management Personnel.

We have no attrition rate in our Key Managerial Personnel and Senior Management Personnel in last 3 Fiscals. For details in relation to the changes in our Key Managerial Personnel and our Senior Management team, see “Our Management - Changes in the Key Managerial Personnel or Senior Management Personnel” on page 263.

Our business also depends upon our ability to attract, develop, motivate, retain and effectively utilize skilled professionals. We believe that there is significant competition in our industry for such professionals who possess the technical skills and experience necessary to execute and manage infrastructure projects, and that such competition is likely to continue for the foreseeable future. We seek to hire and train a significant number of additional professionals each year in order to meet anticipated turnover and increased staffing needs. Our ability to execute existing projects and to win new contract awards depends, in large part, on our ability to hire and retain qualified personnel.

Set out below are details of our attrition for our permanent employees for the years indicated:

Particulars	Fiscal		
	2024	2023	2022
Total number of permanent employees	109	92	86
Attrition rate of our permanent employees*	14%	16%	18%

*Attrition rate has been calculated by dividing the total number of permanent employees who resigned during the relevant year/period with the total headcount of the permanent employees at the end of the year and the number of permanent employees resigned during the year.

We cannot assure you that we will not lose our Key Managerial Personnel, member of Senior Management or skilled professionals in the future, or we will be able to replace any Key Managerial Personnel or member of Senior Management in a timely manner or at all, which could have a material adverse impact on our business, results of operations, financial position and cash flows.

20. *Our inability to protect or use our intellectual property rights may adversely affect our business. We may also unintentionally infringe upon the intellectual property rights of others, any misappropriation of which could harm our competitive position.*

As  on the date of this Draft Red Herring Prospectus, we have made various applications for registration of our logo (device mark) in Classes 37, 39, 40 and 42 under the provisions of the Trademarks Act, 1999, as amended, which are currently pending. We have also made various applications for registration over the trademark

logo  (device mark) in Classes 37, 39, 40 and 42 under the provisions of the Trademarks Act, 1999, as amended, which are currently pending. In the absence of trademark registrations, we may not be able to initiate an infringement action against any third party who may be infringing our trademarks. With respect to our trademarks that have been applied for and/or objected, we cannot assure you that we will be successful in such a challenge nor can we assure that eventually our trademark applications will be approved, which in turn could result in monetary loss.

There can be no assurance that our brand name or trademarks will not be adversely affected in the future by actions that are beyond our control including customer complaints in relation to intellectual property rights infringement, intellectual property infringements or adverse publicity from any other source in India and abroad. Any damage to our brand name, if not immediately and sufficiently remedied, could have an adverse effect on our reputation, competitive position in India and abroad, business, financial condition, results of operations and cash flows.

While we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights which may force us to alter our offerings. We may also be susceptible to objections and claims from third parties asserting infringement and other related claims. While we have not been subject to any such claims in the past three Fiscals, any such claims raised in the future could result in costly litigation, divert management's attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or to cease certain offerings. Further, necessary licenses may not be available to us on satisfactory terms, if at all. Any of the foregoing could have an adverse effect on our business, results of operations, cash flows and financial condition. If claims or actions are adjudicated against us from third parties asserting infringement and other related claims in India and abroad, we may be required to obtain a license, modify our existing technology or cease the use of such technology and design, or use a new non-infringing technology. In addition, we may decide to settle a claim or action against us, the settlement of which could be costly and time consuming. We may also be liable for any past infringement. Any of the foregoing could adversely affect our business, financial condition, results of operations and cash flows.

The application of laws governing intellectual property rights in India is uncertain, evolving and could involve substantial risks to us. Further, if we are unable to register our intellectual properties for any reason, including our inability to remove objections to any trademark application, or if any of our unregistered trademarks are registered in favor of or used by a third party in India or abroad, we may not be able to claim registered ownership of such trademark, and as a result, we may not be able to seek remedies for infringement of those trademarks by third parties, which would cause damage to our business prospects, reputation and goodwill in India and abroad. For details, see "Our Business – Intellectual Property" and "Government and Other Approvals" on pages 223 and 374.

21. *Our actual cost incurred in completing a project may vary substantially from the assumptions underlying our bid. We may be unable to recover all or some of the additional expenses incurred, which could adversely affect our financial condition, results of operation and cash flows.*

Under our contracts with our customers, we are typically entitled to receive an agreed amount, subject to variations in our scope of work. This amount is based on certain estimates underlying our bid including cost of construction materials, fuel, labour, sub-contracting costs or other inputs, and construction conditions. However, our actual expenses in executing a project may vary based on a change in any such assumptions. The cost of construction materials, fuel, labour and equipment maintenance constitutes a significant part of our operating expenses. We are vulnerable to the risk of rising and fluctuating fuel, labour, steel and cement prices, which are determined by demand and supply conditions in the global and Indian markets as well as government policies. Any unexpected price fluctuations after placement of orders, shortage, delay in delivery, quality defects, or any factors beyond our control may result in an interruption in the supply of such materials and adversely affect our business, financial performance, results of operations, and cash flows

Most of our customer contracts allow us to claim for an increase in certain construction costs. Typically, there are two types of escalation clauses found in our contracts. The first category of clauses requires the customer to reimburse us in case of a variation in the prices of key construction materials (such as, steel and cement) based on actual costs incurred. The second category of clauses include a formula that splits the contract into pre-defined components such as cement, steel, other materials, plant and machinery, labour and fuel; and links the escalation in amounts payable by the customer to pre-defined price indices published periodically by the RBI or the Government of India or other relevant authorities. If our cost overruns are greater than the increase in market rates, we may not be able to recover all of our cost overruns. Further, some of our fixed-price contracts do not include any price variation or escalation clauses, in which case we bear the entire risk of price increases. We cannot assure you that we will not experience any cost overruns in the future. Further, the assumptions underlying our bid are typically based on a pre-bid inspection/study that we conduct, comprising undertaking a site visit along with engineers to study the project site; preparing a construction program and equipment list, preparation of an estimated bills of quantities, covering all the items required in the work (including sub contracting costs).

Our pre-bidding studies are usually conducted in a short span of time, as part of our preparation and research for a potential bid by us. Therefore, such studies are typically not exhaustive, because of which, in various instances there have been deviations from our estimates. Further, we may also need to seek additional financing to meet any consequent cost overruns, which may not be available on attractive terms.

Our pre-bidding studies are usually conducted in a short span of time, as part of our preparation and research for a potential bid by us. Therefore, such studies are typically not exhaustive, because of which, in various instances, there have been deviations from our estimates. Further, we may also need to seek additional financing to meet any consequent cost overruns, which may not be available on attractive terms. While there have not been any significant deviations from the estimates in the last three Fiscals, any such deviations in the future could adversely affect our business, financial condition and results of operations

22. *Our projects are exposed to various risks and other uncertainties, and our risk management and project selection framework may be inadequate, which may adversely affect our business, results of operations and financial condition.*

Our operations are subject to various risks including execution risks, design risks, joint-venture risks, and political risks.

Execution risks include the risk of equipment failure, work accidents, fire or explosions, hazards that may cause injury and loss of life, severe damage to and destruction of property and equipment, and environmental damage. Other execution risks include construction delays, delays or disruptions in supply of raw materials, delays in acquisition of land, unanticipated cost increases, force majeure events, and cost and time overruns. We may be further subject to risks such as:

- engineering problems;
- unanticipated costs due to defective plans and specifications;
- inability to furnish required guarantees;
- delays in regulatory approvals and/or permits for our projects, such as environmental clearances, forestry or other approvals from environmental protection agencies, forestry, railway or other regulatory authorities;
- shortages of, and price increases in, materials and skilled and unskilled labour, and inflation in key supply markets,
- inability to procure sub-contractors or labourers or labour strikes or stoppage of work by labourers;
- inability to procure construction materials, including on account of shipping delays or shortages of, and price increases in, materials and skilled and unskilled labour, and inflation in key supply markets,
- spread of infectious diseases at our project sites, resulting in temporary shutdown of operations;
- equipment failure or industrial accidents that may cause injury and loss of life, and severe damage to and destruction of property and equipment, and
- other unanticipated circumstances.

Execution risks are compounded on projects which are executed in difficult conditions, such as rough weather conditions, high seas, high altitudes or rugged terrains. Construction methodology-related risks and design-risks arise on unconventional or complicated projects. We also face joint-venture risks and political risks. See also –“*The failure of a JV counterparty member to perform its obligations could impose additional financial and performance obligations resulting in reduced profits or, in some cases, significant losses from the joint venture and may adversely affect our business, results of operations and financial condition*”.

If any or all of these risks materialize, we may suffer significant cost overruns or losses. We cannot assure you that our projects will be completed on schedule or at all or that we will recover our investments. If there are delays in the completion of projects, our customers may dispute our invoices or seek to renegotiate the terms of our contracts, or in case of significant delays, seek to terminate our contracts or we may lose any early completion bonus that we could have received. We may also be subject to penalties, liquidated damages or indemnity payments under the terms of our contracts with our customers and will also not be entitled to early-completion bonuses if projects are delayed. While we have not faced such instances in the past three Fiscals, any of the foregoing in the future could have an adverse effect on our business, financial condition and results of operations.

Further, if the completion of a project is delayed, we may not be able to allocate our resources, including equipment and human resources, to newer projects, which could adversely affect our business, financial condition, results of operations and cash flows. We cannot assure you that we will be able to successfully anticipate all the risks involved on the project or that the anticipated benefits will materialize, either of which could adversely affect our business, financial condition, results of operations and cash flows.

23. *We are exposed to claims, penalties and damages resulting from delays in our projects which may have an adverse effect on our business.*

We may face delays in our EPC/turnkey projects due to the internal processes/customer processes involving periodical approval of project milestones resulting in delay in project execution, which adversely impacts us, especially if the contract is on a fixed-rate basis. Actual or claimed defects in equipment procured and/or construction quality could give rise to claims, liabilities, costs and expenses, relating to loss of life, personal injury, damage to property, damage to equipment and facilities, pollution, inefficient operating processes, loss of production or suspension of operations. Although in certain cases our suppliers are required to compensate us for certain equipment failures and defects, such arrangements may not fully compensate us for the damage that we suffer as a result of equipment failures and defects or the penalties under our agreements with our customers, and they also do not generally cover indirect losses such as loss of profits or business interruption. We may also face delays due to shortage and pilferage of our materials lying at the sites which may either suffer losses due to theft, pilferage, breakage, mishandling which may require us to replace these materials and consequently resulting in further costs and time being lost for procuring them. Further, while we typically give performance guarantees and other guarantees to our customers in relation to our projects, in case of non-performance due to delay, the said guarantees may be invoked by our customers and such liabilities may become effective. For further details, see- “*Risk Factor- 6. We are required to furnish bank guarantees/surety bonds as part of our business. Our inability to arrange such guarantees or the invocation of such guarantees or our inability to fulfill any or all of the obligations under such bank guarantees/surety bonds may or may not adversely affect our cash flows and financial condition*” on page 38. Any significant operational problems or the temporary unavailability of the machines and equipment could result in delays or incomplete projects or services and adversely affect our results of operations. We cannot assure you whether there will be further delays in our ongoing projects or future projects and we will face penalties in that regard, which may result in an adverse impact on our financial condition, operations and reputation.

24. *Our contracts with government agencies usually contain terms that favour the government customers, who may terminate our contracts prematurely and impose restrictions on our Company from procurement of any future contracts under various circumstances beyond our control, which may have a material adverse impact on our financial condition and results of operations.*

The counterparties to a number of our EPC contracts are Indian government entities and these contracts are usually based on the forms chosen by such entities. As a result, we have only a limited ability to negotiate the terms of these contracts, which tend to favour the government customers. For instance, the terms laying out our obligations in relation to delivery and completion schedules, specifications for manufacturing, guarantees to be furnished by us for the project, right of way, etc., are determined by the government entities and we are not permitted to amend such terms. The contractual terms may present risks to our business, including

- risks we have to assume and lack of recourse to our government customer where defects in site or geological conditions were unforeseen or latent from our preliminary investigations, design and engineering prior to submitting a bid;

- liability for defects arising after the termination of the agreement;
- customer's discretion to grant time extensions, which may result in project delays and/or cost overruns, and
- the right of the government customer to terminate our contracts for convenience at any time after providing us with the required written notice within the specified notice period.

Under our EPC contracts, the contract price and scheduled completion date of the project may not be adjusted for any unforeseen difficulties or costs such as work stoppages, labour or social unrest, environmental activism, adverse weather conditions such as cyclones and monsoons, natural calamities, delays in construction, delays in clearances, increased cost of raw materials, unavailability of adequate funding, inability to secure rights of way for certain portions of the transmission line or within the required timeframe, failure to complete projects within budget and in accordance with the required specifications, legal actions brought by third parties, changes in government, regulatory and tax policies, foreign exchange movements, adverse trends in the power transmission industry. However, we are responsible for having foreseen difficulties such as unavailability of equipment, factored into our contract price and completion date. Such onerous conditions in the EPC contracts may affect the efficient execution of these projects and may have adverse effects on our profitability, cash flow and our reputation.

25. *Our business and operation involve inherent occupational hazards which can be dangerous and could cause injuries to people or property.*

Our business and projects require individuals to work under potentially dangerous circumstances.

Further, our business and operation involve inherent occupational hazards and are subject to hazards inherent in providing services, such as and including risk of equipment failure. Such inherent risks and occupational hazards may not be eliminated through implementing safety measures. We participate in certain activities presenting risks and dangers, among which are underground excavation and construction and the use of heavy machinery. Our project sites also involve working at great heights and potentially dangerous locations which can seriously injure or even kill employees or labourers. We depend on machinery and equipment to implement our project. Any manufacturing defect or poor maintenance systems of the machinery may cause strain on our machinery and lead to delays in implementation of our projects.

These hazards can cause personal injury and loss of life or destruction of property and equipment as well as environmental damage. In addition, the loss or shutting down of our project resulting from any accident in our operations could disrupt our business operations and adversely affect our results of operations, financial condition and reputation. We could also face claims and litigation filed on behalf of persons alleging injury predominantly due to occupational exposure to hazards at our project sites. If these claims and lawsuits, individually or in the aggregate, are resolved against us, our business, financial condition, results of operations and cash flows could be adversely affected. While there have been no such claims in the last three Fiscals, any such claims in the future could adversely affect our results of operations, financial condition and reputation.

26. *Bidding for a tender involves various activities such as detailed project study and cost estimations. Inability to accurately estimate the cost may lead to a reduction in the expected rate of return and profitability estimates.*

For every project, notice for invitation of tender is issued which requests interested EPC companies/contractors/participants to bid. To evaluate a project tender, we undertake various management discussions, project feasibility study, site study, cost estimations, raw material and equipment suppliers among others which aids us to calculate the estimated cost of the project on which we add-on our margin, which varies from project to project, the result of which is the tender amount which we bid for any particular project.

Accordingly, all of the bid amounts are based on estimation of the project cost, the fluctuation of which, either marginally or substantially, may impact our margins adversely. Further, we may incorrectly or inadequately estimate the project cost leading to lower bid amount affecting our profitability, in case the project is awarded to us. Excess estimation of costs may lead to higher bid amount by us owing to which, we may not be awarded a contract which may substantially impact our results of operations and financials. Further, as most of the projects are spread over a longer period of time, cost escalations in our industry is a frequent issue, although most of the agreements includes clauses relating to cost escalations, any fluctuations in costs or raw material availability or any other unanticipated costs will substantially impact the business operations, cash flows and financial conditions.

27. The failure of a JV counterparty to perform its obligations could impose additional financial and performance obligations resulting in reduced profits or, in some cases, significant losses, and it may adversely affect our business, results of operations and financial condition.

Typically, we bid for projects as the sole contractor, with full responsibility for the entire project, including sole discretion to select and supervise subcontractors, if required. However, from time to time, we form joint ventures with other entities operating in the EPC sector.

The type of joint ventures we engage are project-specific joint ventures in the form of an unincorporated "association of persons" as defined under the Income-tax Act, 1961 established to target and execute certain projects. These JV's are treated as an extension of the Company itself as in substance the Company assumes all the risk and rewards related to such arrangements including managing operations of such projects. We are responsible for project completion. However, each member's scope of work is clearly defined, along with the corresponding revenue split. Accordingly, if other parties in our joint ventures default on their duties, we will remain liable for completion of the project. In such cases we may be required to commit additional resources to ensure that the project is completed on schedule to avoid any claims for liquidated damages from customers. Such additional obligations could result in reduced profits or, in some cases, significant losses. The inability of a JV counterparty to continue with a project due to financial or other difficulties could mean that we may need to bear increased and possibly sole responsibility for the completion of the project and bear a correspondingly greater share of the financial risk of the project.

Any disputes that may arise between us and our JV counterparties may cause delays in completion or the suspension or abandonment of the project, and we may not be able to recover the capital that we have invested. We may, in certain instances, fail to reach agreement on significant decisions in a timely manner. We also cannot control the actions of our JV counterparties, including any non-performance, default by, or bankruptcy of, our partners, and we typically share liability or have joint and/or several liability with our partners for such matters. For Financial Years 2024, 2023 and 2022, our joint operations contributed to 17.40%, 20.43% and Nil, respectively, of our revenue from operations, amounting to ₹ 1,367.38 million, ₹ 1,074.26 million and Nil million, respectively.

In addition, in order to establish or preserve relationships with our partners, we may agree to assume risks and contribute resources that are proportionately greater than the returns we expect to receive in the related joint venture. Such agreements may reduce our income and returns on these investments compared to what we would have received if our assumed risks and contributed resources were proportionate to our returns. Any of the foregoing could adversely affect our business, financial condition and results of operations.

28. We rely on third party logistics providers for transportation of our products and machines to the project site or distribution to our customers. Any delay or disruption or refusal by our third-party logistics providers in timely delivery of our products may affect our business, results of operations and cash flow adversely.

We do not own any trucks, containers, commercial vehicles or marine cargo containers and typically use third-party logistics providers for all our domestic transportation needs and as a result incur considerable expenditure.

We have incurred freight and other related expenses (including plant machinery hire charges and transportation charges), details of which are set out below:

Particulars	Fiscal 2024	Fiscal 2023	Fiscal 2022
Freight and other expenses (in ₹ million)	65.27	36.23	56.28
Percentage contribution of freight and other expenses towards the total expenses (in %)	0.95%	0.76%	1.20%

Since our projects are subject to completion within prescribed timelines under our EPC contracts, our customers rely significantly on timely deliveries of our projects and any delays in transportation of key materials to our project sites can lead to our customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such project.

Any service disruption by the logistics service providers as a result of a failure or disruption of their facilities or equipment, technological issues, lower capacity and congestion during peak, shipment volume periods, force majeure, prolonged power outage, third-party sabotages, disputes, employee delinquencies or strikes (including port led strikes), poor port management, political instability, government inspections or regulatory orders mandating service halt or temporary or permanent shutdowns could adversely impact our business operations.. While we have not faced disruptions in our operations once account of any of these factors in the past, such eventualities in the future may adversely affect our business, financial condition, result of operations and cash flows.

29. We rely on third parties, including for equipment and contract labour agencies, to complete our projects and any failure arising from non-performance, delayed performance or inadequate quality in the performance of work by such third parties, or a failure by third-party contract labour agencies to comply with applicable laws, to obtain the necessary approvals, or provide services on agreed terms, could adversely affect our business, financial condition, results of operations and cash flows.

We are typically engaged as a principal contractor for the construction of a project, and we rely on contract labour agencies to complete a certain portion of our work. For the Fiscals 2024, 2023 and 2022, our sub-contracting expenses amounted to ₹1,278.04 million, ₹783.15 million and ₹ 492.84 million, respectively, representing 18.56%, 16.44% and 10.48%, respectively, of our total expenses.

For further details, see “*Restated Financial Information*” on page 272. We also rely on third- party equipment manufacturers or suppliers to provide the equipment and materials used for construction of our projects, and other vendors for IT services such as network infrastructure, communications, maintenance of websites and cyber security.

Engaging contract labour agencies is subject to certain risks, including difficulties in overseeing performance, delays which may arise on account of being unable to hire suitable subcontractors, or losses as a result of unexpected sub-contracting cost overruns. Since contract labour agencies have no direct contractual relationship with our customers, we are subject to risks associated with non-performance, late performance or poor performance by our contract labour agencies. As a result, we may incur additional costs, or be exposed to liability arising from poor performance by subcontractors, which may impact our business, reputation and profitability, and may result in litigation or other claims against us. While we may attempt to seek compensation from the relevant subcontractors, we cannot assure you that we will be successful in such a claim.

Further, if contract labour agencies engaged by us fail to obtain government or third-party approvals, we may be subject to claims by government authorities or third parties. In addition, if we are unable to hire qualified subcontractors or find competent equipment manufacturers or suppliers, our ability to successfully complete a project could be affected. If the amount we are required to pay for contract labour agencies, equipment or supplies exceeds our estimates, we may suffer losses. If a supplier, manufacturer, or contract labour agency fails to provide supplies, equipment or services on agreed terms, we may be required to source these supplies or equipment from another supplier or find a replacement for such a contract labour agency (as the case may be) at higher costs than anticipated, which could adversely affect our business, profitability, financial condition and results of operations. While we have faced any such instances in the last three Fiscals, where contract labour agencies failed to meet their obligations, any future failure by them to do so in the future could disrupt our project timelines, increase costs, and negatively impact our business, profitability, financial condition, and results of operations.

30. Fluctuation in cost of raw materials or any shortages, delay or disruption in the supply of the raw materials we use in our manufacturing process due to factors beyond our control or may have a material adverse effect on our business, financial condition, results of operations and cash flows.

The major raw materials used by our Company include steel, zinc and aluminium. Our operations are dependent upon the price and availability of the raw materials. We usually keep inventory of raw materials on a need basis, as purchases are project specific and grades of raw materials vary project to project. If we face shortage in raw materials in the future, there can be no assurance that we may be able to acquire the raw materials from the market in a timely manner and at a reasonable price, or at all, and if we are not able to procure raw materials in sufficient quantities, we may not be able to manufacture our products or provide our services according to our pre-determined timeframes or as contracted with our customers, at our previously estimated product costs, or at all. Therefore, any shortage, delay or disruption in supply of any of our raw materials could have an adverse effect on our business, results of operations, cash flows and reputation. The table below sets out the breakdown of total cost of materials consumed and the number of days of inventory in the Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022:

Particulars	Financial Year ended March 31, 2024	Financial Year ended March 31, 2023	Financial Year ended March 31, 2022
Cost of materials consumed (in ₹ million) ⁽¹⁾	3,849.57	2,664.83	3,037.78
Percentage contribution of cost of material consumed towards the total expenses (in %) ⁽²⁾	55.90%	55.92%	64.60%
Number of days of inventory ^{*(3)}	29	34	32

⁽¹⁾ Cost of material consumed and changes in inventory as per the Restated Financial Information

⁽²⁾ Total cost of material consumed divided by total expenses.

⁽³⁾ Average inventory divided by Direct Cost (Including Cost Of Goods Sold and Other Direct Expenses) multiplied by number of days for the period.

The prices and supply of these raw materials are also affected by, among others, general economic conditions, volatility in commodity markets, competition, production costs and levels, the occurrence of pandemic (such as COVID-19), transportation costs, indirect taxes and import duties, tariffs and currency exchange rate. If we are unable to pass on cost increases to our customers or are unsuccessful in managing the effects of raw material price fluctuations, our business, financial condition, results of operations and cash flows could be materially and adversely affected.

Additionally, suppliers may stop manufacturing raw materials for us on acceptable terms in future and we may be unable to find alternative manufactures in a timely and efficient manner and on acceptable terms or at all. Other risks associated with our reliance on the suppliers to manufacture the raw materials include, quality assurance and timely delivery of the raw materials, misappropriation of our designs, limited ability to manage our inventory, financial and economic condition of the contract manufacturers etc. Moreover, if any of our suppliers suffer any damage to their facilities, theft of materials, encounter financial difficulties, are unable to secure necessary raw materials from their suppliers or suffer any other reduction in efficiency, we may experience significant business disruption. While we have not faced any such instances in the Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022, in the event of any such disruptions in the future, we would need to seek and source other qualified suppliers, likely resulting in further delays and increased costs, which could affect our business adversely.

31. We operate in a labour-intensive industry and are subject to stringent labour laws and any strike, work stoppage or increased wage demand by our employees or any other kind of disputes with our employees could adversely affect our business, financial condition, results of operations and cash flows.

Our EPC services and manufacturing processes are labour intensive in nature, which makes us prone to labour shortage due to reasons such as relationship of our sub-contractor with its labour, labour availability, pandemics such as COVID- 19 etc., which may affect our ability to complete projects in time. Further, if we or our sub-contractors are unable to negotiate with the labour, it could result in work stoppages or increased operating costs due to higher than anticipated wages or benefits. During periods of shortages in labour, we may not be able to deliver our services or manufacture our products according to our previously determined time frames, at our previously estimated product costs, or at all, which may adversely affect our business, results of operations, cash flows and reputation.

As of August 31, 2024, we had a total of 674 employees. For details, see “Our Business - Human Resource” on page 223. There can be no assurance that we will not experience any disruptions in our operations due to any disputes with our employees, strike or work stoppage in the future. In addition, work stoppages or slow-downs experienced by our customers or key suppliers could result in slow-downs or closures of our projects. If we or one or more of our customers or key suppliers experience a work stoppage, such work stoppage could have an adverse effect on our business, financial condition, cash flows and results of operations.

We are also subject to a number of stringent labour laws that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes financial obligations on employers upon retrenchment. For further details see, “Key Regulations and Policies” on page 225. If labour laws become more stringent, it may become more difficult for us to maintain flexible human resource policies, discharge employees or downsize, any of which could have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

In addition, we have entered into contracts with independent contractors under the Contract Labor (Regulation and Abolition) Act, 1970, who in turn engage on-site contract labour for performance of certain of our ancillary operations in India. Although our Company does not engage these labourers directly, we may be held responsible for any wage payments to be made to such labourers in the event of default by such independent contractors. While we have not faced any such instances in last three Fiscals, any requirement to fund their wage requirements in the future may have an adverse impact on our results of operations and financial condition. If we are unable to renew the contracts with our independent contractors at commercially viable terms or at all, our business, financial condition, results of operations and cash flows could be materially and adversely affected.

32. There are certain defaults/ delay in payment of statutory dues by us. Any further default/ delay in payment of statutory dues may attract financial penalties from the respective government authorities and in turn may have a material adverse impact on our financial condition and cash flows.

We have had instances of defaults/delay in the payment of certain statutory dues with respect to tax deducted at source, goods and services tax and professional tax.

The below table sets forth the instances of delay in statutory dues paid in the last three Fiscals:

(₹ in million)

Fiscal Year	Number of instances		
	GST	TDS	Professional Tax
Delay for Fiscal 2024	Nil	Nil	15
Delay for Fiscal 2023	6	7	41
Delay for Fiscal 2022	1	3	27

Further, set forth below are details of statutory dues paid by our Company in India for the periods indicated.

(₹ in million)

Nature of Payment	Fiscal 2024	Fiscal 2023	Fiscal 2022
Provident Fund (₹ million)	38.68	28.12	26.67
Number of employees for whom provident fund has been paid	912	584	493
ESIC (₹ million)	0.02	0.02	0.07
Number of employees for whom ESIC has been paid	3	6	10
Tax Deducted at Source on salaries ("TDS") (₹ million)	58.76	44.93	28.19
TDS on payments other than salaries (₹ million)	64.38	41.36	36.13
Number of employees for whom TDS has been paid	175	165	137

There are no unpaid dues as on date. There can be no assurance that such defaults/ delay may not arise in the future. This may lead to financial penalties from respective government authorities which may have a material adverse impact on our financial condition and cash flows.

33. *Our Company, in the past, has rescheduled payments of its credit facilities from its lenders and has availed moratoriums for payment deferral of the re-payment of principal amount of facility availed by our Company from certain lenders.*

Our Company has availed moratoriums for payment deferral of the re-payment of principal amount of facility availed by our Company from Bank of Maharashtra, Bank of India, Bank of Baroda and Union Bank of India. For details, see "History and Certain Corporate Matters- Defaults or rescheduling/restructuring of borrowings with financial institutions/banks" on page 235. Except for the moratorium availed by our Company in view of COVID-19, there has not been any other instance of moratorium availed by our Company during the Fiscals 2024, 2023 and 2022. For details, see "Restated Financial Information - Notes to Restated Financial Information-Note 19- Borrowings" on page 306. Any failure to service the indebtedness of our Company or otherwise perform our obligations under our financing agreements entered with our lenders or which may be entered into by our Company, could trigger cross default provisions, penalties, acceleration of repayment of amounts due under such facilities which may cause an adverse effect on our business, financial condition and results of operations. For details of our indebtedness, see "Financial Indebtedness" on page 339.

34. *Our ability to access capital at attractive costs depends on our credit ratings. Non-availability of credit ratings or a poor rating or downgrading of rating may restrict our access to capital and thereby adversely affect our business, financial conditions, cash flows and results of operations.*

The cost and availability of capital depends on our credit ratings. The following table sets forth our details of credit rating received in the last three Fiscals:

Our Company has received the following credit ratings:

Agency	Instrument	Rating
India Ratings (2024)	Fund-based Facilities	IND BBB+/Stable/IND A2
	Non-fund-based Facilities	IND A2
	Term Loans	IND BBB+/Stable
Infomerics Ratings (2024)	Long Term Bank Facility	IVR BBB Stable
	Long Term/Short Term	IVR BBB Stable

	Bank Facility	
	Short Term Bank Facility	IVR A3+
CareEdge Ratings (2023)	Long Term Bank Facility	CARE BBB-; Stable
	Long Term/Short Term Bank Facility	CARE BBB-; Stable / CARE A3
	Short Term Bank Facility	CARE A3
CareEdge Ratings (2022)	Long Term Bank Facility	CARE BBB; Negative
	Long Term/Short Term Bank Facility	CARE BBB; Negative
	Short Term Bank Facility	CARE A3

Credit ratings reflects the opinion of the rating agency on our management, track record, diversified clientele, increase in scale and operations and margins, medium term revenue visibility and operating cycle.

We have experienced downgrading in our credit ratings in 2023. Any downgrade in our credit ratings or our inability to obtain such credit rating in a timely manner or any non-availability of credit rating may adversely affect our financial position

35. ***Objects of the Fresh Issue for which the funds are being raised have not been appraised by any bank or financial institutions. Any variation in the utilization of our Net Proceeds as disclosed in this Draft Red Herring Prospectus would be subject to certain compliance requirements, including prior Shareholders' approval.***

The proceeds received from the Offer for Sale will not form part of the proceeds from the Fresh Issue. We propose to use the Net Proceeds towards funding our working capital requirements and general corporate purposes, as set forth in “*Objects of the Offer*” beginning on page 107. The proposed deployment of Net Proceeds has not been appraised by any bank or financial institution or other independent agency and is based on internal management estimates based on current market conditions and historic level of expenditures. We shall a monitoring agency to monitor the Net Proceeds. Further, pursuant to Section 27 of the Companies Act, any variation in the utilization of the Net Proceeds shall be on account of a variety of factors such as our financial condition, business and strategy and external factors such as market conditions and competitive environment, which may not be within the control of our management, would require a special resolution of the Shareholders and the Promoter or controlling Shareholders will be required to provide an exit opportunity to the Shareholders who do not agree to such proposal to vary the objects of the Offer, at such price and in such manner in accordance with applicable law. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations. Our management estimates, may differ from the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our expenditure, subject to applicable laws, and may have an adverse impact on our business, financial condition, results of operations and cash flows. The Offer expenses are estimated to be approximately [●] million. For details, see “*Objects of the Offer*” on page 107.

Various risks and uncertainties, including those set forth in this “*Risk Factors*” section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business, including delaying the schedule of implementation of projects for which the Net Proceeds are intended for. Accordingly, the use of the Net Proceeds to fund our growth and for other purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

36. ***Although subject to monitoring, our management will have broad discretion in how we apply the Net Proceeds, including interim use of the Net Proceeds, and there is no assurance that the objects of the Offer will be achieved within the time frame expected or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investment.***

We intend to utilize the Net Proceeds of the Offer as set forth in “*Objects of the Offer*”, with respect to funding incremental working capital requirements of our Company and for general corporate purposes. The funding requirements mentioned as a part of the objects of the Offer are based on internal management estimates which in turn, is based on current conditions and is subject to change in light of changes in external circumstances, costs, other financial condition or business strategies. Further the deployment of the Net Proceeds will be at the discretion of our Board and the management of our Company will have significant flexibility in applying the proceeds received by our Company from the Offer. However, the Audit Committee will monitor the utilization of the proceeds of this Offer and prepare the statement for utilization of the proceeds of this Offer. Further in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Offer without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard. Our Promoters shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

Various risks and uncertainties, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. We cannot assure you that use of the Net Proceeds to meet our future capital requirements, fund our growth and for other purposes identified by our management would result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

37. *The objects of the Fresh Issue is funding working capital requirements, which is based on certain assumptions and estimates. Any failure in arranging adequate working capital for our operations may adversely affect our business, results of operations, cash flows and financial conditions.*

The proposed deployment of Net Proceeds is funding working capital requirements, which is based on management estimates and certain assumptions. For details, see “*Objects of the Offer*” on page 107. Our business requires significant working capital, and the actual amount of our future working capital requirements may differ from estimates as a result of, among other factors, unanticipated expenses, economic conditions, growth in revenue, changes in the terms of our financing arrangements, additional market developments and new opportunities in the EPC sector. For further details of funding our working capital requirements, see “*Risk Factor- 8. Our business typically required significant amounts of working capital and historically, our business growth has been dependent on high working capital requirements. If we experience insufficient cash flows or are unable to access suitable financing to meet working capital requirements and loan repayment obligations, our business, financial condition and results of operations could be adversely affected.*” on page 40. Any delay in the Offer may impact, the funding of our working capital requirements, and adversely affect our business, operations, cash flows and financial condition.

38. *We will not receive any proceeds from the Offer for Sale portion.*

The Offer includes an offer for sale of up to [●] Equity Shares aggregating up to ₹1,000 million by the Promoter Selling Shareholder. The proceeds from the Offer for Sale will be paid to the Promoter Selling Shareholder and we will not receive any such proceeds. The proceeds from the Offer for Sale (net of expenses) will be paid to the Promoter Selling Shareholder and we will not receive any such proceeds. For details, see “*Objects of the Offer*” on page 107.

39. *Trade receivables, contract assets and inventories form a substantial part of our current assets and net worth. Failure to manage the same could have an adverse effect on our profitability, cash flow and liquidity.*

Our business is working capital intensive and hence, trade receivables, other current assets including contract assets and inventories form substantial part of our current assets and net worth. For the Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022, the trade receivable, contract assets and inventories on an aggregate basis represent approximately 83.75%, 84.24% and 83.45% of total assets respectively.

The results of operations of our business and our overall financial condition are hence dependent on our ability to effectively manage our inventory, contract assets and trade receivables. We generally procure raw materials on the basis of management estimates based on past requirements and future estimates. To effectively manage our supplies inventory, we must be able to accurately estimate customer demand, project requirements, project timelines and supply requirements and purchase new inventory accordingly. However, if our management misjudges expected project timelines and customer demand, it could cause either a shortage of construction materials or an accumulation of excess inventory. Further, if we fail to finish any project within the given timelines, we may be required to carry work-in-progress inventory on our books and pay for fresh supplies on other projects without receiving payment for earlier projects, requiring to create additional vendor financing, all of which could have an adverse impact on our income and cash flows.

To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers, contractors/employers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if our management fails to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

40. *Our insurance coverage may be inadequate, which could have an adverse effect on our financial condition and results of operations.*

Our operations are subject to hazards inherent to providing engineering services, such as risk of equipment failure, work accidents, fire, earthquake, flood and other force majeure events, acts of terrorism and explosions including hazards that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environmental damage. We believe that we have generally maintained insurance covering our assets and operations

at levels that we believe to be appropriate, including workmen's compensation policies as well as hospitalization and group personnel accident policies for our permanent employees. Risks of loss or damage to project works and materials are often insured jointly with our customers. We also obtain specialized insurance for construction risks and third-party liabilities for most projects for the duration of the project and the defect liability period. We also have insurance coverage on our tangible fixed assets. However, we may not have sufficient insurance coverage to cover all possible economic losses.

There are possible losses, which we may not have insured against or covered or wherein the insurance cover in relation to the same may not be adequate. If we were to incur a serious uninsured loss or a loss that significantly exceeds the limits of our insurance policies, it could have a material adverse effect on our business, financial condition, results of operations and cash flows. For details, see “*Our Business – Insurance*” on page 224. While we have not experienced substantial uninsured losses during the past three Financial Years, in the event of a substantial uninsured future loss, our policies may not be sufficient to recover the full current market value or current replacement cost of our assets.

The occurrence of an event for which we are not adequately or sufficiently insured, or changes in our insurance policies (including premium increases or the imposition of deductible or co-insurance requirements), could have an adverse effect on our business, reputation, results of operations, financial condition and cash flows. Further, we cannot assure you that renewal of our insurance policies in the normal course of our business will be granted in a timely manner, at an acceptable cost or at all.

41. *We have entered into, and will continue to enter into, related-party transactions which may potentially involve conflicts of interest.*

We have in the past entered into transactions with several related parties. For further details in relation to our related party transactions for Fiscals 2024, 2023 and 2022, see “*Summary of the Offer Document – Summary of Related Party Transactions*” and “*Restated Financial Information – Note 41: Related Party Transactions*” on pages 25 and 319, respectively.

While we believe that all such related party transactions that we have entered into have been conducted at arm's length with approvals from the Audit Committee, the Board and/or our shareholders, as applicable, and in accordance with applicable laws, we cannot assure you these arrangements or any future related party transactions that we may enter into, individually or in the aggregate, will not have an adverse effect on our business, financial condition, results of operations, cash flows and prospects. The transactions we have entered into and any future transactions with our related parties may have involved or could potentially involve conflicts of interest which may be detrimental to our Company. After the completion of the Offer, all related-party transactions that our Company may enter into will be subject to Audit Committee, Board or shareholder approval, as may be required under the Companies Act, 2013 and the SEBI Listing Regulations. We cannot assure you that such approvals will be received in a timely manner or at all. Further, we cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations or that our Company could not have undertaken such transactions on more favorable terms with any unrelated parties or that any dispute that may arise between us and related parties will be resolved in our favor.

42. *Majority of our Directors do not have prior experience of holding a directorship in a company listed on the Stock Exchanges.*

Except for one of our Independent Directors, namely Priti Savla, our Directors do not have any prior experience in holding a directorship in a company listed on the Stock Exchanges. Our Board members have relevant experience in their respective fields, which benefits the Company, in strategizing the direction and vision of the Company.

Our Company will also be subject to compliance requirements under the SEBI Listing Regulations and other applicable law post listing of the Equity Share on the Stock Exchanges. Our Board is capable of efficiently managing such compliance requirements by engaging professionals having expertise in managing such compliances.

43. *We incur significant employee benefits expense. An increase in employee costs, including on account of changes in regulations, may prevent us from maintaining our competitive advantage and may reduce our profitability.*

We incur various employee benefits expense, including salaries and bonus (including directors' remuneration), contribution to provident and other funds, staff welfare expenses, gratuity expense and compensated absences expense. During the Fiscals 2024, 2023 and 2022, our employee benefits expense amounted to ₹589.63 million, ₹405.26 million and ₹336.81 million, respectively, representing 7.50%, 7.74%, 7.10%, respectively, of our revenue from operations for such periods. Salaries and wages may increase in the future due to various factors, including ordinary course pay increases, a raise in minimum wage levels, enhancement in social security measures, competition

for talent or through changes in regulations in the jurisdictions in which we operate. For instance, such an increase may arise in India on the implementation by the Government of India of its labour codes, namely (i) the Code on Wages, 2019; (ii) the Code on Social Security, 2020; (iii) the Occupational Safety, Health and Working Conditions Code, 2020; and (iv) the Industrial Relations Code, 2020, each as amended from time to time. Our profit margins may be adversely impacted if we are unable to pass on such increases in expenses to our customers.

Unless we can maintain appropriate resource utilization levels, continue to increase the efficiency and productivity of our employees, and effectively transition personnel from completed projects to new projects, the increase in employee benefits expense in the long term may reduce our profit margins, which in turn may adversely affect our results of operations and financial condition.

44. *This Draft Red Herring Prospectus contains information from industry sources including the industry report commissioned from CRISIL exclusively for the Offer and paid for by the Company. Investors are advised not to place undue reliance on such information.*

We have commissioned and paid for a report titled “Assessment of the infrastructure EPC industry in India” dated September 2024 issued by CRISIL (the “**CRISIL Report**”), which is exclusively prepared for the purposes of the Offer, which has been used for industry related data that has been disclosed in this Draft Red Herring Prospectus. Our Company, our Promoters, our Directors, our KMPs and members of our Senior Management are not related to CRISIL. The CRISIL Report uses certain methodologies for market sizing and forecasting and relies on assumptions which are specified in the CRISIL Report. The CRISIL Report is prepared based on industry information as of specific dates and may no longer be current or reflect current trends and has based its information on estimates, projections, forecasts and assumptions that may prove to be incorrect. CRISIL has advised that while it has taken reasonable care to ensure the accuracy and completeness of the CRISIL Report, it believes that the CRISIL Report presents a true and fair view of the industry within the limitations of, among others, secondary statistics and primary research, and it does not purport to be exhaustive, and that the results that can be or are derived from these findings are based on certain assumptions and parameters/ conditions. As such, a blanket, generic use of the derived results or the methodology is not encouraged. Further, the CRISIL Report is not a recommendation to invest/disinvest in any company covered in the CRISIL Report. Accordingly, prospective investors should not base their investment decision solely on the information in the CRISIL Report and the investors should read the industry related disclosure in this Draft Red Herring Prospectus in this context. For details, see “*Industry Overview*” on page 135.

In view of the foregoing, you may not be able to seek legal recourse for any losses resulting from under-taking any investment in the Issue pursuant to reliance on the information in this Draft Red Herring Prospectus based on, or derived from, the CRISIL Report. You should consult your own advisors and undertake an independent assessment of information in this Draft Red Herring Prospectus based on, or derived from, the CRISIL Report before making any investment decision regarding the Offer. For the disclaimers associated with the CRISIL Report, see “*Certain Conventions, Presentation of Financial, Industry and Market Data and Currency of Presentation - Industry and Market Data*” on page 16.

45. *Our ability to pay dividends in the future will depend on our future cash flows, working capital requirements, capital expenditures and financial condition.*

Our Company has paid ₹39.20 million as dividend in Fiscal 2024, ₹10.16 million in Fiscal 2023 and ₹7.99 million in Fiscal 2022. The amount of future dividend payments by our Company, if any, will depend upon a number of factors, including but not limited to our future earnings, financial condition, cash flows, working capital requirements, contractual obligations, applicable Indian legal restrictions and capital expenditures. There can be no assurance that we will be able to pay dividends in the future. For further details, see “*Dividend Policy*” on page 271.

Additionally, we may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Additionally, in the future, we may be restricted by the terms of our financing agreements in making dividend payments unless otherwise agreed to with our lenders. The declaration and payment of dividends will be recommended by our Board and approved by the Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act 2013. We cannot assure you that we will be able to pay dividends in the future.

46. *We cannot assure that the construction of our projects will be free from any or all defects, which may adversely affect our business, financial condition, results of operations and prospects.*

Actual or claimed defects in construction quality during the construction of our projects, could give rise to claims, liabilities, costs and expenses. Further, we may not be able to recover such increased costs from our project customers in part, or at all, for any defects observed in the projects or damage caused to the project on account of the fault of

our workers. We may further face slight delays in the estimated project completion schedule in respect of such projects on account of additional works required to be undertaken towards rectifying such construction faults, and we may have to appoint additional workforce and resources in order to complete the project within the pre-determined time period, which may result in increased expenditure for our Company, which we may not be able to pass on to our project customers. While any of the aforementioned events which could materially impact our projects or business operations, have not occurred in the past, however we cannot assure you that any claims in respect of the quality of our construction will not arise in the future and would not affect our business or financial condition. While we have not had any instance in the Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022, in the event any material events which bring the quality of our services could impact our eligibility to bid for projects may be affected, or in the event any defects in our construction trigger the extreme circumstances leading to termination or affect public interest, could lead to termination of our contracts blacklisting and therefore could adversely affect our business operations and result of operations.

We seek protection through our practice of covering risks through arbitration, contractual limitations of liability, indemnities and insurance. However, there can be no assurance that any cost escalation or additional liabilities in connection with the development of such projects would be fully offset by amounts due to us pursuant to the guarantees and indemnities, if any, provided by our contractors or insurance policies that we maintain. While there have not been any material events which have led us to claim coverage from our insurance policies, however, any liability in excess of our insurance payments, reserves or backup guarantee could result in additional costs, which would reduce our profits. Further, such construction faults may result in loss of goodwill and reputation and may furthermore have a material and adverse impact on our eligibility in respect of future bids made by us towards projects, thereby affecting our future operations and revenues.

In addition, if there is a customer dispute regarding our performance, the customer may delay or withhold payment to us. If we were ultimately unable to collect these payments, our profits would be reduced. While there have not been any such instances in the past, however, these claims, liabilities, costs and expenses, if not fully covered, thus could have an adverse effect on our business, financial condition, results of operations, and prospects.

- 47. *Most premises used by us are not registered in our name and are located on leased premises. There can be no assurance that these lease agreements will be renewed upon termination or that we will be able to obtain other premises on lease on same or similar commercial terms.***

Certain premises used by us are located on leased premises, and we do not own any of these premises. In the event such leases are not renewed or are terminated, it could adversely affect our operation unless we arrange for similar premises. If we are unable to continue or renew such leases on same or similar terms or find alternate premises on lease on similar terms or at all, it may affect our business operations. For information relating to properties that we have leased, see “*Our Business - Description of our Business – Property*” on page 224. Further, some of our lease agreements may not be adequately stamped or duly registered which may render them inadmissible as evidence in legal proceedings and impact our ability to enforce these agreements or attract penalty. This may adversely impact the continuance of our operations and business.

- 48. *The COVID 19 pandemic, or any future pandemic or widespread public health emergency, could impact our business, financial condition, cash flows and results of operations.***

The COVID 19 pandemic has had a significant global impact, with government authorities taking several responsive measures such as instituting quarantines, restricting travel, issuing "stay-at-home" orders and restricting the types of businesses that may continue to operate, among many others. The effects of the COVID-19 pandemic on our business included:

Any future outbreak of another highly infectious or contagious disease may adversely impact our business, financial condition, cash flows and results of operations. Further, it may also have the effect of exacerbating many of the other risks described in this “*Risk Factors*” section.

- 49. *If we are unable to establish and maintain an effective system of internal controls and compliances, our businesses and reputation could be adversely affected.***

We manage our internal compliance by monitoring and evaluating internal controls and taking reasonable steps to maintain appropriate procedures for relevant statutory and regulatory compliances. As risks evolve and develop, internal controls must be reviewed on an ongoing basis. Maintaining internal controls requires human diligence and is therefore subject to lapses in judgment and failures that result from human error. Any such errors can affect the accuracy of our financial reporting, resulting in a loss of investor confidence and a decline in the price of the Equity Shares. We cannot assure you that deficiencies in our internal controls will not arise, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal

controls, in a timely manner or at all, which may have an adverse effect on our business operations and financial condition.

Risks Relating to the Promoters and Promoter Group

50. Our Promoters and members of Promoter Group will continue to retain a majority shareholding in our Company after the Offer, which will allow them to exercise significant influence over us.

After the completion of the Offer, our Promoters and members of the Promoter Group are expected to hold [●]% of our outstanding total issued and paid-up Equity Share capital. Further, the involvement of our Promoters in our operations, including through strategy, direction and customer relationships have been integral to our development and business.

Accordingly, our Promoters and members of the Promoter Group will continue to exercise significant influence over our business and all matters requiring shareholders' approval, including the composition of our Board of Directors, the adoption of amendments to our constitutional documents, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, investments and capital expenditures. This concentration of ownership may also delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of our Promoters and Promoter Group. Further, the Promoters' shareholding may limit the ability of a third party to acquire control. The interests of our Promoters and Promoter Group, as our Company's controlling shareholder, could conflict with our Company's interests, your interests or the interests of our other shareholders. There is no assurance that our Promoters and member of the Promoter Group will act to resolve any conflicts of interest in our Company's or your favor.

51. For our business, we rely heavily on our Promoters namely, Rakesh Ashok Markhedkar, Nakul Markhedkar and Avinash Markhedkar, who are the Managing Director and Whole-Time Directors, respectively. Our business performance may have an adverse effect by their departure or by our failure to recruit or keep them.

Our Promoters namely Rakesh Ashok Markhedkar, Nakul Markhedkar and Avinash Markhedkar, who are the Managing Director and Whole-Time Directors, respectively are in charge of our day-to-day operations, strategy, and business expansion. They are also responsible for the execution of our business plan. The Promoters have been a part of our Company since a decade and it may be challenging to find a suitable replacement for one or more of our Promoter Directors in a timely and economical manner if they are unable to continue in their current roles. Our ability to keep the Promoter Directors on board cannot be guaranteed. Our ability to grow, execute our strategy, build brand awareness, raise capital, make strategic decisions, and oversee the day-to-day operations of our business could be hampered by the loss of our Promoter Directors or our inability to find suitable replacements. Further, there could be a materially negative effect on our operations, financial position, cash flows, and business.

52. Our Promoters have provided personal guarantees as security for certain facilities availed by our Company. If these guarantees are revoked, we may be unable to procure alternative guarantees satisfactory to our lenders, which may adversely affect our business, results of operations, cash flows and financial condition

Our Promoters, Rakesh Ashok Markhedkar, Avinash Markhedkar and Nakul Markhedkar have provided personal guarantees as security for certain facilities availed by our Company, which amounted to ₹ 5,388.54 million. The table below sets forth details of the personal guarantees provided by our Promoters, Rakesh Ashok Markhedkar, Avinash Markhedkar and Nakul Markhedkar:

Sr. No	Guarantee issued by	Guarantee issued in favour of	Guarantee Amount (in ₹ million)	Borrower	Reasons for the Guarantee
1.	Rakesh Ashok Markhedkar	Consortium borrowing led by Union Bank of India which includes Bank of Maharashtra, Bank of Baroda and Bank of India	209.40	Our Company	Personal guarantee for working capital facility availed by our Company

		Other Unsecured Loans	679.14	Our Company	Personal guarantee for credit facility availed by our Company

If any of the abovementioned guarantees are revoked, our lenders may require alternative guarantees or cancel such facilities, entailing repayment of amounts outstanding under such facilities. If we are unable to procure alternative guarantees satisfactory to our lenders, we may need to seek alternative sources of capital, which may not be available to us at commercially reasonable terms or at all, or to agree to more onerous terms under our financing agreements, which may limit our operational flexibility. Accordingly, our business, results of operations, cash flows and financial condition may be adversely affected by the revocation of all or any of the guarantees provided by our Promoters Rakesh Ashok Markhedkar, Avinash Markhedkar and Nakul Markhedkar, in connection with our Company's borrowings. For further details, see “*Financial Indebtedness*” on page 339.

53. Certain of our Promoters, Directors and Key Managerial Personnel and members of Senior Management may have interests in us other than reimbursement of expenses incurred and normal remuneration or benefits.

Certain of our Promoters, Directors, Key Managerial Personnel and members of Senior Management may be regarded as having an interest in our Company other than reimbursement of expenses incurred and normal remuneration, commission or benefits. Certain Directors and Promoters may be deemed to be interested to the extent of Equity Shares, as applicable, held by them and by members of our Promoter Group, to the extent applicable, as well as to the extent of any dividends, bonuses or other distributions on such Equity Shares. Certain of our promoters and directors are interested in the promotion of our Company. For further details, see “*Capital Structure*”, “*Our Promoters and Promoter Group*” and “*Our Management*” on pages 88, 265 and 243, respectively.

The borrowings availed by our Company from certain lenders are secured by the guarantees provided by our Promoters. Any default or failure by us to repay our loans in a timely manner or at all could trigger repayment obligations on the part of our Promoters, in respect of such loans. This could have an adverse effect on our business, results of operation, and financial condition. We may not be successful in procuring guarantees to supplement or

substitute the guarantees provided by our Promoters in a manner satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our business prospects, financial condition, results of operations, and cash flows.

54. *Conflicts of interest may arise out of common business objects between our Company and our Promoters, Group Company, and certain of the members of our Promoter Group.*

Conflicts may arise in the ordinary course of decision making by our Promoters or Board of Directors. While we will adopt necessary procedures and practices as permitted by law to address any instances of conflict of interest, if and when they may arise, we cannot assure you that these or other conflicts of interest will be resolved in an impartial manner. Further, due to the conflict of interest between us, or to the extent that competing business operations offered by our Group Company or any Promoter Group member erode our market share, we may not be able to effectively manage any such conflict or competitive pressures and, consequently, our business, cash flows, results of operation and financial condition may be adversely affected. For further details, see “*Our Promoters and Promoter Group*” and “*Our Group Company*” on pages 265 and 269, respectively.

55. *The determination of the Price Band is based on various factors and assumptions and the Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares upon listing on the Stock Exchanges.*

The determination of the Price Band and discount, if any, will be based on various factors and assumptions, and will be determined by our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Managers. Furthermore, the Offer Price of the Equity Shares will be determined by our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Managers through the Book Building Process. These will be based on numerous factors, including those described under “*Basis for Offer Price*” on page 115, and may not be indicative of the market price of the Equity Shares upon listing on the Stock Exchanges.

The factors that could affect the market price of the Equity Shares include, among others, broad market trends, financial performance and results of our Company post-listing, and other factors beyond our control. We cannot assure you that an active market will develop or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

56. *We have presented certain supplemental information of our performance and liquidity which is not prepared under or required under Ind AS.*

This Draft Red Herring Prospectus includes our Net Asset Value per Equity Share, EBITDA, EBITDA Margin, Profit After Tax, Profit After Tax Margin, Capital Employed, Return on Equity, Return on Capital Employed, Debt to Equity Ratio, Revenue CAGR, EBITDA CAGR, PAT CAGR, Order Book, Order book to Revenue from Operations and Net Worth (collectively “**Non-GAAP Measures**”) and certain other industry measures related to our operations and financial performance, which are supplemental measures of our performance and liquidity and are not required by, or presented in accordance with, Ind AS, IFRS or U.S. GAAP. For further details in relation to reconciliation of Non-GAAP Measures, see “*Other Financial Information*” on page 337.

Further, these Non-GAAP Measures and industry measures are not a measurement of our financial performance or liquidity under Ind AS, IFRS or U.S. GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, IFRS or U.S. GAAP. In addition, such Non-GAAP Measures and industry measures are not standardized terms, and may vary from any standard methodology that is applicable across the Indian financial services industry, and therefore may not be comparable with financial or industry related statistical information of similar nomenclature computed and presented by other companies, and hence a direct comparison of these Non-GAAP Measures and industry measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures and industry measures differently from us, limiting its usefulness as a comparative measure. Although such Non-GAAP Measures and industry measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate a company’s operating performance. These Non-GAAP Measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS and may not be comparable to similarly titled measures presented by other companies.

57. Significant differences exist between Ind AS and other accounting principles, such as US GAAP and International Financial Reporting Standards (“IFRS”), which investors may be more familiar with and consider material to their assessment of our financial condition.

Our Restated Consolidated Financial Information are derived from our audited consolidated financial statements for the years ended March 31, 2024, March 31, 2023 and March 31, 2022, prepared in accordance with Ind AS, SEBI Letter, and all restated in accordance with requirements of Section 26 of Part I of Chapter III of Companies Act, SEBI ICDR Regulations, and the Guidance Note on “Reports in Company Prospectuses (Revised 2019)” issued by ICAI. Ind AS differs in certain significant respects from IFRS, U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Restated Consolidated Financial Information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Ind AS, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Herring Prospectus should accordingly be limited.

58. Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure (ASM) and Graded Surveillance Measures (GSM) by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.

SEBI and the Stock Exchanges have introduced various pre-emptive surveillance measures in order to enhance market integrity and safeguard the interests of investors, including ASM and GSM. ASM and GSM are imposed on securities of companies based on various objective criteria such as significant variations in price and volume, concentration of certain customer accounts as a percentage of combined trading volume, average delivery, securities which witness abnormal price rise not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net worth, price / earnings multiple and market capitalization.

Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, low trading volumes, and a large concentration of customer accounts as a percentage of combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares being imposed by SEBI and the Stock Exchanges. These restrictions may include requiring higher margin requirements, requirement of settlement on a trade for trade basis without netting off, limiting trading frequency, reduction of applicable price band, requirement of settlement on gross basis or freezing of price on upper side of trading, as well as mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. The imposition of these restrictions and curbs on trading may have an adverse effect on market price, trading and liquidity of our Equity Shares and on the reputation and conditions of our Company.

External Risk Factors

59. Slowdown in sectors that we operate in, and any adverse changes in the conditions affecting these markets can adversely impact our business, results of operations, financial condition and cash flows.

Since the primary uses of our products include construction, our business is dependent to a significant extent on the performance and growth of the sectors where we are present, particularly the construction sector. Any change in regulation in such sectors could materially and adversely affects demands for our products. Further, external factors such as natural disasters, COVID-19 pandemic or any other pandemic, wars and unrest such as the war ensuing between Ukraine and Russia, can cause a slowdown in the sectors that we operate in and disable us from taking on or completing our projects in such sectors. In the event of a downturn in the construction sector or any of the other key sectors in which we are present, demand for their products may decline and to that extent, our business, financial condition, results of operations and cash flows could be adversely affected.

60. Changes in trade policies and regulations may adversely affect our profitability.

There have been on-going discussions and commentary regarding changes to Indian trading policies, treaties and tariffs, which could create uncertainties about the future relationship between India and other countries with respect to trade policies, treaties and tariffs. Any such change in policies by India or by the other countries, in terms of tariff and non-tariff barriers, from which our suppliers import their raw materials, components and/or countries to which

we export our products, may increase our operating costs, reduce our margins and make it more difficult for us to compete in the Indian and overseas markets, and our business, financial condition and results of operation could be severally impacted.

61. *We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could in turn adversely affect our business.*

The Competition Act was enacted for the purpose of preventing practices that have or are likely to have an adverse effect on competition in India and has mandated the Competition Commission of India to regulate such practices. Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition is void and attracts substantial penalties.

Further, any agreement among competitors which, directly or indirectly, involves determination of purchase or sale prices, limits or controls production, or shares the market by way of geographical area or number of subscribers in the relevant market is presumed to have an appreciable adverse effect in the relevant market in India and shall be void. The Competition Act also prohibits abuse of a dominant position by any enterprise. The Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations (Combination Regulations") require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to, and pre-approved by, the Competition Commission of India. The Competition Act aims to, among other things, prohibit all agreements and transactions which may have an appreciable adverse effect in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the Competition Commission of India has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside of India if such agreement, conduct or combination has an appreciable adverse effect in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. We do not have any outstanding notices in relation to non-compliance with the Competition Act or the agreements entered into by us.

The Government of India has also passed the Competition (Amendment) Act, 2023 on April 11, 2023, which has made several amendments to the Competition Act. These amendments include the introduction of deal value thresholds for assessing whether a merger or acquisition qualifies as a "combination", expedited merger review timelines, codification of the lowest standard of control" and enhanced penalties for providing false information or a failure to provide material information. Such amendment to the Competition Act will result in additional costs for compliance, which in turn may adversely affect our business, results of operations, cash flows and prospects.

62. *Changing laws, rules and regulations and legal uncertainties, including the withdrawal of certain benefits or adverse application of tax laws, may adversely affect our business, prospects, results of operations and cash flows. Further, failure to comply with the existing laws and regulations applicable to our business could subject our Company to enforcement actions and penalties and otherwise harm our business.*

In India, our business is governed by various laws and regulations including, amongst others, , the Indian Stamp Act, 1899, the Maharashtra Stamp Act, 1958, the Indian Registration Act, 1908, The Noise Pollution (Regulation & Control) Rules, 2000, and various laws relating to employment. For details, see "Key Regulations and Policies" on page 225. Environmental laws and regulations in India have been increasing in stringency and it is possible that they will become significantly more stringent in the future. If environmental clearances are not obtained in a timely manner or at all, the project may not be in compliance with environmental laws and regulations and/or may be delayed and our overall operating expenses may increase, adversely affecting our business and results of operations. Any failure or alleged failure to comply with the applicable laws, regulations or requirements could subject us to inspection, enforcement actions and penalties imposed by authorities.

Our business could be adversely affected by any change in laws, municipal plans or interpretation of existing laws, or promulgation of new laws, rules and regulations applicable to us. Any political instability in India, such as corruption, scandals and protests against certain economic reforms, which have occurred in the past, could slow the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting foreign investment, currency exchange rates and other matters affecting investment in India could change as well.

There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial

condition, results of operations and cash flows in addition, we may have to incur expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations and cash flows. Any unfavourable changes to the laws and regulations applicable to us could also subject us to additional liabilities.

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations, cash flows and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

63. *Regulation of greenhouse gas emissions and climate change issues may adversely affect our business.*

Many governments are moving to enact climate change legislation and treaties at the international, national, state, provincial and local levels. Where legislation already exists, regulations relating to emission levels and energy efficiency are generally becoming more stringent. Some of the costs associated with meeting more stringent regulations can be offset by increased energy efficiency and technological innovation. However, if the current regulatory trend continues, meeting more stringent regulations is anticipated to result in increased costs, and this may have a material adverse impact on our financial condition and results of operations. Further, India and many other nations are signatories to international agreements related to climate change including the 1992 United Nations Framework Convention on Climate Change, which is intended to limit or capture emissions of greenhouse gas, such as carbon dioxide and the 2016 Paris Agreement, which extended the potentially binding set of emissions targets to all nations. Our compliance with any new environmental laws or regulations, particularly relating to greenhouse gas emissions, may require significant capital expenditure or result in the incurrence of fees and other penalties in the event of non-compliance. We cannot guarantee that future legislative, regulatory, international law, industry, trade or other developments will not negatively impact our operations and the demand for the products we sell. If any of the foregoing were to occur, our business, financial condition and results of operations may be adversely affected.

64. *Our business is substantially affected by prevailing economic, political and other conditions.*

We are incorporated in and substantial amount of our operations are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations and cash flows are significantly affected by factors influencing the Indian economy Factors that may adversely affect the Indian economy, and hence our results of operations and cash flows, may include:

- any increase in Indian interest rates or inflation,
- any exchange rate fluctuations,
- any downgrade in the foreign countries sovereign risk or balance of payment crisis or economic crisis,
- inadequate cover or non-availability of export cover for covering export risks to foreign countries,
- any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions,
- prevailing income conditions among Indian consumers and Indian corporates,
- volatility in, and actual or perceived trends in trading activity on India's principal stock exchanges,
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- occurrence of natural or man-made disasters,
- prevailing regional or global economic conditions, including in India's principal export markets,

- any downgrading of India's debt rating by a domestic or international rating agency,
- financial instability in financial markets; and
- other significant regulatory or economic developments in or affecting India or its construction sector.

On February 24, 2022, Russian military forces invaded Ukraine. Although the length, impact and outcome of the ongoing military conflict in Ukraine is highly unpredictable, this conflict and responses from international communities could lead to significant market and other disruptions, including significant volatility in commodity prices and supply of energy resources, instability in financial markets, supply chain interruptions, political and social instability, changes in consumer or purchaser preferences as well as increase in cyberattacks and espionage.

To date, we have not experienced any material interruptions in our supply chain, manufacturing facility and distribution network in connection with this conflicts. We have no way to predict the progress or outcome of the conflict in Ukraine as the conflict, and any resulting government reactions, are rapidly developing and beyond our control. The extent and duration of the military action, sanctions and resulting market disruptions could be significant and could potentially have a substantial impact on the global economy and our business for an unknown period of time. Any of the abovementioned factors could affect our business, financial condition and results of operations.

In addition, any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, results of operations, cash flows and financial condition and the price of the Equity Shares.

65. *Terrorist attacks, communal disturbances, civil unrest and other acts of violence or was involving India and other countries in which we have operations may adversely affect the financial markets and our business.*

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares trade and also adversely affect markets in which we have operations, as well as the worldwide financial markets. These acts may also result in a loss of business confidence, and adversely affect our business. In addition, any deterioration in relations between India and its neighbouring countries might result in investor concern about stability in the region, which may adversely affect the price of our Equity Shares.

Some states in India have also witnessed civil unrest including communal disturbances in recent years and it is possible that future civil unrest, as well as other adverse social, economic and political events in India may have a negative impact on us. Such incidents may also create a greater perception that investment in Indian companies involves a higher degree of risk and may have an adverse impact on our business and the price of our Equity Shares.

66. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing*

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely affect our ability to raise additional financing and the interest rates and other commercial terms on which such additional financing is available. This could have a material adverse effect on our capital expenditure plans, business and financial performance and the price of our Equity Shares.

67. *If the rate of Indian price inflation increases, our business and results of operations may be adversely affected.*

In the recent past, India has experienced fluctuating wholesale price inflation as compared to historical levels due to the global economic downturn. An increase in inflation in India could cause a rise in the price of raw materials and wages, or any other expenses that we incur. If this trend continues, we may be unable to accurately estimate or control our costs of production or pass on increase in costs to our customers and this could have a material adverse effect on our business and results of operations

68. *Financial instability in Indian financial markets or instability in financial markets in the countries in which we operate could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in the emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have a material adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including continued volatility in global financial markets due

to the economic slowdown in China and the increase in the federal interest rates by the United States Federal Reserve, could also have a negative impact on the Indian financial markets and economy.

69. Investors may not be able to enforce judgments obtained in foreign courts against us

We are a public limited company under the laws of India. Many of our directors and officers are Indian nationals and all or a significant portion of the assets of all of the directors and officers and a substantial portion of our assets are located in India. As a result, it may be difficult for investors to effect service of process outside India on us or on such directors or officers or to enforce judgments against them obtained from courts outside India, including judgments predicated on the civil liability provisions of the United States federal securities laws.

India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, which includes the United Kingdom, United Arab Emirates, Singapore and Hong Kong. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements of the Indian Code of Civil Procedure, 1908 (the “**Civil Code**”). The Civil Code only permits the enforcement of monetary decrees, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India. Even if an investor obtained a judgment in such a jurisdiction against us, our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. However, the party in whose favor such final judgment is rendered may bring a fresh suit in a competent court in India based on a final judgment that has been obtained in a non-reciprocating territory within three years of obtaining such final judgment. It is unlikely that an Indian court would award damages on the same basis or to the same extent as was awarded in a final judgment rendered by a court in another jurisdiction if the Indian court believed that the amount of damages awarded was excessive or inconsistent with public policy in India. In addition, any person seeking to enforce a foreign judgment in India is required to obtain prior approval of the Reserve Bank of India to repatriate any amount recovered pursuant to the execution of the judgment.

Risks in relation to the Equity Shares

70. The average cost of acquisition of Equity Shares by the Promoter Selling Shareholder may be less than the Offer Price.

The average cost of acquisition of Equity Shares by the Promoter Selling Shareholder may be less than the Offer Price, which will be decided by our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Managers. The details of the average cost of acquisition of Equity Shares held by the Promoter Selling Shareholder are set out below:

Promoter Selling Shareholder	Number of Equity Shares of face value of ₹ 1 each	Acquisition price per Equity Share (in ₹)*
Rakesh Ashok Markhedkar	108,357,150	Negligible

For further details regarding the weighted average cost of acquisition of Equity Shares by the Promoter Selling Shareholder and build-up of Equity Shares of the Promoter Selling Shareholder in our Company, see “*Summary of Offer Document - Average cost of acquisition of shares for our Promoters (including the Promoter Selling Shareholder)*” and “*Capital Structure - Build-up of Promoters’ shareholding in our Company*” on pages 28 and 99, respectively.

71. Our Company has issued Equity Shares during the preceding one year at a price that may be below the Offer Price.

In the preceding one year from the date of this Draft Red Herring Prospectus, our Company has issued Equity Shares at a price that may be lower than the Offer Price. The price at which Equity Shares have been issued by our Company in the preceding one year is not indicative of the price at which they will be issued or traded after listing. For details on such allotments, see “*Capital Structure*” on page 88.

72. Any future issuance of Equity Shares may dilute your shareholding and sale of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.

Any future equity issuances by us, including a primary offering, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our Promoters or other major

shareholders may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences for us including difficulty in raising debt-financing. In addition, any perception by investors that such issuances or sales might occur may also affect the trading price of our Equity Shares.

73. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.*

Under the Companies Act, a company incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by shareholders of such company.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in our Company may be reduced.

74. *The Equity Shares have never been publicly traded, and, after the Offer, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Offer Price, or at all.*

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Offer Price of the Equity Shares is proposed to be determined through a book-building process and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter.

The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

75. *Investors may be subject to Indian taxes arising out of income arising from distribution of dividend and sale of the Equity Shares.*

Capital gains arising from the sale of our Equity Shares are generally taxable in India. Any gain realised on the sale of our Equity Shares on a stock exchange held for more than 12 months is subject to long term capital gains tax in India. Such long-term capital gains exceeding ₹100,000 arising from the sale of listed equity shares on a stock exchange are subject to tax at the rate of 10% (plus applicable surcharge and cess). A securities transaction tax ("STT") will be levied on and collected by an Indian stock exchange on which our Equity Shares are sold. Any gain realised on the sale of our Equity Shares held for more than 12 months by an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no STT has been paid, will be subject to long-term capital gains tax in India. Further, any gain realised on the sale of our Equity Shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to short-term capital gains tax at a higher rate compared to the transaction where STT has been paid in India. Capital gains arising from the sale of our Equity Shares will be exempt from taxation in India in cases where an exemption is provided under a treaty between India and the country of which the seller is a resident.

As a result, subject to any relief available under an applicable tax treaty or under the laws of their own jurisdictions, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of our Equity Shares.

The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 and clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. The Finance

Act, 2020, has, inter alia, amended the tax regime, including a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, that such dividends not be exempt in the hands of the shareholders, and that such dividends are likely to be subject to tax deduction at source. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares.

76. *Foreign investors are subject to foreign investment restrictions under Indian law, which may adversely affect the market price of the Equity Shares.*

Under the exchange control regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain restrictions) if they comply with the pricing guidelines and reporting requirements specified by the Reserve Bank of India. If the transfer of shares is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then the approval of the Reserve Bank of India will be required for such transaction to be valid.

Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as Department of Industrial Policy and Promotion) and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government of India, as prescribed in the Consolidated FDI Policy and the FEMA Rules. These investment restrictions shall also apply to subscribers of offshore derivative instruments. Neither the Consolidated FDI Policy nor the FEMA Rules provide a definition of the term "beneficial owner". The interpretation of "beneficial owner" and enforcement of this regulatory change may differ in practice, which may have an adverse effect on our ability to raise foreign capital. We cannot assure you that any required approval from the Reserve Bank of India or any other governmental agency can be obtained on any particular terms or at all. For further details, see "*Restrictions on Foreign Ownership of Indian Securities*" beginning on page 416.

77. *QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid, and Retail Individual Investors are not permitted to withdraw their Bids after Bid/Offer Closing Date.*

Pursuant to the SEBI ICDR Regulations, Qualified Institutional Buyers and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Similarly, Retail Individual Investors can revise or withdraw their Bids at any time during the Bid Offer Period and until the Bid Offer Closing Date, but not thereafter. Therefore, Qualified Institutional Buyers and Non-Institutional Investors will not be able to withdraw or lower their Bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations or otherwise at any stage after the submission of their Bids.

78. *Fluctuation in the exchange rate of the Rupee and other currencies could have an adverse effect on the value of our Equity Shares, independent of our operating results.*

Subject to requisite approvals, on listing, our Equity Shares will be quoted in Rupees on the Stock Exchanges. Any dividends, if declared, in respect of our Equity Shares will be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to such investors. In addition, any adverse movement in exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the net proceeds received by shareholders.

The exchange rate of the Rupee has changed substantially in the last two decades and could fluctuate substantially in the future, which may have a material adverse effect on the value of the Equity Shares and returns from the Equity Shares, independent of our operating results.

79. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Offer.*

Subject to requisite approvals, the Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian

laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in this Issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately two Working Days from the Bid / Offer Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three Working Days of the Bid/Offer Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods. For further details, see "*Offer Procedure*" on page 397.

- (1) Our Board has authorised the Offer, pursuant to their resolution dated September 24, 2024. Our Shareholders have authorised the Offer pursuant to a special resolution passed at the EGM held on September 25, 2024. Further, our Board has taken on record the approval for the Offer for Sale by the Promoter Selling Shareholder pursuant to its resolution dated September 29, 2024.
- (2) The Promoter Selling Shareholder has specifically confirmed that the Offered Shares have been acquired by the him pursuant to the NCLT Reverse Merger Order in lieu of business and invested capital that has been in existence for a period of more than one year prior to the approval of the Scheme of Amalgamation and are therefore eligible for being offered for sale in the Offer in accordance with Regulation 8 and other provisions of the SEBI ICDR Regulations. The Promoter Selling Shareholder has confirmed and authorized his participation in the Offer for Sale pursuant to consent letter dated September 29, 2024. For details on the authorization and consent of the Promoter Selling Shareholder in relation to the Offered Shares, see “The Offer” and “Other Regulatory and Statutory Disclosures-Authority for the Offer” on pages 73 and 377, respectively.
- (3) Subject to valid bids being received at or above the Offer Price, under subscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company, in consultation with the Book Running Lead Managers and the Designated Stock Exchange, subject to applicable laws. Under-subscription, if any, in the QIB Portion (excluding the Anchor Investor Portion) will not be allowed to be met with spill-over from other categories or a combination of categories of Bidders. In the event of under-subscription in the Offer, the Equity Shares will be allotted in the following order: (i) such number of Equity Shares will first be Allotted by the Company such that 90% of the Fresh Issue portion is subscribed; (ii) upon achieving (i) above, all the Equity Shares held by the Promoter Selling Shareholder and offered for sale in the Offer for Sale will be Allotted (in proportion to the Offered Shares being offered by such Promoter Selling Shareholder); and (iii) once Equity Shares have been Allotted and transferred as per (i) and (ii) above, such number of Equity Shares will be Allotted by the Company towards the balance 10% of the Fresh Issue. For further

details, see “Terms of the Offer” on page 387

- (4) *Our Company, in consultation with the Book Running Lead Managers, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price, in accordance with the SEBI ICDR Regulations. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors) including Mutual Funds, subject to valid Bids being received at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For further details, see “Offer Procedure” on page 397.*
- (5) *The Equity Shares available for allocation to Non-Institutional Bidders under the Non-Institutional Portion, shall be subject to the following: (i) one-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with an application size of more than ₹0.20 million and up to ₹1.00 million, and (ii) two-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders. The allotment to each Non-Institutional Bidder shall not be less than the minimum application size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares, if any, shall be allotted on a proportionate basis.*

Allocation to Bidders in all categories shall be made in accordance with SEBI ICDR Regulations. The allocation to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis. The allocation to each Non-Institutional Bidder shall not be less than the minimum Non-Institutional application size, subject to availability of Equity Shares in the Non-Institutional Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis in accordance with the conditions specified in this regard in Schedule XIII to the SEBI ICDR Regulations. For further details, see “Offer Structure”, “Terms of the Offer” and “Offer Procedure” on pages 393, 387 and 397, respectively.

GENERAL INFORMATION

Our Company was originally incorporated as ‘*Ratangiri Financial Advisory Private Limited*’, as a private limited company under the provisions of the Companies Act, 1956, pursuant to a certificate of incorporation dated June 4, 2008 issued by the Deputy Registrar of Companies, West Bengal at Kolkata. Pursuant to a special resolution passed by the Shareholders of our Company at the extra-ordinary general meeting held on July 31, 2015, the name of our Company was changed to ‘*Vikran Engineering & Exim Private Limited*’ due to change in the nature of business and a fresh certificate of incorporation pursuant to change of name dated August 7, 2015 was issued by the Registrar of Companies, Kolkata. Subsequently, the Board determined it would be appropriate to change the name of the Company as a part of strategic corporate rebranding, and to align more closely with the core business activities, and hence pursuant to a special resolution passed by the Shareholders of our Company at the extra-ordinary general meeting held on June 17, 2024, the name of our Company was changed to ‘*Vikran Engineering Private Limited*’ and a fresh certificate of incorporation dated July 30, 2024 was issued by the Registrar of Companies, Central Processing Centre. Thereafter, our Company was converted to a public limited company, pursuant to a special resolution passed by the Shareholders of our Company at the extra-ordinary general meeting held on August 12, 2024, the name of our Company was changed to ‘*Vikran Engineering Limited*’ and a fresh certificate of incorporation consequent upon conversion to public limited company dated September 20, 2024, was issued to our Company by the RoC.

Underwriting Agreement

Our Company and the Promoter Selling Shareholder intends to, prior to the filing of the Prospectus with the RoC, enter into an Underwriting Agreement with the Underwriters for the Equity Shares of face value of ₹1 each proposed to be issued and offered in the Offer.

The Underwriting Agreement is dated [●]. Pursuant to the terms of the Underwriting Agreement, the obligations of each of the Underwriters will be several and will be subject to certain conditions specified therein.

The Underwriters have indicated their intention to underwrite the following number of Equity Shares which they shall subscribe to on account of rejection of bids, either by themselves or by procuring subscription, at a price which shall not be less than the Offer Price, pursuant to the Underwriting Agreement:

(The Underwriting Agreement has not been executed as on the date of this Draft Red Herring Prospectus. This portion has been intentionally left blank and will be filled in before, and this portion will be applicable upon the execution of the Underwriting Agreement and filing of the Prospectus with the RoC, as applicable.)

Name, address, telephone number and e-mail address of the Underwriters	Indicative number of Equity Shares of face value of ₹1 each to be underwritten	Amount underwritten (in ₹ million)
[●]	[●]	[●]

The abovementioned underwriting commitments are indicative and will be finalised after determination of the Offer Price and Basis of Allotment and the allocation of Equity Shares, subject to and in accordance with the provisions of the SEBI ICDR Regulations.

In the opinion of the Board of Directors (based on representations made to our Company by the Underwriters), the resources of each of the abovementioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The abovementioned Underwriters are registered with the SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchange(s). The Board of Directors, at its meeting held on [●], has accepted and entered into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in the proportion of their underwriting commitments set forth in the table above.

OBJECTS OF THE OFFER

The Offer comprises the Fresh Issue and the Offer for Sale.

Offer for Sale

The Promoter Selling Shareholder will be entitled to his proceeds of the Offer for Sale. Our Company will not receive any proceeds of the Offer for Sale.

Objects of the Fresh Issue

Our Company proposes to utilise the Net Proceeds towards funding of the following objects:

1. Funding working capital requirements of our Company; and
2. General corporate purposes.

The main objects set out in the Memorandum of Association enable our Company (i) to undertake our existing business activities; and (ii) to undertake the activities proposed to be funded from the Net Proceeds. Further, our Company expects to receive the benefits of listing of the Equity Shares, including to enhance our visibility and our brand image among our existing and potential customers, and to create a public market for our Equity Shares in India.

Total	[●]

⁽¹⁾To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with RoC. The amount utilised for general corporate purposes shall not exceed 25% of the Gross Proceeds.

(collectively, the “**Objects**”)

Proposed Schedule of Implementation and Deployment of Net Proceeds

The following table sets forth the schedule of the expected deployment of Net Proceeds:

<i>(₹ in million)</i>			
Particulars	Amount to be funded from the Net Proceeds	Estimated deployment	
		Fiscal 2025	Fiscal 2026
Funding working capital requirements of our Company	6,255.00	1,665.00	4,590.00
General corporate purposes ⁽¹⁾	[●]	[●]	[●]
Total	[●]	[●]	[●]

⁽¹⁾To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with RoC.

The fund requirements, the deployment of funds and the intended use of the Net Proceeds, as indicated above, are based on our

current business plan and circumstances, management estimates, prevailing market conditions and other commercial and technical factors, which are subject to change from time to time. These fund requirements have not been appraised by any bank, financial institution or any other external agency. Our Company may have to revise its funding requirements and deployment on account of a variety of factors, including but not limited to our financial and market condition, business and strategy, competition, interest or exchange rate fluctuations and other external factors, which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of our management, subject to applicable law. For further details, please see, “*Risk Factors – 35. Objects of the Fresh Issue for which the funds are being raised have not been appraised by any bank or financial institutions. Any variation in the utilization of the Net Proceeds as disclosed in this Draft Red Herring Prospectus shall be subject to certain compliance requirements, including prior Shareholders’ approval.*” on page 57.

In the event of any shortfall of funds for the activities proposed to be financed out of the Net Proceeds, as stated above, our Company may re-allocate the Net Proceeds to the activities where such shortfall has arisen, subject to availability and compliance with applicable laws. Further, in case of a shortfall in the Net Proceeds, our management may explore a range of options including utilising our internal accruals or seeking additional equity and / or debt arrangements from existing and future lenders. If the actual utilisation towards any of the Objects is lower than the proposed deployment such balance will be used for (i) general corporate purposes to the extent that the total amount to be utilised towards general corporate purposes will not exceed 25% of the Gross Proceeds in accordance with the SEBI ICDR Regulations; or (ii) towards any other object where there may be a shortfall, at the discretion of the management of our Company and in compliance with applicable laws.

In the event the Net Proceeds are not completely utilised for the objects stated above by the end of Fiscal 2025, such amounts will be utilised (in part or full) in subsequent periods, as determined by our Company, in accordance with applicable law. Further, if the Net Proceeds are not completely utilised for the objects during the respective periods stated above due to factors such as (i) economic and business conditions; (ii) timely completion of the Offer; (iii) market conditions outside the control of our Company; and (iv) any other commercial considerations, the remaining Net Proceeds shall be utilised (in part or full) in subsequent periods as may be determined by our Company, in accordance with applicable laws.

Means of finance

The fund requirements for the Objects are proposed to be met from the Net Proceeds and our internal accruals and borrowings. Accordingly, we confirm that there is no requirement to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Fresh Issue as required under Regulation 7(1)(e) the SEBI ICDR Regulations.

Details of the utilisation of the Net Proceeds

1. Funding incremental working capital requirements of our Company

Our business requires significant amount of working capital and to fund our working capital requirements in the ordinary course of business from internal accruals, financing from banks and financial institutions and unsecured loans. Each project typically uses both fund-based and non-fund-based banking facilities to meet its working capital requirements. Fund-based facilities provide the necessary cash flow to cover operating expenses, while non-fund-based facilities such as bank guarantees, Letter of Credit etc. are offered as security under bid terms and are crucial for securing contracts and ensuring financial credibility. In most of the projects, the Company has to give bank guarantees to customers as part of contractual terms. For securing bank guarantees, the Company needs to provide cash margin. These guarantees are given in favour of customers as part of the project's financial assurance. The requirement to set aside incremental cash margins for additional contracts contributes to the overall need for higher working capital.

Our Company is primarily into power infrastructure and water infrastructure with focus on large size projects. This requires increasing amounts of working capital availability, *inter alia*, in the form of guarantee/margins for the proposed projects. The proposed utilisation of IPO proceeds for our projects shall enable our Company to further grow our business and optimise shareholders’ returns.

Set forth below are the current assets and working capital requirement of our Company as on Fiscals 2024, 2023 and 2022 as per the Restated Financial Information and as certified by M/s Pramodkumar Dad & Associates, Chartered Accountants by way of their certificate dated September 29, 2024. For details of the working capital facilities availed by us, see “*Financial Indebtedness*” on page 339.

Key Assumptions and Justification for Holding levels

Sr. No.	Particulars	Assumptions
1.	Inventories	The Company had Inventory of 32 days, 34 days and 29 days calculated based on Cost of Goods Sold for the Fiscal 2022, 2023 and 2024 respectively. The Company is expecting to hold the inventory at similar levels for Fiscal 2025 and 2026 respectively.
2.	Trade Receivables	The Company had Trade Receivables of 202 days, 221 days and 168 days of sales at the end of Fiscal 2022, 2023, 2024 respectively. The Company has estimated Trade Receivable of 166 days and 161 days of sales at the end of Fiscal 2025 and 2026 respectively. The company expects a marginal decrease in Fiscal 2025 and further in Fiscal 2026 mainly due to increase in revenue, which will help reduction of retention balance as percentage of total receivables.
3.	Other financials and current assets	Other financials and current assets comprise of advance and contract assets and fixed deposits kept as margin money for bank guarantee and letter of credit. The Company had financial and current assets of 41 days, 92 days and 142 days at the end of Fiscal 2022, 2023 and 2024 respectively. The Company has estimated other financial and current assets of 137 days and 112 days of financial and current assets at the end of Fiscal 2025 and 2026 respectively. The main reason for marginal decrease in fiscal 2025 and further decreases in fiscal 2026 is due to relatively lower increase in collateral provided to Banks as FDs and work under certification as compared to expected increase in revenue.

4.	Trade Payables	The Company had Trade Payables of 135 days, 217 days and 166 days of Cost of Goods sold at the end of Fiscal 2022, 2023, 2024 respectively. The Company have assumed Trade Payables of 127 days and 109 days based on Cost of Good sold at the end of Fiscal 2025 and 2026. The payable days are reducing as the higher demand of raw material will lead to shorter payable days.
5.	Other financial and current liabilities	The Other current liability mainly includes contract liability, which is (mainly represent the billing in excess of the revenue) provisions, income tax and other statutory liabilities. The Company had financial and current Liabilities of 46 days, 75 days and 88 days at the end of Fiscal 2022, 2023 and 2024 respectively. The increase in current liability is due to increased contract liabilities. The Company have assumed financial and current assets of 79 days and 64 days in fiscal 2025 and fiscal 2026 respectively mainly on account of relatively lower increase in contract liability as compared to expected increase in revenue.

Interim Use of Funds

Pending utilization of the Net Proceeds for the purposes described above, we undertake to temporarily deposit the funds from the Net Proceeds only with scheduled commercial banks included in the second schedule of the Reserve Bank of India Act, 1934, as amended, as may be approved by our Board. In accordance with Section 27 of the Companies Act 2013, our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in shares of any other listed company or for any investment in the equity markets.

Bridge Loan

Our Company has not raised any bridge loans from any bank or financial institution as of the date of this Draft Red Herring Prospectus, which are required to be repaid from the Net Proceeds. However, depending upon business requirements, our Company may consider raising bridge financing facilities including by way of any other short-term instrument, which may be repaid from the Net Proceeds.

Monitoring of Utilization of Funds

In terms of Regulation 41 of the SEBI ICDR Regulations, prior to filing the Red Herring Prospectus with RoC, our Company will appoint a Monitoring Agency to monitor the utilization of the Gross Proceeds as the proposed Fresh Issue exceeds ₹ 1,000.00 million. The Monitoring Agency will monitor the utilisation of the Gross Proceeds and the Monitoring Agency shall submit the report required under Regulation 41(2) of the SEBI ICDR Regulations, on a quarterly basis, until such time as the Gross Proceeds have been utilised in full and Company shall provide details / information / certifications obtained from statutory auditors on the utilization of the Net Proceeds to the Monitoring Agency. Our Company undertakes to place the report(s) of the Monitoring Agency on receipt before the Audit Committee without any delay.

Our Company will disclose and continue to disclose, the utilisation of the Gross Proceeds, including interim use under a separate head in our balance sheet for such Fiscals as required under applicable law, clearly specifying the purposes for which the Gross Proceeds have been utilised, till the time any part of the Gross Proceeds remains unutilised. Our Company will also, in its balance sheet for the applicable Fiscals, provide details, if any, in relation to all such Gross Proceeds that have not been utilised, if any, of such currently unutilised Gross Proceeds. Further, our Company, on a quarterly basis, shall include the deployment of Gross Proceeds under various heads, as applicable, in the notes to our quarterly financial results. Our Company will indicate investments, if any, of unutilised Gross Proceeds in the balance sheet of our Company for the relevant Fiscals subsequent to receipt of listing and trading approvals from the Stock Exchanges.

In accordance with Regulation 32(1) of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the actual utilisation of the proceeds of the Gross Proceeds from the Objects as stated above; and (ii) details of category wise variations in the actual utilisation of the Gross Proceeds from the Objects as stated above. Pursuant to Regulation 32(3) and Part C of Schedule II, of the SEBI Listing Regulations, our Company shall, on a quarterly basis, disclose to the Audit Committee the uses and applications of the Gross Proceeds. The Audit Committee shall make recommendations to our Board for further action, if appropriate. On an annual basis, our Company shall prepare a statement of funds utilised for purposes other than those stated in the Red Herring Prospectus and the Prospectus and place it before the Audit Committee and make other disclosures as may be required until such time as the Gross Proceeds remain unutilised. Such disclosure shall be made only until such time that all the Gross Proceeds have been utilised in full. The statement shall be certified by the Statutory Auditors of our Company in accordance with Regulation 32(5) of SEBI Listing Regulations.

Variation in Objects of the Offer

In accordance with Sections 13(8) and 27 of the Companies Act and the SEBI ICDR Regulations, our Company shall not vary the objects of the Fresh Issue unless our Company is authorized to do so by way of a special resolution of its Shareholders. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (“Notice”) shall specify the prescribed details and be published in accordance with the Companies Act. The Notice shall simultaneously be published in the newspapers, one in English and one in Hindi, the vernacular language of the jurisdiction where our Registered and Corporate Office is situated. Our Promoters and controlling Shareholders, as of the time of such proposed variation, will be required to provide an exit opportunity to the Shareholders who do not agree to the above stated proposal, at a price and in such manner and subject to such conditions as prescribed by SEBI, in this regard.

Appraising Entity

None of the Objects for which the Net Proceeds will be utilized have been appraised by any bank/financial institution.

Other Confirmations

Except to the extent of any proceeds received pursuant to the sale of Offered Shares proposed to be sold in the Offer by the Promoter Selling Shareholder, no part of the Offer Proceeds will be paid to our Promoters, members of the Promoter Group, Group Company, Directors, our Key Managerial Personnel or Senior Management. Our Company has neither entered into nor has planned to enter into any arrangement/ agreements with our Promoters, members of the Promoter Group, Directors, our Key Managerial Personnel, our Senior Management or our Group Company in relation to the utilization of the Offer Proceeds. Further, except in the ordinary course of business, there is no existing or anticipated interest of such individuals and entities in the Objects of the Fresh Issue as set out above.

BASIS FOR OFFER PRICE

The Price Band and the Offer Price will be determined by our Company, in consultation with the Book Running Lead Managers, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹ 1 each and the Offer Price is [●] times the Floor Price and [●] times the Cap Price, and Floor Price is [●] times the face value and the Cap Price is [●] times the face value. Investors should also see “*Risk Factors*”, “*Summary of Financial Information*”, “*Our Business*”, “*Restated Financial Information*”, and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 33, 75, 194, 272, and 342, respectively, to have an informed view before making an investment decision.

Qualitative Factors

Some of the qualitative factors and our strengths which form the basis for computing the Offer Price are as follows:

- One of the fast-growing engineering, procurement and construction (“EPC”) companies, with timely execution of power transmission and distribution and water infrastructure sector.
- Diversified Order Book across business verticals and consistent financial performance
- Pan India presence with strong supply chain
- Asset light model
- In-house technical and engineering capabilities, process control and quality assurance
- Experienced promoters and management team, having domain knowledge

For further details, see “*Risk Factors*” and “*Our Business*” on pages 33 and 194, respectively.

Quantitative Factors

Some of the information presented below relating to our Company is derived from the Restated Financial Information. For details, see “*Restated Financial Information*” beginning on page 272.

Some of the quantitative factors which may form the basis for computing the Offer Price are as follows:

A. Basic and Diluted Earnings Per Equity Share (“EPS”) (face value of each Equity Share is ₹ 1):

Fiscal/Period Ended	Basic & Diluted EPS (in ₹)	Weight
March 31, 2024	4.92	3
March 31, 2023	2.89	2
March 31, 2022	0.45	1
Weighted Average	3.50	

Note: Basic and diluted earnings per Equity Share are computed in accordance with Indian Accounting Standard 33

B. Price/Earning (“P/E”) ratio in relation to Price Band of ₹ [●] to ₹ [●] per Equity Share:

Particulars	P/E at the Floor Price* (number of times)	P/E at the Cap Price* (number of times)
Based on basic EPS for year ended March 31, 2024	[●]	[●]
Based on diluted EPS for year ended March 31, 2024	[●]	[●]

**To be computed after finalization of Price Band*

Notes:

1) $P/E \text{ ratio} = \text{Price per equity share} / \text{Earnings per equity share.}$

C. Industry Peer Group P/E ratio

Particulars	Industry Peer P/E	Name of the Company
Highest	75.61	KEC International Limited
Lowest	42.11	Kalpataru Projects International Ltd
Average	60.66	

The industry high and low has been considered from the industry peer set provided later in this chapter. We believe that Bajel Projects Ltd. is outlier in P/E ratio and may not be a true representation of P/E ratio based valuation, therefore excluded from calculation of industry peer group P/E ratio.

The industry P/E ratio mentioned above is computed based on the closing market price of equity shares on stock exchanges on September 26, 2024 divided by the Diluted EPS as on for the financial year ended March 31, 2024.

D. Return on Net worth (“RoNW”)

Fiscal/Period Ended	RoNW (%)	Weight
March 31, 2024	25.69	3
March 31, 2023	32.67	2
March 31, 2022	7.39	1
Weighted Average	24.97	

Notes:

- Weighted average = Aggregate of year-wise weighted RoNW divided by the aggregate of weights i.e. (RoNW x Weight) for each year/Total of weights.
- Return on Net Worth (%) = Net profit after tax divided by Net worth at the end of the year/period.
- Net worth has been defined under Regulation 2(1)(hh) of the SEBI ICDR Regulations as the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.

E. Net Asset Value (“NAV”) per Equity Share

Particulars	Amount (₹)
As on March 31, 2024	17.20
As on March 31, 2023	8.85
As on March 31, 2022	6.02
After the completion of the Offer	
- At the Floor Price	[●]*
- At the Cap Price	[●]*
Offer Price	[●]

*To be computed after finalization of price band

Notes:

- Net Asset Value per Equity Share = Net worth divided by number of equity shares outstanding as at the end of year/period.
- Net worth has been defined under Regulation 2(1)(hh) of the SEBI ICDR Regulations as the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.

I. Description on the historic use of the KPIs by our Company to analyze, track or monitor the performance of our Company

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs are not intended to be considered in isolation or as a substitute for the Restated Financial Information. We use these KPIs to evaluate our financial and operating performance. Some of these KPIs are not defined under Ind AS and are not presented in accordance with Ind AS. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial measures prepared in accordance with Ind AS.

Investors are encouraged to review the Ind AS financial measures and not to rely on any single financial or operational metric to evaluate our business. See “*Risk Factors –56. We have presented certain supplemental information of our performance and liquidity which is not prepared under or required under Ind AS.*” on page 64.

STATEMENT OF SPECIAL TAX BENEFITS

[Rest of the page intentionally left blank]

The Board of Directors
Vikran Engineering Limited
(formerly, Vikran Engineering Private Limited)
401, Odyssey IT Park,
Road No. 9, Wagle Industrial Estate,
Thane – 400 604,
Maharashtra – India

Subject: Statement of special tax benefits (“the Statement”) available to Vikran Engineering Limited (formerly, Vikran Engineering Private Limited) (“the Company”) and its shareholders prepared in accordance with the requirement under Schedule VI –Part A -Clause (9) (L) of Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (“the SEBI ICDR Regulations”)

This report is issued in accordance with the Engagement Letter dated 08 August 2024 along with addendum dated 17 September 2024 thereto.

We hereby report that the enclosed **Annexure II and III** prepared by the Company, initialled by us for identification purpose, states the special tax benefits available to the Company and its shareholders, under direct and indirect taxes (together “**the Tax Laws**”), presently in force in India as on the 24 September 2024, which are defined in **Annexure I**. These special tax benefits are dependent on the Company and its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws. Hence, the ability of the Company and its shareholders to derive these special tax benefits is dependent upon their fulfilling such conditions, which is based on business imperatives the Company may face in the future and accordingly, the Company and its shareholders may or may not choose to fulfil.

The benefits discussed in the enclosed **Annexures II and III** cover the special tax benefits available to the Company and its shareholders and do not cover any general tax benefits available to the Company and its shareholders. Further, the preparation of the enclosed **Annexure II and III** and its contents is the responsibility of the Management of the Company and has been approved by the Board of Directors of the Company at its meeting held on 24 September 2024. We were informed that the Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. Further, the benefits discussed in the Annexures II and III are not exhaustive. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of equity shares of the Company (the “Proposed Offer”) particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the special tax benefits, which an investor can avail. Neither we are suggesting nor advising the investors to invest money based on the Statement.

We conducted our examination in accordance with the “Guidance Note on Reports or Certificates for Special Purposes (Revised 2016)” (the “Guidance Note”) issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.

We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that perform Audits and Reviews of Historical Financial information, and Other Assurance and Related Services Engagements.

We do not express any opinion or provide any assurance as to whether:

- 1 the Company and its shareholders will continue to obtain these special tax benefits in future; or
- 2 the conditions prescribed for availing the special tax benefits where applicable, have been/would be met with.

The contents of the enclosed Annexures are based on the information, explanation and representations obtained from the Company, and on the basis of our understanding of the business activities and operations of the Company.

Our views expressed herein are based on the facts and assumptions indicated to us. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. Our views are based on the existing provisions of the Tax Laws and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to the Company for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to the Company and any other person in respect of this Statement, except as per applicable law.

This report is addressed to and is provided to enable the Board of Directors of the Company to include this report in the Draft Red Herring Prospectus, prepared in connection with the proposed Offering to be filed by the Company with the Securities and Exchange Board of India and the concerned stock exchanges. It is not to be used, referred to or distributed for any other purpose without our prior written consent.

STATEMENT OF SPECIAL TAX BENEFITS AVAILABLE TO VIKRAN ENGINEERING LIMITED (FORMERLY, VIKRAN ENGINEERING PRIVATE LIMITED) AND ITS SHAREHOLDERS UNDER THE APPLICABLE DIRECT TAX LAWS IN INDIA.

Direct Taxation

Special tax Benefits available to Vikran Engineering Limited (“the Company”) [previously known Vikran Engineering Private Limited] and the Shareholders of the Company under the Income-tax Act, 1961 (“the Act”) (read with Income Tax Rules, circulars, notifications) as per Finance (No.2) Act, 2024 (hereinafter referred to as “Indian Income Tax Regulations”):

1. Special Tax Benefits available to the Company

- a) The Taxation Laws (Amendment) Act, 2019 introduced section 115BAA wherein domestic companies are entitled to avail a concessional tax rate of 22% (plus applicable surcharge and education cess) on fulfillment of certain conditions. The option to apply this tax rate is available from Financial Year (‘FY’) 2019-20 relevant to Assessment Year (‘AY’) 2020-21 and the option once exercised through filing of Form 10-IC on the Income tax portal shall apply to subsequent assessment years. The applicability of the concessional tax rate of 22% is not determined on the basis of the turnover of the Company and is applicable once the Company opts for Section 115BAA. Further, the concessional tax rate of 22% is subject to the company not availing any of the following deductions under the provisions of the Act:
- (i) Deduction under Section 10AA of the Act (deduction for units in Special Economic Zone);
 - (ii) Deduction under clause (iia) of sub-section (1) of Section 32 of the Act (Additional depreciation);
 - (iii) Deduction under Section 32AD, Section 33AB, or Section 33ABA of the Act (Investment allowance in backward areas, Investment deposit account, site restoration fund);
 - (iv) Deduction under sub-clause (ii) or sub-clause (iia) or sub-clause (iii) of sub-section (1) or sub-section (2AA) or sub-section (2AB) of Section 35 of the Act (Expenditure on scientific research);
 - (v) Deduction under Section 35AD or Section 35CCC of the Act (Deduction for specified business, agricultural extension project);
 - (vi) Deduction under Section 35CCD of the Act (Expenditure on skill development);
 - (vii) Deduction under any provisions of Chapter VI-A other than of Section 80JJAA or Section 80M of the Act;
 - (viii) Deduction under Section 80LA of the Act other than deduction applicable to a unit in the International Financial Services Centre, as referred to in sub-section (1A) of Section 80LA of the Act;
 - (ix) No set off of any loss brought forward or unabsorbed depreciation from any earlier assessment year(s), if such loss or depreciation is attributable to any of the deductions referred from clause (i) to (viii) above; and
 - (x) No set off of any loss or allowance for unabsorbed depreciation deemed so under Section 72A of the Act, if such loss or depreciation is attributable to any of the deductions referred from clause (i) to (viii) above.

Additionally, the provisions of Section 115JB of the Act i.e., Minimum Alternate Tax (“MAT”) shall not apply to the Company once the option under Section 115BAA of the Act, as specified under sub-section (5A) of Section 115JB of the Act. Additionally, the Company will not be allowed to carry forward and set off any credit under section 115JAA of the Act, if any, commonly referred to as MAT credit. The Company is also required to submit the prescribed Form 10-IC with the Income-tax authorities within the specified due date for filing Income-tax return.

The Company has opted for the lower corporate tax rate under Section 115BAA of the Act in AY 2020-21 and has filed form 10-IC on 14 February 2021 which is a pre-requisite for availing the concessional tax rates under Section 115BAA of the Act.

- b) Under Section 80JJAA of the Act, the Company is entitled to a deduction of an amount equal to thirty percent in respect of additional employee cost (relating to specified category of employees) incurred during the previous year. Such deduction is available for a period of three assessment years effective from the year in which such employment is provided. The eligibility to claim the deduction is subject to fulfilment of prescribed conditions specified in sub-section (2) of Section 80JJAA of the Act. In addition, the Company is required to submit the prescribed form with the Income-tax authorities within the specified due date.

The Company has been claiming the deduction under Section 80JJAA of the Act and has filed Form 10DA which is a pre-requisite for claiming the deduction under Section 80JJAA of the Act.

- c) As per the provisions of Section 35D of the Act, the Company may be entitled to amortize preliminary expenditure, being specific expenditure incurred in connection with the issue for public subscription or being other expenditure as prescribed under this Section. This is subject to the specified limit under the Act i.e., maximum 5% of the cost of the project or 5% of the capital employed in the business of the company.

The deduction is allowable for an amount equal to one-fifth of such expenditure for each of five successive previous years beginning with the previous year in which the business commences or as the case may be, the previous year in which the extension of the undertaking is completed, or the new unit commences production or operation.

- d) As per the provisions of section 70 of the Act, if the Company has incurred loss under the head capital gains in relation to a short-term capital asset, it can be set-off either against Short-Term Capital Gain (“STCG”) or Long-Term Capital Gain (“LTCG”) for that assessment year. If the loss has been incurred in relation to a long-term capital asset, it can be set-off only against LTCG for that assessment year.

However, if the losses are not wholly set-off, the same shall be carried forward to set-off against the income in the following eight assessment years as per section 74 of the Act. If the loss carried forward relates to short-term capital asset, it shall be set-off either against LTCG or STCG. However, if the loss carried forward relates to long-term capital asset, it shall be set-off only against LTCG.

At the time of filing Income tax return for AY 2023-24, the Company has carried forward losses under the head capital gains to subsequent assessment years.

- e) As per Section 112A of the Act, LTCG exceeding INR 1,00,000, on transfer of unit of equity oriented fund before 23 July 2024, shall be taxed at the rate of 10% (plus applicable surcharge and education cess) without indexation benefits and on transfer post 23 July 2024, LTCG exceeding INR 1,25,000 shall be taxed at the rate of 12.5% (plus applicable surcharge and education cess) without indexation benefits. This is subject to fulfilment of prescribed additional conditions as per Notification No. 60/2018/F. No.370142/9/2017-TPL dated 01 October 2018.
- f) As per Section 111A of the Act, STCG arising from the transfer of unit of an equity-oriented fund before 23 July 2024, shall be taxed at the rate of 15% of such capital gains (plus applicable surcharge and education cess) and for

transfer after 23 July 2024, shall be taxed at the rate of 20% of such capital gains (plus applicable surcharge and education cess).

- g) As per Section 112 of the Act, LTCG arising from the transfer of unit of debt-oriented fund acquired before 1 April 2023, shall be taxed at the rate of 20% of such capital gains (plus applicable surcharge and education cess) with indexation benefits. Further, STCG arising from the transfer of units of debt-oriented fund acquired before 1 April 2023, shall be taxed at the normal tax rates of the Company.
- h) As per Section 50AA of the Act, the capital gains arising from transfer of unit of debt-oriented fund acquired on or after 01 April 2023 shall always be deemed to be STCG and shall be taxed at the normal tax rates of the Company.

2. **Special Tax Benefits available to the Shareholders of the Company**

Following are the special tax benefits available to shareholders of the Company.

- Dividend income earned by the shareholders would be taxable in their hands at the applicable rates. However, in the case of a domestic corporate shareholder, benefit of deduction under Section 80M of the Act would be available. As per Section 80M of the Act, dividend received by the Company from any other domestic company, or a foreign company shall be eligible for deduction while computing its total income for the relevant year. The amount of such deduction would be restricted to the amount of dividend distributed by the Company up to one month prior to the date of filing of its Income-tax return for the relevant year.
- In case of the shareholders who are individuals, Hindu Undivided Family, Association of Persons, Body of Individuals, whether incorporated or not and every artificial juridical person, the surcharge would be restricted to 15%, irrespective of the amount of dividend.
- Further, the shareholders would be entitled to take credit of the Tax Deducted at Source, if any, by the Company against the taxes payable by them.
- As per Section 112A of the Act, LTCG arising from the transfer of an equity share on which Securities Transaction Tax is paid at the time of acquisition and sale, shall be taxed at the rate of 12.5% % (without indexation) of such capital gains. This is subject to fulfilment of prescribed additional conditions as per Notification No. 60/2018/F. No.370142/9/2017-TPL dated 01 October 2018. It is worthwhile to note that tax shall be levied where such aggregate capital gains exceed INR 1,25,000/- in a year.
- Further, the Finance Act 2023 restricts surcharge to 15% in respect of long-term capital gain arising from any capital asset.

- As per Section 90(2) of the Act, non-resident shareholders will be entitled to be governed by the beneficial provisions under the respective Double Taxation Avoidance Agreement ("DTAA"), if any, applicable to such non-residents. This is subject to fulfilment of conditions prescribed to avail treaty benefits.
- Further, any income by way of capital gains accruing to non-residents may be subject to withholding tax per the provisions of the Act or under the relevant DTAA, whichever is beneficial. However, where such non-resident has obtained a lower withholding tax certificate from the tax authorities, the withholding tax rate would be as per the said certificate. The non-resident shareholders may be able to avail credit for any taxes paid by them in India, subject to local laws of the country in which such shareholder is resident.
- **Section 115BAC of the Act:**

Section 115BAC of the Act provides for the concessional tax regime to the Person being an Individual or Hindu Undivided Family or Association of Persons (other than a co-operative society), or Body of Individuals, whether incorporated or not, or an artificial juridical person. As per the said Section, income tax shall be computed as per rates mentioned in below table:

Sr. No	Total income	Rate of tax
1	Up to INR 3,00,000/-	Nil
2	INR 3,00,001/- to INR 7,00,000/-	5%
3	INR 7,00,001/- to INR 10,00,000/-	10%
4	INR 10,00,001/- to INR 12,00,000/-	15%
5	INR 12,00,001/- to INR 15,00,000/-	20%
6	Above INR 15,00,000/-	30%

The concessional tax regime is default tax regime for the abovementioned persons. However, the option to opt out of concessional tax regime and opt for old tax regime is available to the above class of taxpayers. The person willing to opt out shall exercise such option-

- by filing form no. 10 - IEA on or before the due date specified under sub-section (1) of Section 139 of the Act for furnishing the return of income for the relevant assessment year in case of a person having income from business or profession, and such option once exercised shall apply to subsequent assessment years; However, option of old tax regime exercised can be withdrawn only once during a previous year other than the year in which it was exercised. Once withdrawn, the person shall never be eligible to exercise the option of old tax regime except where such person ceases to have any income from business or profession or;

- (ii). along with the return of income to be furnished under sub-section (1) of Section 139 of the Act for the relevant assessment year, in case of a person not having income from business or profession.

Under the concessional tax regime, the Person shall not be allowed to claim any of the following deductions/exemptions:

- (i). exemption or deduction under the provisions of clause (5) or clause (13A) or prescribed under clause (14) (other than those as may be prescribed for this purpose) or clause (17) or clause (32), of Section 10 of the Act;
- (ii). deduction under Section 10AA of the Act (deduction for units in Special Economic Zone);
- (iii). deduction under clause (ii) or clause (iii) of Section 16 of the Act;
- (iv). deduction under clause (b) of Section 24 [in respect of the property referred to in sub-section (2) of Section 23 of the Act]
- (v). deduction under clause (iia) of sub-section (1) of Section 32 of the Act (Additional depreciation);
- (vi). deduction under Section 32AD, Section 33AB, or Section 33ABA of the Act (Investment allowance in backward areas, Investment deposit account, site restoration fund);
- (vii). deduction under sub-clause (ii) or sub-clause (iia) or sub-clause (iii) of sub-section (1) or sub-section (2AA) of Section 35 of the Act (Expenditure on scientific research);
- (viii). deduction under Section 35AD or Section 35CCC of the Act (Deduction for specified business, agricultural extension project);
- (ix). deduction under any provisions of Chapter VI-A other than the provisions of sub-section (2) of Section 80CCD or sub-section (2) of Section 80CCH or section 80JJAA of the Act;
- (x). no set off, of any loss brought forward or unabsorbed depreciation from any earlier assessment year(s), if such loss or depreciation is attributable to any of the deductions referred from clause (i) to (ix) above and;
- (xi). Offset off any loss under the head "Income from house property" with any other head of income.

In the case of salaried individuals who are opting to compute their income under the above-mentioned concessional tax regime under Section 115BAC, the limit of standard deduction u/s 16(ia) has been proposed to be increased from 50,000 to 75,000 in the Finance (No.2) Bill, 2024.

Notes:

1. These special tax benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which based on the business imperatives, the Company or its shareholders may or may not choose to fulfil.
2. The special tax benefits discussed in the Statement are not exhaustive and is only intended to provide general information to the investors and hence, is neither designed nor intended to be a substitute for professional tax advice. Given the

individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her tax consultant for the specific tax implications arising out of their participation in the issue.

3. The Statement has been prepared on the basis that the shares of the Company are proposed to be listed on a recognized stock exchange in India and the Company will be issuing equity shares.
4. The Statement is prepared based on information available with the Management of the Company and there is no assurance that:
 - i. the Company or its shareholders will continue to obtain these benefits in future;
 - ii. the conditions prescribed for availing the benefits have been/ would be met with; and
 - iii. the revenue authorities/courts will concur with the view expressed herein.
5. This Annexure covers only certain relevant direct tax law benefits and does not cover any indirect tax law benefits or benefit under any other law.
6. In respect of non-resident Shareholders, the tax rates and consequent taxation will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreements(s), if any, between India and the Country in which the non-resident has fiscal domicile.
7. No assurance is provided that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes.

Global macroeconomic assessment

Global GDP outlook

- **Global GDP is estimated to grow at 3.2% and 3.3% in CY2024 and CY2025 respectively amid moderating inflation and steady growth in key economies**

As per the International Monetary Fund’s (IMF) July 2024 update, global gross domestic product (GDP) growth is estimated at 3.3% for 2023 and projected to grow at 3.2% and 3.3% during 2024 and 2025 respectively. The latest estimate for 2024 remains same as the IMF’s previous forecast in April 2024. However, there is slight shift the dynamics with growth in advanced economies is expected to converge in coming quarters which is set off by the growth in emerging market and developing economies which is revised upward; and is supported by economic activity in Asia, particularly China and India.

With disinflation and steady growth, the likelihood of a hard landing has receded, and risks to global growth are broadly balanced. Amid favourable global supply developments, inflation has been falling faster than expected. On the upside, faster disinflation could lead to further easing of financial conditions. On the downside, new commodity price spikes from geopolitical shocks and supply disruptions or more persistent underlying inflation could prolong tight monetary conditions.

- **Emerging economies to drive global per capita growth**

The global per capita expected to grow at a CAGR of 3.9% between CY2023 and CY2029 higher than CAGR of 2.5% between CY2010 and CY2023 in turn leading to overall GDP growth. Going ahead, the global per capita growth, is major driven by emerging markets and developing economies which are expected to see per capita growth of 4.9% during the aforementioned period. Among emerging markets and developing economies, major economies such as China, India, Brazil and Russia are

expected to grow at a CAGR of 6.0%, 9.4%, 5.3% and 2.3% respectively.

• India among the world's fastest-growing key economies

Following the recovery from the COVID-19 pandemic, India exhibited a growth rate of 7.2% in FY23, surpassing both advanced economies at 2.6% and emerging and developing economies at 4.1%.

United States: In the United States, growth is projected to rise from 2.5% in CY2023 to 2.6% in CY2024 and 1.9% in CY2025, with the lagged effects of monetary policy tightening, gradual fiscal tightening, and a softening in labour markets slowing the aggregate demand.

United Kingdom: Growth in the United Kingdom is projected to rise modestly from an estimated 0.1% in CY2023 to 0.7% in CY2024, due to lagged negative effects of high energy prices wane. Then in CY2025, as disinflation allows an easing in financial conditions and permits real incomes to recover, the economy is expected to see a growth of 1.5%.

Euro zone: Growth in the euro area is projected to recover from 0.5% in 2023, which reflected relatively high exposure to the global conflicts, to 0.9% in CY2024 and 1.5% in CY2025. As per IMF estimates, the growth in is driven by strong household consumption as the energy prices subside and inflation falls, supporting the real income growth.

In terms of **emerging and developing economies**, growth is projected to be relatively stable at 4.3% in CY2024 and CY2025, respectively.

- **Qualitative overview of key drivers impacting global economy**
- **Investments in emerging and developed economies to lead the overall FDI growth**

In 2023, global foreign direct investment (FDI) flows reached an estimated \$1.37 trillion, a 3% increase from 2022, despite initial recession fears and economic uncertainty. While developed economies faced challenges, investments in emerging and developing economies continued to grow, contributing to the overall global GDP growth.

In particular, ASEAN, China, India, and other emerging economies saw an increase in greenfield project announcements, indicating a promising future for FDI in these regions. Although some countries, such as China and India, experienced a decline in FDI inflows, they remained attractive destinations for investment, with stable numbers of new project announcements. Moreover, the ongoing diversification of supply chains due to geopolitical conflicts and a concentrated base in certain countries has led companies to explore alternative investment opportunities in emerging economies. As a result, these economies are now receiving increased investments, with FDI as a percentage of GDP standing at approximately 32% for emerging and developing economies, compared to 27% for the world overall.

Overall, the growth in FDI in emerging and developing economies is a positive trend that is expected to continue, contributing to the global economy's overall growth and development.

- ### Lack of electricity access in key economies to drive investments in power distribution and transmission

As per International Energy Agency (IEA), world energy outlook 2023, there are around 600 million people without access to electricity in Africa and they constitute around 80% of the global population without access, displaying the critical need for electrical infrastructure in Africa. This lack of access to electricity across the African region has influenced public and private investments in the deployment of new transmission and distribution networks across the region.

Further, in Latin America and the Caribbean the power sector investment is also expected to increase to meet rising electricity demand and to modernise and expand grid infrastructure.

Macroeconomic overview of India

- ### Review of India's real GDP growth
- ### India's Real GDP registered a CAGR of 5.9% between fiscal 2012 and fiscal 2024

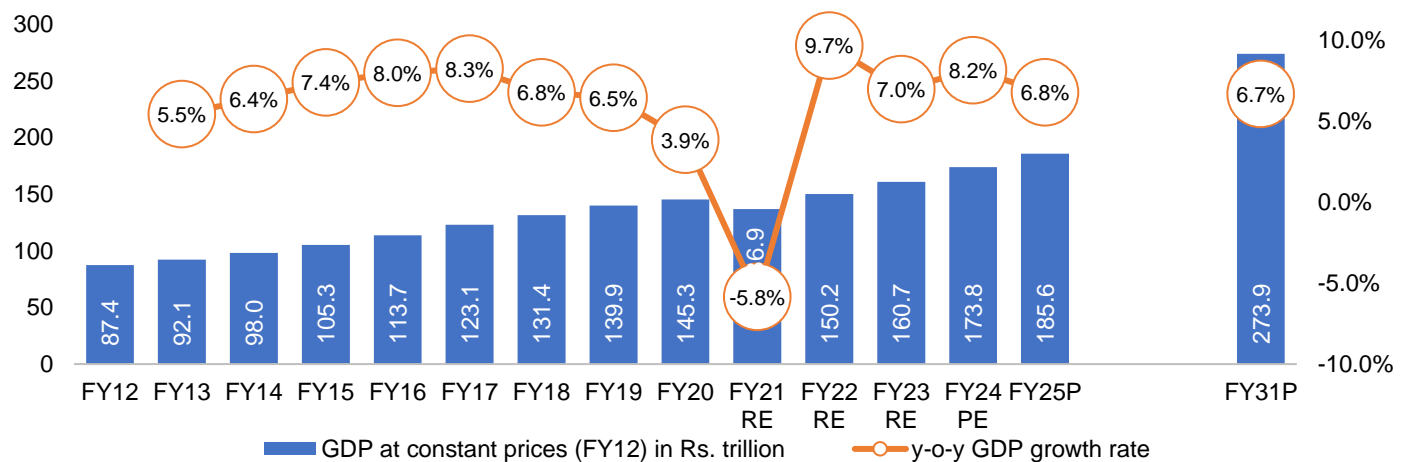

The country's gross domestic product (GDP) at constant prices increased at a compound annual growth rate (CAGR) of 5.9% to Rs 173.8 trillion in fiscal 2024 from Rs 87.4 trillion in fiscal 2012.

In fiscal 2022, the economy recovered from the pandemic-related stress as restrictions were eased and economic activity resumed, though inflation spiralled in the last quarter due to geopolitical pressures, with a real GDP growth of 9.7% vs -5.8% in fiscal 2021. In fiscal 2023, real GDP rose 7.0% on strong growth momentum propelled by investments and private consumption. The share of private consumption in GDP rose to a 11-year high of 58.0%. During the same period the investments occupied a share of 33.3% in GDP.

In fiscal 2024, real GDP has seen a growth of 8.2%. Even as the agricultural economy slowed sharply in fiscal 2024 following a weak monsoon, the surge in non-agricultural economy has more than offset it. The government-driven investment push, along with easing input cost pressures for industry, has also played a major role in shoring up growth. However, services have been slowing with waning pent-up demand (post pandemic), with the exception of financial, real estate and professional services, which has powered ahead on the back of robust growth in banking and real estate.

In fiscal 2025, CRISIL MI&A expects the country's real GDP to expand 6.8% on a Y-o-Y basis, driven by continued disinflation supporting the purchasing power of consumers, growth in agricultural sector coupled with gradual pick-up in the private sector capital expenditure..

- **Between fiscal 2025 and fiscal 2031, India’s GDP growth is expected to average at 6.7%**

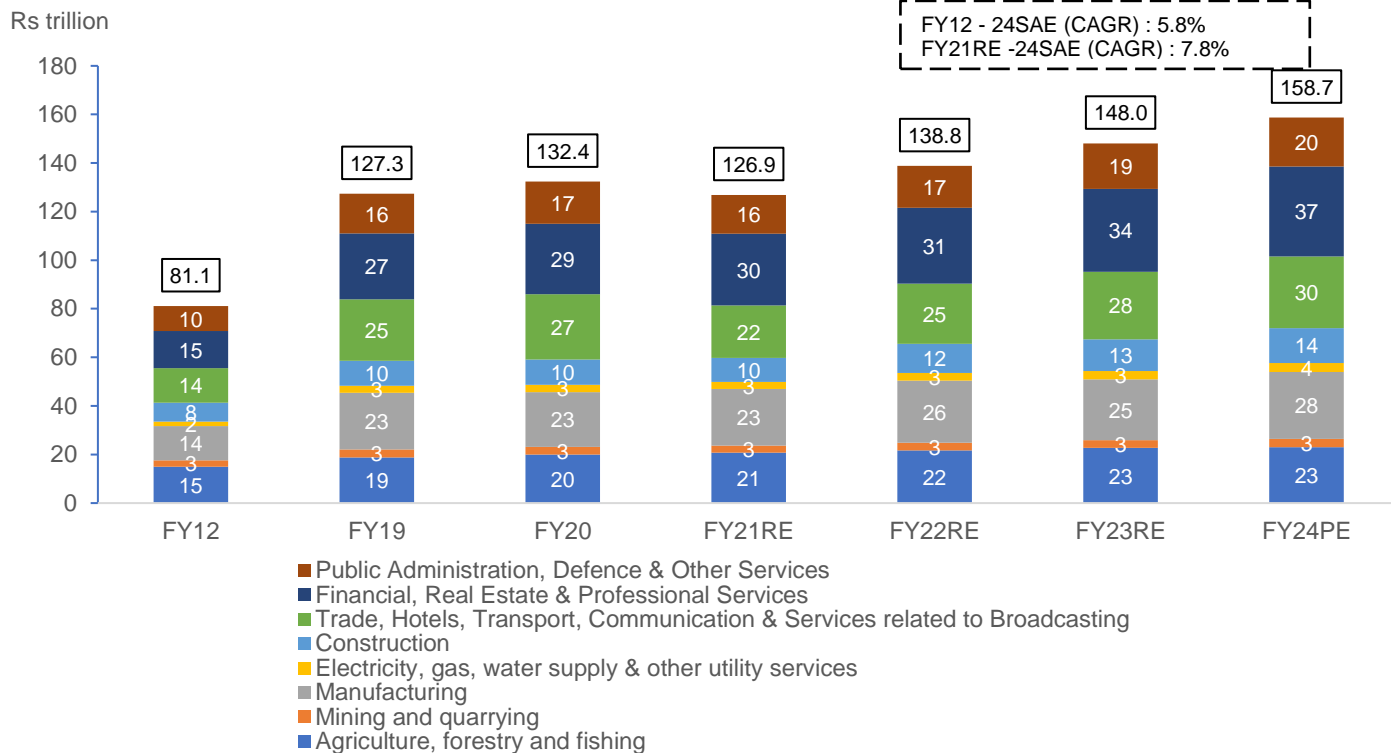

Between fiscal 2025 and fiscal 2031, CRISIL MI&A expects India to sustain average GDP growth of 6.7%, which will make India the third-largest economy in the world and lift per capita income.

Going ahead, in the near-term GDP growth is majorly characterised by rise in private sector investments and improved efficiency in domestic industries. As the government focuses on fiscal consolidation, its contribution to overall capital expenditure will partly diminish compared to past few years. Nevertheless, private sector investments are expected to gradually become more significant. Manufacturing sector is expected to grow faster than in the past decade between FY11 and FY20. Manufacturing and service sector is expected to grow at 9.1% and 6.9% respectively between FY25 and FY31. But service sector will remain the dominant driver of India’s growth, contributing to 55.5% share in GDP by FY31 compared to 20.0% share of manufacturing sector in FY31, even as manufacturing sector catches-up on growth momentum.

- **India’s GVA has grown by 7.2% in constant terms during fiscal 2024**

Gross value added (GVA) at constant prices grew 6.7% in fiscal 2023, compared with 9.4% growth in fiscal 2022. In absolute terms, constant GVA was valued at Rs 148.0 trillion in fiscal 2023, up from Rs 138.8 trillion in fiscal 2022. Additionally, in fiscal 2024, GVA is estimated to have reached Rs 158.7 trillion, up from Rs 148.0 trillion, in fiscal 2023, registering a growth of 7.2%. Overall, GVA has registered a CAGR of 5.8% between fiscal 2012 and fiscal 2024. Within GVA, i) financial, real estate & professional services, ii) trade, hotels, transport, communication & services related to broadcasting and iii) manufacturing are the top three contributors to the overall GVA in fiscal 2024(SAE) with the share of 23.3%, 18.6% and 17.3% respectively.

- Electricity, gas, water supply and other utility services occupied a share of 2.4% in overall GVA at constant prices during fiscal 2024**

The contribution of electricity, gas, water supply and other utility services in India in the overall GVA of the country range between 2-3% during fiscal 2012 and fiscal 2024. Over the years, on back of strong government support through various initiatives such as Pradhan Mantri Sahaj Bijli Har Ghar Yojana – Saubhagya, Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY) coupled with increased on renewable energy, GVA of the industry (in absolute terms) at constant prices grew to Rs 3.7 trillion in fiscal 2024, on a base of Rs 1.9 trillion in fiscal 2012, thereby registering a CAGR of 6.0%.

- **Fundamental growth drivers of GDP**

- **Growing population, increasing urbanisation and a young demographic profile to strengthen India’s economic growth**

India’s population grew to ~1.21 billion according to Census 2011, at a CAGR of 1.64% between CY2001 and CY2011. As of 2010 census, the country had 249.50 million households. Additionally, as per United Nations Population Fund’s (UNFPA), “State of World Population Report” of 2023, India’s population by mid-year of 2023 is estimated to have surpassed China by around ~2.9 million. This demographic expansion along with increasing per capita income will lead to increase consumer spending in India in turn driving India’s GDP.

Further, urbanisation has also seen an uptrend growing from 17.92% in 1960 to an estimated 32.78% in 2020. This growth in urbanisation necessitates enhancements in facilities such as housing, transportation and utilities to support the increased population density. This in turn has aided in increased spends toward urban infrastructure.

Going ahead, India’s urban population is expected to continue to rise on the back of economic growth. The share of urban population is projected to increase to nearly 40.14% by 2030, according to a UN report on urbanisation.

As per the United Nations' 2022 Revision of World Population Prospects, India's youth (0-24 years) accounted for nearly half its population in 2010, significantly higher than that for some of its peers (Brazil at 43%, China at 35% and the Russian Federation at 30%). The fact that 31% of the population is aged below 15 indicates the high proportion of the country's young population is expected to remain so in the coming years.

This share (0-24 years) is, in fact, expected to reach 39% by 2030, and remain significantly higher than that of its peers (Brazil at 32%, China at 25% and the Russian Federation at 26%). This also indicates a higher proportion of the population entering the workforce.

- **Urbanisation likely to reach 40% by 2030**

India's urban population has been increasing over the years. The trend is expected to continue as economic growth increases. From ~31% of the total population in 2010, urban population in the country is projected to reach nearly 40% by 2030, according to a UN report on urbanisation. People from rural areas move to cities for better job opportunities, education, and quality of life. Typically, migration can be of the entire family or a few individuals (generally an earning member or students).

• Robust growth in per capita income over FY12-24

India's per capita income, a broad indicator of living standards, rose from Rs 63,461.7 in fiscal 2012 to Rs 99,403.9 in fiscal 2023, logging 4.2% CAGR. Growth was led by better job opportunities, propped up by overall GDP growth. Moreover, population growth remained stable at ~1% CAGR. Furthermore, according to second advance estimates for fiscal 2024, per capita net national income (constant prices) is estimated to have increased to Rs 106,743.8; thereby registering a y-o-y growth of 7.4%.

• GFCF has seen growth led by government focus on infrastructure spending

Gross fixed capital formation (GFCF) the indicator for fixed investments done by both government and private sector, has seen a rise from Rs 30.0 trillion in fiscal 2012 to Rs 58.3 trillion in fiscal 2024 (as per advanced estimates) growing at a CAGR of 5.7%. Further, over the years, in terms of the share to the total GFCF (at constant prices), the highest contributor is non-financial corporations followed by household sector.

- **FDI inflows in Indian construction Industry**

The Indian construction industry is a pivotal sector contributing significantly to the nation's economic growth, accounting for 9.0% of total GVA as of fiscal 2024. It includes residential, commercial, industrial, and infrastructure projects, and has seen a steady rise with a in construction GVA growing at 5.2% CAGR from fiscal 2012 to 2024, driven by rapid urbanization, government initiatives, and increased investments.

In 1990, India, with assistance from the World Bank and International Monetary Fund (IMF), initiated reforms to address a balance-of-payments crisis, opening its doors to foreign direct investments (FDI) and establishing the Foreign Investment Promotion Board (FIPB) to facilitate FDI. Although the FIPB was disbanded in 2017, individual departments now approve FDI proposals with the Department of Industrial Policy and Promotion (DIPP), positioning India as a key FDI destination.

In India, FDI can be done through the automatic route, not requiring government approval, or the government route, which requires prior approval. The construction sector attracts 100% FDI investments through automatic routes. The sector has seen highest FDI investment of Rs 613.6 billion in fiscal 2021, majorly driven by the rise of FDI investments in warehousing. As of fiscal 2023, the Indian construction industry saw an FDI inflow of Rs 147.8 billion.

- **Overview of National Infrastructure Pipeline (NIP)**

In fiscal 2019, Government of India has launched the National Infrastructure Pipeline (NIP) for fiscal 2020 – 2025, with an aim to improve India's infrastructure and attract investments across various sectors. To draw up NIP, economic and social infrastructure projects worth more than Rs 1,000 million per project under construction, proposed greenfield projects, brownfield projects and those in conceptualisation stage were considered. These pipelines of projects are implemented by all the states and union territories of India and 22 infrastructure ministries under Government of India.

With various projects across sectors the NIP aims to create various employment opportunities while enhancing the standard of living. It also aims to increase investments in the projects by improving investors' confidence through better project preparation, reducing aggressive bids/failure in project delivery and ensuring enhanced access to sources of finance.

Initially, the NIP started with 6,835 projects. By April 2024, this number has increased to 9,651 projects across 54 different sectors. Out of these, 2,104 projects are currently under development, showing progress in India's infrastructure development efforts. The total investment target under NIP during the period, has been revised from Rs 111 trillion to Rs 147 trillion.

Overview of EPC industry in India

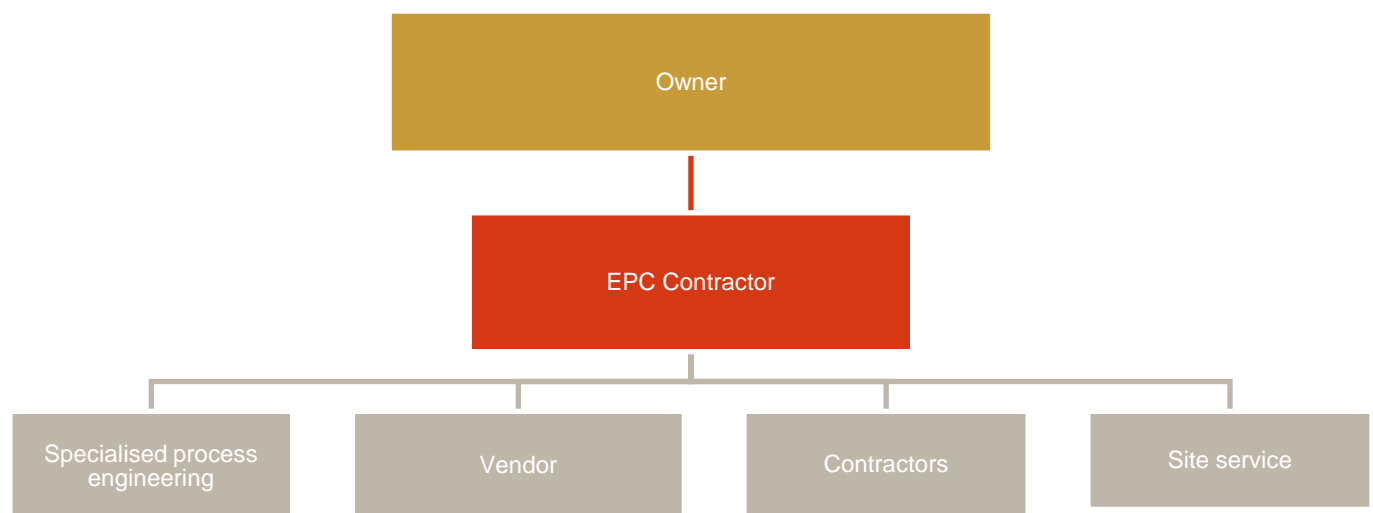

- **Qualitative overview of structure of EPC Market**

Over the years, the infrastructure business has seen various contracting methods evolve. Traditional contracting models have been replaced by new approaches as projects have grown more complex. Gradually, the responsibility for project management has moved from the owner or developer to the contractor.

This shift is evident in the move from owner-managed projects to Engineering, Procurement, and Construction (EPC) contracts. In EPC contracts, the contractor assumes the risks of time and cost overruns, along with the responsibilities for design, material procurement, and construction. These contracts also shield the owner/developer from currency and interest rate fluctuations.

Unlike other contracts where procurement and design are separate processes, EPC contracts integrate them, reducing the overall project duration. Contract which requires heavy financial and technical requirement generally divided into smaller EPC projects.

EPC Model

Source: CRISIL MI&A

A typical EPC project covers design, civil works, equipment purchase and installation, and commissioning. Most of the EPC players provide integrated and customised solutions as per the client requirements through a consultative approach. Favourable government initiatives, increased infrastructure development in sectors such as roads, power, railways, irrigation etc have provided impetus to EPC contracts.

- **Overview of key client types in Indian EPC industry**

In the Indian Engineering, Procurement, and Construction (EPC) industry, clients can be broadly categorized based on their sector and specific requirements. Here are some key client types:

1. Public Sector Institutions

These include government bodies and public sector undertakings (PSUs) involved in large-scale infrastructure projects.

Ministries and Government Departments: Various ministries such as the Ministry of Road Transport and Highways, Ministry of Power, and Ministry of Railways oversee significant infrastructure development.

Public Sector Undertakings (PSUs): Organizations like Oil and Natural Gas Corporation (ONGC), National Thermal Power Corporation (NTPC), and Indian Railways act as major clients for EPC contractors.

2. Private Sector Clients

Private companies across various industries also play a substantial role in the EPC industry.

Industrial Sector: Companies in sectors such as oil and gas, power, petrochemicals, and manufacturing frequently require EPC services for setting up plants and facilities.

Real Estate and Commercial: Real estate developers and commercial establishments often engage EPC contractors for large-scale construction projects.

3. International Clients

Foreign companies and multinational corporations looking to establish or expand their presence in India often require EPC services.

Multinational Corporations: Global players in industries such as energy, automotive, and chemicals may engage Indian EPC firms for their projects in India.

Development Agencies: International development agencies and financial institutions like the World Bank and Asian Development Bank often fund infrastructure projects, requiring EPC services for execution

• Overview of key regulatory factors impacting the industry

The EPC market in India is subject to a range of regulatory influences that play a crucial role in ensuring the efficiency, safety, and longevity of projects in sectors like infrastructure, energy, and industrial development. The regulatory framework governing the EPC market in India is designed to address various aspects such as environmental impact, labour standards, project financing, and compliance with industry-specific guidelines.

- **Environmental Clearances:** Projects frequently need to obtain environmental clearances from the Ministry of Environment, Forest and Climate Change (MoEFCC) to guarantee that they adhere to environmental regulations. These clearances are essential to ensure that the projects do not have a negative impact on the environment and follow the necessary standards set by the ministry.
- **Pollution Control:** It is essential for EPC projects, particularly those in the industrial and infrastructure sectors, to adhere to the Air (Prevention and Control of Pollution) Act, 1981, and the Water (Prevention and Control of Pollution) Act, 1974. Compliance with these environmental regulations is mandatory to ensure that the projects do not have a negative impact on the air and water quality in the surrounding areas.
- **Environmental Impact Assessment (EIA):** Certain categories of projects are required to undergo Environmental Impact Assessment (EIA) to evaluate and address potential environmental impacts. This process is crucial for identifying any adverse effects on the environment and proposing appropriate measures to mitigate these impacts. EIA plays a significant role in ensuring that development projects are carried out in a sustainable and environmentally responsible manner, ultimately contributing to the protection and preservation of the natural environment.
- **Land Acquisition Act:** The Land Acquisition Act of 2013, also known as The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation, and Resettlement Act, is responsible for overseeing the procedures involved in acquiring land, with a focus on providing fair compensation and proper rehabilitation for families impacted by the acquisition.
- **Labour Laws:** Compliance with labour regulations, such as the Occupational Safety, Health, and Working Conditions Code of 2020, is crucial to guarantee the well-being and safety of workers at construction sites.
- **Contract Law:** The Indian Contract Act of 1872 holds jurisdiction over the creation and implementation of contracts, which are essential for EPC (Engineering, Procurement, and Construction) agreements. This legislation outlines the legal framework for entering into agreements, ensuring that parties involved adhere to the terms and conditions set forth in the contract. The Act also provides guidelines for the enforcement of contracts, offering protection to parties in case of breaches or disputes. Understanding the provisions of this law is crucial for businesses and individuals engaging in contractual agreements within India.
- **Arbitration and Conciliation:** The Arbitration and Conciliation Act of 1996 establishes a structure for resolving disputes, a process that is frequently utilized in EPC projects.
- **Project Financing:** The funding of major EPC projects, such as infrastructure and energy projects, is overseen by regulations set forth by the Reserve Bank of India (RBI) and other financial authorities in India. These regulations play a crucial role in ensuring that project financing is conducted in a transparent and compliant manner, safeguarding the interests of all stakeholders involved. By adhering to the guidelines established by the RBI and other financial authorities, project sponsors and investors can navigate the complexities of financing large-scale projects.

- **Overview of key factors influencing EPC player selection**

Source: CRISIL MI&A

Further in India, in general, a single stage two part system (referred to as the "Bidding Process") is used for selection of the EPC contractor in order to award the project. It includes technical evaluation and financial evaluation

1. Technical qualification: In this the eligibility and qualification criteria are evaluated based on years of experience and expertise of the contractor in the said industry in which EPC project is being executed, domicile of the executing contractor, availability of resources with the contractor and capabilities of such resources among others

2. Financial qualification: In this the average annual turnover of the EPC contractor over the past 3 financial years is considered which needs to be above the said criteria mentioned along with this the EPC contractor should have a minimum net worth (set forth in bid document) as per his financials. Further, in some cases a minimum amount of working capital as per its latest financials is also considered. In addition, the contractor is also asked to furnish financial statements for the necessary financial years.

Post this the EPC contractor with lowest bid value called the "L1 bidder" is selected to whom the contract is awarded. Further, in some of the bidding processes a weighted average of qualification criteria (technical and financial) and bid value is considered while awarding the contract.

- **Overall investments across sectors in India**

- **Investments to grow by 1.5 times between fiscals 2025-29 compared to fiscals 2019-24**

Growth in sector is expected to be propelled by the infrastructure segment over the medium to long term as the building construction and industrial sectors are expected to record steady growth rates.

Over the long term, CRISIL MI&A projects the overall investments to rise by 1.5 times between fiscals 2025-29 compared with those over fiscals 2019-24.

The share of infrastructure projects is expected to increase to 66-68% of the overall investments for the fiscals 2025-29 as against 62% in the past five years (fiscal 2019-24), as infrastructure investments are expected to see faster growth than the other two segments (building construction and industrial) due to the Government's focus on Infrastructure under the National Infrastructure Pipeline (NIP), National Monetisation Pipeline (NMP) and the Gati Shakti initiative. The Central government's focus on roads, urban infrastructure and railways will boost infrastructure investments. At an investment level, investments in the infrastructure sector are expected to be 1.7x during fiscals 2025-29 compared to fiscals 2019-24.

Industrials segment investments are expected to increase by 1.3 times between fiscals 2025-29 compared with fiscals 2019-24. Investments in the sector are driven by the investments in oil and gas segments led by capital expansion plans by industry players as well as investments by upstream oil & gas and downstream natural gas players. Further to this, investments through PLI scheme in major capital intensive sectors such as auto and auto components, textiles and specialty steel are expected to aid the growth in investments.

Investments in building construction are expected to increase by 1.4 times, though its share is expected to fall to 16-18% between fiscals 2025-29 compared with a share of 21% between fiscals 2019-24. This growth is majorly driven by rise of investments in residential segment during the period.

SWOT analysis of Indian EPC industry

S (Strength)

- **Growing Economy:** India's economic growth supports infrastructure development and construction activities.
- **Government Initiatives:** Programs like Sagar mala, Bharat mala, development of metros, Jal Jeevan mission and significant investments in infrastructure projects boost the EPC sector.
- **Abundant Labor Supply:** India has a large pool of skilled laborers, including masons, carpenters, and engineers, who are readily available for construction projects.
- **Low-cost labour:** Labor costs in India are relatively low compared to other countries, making it an attractive destination for construction projects.
- **Growing Domestic Market:** Growth in major sectors such as automobile, residential, commercial real estate, couple with population growth.

W (Weakness)
O (Opportunities)
T (Threats)

- **Environmental concerns:** The EPC industry in India has faced criticism for its impact on the environment, particularly in terms of waste generation and energy consumption.
 - **High Capital investments:** The EPC industry in India requires substantial upfront capital. This coupled with high borrowing costs can limit the capacity for construction in the EPC industry.
 - **Input related risk:** Rise in raw material costs would impact the profitability of the companies. However, presence of cost escalation clause in contract would aid in protecting the contractor
 - **Working capital management :** delay in payment from government agencies and security and retention money stretch working capital resulting in high interest costs.
-
- **Urbanization:** Rapid urbanization offers significant opportunities for residential, commercial, and infrastructure projects.
 - **Renewable energy projects:** The global shift towards sustainable energy sources is creating new demand for EPC services in renewable energy sectors such as wind, solar and hydroelectric power. This opens a vast opportunity for EPC firms.
 - **Rural Development:** Government focus on rural infrastructure development creates opportunities in new geographic areas.
-
- **Economic Slowdown:** Any downturn in the economy can significantly affect the infrastructure sector.
 - **Regulatory challenges:** Changes in regulations, such as safety standards and building codes. As EPC companies need to comply with these standards, this can impact the project costs and timelines.
 - **Advancement in technology:** EPC players should be abreast with latest technologies in order to optimise project management and improve execution efficiency. However, this requires capital investments towards skill development. Lack of such investments would it make it difficult for players to obtain projects.
 - **Competitive Pressure:** The EPC industry is highly competitive with many firms vying for same projects. This intense competition can pressure profitability and reduce market share.

• Overview of entry barriers for EPC industry in India

The Engineering, Procurement, and Construction (EPC) industry in India is a vital part of the country's infrastructure development, encompassing sectors like infrastructure, and industrial projects. However, entering this industry comes with several barriers:

- **High Capital Requirements:** The EPC industry demands substantial initial investments for equipment, technology, and skilled manpower. Smaller firms may find it challenging to secure the necessary funding to compete with established players.
- **Regulatory and Compliance Issues:** The industry is heavily regulated, requiring companies to comply with various environmental, safety, and labour regulations. Navigating these regulations can be complex and costly affair, posing a significant barrier for new entrants.
- **Technical Expertise:** Some of the EPC projects often require specialized technical knowledge and expertise of the industry. Companies must possess a skilled workforce capable of handling complex engineering tasks and innovative construction techniques. Building such a team is a considerable challenge for newcomers.
- **Project Management Skills:** Managing large-scale EPC projects requires robust project management skills to ensure timely and cost-effective completion. New entrants might lack the experience and processes needed to manage such projects efficiently.
- **Financial Risks and Creditworthiness:** EPC projects often involve significant financial risks, including cost overruns and delays. New entrants must demonstrate strong financial stability and creditworthiness to secure contracts and financing, which can be challenging without a proven track record.
- **Competitive Landscape:** The EPC industry in India is highly competitive, with established players having strong market presence and relationships with key stakeholders. Breaking into this competitive landscape requires significant marketing efforts and the ability to differentiate from existing competitors.

• Overview of key factors contributing to the final price of EPC

An Engineering, Procurement, and Construction (EPC) contract involves various factors that contribute to the final price:

- **Project Scope and Complexity:** The more complex and extensive the project, the higher the cost due to the need for

advanced technology, specialized skills, and detailed planning.

- **Design Specifications:** Detailed and high-quality designs can increase costs due to the need for precise materials and engineering standards.
- **Material Costs:** Prices of raw materials and equipment can fluctuate, significantly impacting the final price. This includes transportation and storage costs.
- **Labor Costs:** Skilled labour is essential for EPC projects, and wages can vary based on location, demand, and project duration.
- **Permits and Regulations:** Obtaining necessary permits and adhering to local regulations can add to the cost, particularly if there are delays or additional compliance requirements.
- **Risk Management:** Provisions for potential risks such as delays, accidents, or unforeseen issues can be factored into the price as contingencies.
- **Timeline and Schedule:** Accelerated schedules may require additional resources and overtime, increasing costs. Conversely, extended timelines can lead to higher financing and operational costs.
- **Contractor’s Overheads and Profit Margins:** The contractor’s administrative costs, overheads, and desired profit margin are included in the final pricing.
- **Economic and Market Conditions:** Inflation, currency exchange rates, and economic stability can influence costs, especially for international projects
- **Key trends and growth drivers for Indian EPC industry**

A combination of economic and demographic factors is expected to drive investments in the construction sector.

Growth driver / trends	Description and reasoning
Technological advancements	Advances in technology are driving the EPC industry forward, enabling more efficient and cost-effective project delivery. For example, the use of building information modelling (BIM) and other digital tools is improving project coordination and collaboration, and use of such tools is reducing construction time and costs.
Robotics and automation	The construction industry remains one of the most labour-intensive sectors, with numerous repetitive and time-consuming tasks that can be optimized through robotics and automation. By leveraging robotics, these tasks can be completed faster and with greater precision, reducing human-induced errors and losses due to fatigue.
Sustainability	Sustainability is a key priority for many construction projects across the country. Green building practices aim to reduce the environmental impact of construction projects from start to finish by implementing environmentally friendly measures throughout the project lifecycle. Green buildings use energy and resources efficiently, generate minimal waste during construction, and strive to achieve net zero carbon emissions.
Changing client needs	With increasing infrastructure investments there is change in client requirements for faster project execution, EPC contractors being better in project management, more efficient delivery, and greater transparency and communication has aided the industry to evolve and adapt to meet these changing needs.
Government initiatives	To foster economic growth and development, Government of India has implemented several initiatives, including the National Infrastructure Pipeline, PM Gati Shakti, Sagarmala project, and Jal Jeevan Mission, to enhance the country's infrastructure. These initiatives have positively impacted the growth of the infrastructure industry in India, which in turn has contributed to the growth of the Engineering, Procurement, and Construction (EPC) industry.

Assessment of power sector in India

• Overview of power EPC in India

A typical EPC project covers design, civil works, equipment purchase installation, and commissioning. However, the scope of an EPC work has been evolved over the years and now may also include O&M (Operation and Management) services. Most of the EPC players provide integrated and customised solutions as per the client requirements through a consultative approach. The overall project works are classified as supply (material) contracts and services contracts. In a comprehensive package, most of the EPC providers offer 3-5 years of O&M services after commissioning of the project and after expiry of the services, the developer executes a separate long-term O&M agreement with a dedicated O&M service provider.

• Mechanical, instrumentation, civil, electrical, operations & maintenance (O&M) and annual maintenance contracts (AMCs) are the key types of EPC works undertaken in the Indian power industry

Mechanical works / erection works is the most critical component when building a power plant due to its high complexity, necessitating involvement of highly specialised suppliers/contractors of power generation, material handling and instrumentation equipment. In terms of civil works, construction requires high design prowess and construction capability due to installation of specialized equipment. Instrumentation and electrical works are of medium complexity level, with equipment and power plant operations conforming to uniform industry standards. Environmental clearance is a must for all the projects. As per interactions with industry stakeholders, EPC contracting is the preferred route for power plants due to standardized process of power plant construction. EPC players typically subcontract different packages of civil, mechanical, instrumentation and electrical works, with specialized suppliers / vendors being awarded contracts for supply of equipment's such as boilers, turbines and generators (BTG), heaters and cooling systems.

Below is the overview of types of EPC works that are undertaken in the power sector. It majorly includes Erection, Testing and Commissioning (ETC) power plants, with complete boilers, turbines and generators (ETC-BTG) and balance of plant (BOP) works, for various sizes and scale. It also includes integrated construction services to power plants, which include responsibly sourced gas (RSG) reactors, waste heat recovery boilers (WHRB), circulating fluidized bed combustion (CFBC) boilers, steam turbine generators, steam generators including auxiliaries, electrostatic precipitators (ESPs), hydro turbines and BOP packages, including structural steel works, ash handling, coal handling, fuel oil systems, selective catalytic reduction (SCR) & flue gas desulphurization (FGD), high-pressure piping works

- Mode of construction in the power EPC segment

Nations, majorly developing ones, have been investing heavily on large infrastructure projects through public as well as private investments. To ensure efficient and timely construction, it is imperative to have an effective model which ensures timely project execution, minimise construction delays and improve transparency. The EPC model is primarily used in construction.

Type	Description
Turnkey projects	Under turnkey project structure, the contractor holds full responsibility of design and execution of the works, including EPC. Therefore, the contractor makes the facility ready to be used at the turn of a key. The project must be delivered at a pre-determined time and pre-determined cost and the contractor must

adhere to project specifications. In case of deviations, the contractor is liable to pay monetary compensation.

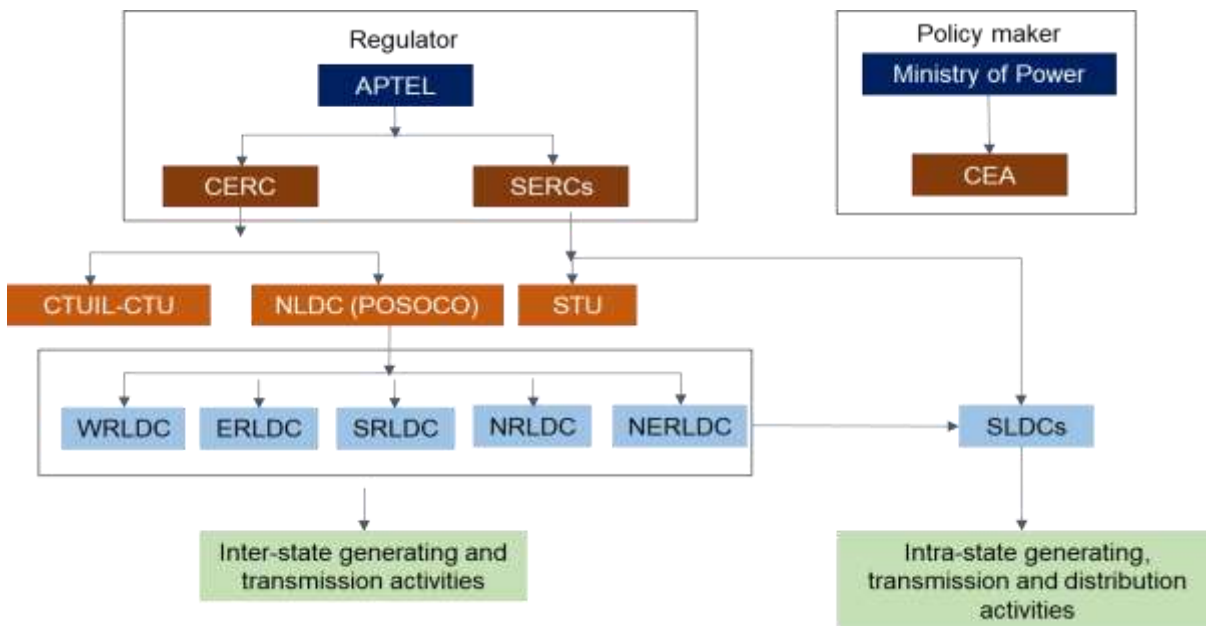

Balance of plant
 In case of balance of plant (BoP) structure, the entire project is broken into multiple packages with a major chunk contracted through EPC route and the rest through BoP. For coal based thermal plants, main plant equipment BTG (Boiler-Turbine-Generator) can be sourced singularly and BoP comprising of all Mechanical, Electrical, Instrumentation & Control systems and equipment as well as entire civil works along with system engineering and plant interfacing can be procured from various manufacturers.

Regulating authorities and agencies in Indian power sector

The sector is highly regulated, with various functions being distributed between multiple implementing agencies. The three chief regulators for the sector are: the Central Electricity Regulatory Commission (CERC), the Central Electricity Authority (CEA), and the State Electricity Regulatory Commissions (SERCs).

Institutional and structural framework

Note: APTEL - The Appellate Tribunal for Electricity; CERC- Central Electricity Regulatory Commission; CEA - Central Electricity Authority; CTUIL: Central Transmission Utility of India Limited; WRLDC - Western Regional Load Despatch Centre; ERLDC - Eastern Regional Load Despatch Centre; SRDLC - Southern Regional Load Despatch Centre; NLDC: National Load Despatch Centre, NRLDC - Northern Regional Load Despatch Centre; NERLDC - North-Eastern Regional Load Despatch Centre; POSOCO: Power System Operation Corporation, SLDC - State Load Despatch Centre; CTU - Central Transmission Utility; STU - State Transmission Utility
 Source: CRISIL MI&A

The Ministry of Power (MoP) works in close coordination with the CERC and CEA. While the CERC's role is more of a regulator for approving tariffs of central utilities, approving licenses, etc., the CEA is primarily a technical advisor focused on planning, i.e., estimating power demand and generation and transmission capacity.

Investments in Indian power sector

Infrastructure Investments in power sector expected to see a rise led by conventional capacity additions coupled with renewables

CRISIL MI&A expects investments in the power sector to see a rise of 1.7 times increasing, from Rs 13.7 trillion from fiscal 2019 to fiscal 2024, to Rs 22.5 – 24.5 trillion during fiscal 2025 to 2029. In the power sector, the generation segment drives investments with capacity additions aimed at clean energy, followed by distribution investments due to the Revamped Distribution Sector Scheme (RDSS) scheme and transmission investments.

Over the next four fiscals, between fiscal 2025 to 2029, investments in a generation will be led by renewable energy capacity additions, followed by investments in conventional generation and flue gas desulfurization (FGD) installations, indicating a shift in investment flow towards enhancing clean energy supply. Further, investments in new coal-based plants to meet the fast-growing peak load demand and increased installation of emission-controlling FGD equipment in thermal stations, will further bolster the investments.

Investments in distribution are expected to rise, on the back of the reforms-based and results-linked Revamped Distribution Sector Scheme (RDSS) envisaged over fiscal 2023 to 2026, coupled with the government's thrust on improving electricity access and providing 24x7 power to all.

Investments in the transmission segment are driven by upcoming interstate transmission system (ISTS) and green energy corridor projects. Further, the need for a robust transmission system to support generation additions, renewable energy push, and rural electrification will fuel the investments. In addition, the Government of India is planning to interconnect its national grid with neighbouring nations for effective resource utilisation which is also expected to drive investments in the segment.

- **EPC projects make up 40-50% of investments in the power sector**

In the power sector, EPC refers to a variety of activities which include design, construction of power plants, substations, transmission lines, procurement of equipments, machinery and materials etc. Projects in the Indian power sector are usually allotted via three primary routes namely EPC, Public Private Partnership (PPP) or the project is executed in-house by the internal teams. Largely, projects are given out via EPC and PPP route barring a few brown field projects which are taken up in-house by power companies.

Indian power EPC sector has witnessed strong growth over the last few years, driven by the increasing demand for electricity, government initiatives, and rising investments in the sector. Specifically, from the construction point of view, activities involve buildings, chimney, cooling tanks, land development, roads & boundary walls, erection and fabrication, substations, foundation for different machinery and material handling, etc. Most of the small and mid-sized projects in the sector happen via the EPC route, while some bigger projects happen via PPP route on an itemized basis. Some brownfield expansions also happen in-house using internal teams by the companies.

CRISIL MI&A estimates that out of the total investments flowing in the power sector in the country, 40-50% are coming via EPC mode of projects.

- Investments in power sector to grow by 1.6 times during fiscal 2025-29 over fiscal 2019-24

Investments of Rs 23-24 trillion are expected in the power sector over fiscals 2025 to 2029. Generation segment to drive investments with large scale clean energy additions expected followed by distribution and transmission investments.

- Investments in generation to be driven by renewable capacity additions between fiscal 2025-2029

Over the next five years, investments in generation will be led by renewable energy capacity additions, followed by investments in conventional generation and FGD installations, indicating a shift in investment flow towards enhancing clean energy supply. Investments in RE capacity, which are expected to double over the next five years, will constitute over 70% of overall generation investments. Total generation investments are expected to grow 2.2 times over fiscals 2025 to 2029 compared with fiscals 2019

to 2024.

Investments in generation segment of power sector

Source: CRISIL MI&A

- **Renewable energy evacuation, ISTS network expansion and upgradation to boost investment in transmission**

To service a large generation installed base, the estimated investment in the transmission sector is expected to cumulatively reach Rs 2.5-3.5 trillion over fiscals 2025-29. Investments in the sector are expected to be driven by the need for a robust and reliable transmission system to support continued generation additions and the strong push to the renewable energy sector as well as rural electrification.

As capacity additions in the country are not evenly distributed geographically, few regions in the country will be in deficit and others in surplus. To cater to this, there will be need to import/export from/to regions. Several inter-regional transmission corridors have been planned, and some of these high-capacity transmission corridors are in various stages of implementation. Newly sanctioned projects under the North-Eastern System Strengthening Scheme and system strengthening schemes focused in the Ladakh region are also expected to augment investments in the transmission segment.

In addition to this, upcoming transmission lines with neighbouring countries of Bhutan and Bangladesh along with on-going feasibility study for submarine cable between India and Sri Lanka would further add to the investments.

- **Distribution investments to be aided by Revamped Distribution Sector Scheme (RDSS) spending**

State distribution companies (discoms), the major players undertaking investment in the distribution space, have been reeling under severe financial burden for the last few years on account of collection inefficiencies and mounting receivables to power generation companies (gencos). In the Union Budget 2021-22, the government announced the Revamped Distribution Sector Scheme worth Rs 3.04 trillion for state discoms, to be allocated over the next five years. Rs 2.52 trillion worth of DPRs have been sanctioned by nodal agencies (PFC and REC) as of December 2023. While the amount is sanctioned, disbursement under the scheme will be contingent upon work undertaken that was proposed under DPR.

Investments in the segment are likely to gradually pick up fiscal 2023 onwards with central / state government(s) expected to

provide the required funding support. The distribution segment is expected to attract investments worth Rs 3.0-4.0 trillion over fiscals 2025 to 2029 vis-à-vis ~Rs 3.3 trillion between fiscal 2019-2024 led by the government's thrust on the Revamped Distribution Sector Scheme, improving access to electricity and providing 24x7 power to all. In addition, several foreign institutions such as Japan International Cooperation Agency (JICA) and Asian Development Bank (ADB) are also expected to extend credit to the distribution sector.

- **Overview of key schemes in Indian power sector**
- **Generation**

India is committed 500 GW of non-fossil capacities by 2030 as a part of its climate commitment goals. To achieve those goals and to drive the solar capacity additions in the country, GoI has introduced various schemes.

Scheme for Harnessing and Allocating Koyala (Coal) Transparently in India (SHAKTI)

SHAKTI policy aimed at alleviating stress on account of non-availability of domestic coal. The new coal allocation policy for the power sector, was introduced in 2017 which proposes to replace the old linkage allocation policy with more transparent bidding-based linkages. It segregates coal-based power plants in India in the six categories and stipulates different mechanisms to provide fuel supply to plants not having coal linkages.

The biggest beneficiaries of the policy will be those private sector developers who have long-term PPAs and letters of assurance (LoA), since they would get linkages at the notified price. This would keep their generation cost low and ensure increased plant availability with assured fuel supply.

Jawaharlal Nehru National Solar Mission (JNNSM)

JNNSM was launched as part of India's National Action Plan on Climate Change (NAPCC) in 2010. This mission aims at establishing solar power in India. The mission was launched with a target of 20 GW grid connected solar power generation capacity by 2022. However, in June 2015, this target was increased to 100 GW. The 100 GW solar power capacity has been divided into rooftop solar electricity generation (40 GW) and large and medium-scale grid-connected solar projects (60 GW).

Ultra-Mega Solar Parks

In December 2014, MNRE introduced a scheme to establish a minimum of 25 solar parks and Ultra Mega Solar Power Projects, adding over 20 GW of installed solar power capacity, which was later increased to 40 GW to develop a minimum of 50 solar parks of 500 MW and above capacity each by the financial year 2019-20. Later, in July 2018, the Ministry of New and Renewable Energy (MNRE) extended the timeline to develop solar parks and ultra-mega solar projects totalling 40 GW from 2019-20 to 2021-22. As on October 2023, 50 Solar Parks with an aggregate capacity of 37.5 GW have been sanctioned in 12 States in the country.

The Central Government provides financial support for the construction of these solar parks. According to MNRE, such projects can be set up by any CPSU, state PSU, other state government organizations, or their subsidiaries or a joint venture between two or more entities.

State solar policies

Till 2011-12, only Gujarat and Rajasthan had a state solar policy. Post the success of Gujarat state solar policy, various states such as Andhra Pradesh, Tamil Nadu, Karnataka, Madhya Pradesh and Telangana have also announced solar policies and have invited bids to set up solar projects in past years.

- **Transmission and distribution**

RDSS Scheme

Revamped Distribution Sector Scheme (RDSS), launched by Government of India with the objective of improving the quality and reliability of power supply to consumers through a financially sustainable and operationally efficient Distribution Sector, has an outlay of Rs. 3.04 trillion having Gross Budgetary Support of Rs. 0.98 trillion from Government of India over a period of five years from fiscal 2022 to fiscal 2026 and will subsume other schemes (DDUJY, IPDS) under its ambit. RDSS is mainly focused on strengthening of sub-transmission and distribution network of project areas for the benefit of consumers.

The main objectives of RDSS are:

- Reduction of AT&C losses to pan-India levels of 12-15% by FY 2024-25
- Reduction of ACS-ARR gap to zero by FY 2024-25
- Improvement in the quality, reliability, and affordability of power supply to consumers through a financially sustainable and operationally efficient distribution sector

Prepaid Smart metering is the critical intervention envisaged under RDSS with an estimated outlay of Rs 1.5 trillion with GBS of Rs 0.2 trillion and 250 million prepaid smart meters are targeted to be installed during the Scheme period. Along with the prepaid Smart metering for consumers, system metering at feeder and DT level with communicating feature along with associated Advanced Metering Infrastructure (AMI) would be implemented under TOTEX mode (Total expenditure includes both capital and operational expenditure) thereby allowing the Discoms for measurement of energy flows at all levels as well as energy accounting without any human interference.

Integrated Power Development Scheme (IPDS)

Government of India launched the Integrated Power Development Scheme (IPDS) in December, 2014 under which Distribution Infrastructure projects for strengthening of sub-transmission and distribution networks in urban areas metering of distribution transformers / feeders / consumers in the urban areas, IT enablement works; Enterprise Resource Planning (ERP); smart metering; Gas Insulated Sub-stations (GIS); and, Real Time Data Acquisition System (RT-DAS) were executed.

Current status of the scheme (as of 10th July 2024)

Discom liquidity package

State discoms' payables to gencons against power purchased have been a pain point for a significant period, as the pending payments cause liquidity issues for generators and affect their working capital management as well as debt repayment ability.

To address the liquidity pangs of state discoms, the central government introduced a Rs 900 billion stimulus for state distribution utilities within the economic relief package announced by the government to tide over the economic crisis induced by Covid-19, which was further enhanced to Rs 1.2 trillion. The relief package is aimed to help discoms clear a significant portion of their outstanding dues to power generators. The package is expected to be provided in the form of concessional loans (moratorium, lower interest rates) to state distribution utilities, secured by discom receivables and state guarantees. Power Finance Corporation (PFC) and Rural Electrification Corporation (REC) have been identified as key lenders for this package. The package was eventually increased further to Rs ~1.35 trillion, with the full amount being sanctioned as of November 2021, whereas disbursement to the tune of Rs ~1.12 trillion has been achieved as of December 2023. The disbursement under the long-term transition loans has been linked to discoms undertaking specified reform measures.

- **Key growth drivers in the power EPC**

Key growth drivers	Description
Government push towards reducing coal imports	At present, India depends on coal imports along with its domestic production to meet the power demand in the country. In order to reduce the dependence on imports, the government is planning to increase the domestic coal production aiming to increase availability and reduce dependence on imported coal. This would lead to infrastructure growth, in turn boosting the EPC segment
Increase focus on renewable energy	India has set a goal of 500 GW of non-fossil fuel-based capacity by 2030. In line with this, India has made a significant shift in its energy landscape towards Renewable energy (RE) with more than 70% of new capacity addition came from RE in fiscal 2024. Further additions of renewable energy infrastructure coupled with government support through schemes such as JNNSM and Ultra mega solar parks would further aid the growth in EPC industry
Development of T&D infrastructure	In December 2023, CEA has notified the draft National Electricity Plan (Volume II) for transmission which is under finalisation. The tentative transmission line and capacity addition as per the draft NEP is estimated to increase by ~1.2 times to 580,293 ckm by fiscal 2027 from 485,544 ckm in fiscal 2024. Similarly, transmission line capacity is expected to increase to 685,293 ckm by fiscal 2032 while the substation capacity is expected to rise by ~1.3 times. This will aid the growth of projects in EPC segment of transmission and distribution.
Rising power demand	Power demand is directly linked to GDP. With rising India's GDP coupled with other factors such as urbanisation, rise in population, rise in industrial output the power demand is expected to see a growth of 5-7% between fiscal 2025 and 2029. In order to meet the rising demand the power sector is expected to see a capacity addition from 442 GW in fiscal 2024 to 700-710 GW in fiscal 2029. This addition of capacities will further aid the construction under power EPC industry.

- **Key threats and challenges in the power EPC**

Key challenges	Description
Distribution continues to be the achilles heel in the Indian power sector	Distribution is the final and critical link in the power sector value chain. However, the financial position of the distribution sector has significantly deteriorated over the past decade owing to irregular tariff hikes, high AT&C losses, and delays in subsidy payments by state governments. This has adversely impacted power offtake by distribution companies (discoms). Though government has implemented schemes such as RDSS, Late payment surcharge (LPS) scheme. The impact of these on the distribution sector needs to be monitored. Any further losses would hinder the infrastructure development in the sector.
Cost overruns and delays	Regulatory complexities specially for land acquisition, permissions/approvals required from multiple agencies may lead to delay in project execution and increased operational costs. Similarly, due to increase in material costs, improper estimation can result in cost overruns. Significant cost overrun may

affect the project returns.

Market competition The market competition in the EPC sector is intense, characterized by a multitude of competitors competing for the same projects. This coupled with rising input costs will make it difficult for the EPC players to further pass on the costs to their customers. Further, staying abreast of with technologies in power generation and storage poses a significant challenge, necessitating ongoing investments in research and development to remain competitive in the market.

- Assessment of existing electricity capacities
- Power supply mix

The total installed generation capacity at the end of March 2024 was 442 GW, of which ~86 GW of capacity was added over fiscals 2019-24. The overall installed generation capacity has grown at a CAGR of 4.4% over fiscals 2019-24. Coal and lignite-based installed power generation capacity has maintained its dominant position over the years and accounts for ~49% as of March 2024. However, RE installations (including large hydroelectric projects), have reached ~191 GW capacity as on March 2024, compared with 63 GW as on March 2012, constituting ~43% of total installed generation capacity as of fiscal 2024. This growth has been led by solar power, which rapidly rose to ~82 GW which grew by ~24% between fiscal 2019 and 2024.

- Overview of power demand in India
- Power demand to maintain healthy momentum slated to grow at 5-7% CAGR over fiscals 2025-2029

India's electricity requirement has risen at a CAGR of ~5.0% between fiscals 2019 and 2024. Power demand surged in the first quarter of fiscal 2023 on the back of a severe heatwave raging through the nation, apart from continued momentum in economic activity. As a result, power demand registered a 9.6% on-year growth fiscal 2023 despite a high base. Further, in fiscal 2024 power demand to grow at a rate of 7.6% driven by El-Nino led warmer temperatures along with an 8.2% increase in GDP growth despite a high base of 7.0% in fiscal 2023.

Over fiscals 2025 to 2029, power demand is expected to gradually pick up, logging a CAGR of 5-7% to reach 2,160-2,180 BUs, on the back of healthy economic growth and expansion of the power footprint via strengthening of distribution infrastructure. Major reforms initiated by the central government for improving the overall health of the power sector, particularly that of state distribution utilities, are expected to improve the quality of power supply, thereby supporting power demand.

• Overview of key demand segments for power demand

Industrial and commercial, domestic and agriculture are major end use segments for power demand in India.

Industrial and commercial consumers are the largest consumers of electricity in absolute terms. Going forward, India's economy is expected to continue to expand beyond fiscal 2022, with industrial activity gradually picking up over the medium term. Trickle-down effect of Aatmanirbhar Bharat relief package, government spending on infrastructure through the National Infrastructure Pipeline, commissioning of the dedicated freight corridors, expansion of the services industry, rapid urbanization, and increased farm income from agriculture-related reforms are key macroeconomic factors fostering the power demand. Significant policy initiatives such as PLI schemes and low corporate tax rates, among others have aided large scale manufacturing in India which will further boost power demand in the country. In fact, several sectors including automobiles, mobile handsets and tablets, solar, lithium-ion batteries, food & beverages and defence are expected to witness fresh investments including foreign direct investments from global majors.

Further, railway electrification, rapid transition to EVs, increased urbanisation and Industrialisation, smart city projects, upcoming metro projects primary tailwinds providing impetus to power demand. A confluence of these factors is expected to drive energy sales to the industrial and commercial consumer segment.

Further, domestic consumption has increased over the years due to the rising urbanisation rate, improvements in the standard of living, increase in air conditioning requirements to mitigate soaring temperatures and offering free units upto a certain level to some category/regions of India. Pradhan Mantri Sahaj Bijli Har Ghar Yojana (Saubhagya), which was launched by the GoI in September 2017, has helped achieve universal household electrification across the country. Under the scheme, 28.6 million households were electrified in the country. The scheme is completed and, in turn, drives electricity demand. The programme also aims to ensure 24x7 power supply to separate agriculture and non-agriculture feeders, facilitating judicious fostering of supply to agricultural and non-agricultural consumers in rural areas and strengthening the sub-transmission and distribution infrastructure in rural areas, including metering of distribution transformers/feeders/consumers. It is also expected that electricity currently being supplied through back-up facilities, such as invertors and DGs, may move back to the grid with increased quality of supply.

Overview of power supply additions in India

India's installed generation capacity, which stood at 356 GW at the end of fiscal 2019 has reached to ~442 GW in fiscal 2024 (as of March 2024) on the back of healthy renewable capacity additions (including solar, wind, hybrid, and other renewable sources) even as additions in coal and other fuels have declined. In fiscal 2024, renewables (excl. large hydro) accounted for ~33% of the installed capacity, whereas coal-based capacity tapered to ~49% over the same period.

Capacity additions in the conventional power generation segment of about 35-40 GW are expected over fiscals 2025 to 2029 driven by higher than decadal average power demand. Fresh project announcements are limited as players are opting for the inorganic route for expansion given the availability of assets at reasonable valuations. In fact, 4.8 GW of stressed power assets are awaiting debt resolution. However, the need for generation capacity equipped for flexible operations to ramp up-down quickly is critical to meet peak demand as generation from renewable capacities is infirm in nature. Going ahead, 20-30 GW of coal-based power is expected to be commissioned over fiscals 2025-29. Coal capacity additions are expected to be driven entirely by central and state sectors, as major private gencos continue to focus on adding RE capacity.

Nuclear power capacity additions are expected during the period as ongoing projects at Kakrapara, Kalpakkam, and Rajasthan are nearing completion. As of January 2024, Unit 1 of KAPP has been commissioned with Unit 2 expected by end of fiscal 2024.

Further, 7-9 GW of hydro power installations further, an addition of 7-8 GW pumped hydro storage projects (PSP) capacity additions over fiscals 2025-2029.

Old and inefficient coal plants to the tune of 14-15 GW (mainly state-owned) were to be retired. However, as per CEA notification issued on January 20, 2023, power utilities have been advised to not retire any thermal units until 2030 and carry out renovation and maintenance (R&M) for life extension and improve the flexibility and reliability of thermal units

By fiscal 2029, Renewable energy (RE) capacity additions (excluding large hydro) are expected driven by various government initiatives, favourable policies, competitive tariffs, innovative tenders, development of solar parks and green energy corridors, etc. RE capacity is estimated to account for about 50% of the installed capacity by fiscal 2029.

Battery energy storage system (BESS) capacity additions, aimed at storing renewable energy during off-peak hours of power demand to support peak supply, are expected to commission starting fiscal 2025, with 23-24 GW of BESS capacity likely to be added through fiscal 2029.

All India installed estimated capacity addition by fiscal 2029 (in GW)

Note: RE includes solar, wind, hybrid, and other renewable sources.

Other fossil fuels include lignite, gas, and diesel.

Other non-fossil fuels include hydro and nuclear.

Storage includes BESS and PSP

Power supply to grow by 5-7% during fiscal 2025-29

During fiscal 2019 to 2024, the power demand in India, has grown at CAGR of 5.0%. To support the rising demand, the capacity has also grown from 356 GW to 442 GW at a CAGR of 4.4%, leading to a growth of 5.1% CAGR in the overall power supply. As a result, the energy deficit declined to 0.5% in fiscal 2023 and further reduced to 0.3% in fiscal 2024 from 0.7% in fiscal 2018. Also, strengthening of inter-regional power transmission capacity over the past years has further supported the fall in deficit levels as it reduced supply constraints on account of congestion and lower transmission corridor availability.

Going ahead, as the capacity increases to 700 -710 GW during till fiscal 2029, the power supply is expected to grow by 5-7% between fiscal 2025 and 2029 in line with the growth in power demand during the same period.

- Overview of solar power capacity additions**

In the renewable energy basket (including large hydro) as of March 2024, solar energy accounted for a share of 43%. Growth in the solar power sector over the last five years has been robust. As much as ~54 GW capacity was added in the segment over fiscals 2019-24, registering a CAGR of ~23.8%, although on a low base. Despite the second wave of COVID-19 infections, fiscal 2022 witnessed solar capacity additions of ~14 GW. In a relief to developers, the MNRE provided total extension of seven-and-a-half months for the projects affected by the first and second waves of pandemic. This is estimated to have delayed commissioning in fiscal 2022, leading to a spillover into fiscals 2023 and 2024. In fiscal 2023, solar capacity additions stood at ~13 GW. Similarly, in fiscal 2024, solar capacity additions stood at ~15 GW.

The GoI imposing solar Renewable Purchase Obligation (RPOs) across Indian states in 2011, coupled with the sharp drop in capital costs, led to most states releasing solar polices. This resulted in a spur in solar sector investments. Till fiscal 2012, only Gujarat and Rajasthan had state solar policies. After the success of Gujarat’s solar policy, other states such as Andhra Pradesh, Tamil Nadu, Karnataka, Madhya Pradesh, and Telangana introduced their respective solar polices.

During fiscals 2018-2023, ~45 GW of solar capacity has been commissioned compared with the expected commissioning of 60-65 GW. Despite the second pandemic wave, ~14 GW of solar capacity was added in fiscal 2022. The momentum continued in fiscal 2023 and 2024, with robust solar capacity additions of ~13 GW and ~15 GW respectively.

Trend in cumulative solar capacity installation in India

(GW)

Source: MNRE, CEA, CRISIL MI&A

Going ahead, CRISIL MI&A expects 137-142 GW of solar capacity additions over fiscal 2025-2029. This will be driven by additions under:

- National Solar Mission (NSM):** The entire NSM Phase II Batch II Tranche I of 3,000 MW has been commissioned. Under NSM Phase II, Batch III, and Batch IV, Solar energy corporation of India (SECI) through its state specific Viability Gap Funding (VGF) has tendered out ~7 GW of capacities, most of which has been completed.
- Other central schemes:** SECI has also started tendering projects outside the Jawaharlal Nehru National Solar Mission (JNNSM) Batch programme. It has initiated the Inter State Transmission System (ISTS) scheme, wherein projects are planned for connection with the ISTS grid directly. Under this, SECI has already tendered and allocated ~35 GW (including hybrid).
- State solar policies:** ~24 GW of projects are under construction and are expected to be commissioned over the fiscal 2025-2029. Based on tendered capacities by states at the end of June 2024, a further ~24 GW capacity of solar projects is expected to be up for bidding over the same duration.
- PSUs:** The CPSU programme under JNNSM has been extended to 12 GW in February 2019. The government is also encouraging cash-rich PSUs to set up renewable energy projects. NTPC has already commissioned a total of over ~2,120 MW of capacities, allocated ~5 GW, and tendered a further ~1 GW, under various schemes. It has a target of installing ~35 GW of renewable energy capacities by fiscal 2028. Similarly, NHPC had allocated 2 GW of projects in 2020, while the Indian Railways has committed to 20 GW of solar power by 2030. Other PSUs such as NLC, defence organizations, and governmental establishments are also expected to contribute to this addition.
- Rooftop solar projects:** CRISIL MI&A expects 20-22 GW of rooftop solar projects (under the capex and opex mode) to be commissioned by fiscal 2029, led by PM Surya Ghar Yojana and industrial and commercial consumers under net/gross metering

schemes of various state.

- **Open-access solar projects:** 13-15 GW of open-access solar projects (under the capex and opex mode) are expected to be commissioned by fiscal 2028, led by green energy open access rules 2022, sustainability initiatives/RE 100 targets of the corporate consumers, better tariff structures and policies of states such as Uttar Pradesh and Karnataka, which are more long term in nature.

- **Push for Green hydrogen:** Production for green hydrogen is expected to start from fiscal 2026 with production of 0.5-1 million tonnes of production. Government has set the target production of 5 million tonnes of green hydrogen by 2030. As per announcement, we expect 2.0-2.2 MTPA of green hydrogen to commission which can lead to further upside of solar capacity of 32-37 GW, by fiscal 2029. However, since developers may tie-up via grid / open access and not go to the captive route generation under this segment will remain a monitorable.

- **Overview of transmission infrastructure in India**

The transmission sector, a crucial part of the power industry, required more attention to meet the growing demand for electricity and the expanding generation capacity. Existing investments from budgets, internal funds, and PSU loans were insufficient to meet this demand. To address this issue, the Electricity Act allowed private companies to participate in the power transmission sector through a competitive bidding process called tariff-based competitive bidding (TBCB). The National Tariff Policy of 2006 provided guidelines for this process, aiming to promote competition, attract private investment, and increase transparency in constructing transmission infrastructure. India stands out as one of the few countries that have opened its transmission sector to private participation, generating significant interest from private businesses. The Electricity Act, 2003 coupled with TBCB for power procurement, encouraged private participation in the power transmission sector and has supported the growth of transmission lines in India sector.

Robust generation capacity addition over the years and government's focus on 100% rural electrification through last mile connectivity has led to extensive expansion of the T&D system across the country. The total length of domestic transmission lines rose from 413,407 circuit kilometres (ckm) in fiscal 2019 to 485,544 ckm in fiscal 2023.

Total transmission length in India (above 220kV)

Source: CEA, CRISIL MI&A

There has been strong growth in the transmission system at higher voltage levels and substation capacities. This is a result of increased requirement of the transmission network to carry bulk power over longer distances and at the same time optimise the right of way, minimise losses and improve grid reliability.

The total transmission line length (above 220 kV) has increased at 3.3% CAGR from fiscal 2019 to fiscal 2024. This increase can also be attributed to an increase in the commissioning of the 765kV lines, growing at a CAGR of 5.6% over the same period. 765 kV lines have higher transfer capacity and lower technical losses thereby reducing the overall number of lines and rights of way required to deliver equivalent capacity. Performance in a transmission line improves as voltage increases and as 765 kV lines use one of the highest voltage levels, they experience comparatively lesser amount of line loss. 800 kV lines have also shown strong growth momentum, rising at 9.5% CAGR over the last 5 fiscals, majorly owing to strong investments by the central sector.

Breakup of transmission lines across voltages (220kV and above)

Source: CEA, CRISIL MI&A

Investments in transmission line additions continue to be dominated by the central and state sectors. During 2017- 2022, a total of 88,865 ckm was set up in the country, with the central and state sectors contributing to 38% and 50%, respectively. The trend continues in fiscal 2024, with central and state sectors contributing to a share of 77%.

Sector-wise share of year-wise transmission line additions (220kV and above)

Source: CEA, CRISIL MI&A

Although central and state dominate the contribution towards the transmission lines additions, share of private players has seen a continuous rise over the years from 6.7% during the 12th five year plan (fiscal 2012-17) to 8.6% in fiscal 2024.

Share of private players in addition of transmission lines

Source: CEA, CRISIL MI&A

Although to encourage private-sector participation in building transmission capacity, the central government notified power-transmission schemes to be undertaken through Tariff Based Competitive Bidding (TBCB), but still lower private player penetration in the transmission sector necessitates higher allotment of transmission lines to private players by the central transmission utilities.

Sub-station capacities in the country have grown from 899,663 MVA in fiscal 2019 to reach 1,251,080 MVA in fiscal 2024, at a CAGR of 6.8%.

Substation capacity in India

Source: CEA, CRISIL MI&A

The growth in sub-station capacities has majorly seen traction in 220 kV, 400 kV and 765 kV segments, contributing to 32%, 41% and 24% of the incremental additions between fiscals 2019 and fiscal 2024.

- Overview of growth drivers in Indian power sector
- Long term Demand drivers and constraints

Power demand is closely associated with a country's GDP. Healthy economic growth leads to growth in power demand. India is already the fastest-growing economy in the world, with average GDP growth of 5.9% over fiscal 2012-24. The trickle-down effect of government spending on infrastructure through the National Infrastructure Pipeline, expansion of the services industry, rapid urbanisation, and increased farm income from agriculture-related reforms are key macroeconomic factors that are expected

to foster power demand. Significant policy initiatives such as 24x7 power for all, Sahaj Bijli Har Ghar Yojana (SAUBHAGYA) scheme to provide electricity connections to all households, green energy corridor to facilitate evacuation of RE power, green city scheme to promote the development of sustainable and eco-friendly cities, PLI scheme and low corporate tax rates among others are expected to further support power demand in the country.

Factors influencing power demand

Source: CRISIL MI&A

Apart from macroeconomic factors, power demand would be further fueled by railway electrification, upcoming metro rail projects, growing demand for charging infrastructure due to increased adoption of electric vehicles, higher demand from key infrastructure and manufacturing sectors. However, increasing energy efficiency, a reduction in technical losses over the longer term, and captive as well as off-grid generation from renewables would restrict growth in power demand.

- **Lower per capita power consumption compared to other global peers indicates potential for growth**

Electricity consumption per person rose to 1,331 kWh in fiscal 2023 (as per CEA’s provisional data), from 1,010 kWh in fiscal 2015 at a CAGR of 3.5%, primarily led by large capacity additions coupled with strengthening of the transmission and distribution (T&D) network. Post successive on-year growth in consumption, demand declined in fiscal 2021, particularly from high-consuming industrial and commercial categories on account of weak economic activity following outbreak of the COVID-19 pandemic. In fiscal 2022, though, per capita consumption rebounded to 1,255 kWh on the back of recovery in demand, with a similar trend estimated in fiscal 2023. Similarly, the energy requirement grew at 4.4% CAGR over fiscals 2015 to 2023.

Despite this healthy increase, the per-capita electricity consumption remains significantly lower than other major economies. Developing countries, such as Brazil and China, have significantly higher per-capita electricity consumption than India.

Comparison of India's economy with other major nations

*India Financial Year, Source: World Economic Outlook Database (April-2024) by IMF; IEA, CEA, CRISIL MI&A

Going ahead, per capita consumption is expected to gradually improve, as power demand picks up on the back of improvement in access to electricity, in terms of quality and reliability, rising per capital income, increasing EV penetration, railway electrification, on account of intensive rural electrification, resulting in realisation of latent demand from the residential segment, increased penetration of consumer durables. However, there are few factors which could restrict the growth such as improved energy efficiency, focus on T&D loss reduction, sustainability targets and increasing share of services in GDP.

- **Railway electrification and metro rail to drive majority of the incremental power demand**

As of March 2024, of the 65,775 rkms (route kms) Broad Gauge (BR) electrification on Indian Railways has been extended to 62,119 rkms constituting more than 94%. In a bid to become net zero emitter by 2030 the government aims to achieve 100% electrification of Indian Railways by December 2023, however delayed electrification works due to pandemic induced lockdown coupled with sluggish pace of electrification 100% electrification is expected to be achieved by fiscal 2025. This is expected to lead to an incremental power demand, also driven by new track laying by the Indian Railways which is already electrified. Ministry of Railways has been allocated a capital outlay of Rs 2.52 lakh crore in the Union Budget 2024-25. This also is expected to provide impetus to the sector in terms of creation of new lines, doubling existing lines and electrification of existing lines.

Metro rail has also seen substantial growth in India in recent years, and the rate of growth is expected to rise further with multiple cities requiring the need for metro rail to meet daily mobility requirements. As of May 31, 2024, around 902 kms of metro routes are operational across 18 cities of India. Around 712 kms of metro line is under construction and 1,878 kms of metro lines are proposed further. Electricity consumption from the aforesaid categories is expected to add an average incremental power demand. Currently metro projects constitute a marginal share of the total incremental demand, but the share is expected to increase in the future due to a large quantum of planned metro projects.

Further, EV charging requirements are likely to boost power demand over the medium term, with a gradual increase in the share of EVs in the vehicle population.

Assessment of water sector (Irrigation + water distribution) in India

Overview of Irrigation sector in India

Irrigation, the process of supplying water to crops through artificial means such as canals, pipes and sprinklers, is the backbone of agriculture. It makes farmers less dependent on rainfall and helps them grow multiple crops on the same plot across agricultural seasons. Irrigation is the basic determinant of agricultural production as irrigational lack constrains crop yields

High dependence on monsoon causing penetration levels to be low but is marginally improving. Irrigation penetration in India is low, but efforts are on to improve it. As per CRISIL estimates, ~54% of the net sown area has been irrigated as of fiscal 2024. With only 54% of land irrigated, the country has huge potential to develop irrigation. Going ahead, aided by various initiatives such as Pradhan Mantri Krishi Sinchayee Yojana (PMKSY), Command Area Development and Water Management (CADWM) coupled with increase in investments towards development of infrastructure facilities, irrigation penetration levels in India are expected to rise reaching to the levels of 56-57% by fiscal 2026.

Improvement in irrigation penetration levels over the years in India

Note: 1. Irrigation penetration is net irrigated area over net sown area

2. Irrigation penetration is estimated by taking Rs 0.8 million as capital expenditure for irrigating 1 hectare of land

- **Overview of investments in water sector in India**

- **Investments in water sector (irrigation + WSS) expected to see a rise led by completion of major irrigation projects and increase in water infrastructure under on-going schemes**

During fiscal 2019-24, due to rise in investment expenditure across major agriculture states, coupled with central government focus on schemes such as 175rishi175 mantri 175rishi sinchayee yojana (PMKSY), accelerated irrigation benefits programme (AIBP) and command area development and water management (CAD&WM) Programme, the sector has attracted a total investment of ~Rs 5.2 trillion. In the future, an investment of Rs 7.7 – 7.9 trillion is estimated over the next five years between fiscal 2024 and 2028, which is an increase of ~1.5 times over the past five years, owing to the push from state governments to increase irrigation penetration in states.

The demand for irrigation infrastructure is driven by the need to enhance agricultural productivity, support rural livelihoods and ensure food security. Despite significant agricultural activity, many regions in India still rely on unpredictable monsoons due to low irrigation levels. Limited water resources further necessitate resilient irrigation systems. Investments in advanced irrigation methods help in better water usage, increase crop yields and ensure consistent agricultural productivity.

In case of water supply and sanitation, during fiscal 2019-24 the sector has seen a total infrastructure investment of Rs 4.4 trillion which are expected to grow by ~2.3 times during fiscal 2025-29 reaching a total of Rs 9.9 trillion. This growth is majorly poised by support from government through various schemes such as Swachh Bharat Mission (SBM), Jal jeevan mission and the National Mission for Clean Ganga (NMCG). In addition to these schemes such as Atal Mission for Rejuvenation and Urban Transformation (AMRUT), which focuses on development of water supply and sanitation facilities among others along the infrastructure growth in urban regions.

- **EPC projects among the overall infra investments for water sector to remain at 75-85%**

We have assessed water supply for agriculture and urban areas, as well as water sanitation, wastewater management, and water treatment plant projects within the irrigation sector, to evaluate investments through the EPC (Engineering, Procurement, and Construction) route.

Purely for water supply projects, more than 95% of project investments happen via the EPC route. Considering wastewater treatment and water supply projects together, it is estimated that 80-90% of investments in the sector happen via the EPC route, while the rest happen via public private partnership (PPP).

• Overview of irrigation spending by key states in India

Water resources is a state subject. Hence, state governments are responsible for regulating the use of water. The development of irrigation projects is entrusted to state departments and corporations. While the irrigation/water resources department in a state handles all types of irrigation projects, minor irrigation projects can also be implemented by the agriculture department, zilla parishads/panchayats, and minor irrigation corporations.

The allocation of funds for the irrigation sector is of utmost importance due as it plays a crucial role in the development of infrastructure, enabling the construction and maintenance of essential irrigation facilities and implementation of water management practices. This aids in building a reliable water supply for agriculture, environmental sustainability by minimizing water wastage, and preserving ecosystems.

Under irrigation there are three types of projects - major, medium and minor, based on the cultivable command area they cover. Major and medium irrigation projects mostly comprise dams, canals and lift irrigation schemes. Minor irrigation schemes include wells, tube wells, mud canals, etc.

- **Overview of key policies and schemes in the sector**
- **Pradhan Mantri Krishi Sinchayee Yojana (PMKSY)**

Aiming to converge irrigation investment at the field level to maximise its impact, the government initiated PMKSY in fiscal 2016, with a spending target of Rs 500 billion until 2020. It was approved by the Cabinet Committee on Economic Affairs on July 1, 2015.

PMKSY is an umbrella scheme, consisting of two major components being implemented by Ministry of Jal Shakti, namely, Accelerated Irrigation Benefit Programme (AIBP), and Har Khet Ko Pani (HKKP). HKKP, in turn, consists of four sub-components: (i) Command Area Development & Water Management (CAD&WM); (ii) Surface Minor Irrigation (SMI); (iii) Repair, Renovation and Restoration (RRR) of Water Bodies; and (iv) Ground Water (GW) Development. Further, in 2016, CAD&WM sub-component of HKKP was taken up for implementation with AIBP.

In addition, PMKSY also consists of Watershed Development component (WDC) which is being implemented by Department of Land Resources, Ministry of Rural Development. Further, Per Drop More Crop (PDMC) component being implemented by Department of Agriculture and Farmers Welfare (DoA&FW) was also a component of PMKSY during 2016-21 and is now being implemented separately by DoA&FW.

Further, The Government of India has approved implementation of Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) for 2021-26 with an outlay of Rs 930.7 billion to benefit about 22 Lakh farmers. Total additional irrigation potential creation targeted during 2021-26 under AIBP is 13.88 Lakh hectare. Apart from focused completion of 60 ongoing projects including their 30.23 lakh hectare command area development, 8 additional projects have been taken up as of January 2024. In addition, two national projects, namely Renukaji Dam Project (Himachal Pradesh) and Lakhwar Multipurpose Project (Uttarakhand) have also been included.

A. Accelerated Irrigation Benefit Programme (AIBP)

Accelerated Irrigation Benefits Programme (AIBP) is one of the components of PMKSY, whereby partial financial assistance is being provided by Government of India for identified major/ medium irrigation projects.

During fiscal 2017, Government of India approved funding of the 99 prioritized irrigation projects (and 7 phases) with an estimated balance cost of Rs. 775.9 billion (Central share ~40%, State share ~60%) for completion in phases. The works include both the AIBP and Command Area Development (CAD) works with a target to create a irrigation potential of about 34.63 Lakh hectares.

Against the target an Irrigation Potential of about 25.50 Lakh hectares has been created through AIBP works of the prioritized projects during fiscal 2017 to fiscal 2023.

As of January 2024, AIBP works of 56 prioritized projects out of identified 99 projects (and 7 phases) were reported to be completed.

B. Ground Water (PMKSY-HKKP-GW)

Pradhan Mantri Krishi Sinchayee Yojana Har Khet Ko Paani Ground Water scheme, envisages to provide irrigation facility for small and marginal farmers in areas having sufficient potential for future development of ground water. Since 2019, 13 projects were sanctioned under this scheme in 10 States namely Arunachal Pradesh, Assam, Gujarat, Nagaland, Manipur, Mizoram, Tripura, Tamil Nadu, Uttar Pradesh, and Uttarakhand. As on 30th November 2023, 29,777 wells have been constructed, 87,243 ha command area have been created and 67,902 small & marginal farmers have been benefitted.

C. Command Area Development & Water Management (CADWM)

The scheme was launched with an aim to enhance physical access of water on farm and expand cultivable area under assured irrigation. 99 prioritized Projects have been identified for expeditious completion adopting innovative funding through creation of 'Long Term Irrigation Fund' under NABARD. The targeted Culturable Command Area (CCA) of the presently 88 included projects are 45.08 lakh Ha. and estimated central assistance (CA) is Rs 82.3 billion. During 2016-17 to 2022-23, CA amounting to Rs 29.6 billion was released while the CCA progress reported by States is 17.87 Lakh ha.

• Atal Bhujal Yojana

Atal Bhujal Yojana (Atal Jal) is a Central Sector Scheme of Government of India with an outlay of Rs 60 billion which is being implemented from 1st April 2020 for a span of 5 years. This unique scheme aims at increasing the capacity of States to manage their ground water resources and for ensuring their long-term sustainability with active participation of the local communities. It also envisages convergence of various ongoing schemes for implementation of interventions for improving ground water availability with emphasis on demand management and also optimal use of available water resources.

Under this scheme, 8,213 water stressed areas across seven states which include Gujarat, Haryana, Karnataka, Madhya Pradesh, Maharashtra, Rajasthan and Uttar Pradesh have been identified. The scheme is partly funded by World Bank.

• Jal Jeevan Mission

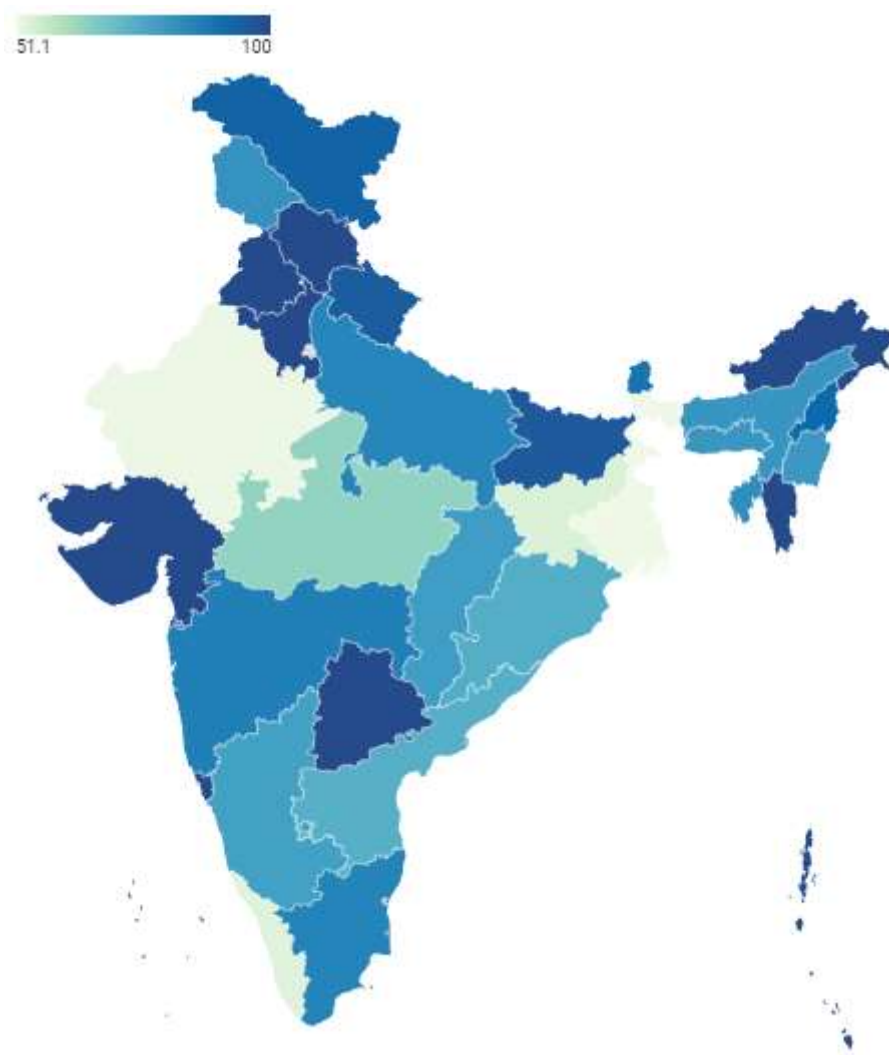

The Government of India has made a commitment to ensure that all rural households in the country have access to safe and

potable tap water in sufficient quantity and of a specified quality on a regular and long-term basis. To achieve this goal, the Jal Jeevan Mission (JJM) was launched in August 2019, in collaboration with the states. As drinking water falls under the jurisdiction of the states, the responsibility for planning, approval, implementation, operation, and maintenance of drinking water supply schemes, including those under the JJM, lies with the State/UT Governments. The Government of India provides support to the states by offering technical and financial assistance.

Since the inception of the Jal Jeevan Mission, significant progress has been made in improving access to tap water for rural households. At the beginning of the mission in August 2019, only 32.3 million rural households had tap water connections. However, as of 29.07.2024, ~117.8 million additional rural households have been provided with tap water connections under JJM, this accounts for ~77.8% of rural households in India having tap water supply in their homes. During the current year of 2024 around 10.6 million being provided till date (from Jan 2024 – 29th July 2024).

For the current financial year, 2023-24, an allocation of Rs. 700 billion has been made under the Jal Jeevan Mission. Out of this amount, Rs. 546.4 billion has already been released to the eligible States/UTs.

In addition to above, the **Micro Irrigation Fund (MIF)** provides loans to state governments to promote micro-irrigation technologies. **The National Mission for Sustainable Agriculture (NMSA)** focuses on promoting sustainable agricultural practices, including efficient water resource utilization, supporting irrigation methods that enhance water use efficiency and encourage conservation techniques like rainwater harvesting. **The Pradhan Mantri Fasal Bima Yojana (PMFBY)**, primarily a crop insurance scheme, indirectly impacts irrigation by providing coverage for crop losses due to inadequate or excess rainfall, incentivizing farmers to invest in improved irrigation practices. **The Jal Shakti Abhiyan**, a water conservation and security

campaign by the Ministry of Jal Shakti, promotes efficient water management and conservation practices essential for sustainable irrigation, contributing to enhanced agricultural productivity and supporting the irrigation sector in India.

- **Overview of key water projects (irrigation + water supply) in India**

India has various key irrigation ongoing projects aiming to play a crucial role in supporting agriculture, managing water resources, and enhancing rural livelihoods. These projects are instrumental in enhancing agricultural productivity, ensuring water security, and supporting the livelihoods of millions of people in India

- **Overview of key trends and drivers in the water sector**

Adoption of Micro-Irrigation Systems	Increasing adoption of drip and sprinkler irrigation systems for water-efficient irrigation. These systems help in conserving water and enhancing crop yields. Subsidies and financial incentives provided by the government under schemes like Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) would further aid in the adoption of micro-irrigation.
Technological Innovations	Integration of Internet of Things (IoT), sensors, and automation in irrigation systems to optimize water use and monitor soil moisture levels in real-time. Use of Geographic Information Systems (GIS) and remote sensing for efficient water resource management and planning. Adoption of continuous advancements in irrigation technologies, such as precision irrigation, automated systems, and remote monitoring would support growth in irrigation penetration
Sustainable Water Management Practices	Sustainable water management practices aid in optimizing water usage and reduce wastage of water. Techniques such as drip irrigation, rainwater harvesting and soil moisture management support growth in crop output. Further, these practices also aid in reduction of operational costs, making irrigation more affordable for farmers.
Increasing agriculture demand	The growing demand for food due to the rising population drives the need for enhanced agricultural productivity. Efficient irrigation systems are essential for maximizing crop yields. As the agriculture sector expands, so does the demand need for irrigation infrastructure. Export opportunities for agriculture products also incentive farmers to adopt advanced irrigation methods further driving the demand.
Government Policies and Schemes	Government scheme like Pradhan Mantri Krishi Sinchayee Yojana (PMKSY), Atal Bhujal Yojana (ABY), Accelerated Irrigation Benefits Programme (AIBP), Command Area Development and Water Management (CADWM) Programme and more have initiated to aimed at expanding irrigation coverage and improving water use efficiency through on focus on sustainable groundwater management through community participation and scientific approaches

- **Overview of key threats and challenges in the industry**

Aging Infrastructure	Much of India's irrigation infrastructure is build long ago and deteriorating, leading to inefficiencies and water losses. Canals and reservoirs, built decades ago, often suffer from poor maintenance and structural weaknesses. This aging infrastructure fails to meet the growing demands of modern agriculture, resulting in uneven water distribution and reduced irrigation efficiency. Delays in infrastructure modernization may hinder productivity of the agriculture sector.
Financial Constraints	Small and marginal farmers, who constitute the majority of the agricultural population, often lack the financial resources to invest in modern irrigation systems. The high initial costs of installing advanced technologies like drip and sprinkler irrigation deter widespread adoption. Moreover, access to credit and financing options remains limited, especially in rural areas. Ensuring financial inclusivity and affordable financing solutions is crucial for the industry's growth.
Technological Adoption	Despite the availability of advanced irrigation technologies, their adoption rate among farmers is relatively low. This is partly due to a lack of awareness and technical knowledge about the benefits and operation of these systems. Bridging this knowledge gap requires targeted education and capacity-building initiatives. Collaborative efforts between government agencies, private sector players, and agricultural universities can facilitate wider adoption of innovative irrigation solutions.

Environmental Concerns	Inefficient irrigation methods can lead to excessive water use, resulting in soil degradation and reduced agricultural productivity. Moreover, the overreliance on chemical fertilizers and pesticides in irrigated areas contributes to water pollution and ecosystem disruption. Promoting sustainable and environmentally friendly irrigation practices is vital for preserving natural resources.

- **Assessment of railway and metro sector in India**

- **History of Indian Railways**

The British laid the foundation

The railway, as a mode of transport, was introduced in India in the 19th century. The first passenger train took about 400 people from Mumbai to Thane for a 21-mile journey. In the south the first line was opened on 1st July 1856 by the Madras Railway Company. It ran between Vyasarpadi Jeeva Nilayam (Veyasarpandy) and Walajah Road (Arcot), a distance of 63 miles. In the North a length of 119 miles of line was laid from Allahabad to Kanpur on 3rd March 1859. These were the small beginnings which in due course developed into a network of railway lines all over the country. By 1880 the Indian Railway system had a route mileage of about 9000 miles. INDIAN RAILWAYS, the premier transport organization of the country is the largest rail network in Asia and the world's second largest network under one management.

Indian Railways is a government-owned organization with a monopoly in rail transportation in the country. Its operations are overseen by the Railway Board, which, in turn, is headed by the Ministry of Railways. The Railway Board comprises a chairman and six members. The Minister of Railways, two Ministers of State for Railways, and the Railway Board constitute the Ministry of Railways.

Figure 1: Indian Railways: At a glance as on year 2021-22

13,215 locomotives

84,863 coaches and 318,896 freight wagons

7,308 railway stations

300 yards

2,300 goods sheds

1.2 million workforces

The focus and functioning of Indian Railways took a turn for the better following the announcement of the Railway Budget 2016-17 that outlined the five-year capex, along with steps to ensure minimal populism, key structural reforms such as delegation of power, mooted an independent Rail Development Authority for setting tariff and performance norms, expediting project sanctioning and hosing resources into priority projects

- **Overview of Indian railways**

India's rail network is a multi-gauge, multi-traction system

Gauge, also called Railway Gauge, in railroad transportation, the width between the inside faces of running rail. In India Gauges are of three types: Broad Gauge (1.676m width), Meter gauge (1 m width) & Narrow Gauge (0.762m & 0.610 m in width).

Traction system, system which causes propulsion of train vehicle in which driving force is obtain from various device such as

Diesel or Electric. Indian Railway uses both Diesel and Electric traction system through its locomotives.

Gauge type and Route covered

Gauge type	Route Kilometers
Broad gauge (1.67m)	65,093 km
Meter gauge (1.00m)	1,656 km
Narrow gauge (0.76m/0.61m)	1,294 km
Total	68,403 km

- **Overview of investments in Indian railway and metro sector**
- **Investments in railway infrastructure to rise during fiscal 2025-29 led by Amrit Bharat station scheme and high-speed rail among others**

During fiscal 2019-24, on account of the government's focus on completing dedicated freight corridor (DFC) projects, traction in high-speed rail, investment in newer avenues such as Vande Bharat trains, and focus on the station redevelopment program, the sector has attracted a total infrastructure investment of Rs 10.4 trillion.

In the future, a infrastructure investment of Rs 16.6 - 16.8 trillion is estimated over the next five years between fiscal 2025 and 2029, which is an increase of 1.6 times compared to fiscal 2019-24, led by investments in network decongestion, Amrit Bharat station development scheme, and high-speed rail projects. With investments over fiscal 2024 to 2029 expected to nearly double, raising funds through external agencies, IEBR, and via PPP would be a key monitorable.

Further, the railway infrastructure development is also driven by the need to support economic growth, enhance freight efficiency and improve long distance passenger connectivity. Government initiative such as dedicated freight corridor and high-speed rail projects aim to modernise and expand the existing national rail network. Increased industrial trade and tourism activity require better logistics and transportation facilities. Additionally, the push towards sustainable transportation is also driving the investments in railway electrification and modernisation.

Investments in Indian railway sector

Source: CRISIL MI&A

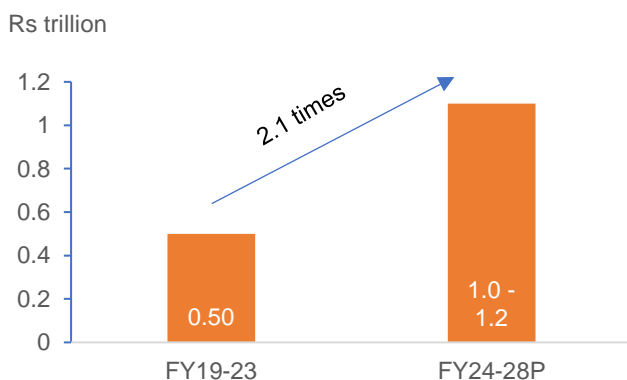

- **Metro projects to see infrastructure investments of Rs 1.0 – 1.2 trillion between fiscal 2025-29**

CRISIL MI&A estimates that infrastructure spends on metro projects in India will increase 2.1 times from Rs 0.5 trillion during fiscal 2019-24 to Rs 1.0 – 1.2 trillion over fiscals 2025 to 2029. Bulk of the metro projects are under construction and have achieved financial closure, with the lockdown and migration of labour the only impediments that drove investments lower in fiscal 2021, while deferral of investments led to revival in fiscal 2022 with the momentum continuing during next two fiscals.

Going ahead, new project announcements, as well as completion of under construction projects, by state governments to aid growth in the sector. In addition, new metro rail policy was announced during the Union Budget (2018) to develop private interest in the segment.

To increase the viability of metro projects and make them available across cities with lesser populations, Government of India has announced Metro-Neo and Metro-Lite. These are cheaper to construct and operate and are suited for cities with lower population densities.

Investments in Indian metro sector

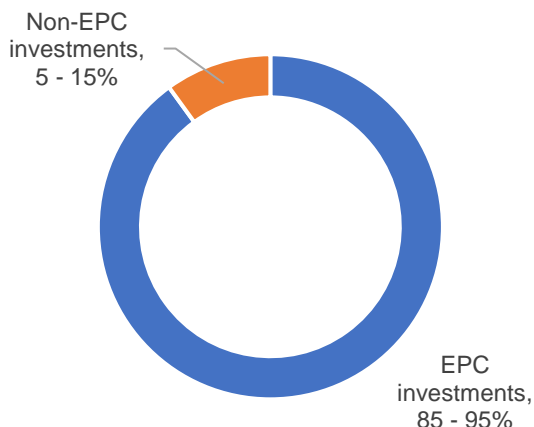

Source: CRISIL MI&A

- **EPC projects make up 85-95% of investments in railway and metro sector combined**

Indian Railways previously used conventional item rate contracts for construction projects, where the authority provided detailed designs and quantity estimates, and payments were based on measurements of completed work. This method often led to time and cost overruns due to design delays, variations in items and quantities, and inadequate funding, with the authority bearing most construction risks. Project engineers spent considerable time managing these variations and adjusting contract prices. To meet the growing economic demand and enable faster expansion of the freight network, improved project execution capabilities are essential. Therefore, Indian Railways decided to adopt the Engineering, Procurement, and Construction (EPC) mode of contracting for construction projects.

As per CRISIL MI&A estimates, barring a few PPP projects being given out for station redevelopment, and a handful of projects to run private trains in the country, rest 85 - 95% of the projects in Indian railways are executed via EPC route.

- Key trends and growth drivers of the industry**

Urbanisation and population growth	Rising urbanization and population growth in India are driving the demand for efficient railway network in the country. New metro systems are being constructed in order to accommodate the increasing number of commuters in urban areas and also to reduce the traffic congestion as well as pollution in the urban cities.
Technological advancements	In the recent years, Indian railways has also seen rise in technological adoption. High speed trains, automated signaling systems, and GPS enabled tracking of trains are being integrated to improve operational efficiency and passenger safety along with travel convenience. Further, Indian railways has also introduced 'KAVACH', the domestically developed Train Collision Avoidance System.
Enhanced intermodal and last-mile connectivity	Improved railway and city rail metro integration with freight corridors, airports, well-connected highways, bus terminals, and inland ports would further aid in better scheduling of timed transfers and reduction in logistical wait-time.
Government thrust	Increase in government focus for overall development of infrastructure through schemes and policies such as Station redevelopment, modernization of 40,000 normal bogies to vande-bharat bogies, national rail plan (NRP-2030) under which GoI aims to increase share of railways in freight to 45% and reduce the transit time among others.

- Key threats and challenges of the industry**

Complex projects	Railways and metro projects are highly complex in nature with regards to their scale, technical

expertise, financial capabilities, legal and regulatory requirements. This complexity increases risks and costs making private investors hesitant to participate.

Cost overrun and execution delays Several railways and metro projects have been experiencing cost overrun and executive delays primarily on account with delays in land acquisition, inadequate planning, project financing issues, approval from several authorities, complex engineering requirement, unforeseen ground conditions on an ongoing basis.

Overcrowding Indian Railways carry large number of passengers on a daily basis. This high volume of passengers coupled with aging infrastructure of Indian Railways creates pressure on the system leading to delays and passenger discomfort

- **Overview of key policies and schemes in the sector**
- **National Rail Plan – 2030**

Indian Railways have prepared a National Rail Plan (NRP) for India – 2030. The Plan is to create a ‘future ready’ Railway system by 2030. The NRP is aimed to formulate strategies based on both operational capacities and commercial policy initiatives to increase modal share of the Railways in freight to 45%. The objective of the Plan is to create capacity ahead of demand, which in turn would also cater to future growth in demand right up to 2050 and also increase the modal share of Railways to 45% in freight traffic and to continue to sustain it.

To achieve this objective, following main features of the National Rail Plan have been identified:

- Formulate strategies based on both operational capacities and commercial policy initiatives to increase modal share of the Railways in freight to 45%
- Reduce transit time of freight substantially by increasing average speed of freight trains to 50Kmph
- Identify new Dedicated Freight Corridors
- Identify new High Speed Rail Corridors
- Assess rolling stock requirement for passenger traffic as well as wagon requirement for freight.
- Assess Locomotive requirement to meet twin objectives of 100% electrification (Green Energy) and increasing freight modal share.
- Assess the total investment in capital that would be required along with a periodical break up.
- Sustained involvement of the Private Sector in areas like operations and ownership of rolling stock, development of freight and passenger terminals, development/operations of track infrastructure etc.

High speed rail projects

The Government of India has envisaged development of high speed rail (HSR) corridors and has identified 8 corridors for constructing HSR projects of which the Mumbai Ahmedabad corridor is under construction while DPR preparation of the remaining projects is under preparation.

Mumbai-Ahmedabad High Speed Rail (MAHSR) project passes through high growth rate States of Gujarat and Maharashtra connecting business centres of Mumbai, Surat, Vadodara and Ahmedabad. The sanctioned cost of the MAHSR project is Rs. 1,080.0 billion. As of 9th February 2024, 290.64 km of pier foundation, 267.48 km of pier construction, 150.97 km of Girder Casting and 119.00 km of Girder launching have been completed.

Dedicated freight corridors

Ministry of Railways has taken up construction of two Dedicated Freight Corridors (DFCs) which are Eastern Dedicated Freight Corridor (EDFC) and Western Dedicated Freight Corridor (WDFC). EDFC pans from Ludhiana to Sonnagar (1337 Km) and WDFC from Jawaharlal Nehru Port Terminal (JNPT) to Dadri (1506 Km). The construction of Dedicated Freight Corridors will aid in reducing the logistic cost with higher axle load trains, Double Stack Container trains(DSC) and faster access to Northern hinterland by Western Ports and will also lead to development of new industrial hubs and Gati Shakti Cargo Terminals.

As of 9th February 2024, Construction of EDFC has been fully completed and 1220 Km out of 1506 Km of WDFC has been completed and train operations are going on in the completed sections.

- **Amrit Bharat Station Scheme**

Launched on 6th August 2023, the Amrit Bharat Station Scheme aims to transform and revitalize 1,309 railway stations nationally. The scheme involves

- Preparation and implementation of master plans to improve the amenities at the stations.
- The scheme also envisages improvement of the building, integrating the station with both sides of the city, multimodal integration, amenities for Divyangjans, sustainable and environment-friendly solutions, provision of ballastless tracks, 'roof plazas' as per necessity, phasing and feasibility and creation of city centres at the station in the long term.

On 26th February 2024, the Government of India, as part of the Amrit Bharat Station Scheme, proposed 553 railway stations with an overall cost of Rs 190.00 billion.

In addition, it also proposed 1,500 infrastructure redevelopment projects like overbridges and underpasses at an overall cost of Rs 215.20 billion. It will be providing an overall opportunity of Rs 410.00 billion

- **Kisan Rail**

Small and marginal farmers often struggle to transport their produce over long distances. To address the issue and help them access larger markets, the Government of India in the Union Budget of 2020-21 announced 'Kisan Rail'. The major aim of Kisan Rail services is to transport perishable goods such as dairy products, poultry, fruits, vegetables, meat, fishery, etc from regions of high production to regions of high consumption. Up to 31 October 2022, Indian Railways have operated 2,359 Kisan Rail services, transporting approximately 7,91,000 lakh tonnes of perishables including fruits and vegetables.

Indian Railways' operating ratio (OR) declined slightly to 97.45 in fiscal 2021 from 98.36 in fiscal 2020. The OR for fiscal 2022 deteriorated as it climbed to 107.39. The operating ratio is estimated at ~98.22 in fiscal 2025 as per budget estimates.

Competitive analysis

In this section, CRISIL MI&A has analysed key EPC players operating in the Indian industry. Data in this section has been obtained from publicly available sources, which include annual reports and investor presentations, regulatory filings, rating rationales, and/or company websites. Financials in this section have been re-classified by CRISIL, based on annual reports and financial filings by the respective players. Financial ratios used in this report may not match with the reported financial ratios by the players on account of standardisation and re-classification done by CRISIL.

Note: The list of peers considered in this section is not an exhaustive but an indicative list. Key Indian infrastructure and EPC players with offering similar product / service portfolio as Vikran Engineering Limited have been considered in this segment.

Following nomenclature has been considered in this section of the report:

- Bajel Projects Ltd : Bajel
- Kalpataru Projects International Limited: Kalpataru
- K E C International Limited: KEC International
- RPP Infra Projects Limited: RPP Infra
- Shreem Electric Limited: Shreem
- Sterling and Wilson Private Limited : Sterling and Wilson
- SPML Infra Limited: SPML Infra

- Techno Electric & Engineering Company Limited: Techno
- Texmaco Rail & Engineering Ltd : Texmaco
- Transrail Lighting Limited: Transrail
- Vikran Engineering Limited: Vikran

- **Brief overview of the company**

Company name	Brief description
Bajel	Bajel Projects Limited (Bajel), incorporated in January 2022 (formerly a wholly owned subsidiary of Bajaj Electricals Ltd). In September 2023, the Engineering & Projects (E&P) or the EPC business of Bajaj Electricals Ltd was demerged into Bajel as a part of a scheme of demerger. The company has presence in power transmission, power distribution, international EPC projects and monopoles.
Kalpataru	Established in 1981 by Mr Mofatraj P Munot, the company undertakes turnkey contracts for setting up transmission lines and substations for extra-high-voltage power transmission. Over the years, it has diversified into civil contracts, railways, and oil and gas pipeline construction.
KEC International	Established in 1945, KEC International Limited is the flagship company of the Harsh Goenka faction of the RPG group. The company executes power transmission and distribution, railways, civil and solar projects on an EPC basis. The company is also into manufacturing of transmission towers along with power and telecom cables.
RPP Infra	Established in 1988, RPP Infra Projects Limited is a construction company with registered office located at Erode, Tamil- Nadu. The company operates in the Power, Irrigation and Water supply, Industrial structure, Roads and Buildings segments. The company's focuses on small government projects as short-medium tenure projects
Shreem	Shreem Electric Limited was incorporated in 1976. The company is involved in turnkey projects for electricity transmission and distribution sector. Along with this the company is also involved in the manufacturing of wide range of medium and high/ low voltage capacitors, capacitor banks, circuit breakers, control, and relay panels among others
Sterling and Wilson	Sterling and Wilson was formed in 1973. The companies projects are spread across six key businesses including turnkey data centers, renewable energy, MEP, industrial EPC, transmission and distribution and generators.
SPML Infra	SPML Infra Limited is engaged in infrastructure development on engineering, procurement and construction (EPC) basis which include water infrastructure and management, wastewater treatment, rural electrification and distribution, solid waste management and other civil infrastructure.
Techno	The Kolkata-based Techno Electric & Engineering Company Limited has been set up by the promoter, Mr PP Gupta. The company undertakes turnkey EPC projects, predominantly in the power sector, across generation, transmission, and distribution segments.
Transrail	Transrail was incorporated as Transrail Engineering Company Limited in 1984 by Mr. D. C. Bagde. In October 2016, the T&D business division of Gammon India Ltd (GIL) was transferred to Transrail through a business transfer agreement (BTA). The company is into EPC with primary focus on power transmission and distribution business and integrated manufacturing facilities for lattice structures, conductors, and monopoles

Company name	Brief description
Texmaco	Texmaco Rail & Engineering Ltd. is a multi-unit Engineering and Infrastructure Company, with 6 manufacturing units. The Company is involved in the business of manufacturing of Rolling Stock, such as Wagons, Coaches, EMUs, Loco shells & parts, etc., Hydro Mechanical Equipment's, Steel Castings, Rail EPC, Bridges and other steel structures.
Vikran	<p>Vikran Engineering Limited was incorporated in the year 2008 and was acquired by the promoter Mr Rakesh Markhedkar in the year 2014. The company has a technical workforce of 442 employees out of total employee strength of 674 and total supplier base of 3,500 vendors across various states.</p> <p>Vikran Engineering Limited provides end-to-end services from conceptualisation, design, supply, installation, testing and commissioning on a turnkey basis and has presence across multiple sectors including power, solar, water, and railway infrastructure. Within the Power sector, the company has presence in both- power transmission and power distribution and has completed projects under various schemes in Power Transmission (up to 400kV level), extra high voltage (EHV) substations (up to 765kV level) including construction of 132 KV transmission line and bay extension projects as part of railway electrification. The company also has experience in Solar EPC of ground mounted solar projects and smart metering. In the Water sector, its projects include underground water distribution and surface water extraction, overhead tanks, and distribution networks.</p> <p>The company's key competencies encompass inhouse design and engineering and timely project execution. Vikran Engineering Limited, has successfully executed projects for government entities, public sector undertakings and private companies. The company's focus on operational excellence, and efficient cost structure, and has enabled it to deliver high-value projects that meet stringent regulatory and quality standards. The company has also implemented SAP S/4 HANA system in the organization.</p>

OVERVIEW

We are one of the fast-growing Indian Engineering, Procurement and Construction (EPC) company. We have a diversified project portfolio, with majority revenue from energy and water infrastructure verticals (contributing 49% each) which have a high growth potential in the medium term. We provide end-to-end services from conceptualisation, design, supply, installation, testing and commissioning on a turnkey basis and has presence across multiple sectors including power, water, and railway infrastructure. Within the power sector, we have presence in both- power transmission and power distribution and have completed projects under various schemes in power transmission (up to 400kV level), extra high voltage (EHV) substations (up to 765kV level) including construction of 132 KV transmission line and bay extension projects as part of railway electrification. In the water sector, our projects include underground water distribution and surface water extraction, overhead tanks, and distribution networks. The company also has experience in Solar EPC of ground mounted solar projects and smart metering. (Source : CRISIL Report). Also, as a part of railway projects we undertake 132 kV traction substation projects and underground EHV cabling projects.

Our key competencies encompass inhouse design and engineering and timely project execution. We have successfully executed projects for government entities, public sector undertakings and private companies. Our focus on operational excellence, and efficient cost structure, and has enabled us to deliver high-value projects that meet stringent regulatory and quality standards. (Source : CRISIL Report)

Besides having the fastest growth in profitability, with a 236.94% CAGR growth in PAT and 130.02% CAGR growth in EBITDA between fiscal 2022 to 2024, we have highest Return on Equity (ROE) and Return on Capital Employed amongst our peer group. (Source : CRISIL Report)

We have experience of executing EPC projects with some of our projects being completed either ahead of schedule or within the contractual time periods. As of August 31, 2024, we have successfully completed 44 projects across 11 states with a total executed contract value of ₹ 18,958.14 million. As of August 31, 2024, we have 34 ongoing projects across 17 states, aggregating orders of ₹ 39,570.55 million, of which Order Book of ₹ 19,557.00 million. Our clients in the government sector include NTPC Limited, Power Grid Corporation of India Limited, South Bihar Power Distribution Co. Ltd., North Bihar Power Distribution Co. Ltd., Transmission Corporation of Telangana Limited, Madhya Pradesh Power Transmission Company Limited, Madhya Pradesh Madhya Kshetra Vidyut Vitran Company Limited, District Water and Sanitation Mission (PHED) and State Water and Sanitation Mission (SWSM). Further we are working on certain projects for Assam Power Distribution Company Limited and the Danapur division of the Eastern Central Railway.

Our projects cover the following infrastructure business verticals:

(i) *Power Transmission and Distribution*: We undertake the construction of high-voltage transmission lines up to 765 kV, substations up to 400 kV (both Air Insulated Substations (AIS) and Gas Insulated Substations (GIS)), and power distribution networks. We have completed several projects in India including (i) 765 kV AIS bays / 400 kV bays in Raipur substation (ii) 400 kV Bina substation with 80 MVA Reactor for Madhya Pradesh Power Transmission Company Limited and (iii) 400 kV substation with 500 MVA power transformer at Muzaffarpur in Bihar. We have also executed 30,000 smart metering connections under this vertical.

(ii) *Water Infrastructure*: We provide turnkey solutions for water infrastructure projects such as surface and underground drinking water projects. Our experience and scope extends to designing and implementing water distribution networks and rainwater harvesting systems.

(iii) *Railway Infrastructure*: We are also involved in the railway infrastructure sector, particularly in railway electrification. We have successfully completed projects involving overhead electrification and signalling systems. Also, as a part of railway electrification projects OHE 25kV, 50 Hz AC railway electrification project, 220 kV underground EHV cable work and construction of 132 kV transmission line and 132 kV railway traction substations projects.

The details of contribution to revenue from operations by each vertical is set out below:

(Amount in ₹ million, unless otherwise stated)

Vertical	Fiscal 2024		Fiscal 2023		Fiscal 2022

Market opportunity

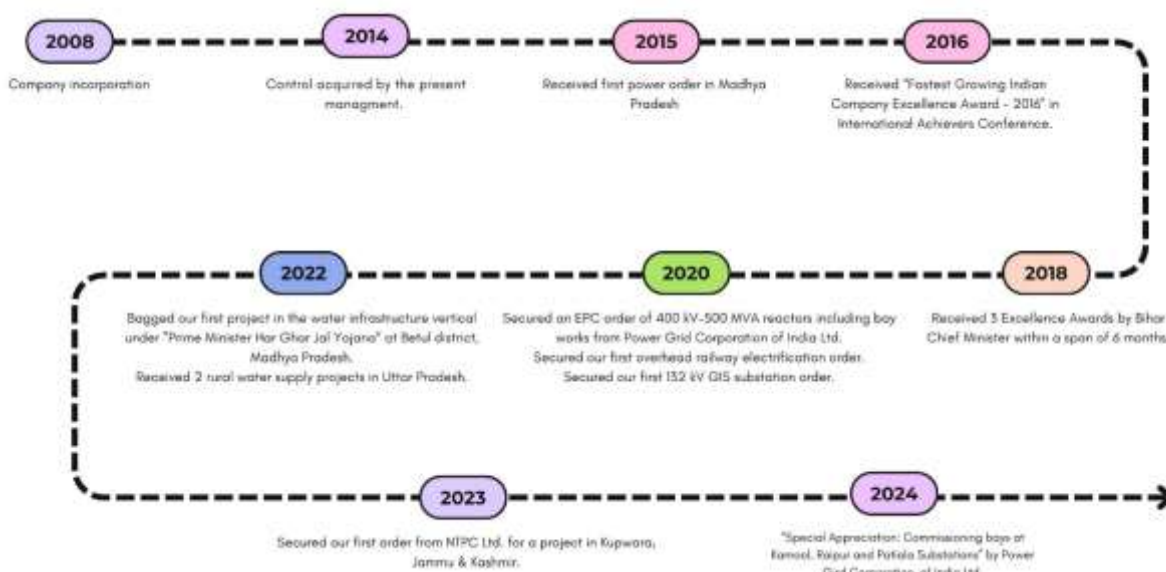

The transmission sector, a crucial part of the power industry, required more attention to meet the growing demand for electricity and the expanding generation capacity. Robust generation capacity addition over the years and government's focus on 100% rural electrification through last mile connectivity has led to extensive expansion of the T&D system across the country. The total length of domestic transmission lines rose from 413,407 circuit kilometres (ckm) in Fiscal 2019 to 485,544 ckm in Fiscal 2023. (source: CRISIL Report)

Sub-station capacities in the country have grown from 899,663 MVA in fiscal 2019 to reach 1,251,080 MVA in fiscal 2024, at a CAGR of 6.8%. The growth in sub-station capacities has majorly seen traction in 220 kV, 400 kV and 765 kV segments, contributing to 32%, 41% and 24% of the incremental additions between fiscals 2019 and fiscal 2024. (source: CRISIL Report)

In case of water supply and sanitation, during fiscal 2019-24 the sector has seen a total infrastructure investment of Rs 4.4 trillion which are expected to grow by ~2.3 times during fiscal 2025-29 reaching a total of Rs 9.9 trillion. This growth is majorly poised by support from government through various schemes such as Swachh Bharat Mission (SBM), Jal jeevan mission and the National Mission for Clean Ganga (NMCG). In addition to these schemes such as Atal Mission for Rejuvenation and Urban Transformation (AMRUT), which focuses on development of water supply and sanitation facilities among others along the infrastructure growth in urban regions. Our Journey

A brief journey of our milestones is list below:

We have been increasing our revenues and expanding Order Book. Our revenue from operations grew at a CAGR of 28.74% from ₹4,742.12 million in Fiscal 2022 to 7,859.48 million in Fiscal 2024 and our PAT increased at a CAGR of 236.94% from ₹65.91 million in Fiscal 2022 to ₹748.31 million in Fiscal 2024.

Notes:

- (1) Revenue from operation means revenue from operating activities
- (2) EBITDA means Earnings before interest, taxes, depreciation and amortisation expense, arrived at by obtaining the profit before tax/ (loss) for the year and adding back finance costs, depreciation and amortisation and impairment expense and reducing other income and exceptional items.

- (3) *EBITDA Margin is calculated as EBITDA as a percentage of revenue from operations.*
- (4) *PAT represents total net profit after tax for the year.*
- (5) *PAT Margin is calculated as PAT divided by total income.*
- (6) *ROE is calculated as PAT divided by Net worth;*
- (7) *ROCE is calculated as EBIT divided by capital employed where (i) EBIT means EBITDA minus depreciation and amortisation expense and (ii) Capital employed means Net worth as defined in (8) below + total current & non-current borrowings– cash and cash equivalents and other bank balances;*
- (8) *Net worth has been defined under Regulation 2(1)(hh) of the SEBI ICDR Regulations as the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation ;*
- (9) *CAGR = Compounded Annual Growth Rate*
- (10) *Debt Equity Ratio: This is defined as total debt divided by total equity. Total debt is the sum of total current & non-current borrowings; total equity means sum of equity share capital and other equity;*
- (11) *Fixed Asset Turnover Ratio: This is defined as revenue from operations divided by total of property, plant & equipment. Figures for property, plant & equipment do not include capital work-in-progress.*
- (12) *Inventory Turnover Ratio is calculated by dividing cost of goods sold during the period with average inventory.*
- (13) *Order Book as of a particular date comprises the estimated billing from the unexecuted portions of all existing contracts of the Company.*

Our Strengths

Our principle competitive strengths include the following.

One of the fast-growing engineering, procurement and construction (“EPC”) companies, with timely execution of power transmission and distribution and water infrastructure sector.

We are one of the fast-growing Indian Engineering, Procurement and Construction (EPC) company. We provide end-to-end services from conceptualisation, design, supply, installation, testing and commissioning on a turnkey basis and has presence across multiple sectors including power, water, and railway infrastructure. Our key competencies encompass inhouse design and engineering and timely project execution. (*Source: CRISIL Report*). As of August 31, 2024, we have successfully completed 44 projects across 11 states with a total executed contract value of ₹ 18,958.14 million. As of August 31, 2024, we have 34 ongoing projects across 17 states, aggregating orders of ₹ 39,570.55 million, of which unexecuted Order Book of ₹ 19,557.00 million. At the same time, our Company has built 10 EHV substations of up to 765kV. We also provide EPC services in relation to Extra High Voltage (“EHV”) Air Insulated Substations (“AIS”) up to 400 kV.

According to the CRISIL Report, to service a large generation installed base, the estimated investment in the transmission sector is expected to cumulatively reach ₹2.5-3.5 trillion over fiscals 2025-29. Investments in the sector are expected to be driven by the need for a robust and reliable transmission system to support continued generation additions and the strong push to the renewable energy sector as well as rural electrification. Further, the need for a robust transmission system to support generation additions, renewable energy push, and rural electrification will fuel the investments. (*source: CRISIL Report*). We provide integrated solutions in power transmission for projects up to 400 kV on turnkey basis and we have also undertaken projects for rural electrification in Bihar, Jharkhand and Madhya Pradesh positioning us well to capitalise on industry trends.

According to CRISIL Report, favourable government initiatives, increased infrastructure development in sectors such as roads, power, railways, irrigation etc have provided impetus to EPC contracts. Over the years, on back of strong government support through various initiatives such as Pradhan Mantri Sahaj Bijli Har Ghar Yojana – Saubhagya, Deendayal Upadhyaya Gram Jyoti Yojana (“DDUGJY”) coupled with increased on renewable energy, GVA of the industry (in absolute terms) at constant prices grew to ₹3.7 trillion in fiscal 2024, on a base of ₹1.9 trillion in Fiscal 2021, thereby registering a CAGR of 6.0%. We have successfully carried out multiple system strengthening projects including orders under the Rajiv Gandhi Grameen Vidyutikaran Yojana, Integrated Scheme (IPDS), Deendayal Upadhyay Gram Jyoti Yojana (DDUGJY), Pradhan Mantri Sahaj Bijli Har Ghar Yojana - (Saubhagya).

The Government of India has made a commitment to ensure that all rural households in the country have access to safe and potable tap water in sufficient quantity and of a specified quality on a regular and long-term basis. To

achieve this goal, the Jal Jeevan Mission (JJM) was launched in August 2019, in collaboration with the states. Since inception of Jal Jeevan Mission, significant progress has been made in improving access to tap water for rural households. As of July 2024, 117.8 million additional rural households have been provided with tap water connections under JJM, this accounts for ~77.8% of rural households in India having tap water supply in their homes. During the current year of 2024 around 10.6 million connections have being provided till date. (source: CRISIL Report). We are executing projects under JJM in Uttar Padesh, Madhya Pradesh and Chhattisgarh. In Fiscal 2024 we have executed projects worth ₹3,873.37 mn in water infrastructure vertical. As on August 31, 2024, we have an Order Book of ₹8,449.04 mn under water infrastructure vertical.

We believe that this effectively positions to capitalize on new opportunities across various geographies.

Diversified Order Book across business verticals and consistent financial performance

In our industry, the Order Book holds significant importance as it represents the estimated contract value of the unexecuted portion of a company's existing assigned EPC contracts and provides visibility of future revenues. (Source: Crisil Report)

Our Order Book has grown from ₹ 5,173.49 million as of March 31, 2022, to ₹ 20,457.86 million as of March 31, 2023, ₹ 21,148.02 million as of March 31, 2024. Our Order Book is diversified across business verticals including power transmission and distribution, water infrastructure, and railway infrastructure. Further, we have presence in all the power transmission and distribution segments, which helps our Order Book to remain diversified within the power sector as well. For further details, see "Description of our Business and Operations" on page 210. We have developed pre-qualifications in government projects for power transmission lines upto 400 kV, Substations upto 765 kV and power distribution projects of 33 kV and 11 kV, distribution substations and distribution lines. Additionally, we are also qualified for bidding for energy meter service connection projects. This enables us to bid for and execute projects across all these verticals.

The tables below set out details of our Order Book by business verticals and types of clients, as of the dates mentioned:

(Amount in ₹ million, unless otherwise stated)

Note:

1. Comprises state and central governments in India
2. Comprises government agencies and government-owned enterprises

Our government and public sector contracts are sourced from a wide range of entities across geographies. Our involvement in a variety of projects, ranging from extra high-voltage transmission lines to water treatment plants to railway electrification, helps in maintaining flow of business opportunities and mitigates sector-specific risks. This diversification reduces our reliance on any single revenue stream, providing stability and helps us to face market fluctuation.

The growth of our business for the Fiscal 2022, 2023 and 2024 has contributed to our financial position. Our revenue from operations grew at a CAGR of 28.74% from ₹4,742.12 million in Fiscal 2022 to 7,859.48 million in Fiscal 2024. Our profit for the year increased from 65.91 million in Fiscal 2022 to 748.31 million in Fiscal 2024 at a CAGR of 236.94%. We strive to maintain our financial position with emphasis on having a strong balance sheet. For further details, see “*Key Performance Indicators*” on page 203.

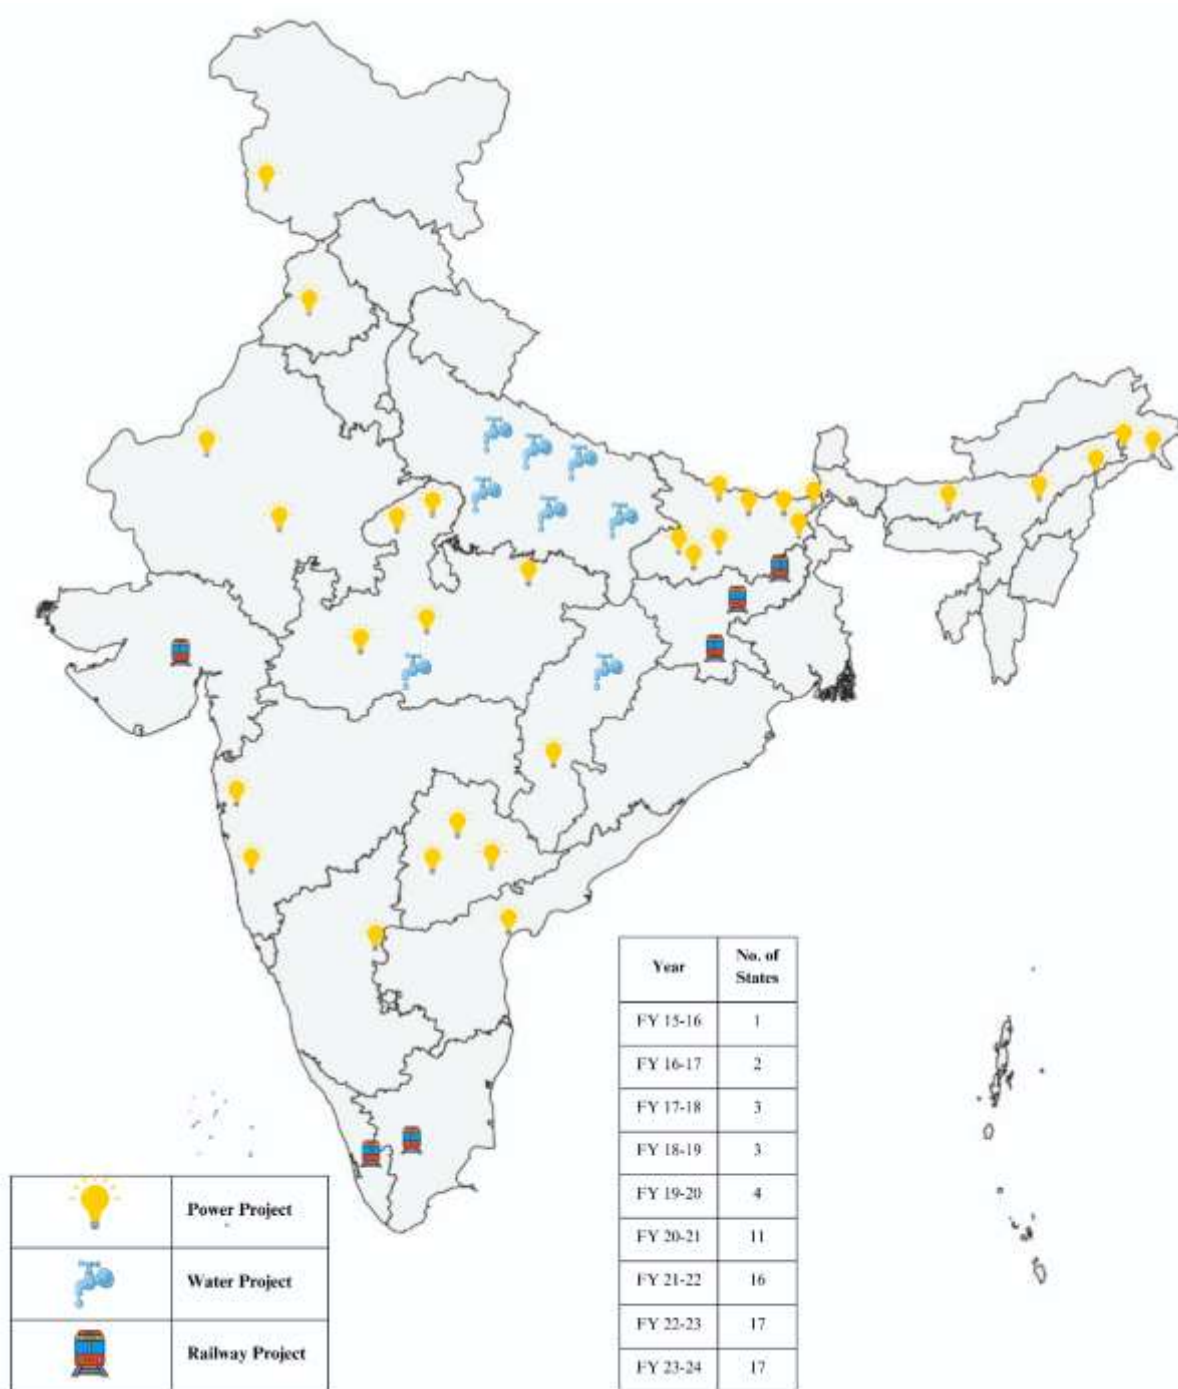

Our balance sheet enables us to fund our strategic initiatives, pursue opportunities for growth and better manage unanticipated cash flow variations. Our financial position enables us to access bank guarantees and letters of credit at competitive terms.

Our Company has received the following credit ratings:

Pan India presence with strong supply chain

In our journey so far, we have executed work across 22 states, of which we are currently executing projects in 17 states. Set forth below is a graphical representation of our geographic presence across various states in India.

With a pan-India presence supported by 195 sites and store locations as of August 31, 2024, we offer a range of EPC services that cater to the specific needs of our customers across the country. This distribution of offices allows us to provide on-the-ground support and services, project efficiency and customer satisfaction. We have also executed multiple projects with some of our key customers such as NTPC Limited, Transmission Corporation of Telangana Limited, Madhya Pradesh Power Transmission Company Limited, South Bihar Power Distribution Co. Ltd.

Further, in order to derive insights into the markets for raw materials and equipments, we maintain long-standing relationships with several of our suppliers and service providers. This also helps us to manage our raw material supply chain and inventory thereby resulting in better estimation of supply. During the last three Fiscals, we had over 3,500 suppliers and service providers across many states. Our extent of purchases from suppliers in any particular period depends inter alia on the location of our projects, nature of our projects, commercial terms, proximity of suppliers, etc. By diversifying our supply chain network, we endeavour to maintain regular availability of materials and equipments. This approach helps to reduce dependency on a limited number of suppliers and consequently, enable us to adhere to project timelines, delivering on schedule while maintaining the quality and operational efficiency.

Asset light model

We follow an asset light model by executing more orders with relatively lower investment in fixed assets. We take equipments on rent from third party lessors of equipment across various states to meet our requirements of equipments as per project needs. This helps us reduce our fixed costs and makes the execution of our projects cost and logistics efficient. It also helps our management team to focus on core function areas of business rather than managing and maintaining such in-house assets. Further, we believe we can scale up and down fairly faster with the changes in our operations without worrying about asset capacities and ownership. We believe our asset light business model will result in efficient utilisation of capital. Our fixed asset turnover ratio as of Fiscals 2024, 2023 and 2022 was 91.00, 57.38, 46.13, respectively. We also expect the asset light nature of our business model to allow us to minimize costs incurred initially.

In-house technical and engineering capabilities, process control and quality assurance

We undertake our EPC business in an integrated manner. Our Company has developed resources in-house to deliver a project from conceptualization until completion ensuring overall overview of the project and execution of the project. We have a team of 10 designers and engineers who have industry knowledge in our business verticals with a total cumulative experience of over 93 years who help us to offer customised solutions for our turnkey projects. Apart from this, we also have a team of designers and engineers deputed for providing on-ground support at our ongoing project sites. Our in-house integrated model includes a design and engineering team for each business vertical to oversee timely completion of projects, in line with the applicable quality standards thereby allowing us to capture a larger proportion of the value chain in the EPC business.

We have a centralised project monitoring and control group (“CPMG”) at our Registered and Corporate Office comprising 5 members, who oversee the project and review control mechanism periodically wherein they monitor the progress of our projects as per project milestones, budgetary financial control and schedule periodic meetings within various departments and management review meetings.

We are ISO 9001:2015 certified organization for Quality Management System, 14001:2015 certified for environmental management system and ISO 45001:2018 certified for occupational health and safety management system. In addition to the inspections conducted by external agencies, we also conduct internal inspection, internal audit and quality control of raw materials used in our projects.

Experienced promoters and management team, having domain knowledge

We have seen business growth under the leadership and guidance of one of our Promoters, Chairman and Managing Director, Rakesh Ashok Markhedkar, who has 34 years of experience, largely in EPC sector. He has passed bachelor’s in engineering (electrical) from Samrat Ashok Technological Institute, Vidisha (M.P.), Barkatullah University. He also holds a master’s degree in science in quality management from the Birla Institute of Technology and Science, Pilani, Rajasthan and participated in the general management programme for Larsen and Toubro Limited conducted by the Indian Institute of Management, Bangalore. He has previously worked in Larsen and Toubro Limited, Voltage Engineering Limited, EMCO Limited, KEI Industries Limited, ERA Infra Engineering Limited and Bajaj Electricals Limited. He received “World’s Best Emerging Leader” award in WCRCFEST 2023, certificate of recognition as “Most Promising Business Leader of Asia” from Economic Times in 2017 and “Leading Director 2021” award from Greentech Foundation.

Avinash Markhedkar has over 34 years of experience and has been on the Board of Directors of our Company since November 02, 2015. He has passed bachelor’s in engineering (mechanical) from Samrat Ashok Technological Institute, Vidisha (M.P.), Barkatullah University. He has also passed master of business administration exam from the Indra Gandhi National Open University. He has completed the program on leading and managing from Indian Institute of Management, Calcutta.

Nakul Markhedkar, our Whole-Time Director has over 8 years of experience. He holds a bachelor’s degree in technology (electronics and communication engineering) from Manav Rachna International University.

Our senior management team is able to leverage their collective experience and knowledge in the EPC industry, to execute our business strategies for our growth. Our KMP and SMP team comprises of professionally qualified people having experience in various business functions.

Our Strategies

Continue to strengthen our core competencies in power transmission and distribution and water infrastructure sectors

We have streamlined our focus on executing EPC projects in the power transmission and distribution, water infrastructure sectors. Over fiscals 2025 to 2029, power demand is expected to gradually pick up, logging a CAGR of 5-7% to reach 2,160-2,180 BUs, on the back of healthy economic growth and expansion of the power footprint via strengthening of distribution infrastructure. Major reforms initiated by the central government for improving the overall health of the power sector, particularly that of state distribution utilities, are expected to improve the quality of power supply, thereby supporting power demand. (Source: CRISIL Report).

With significant investments expected in the power transmission and distribution sector in India from Fiscal 2025 to 2029, the market for EPC for power transmission and distribution will also improve. (Source: CRISIL Report) During the last eight years till August 31, 2024, we have achieved our milestones in the power transmission and distribution business, wherein we have completed 3 projects under various schemes in the power transmission sector of up to 400kV level, 7 projects for EHV substations up to 765kV level and 30 projects in the power distribution sector as well as completed execution of 30,000 smart metering connections. Leveraging our experience in the power transmission and distribution sector, we intend to undertake additional projects and also undertake higher value projects in this segment.

We will also intend to further strengthen our substation and underground cabling businesses. During fiscal 2019-24, due to rise in investment expenditure across major agriculture states, coupled with central government focus on schemes such as Pradhan Mantri Krishi Sinchayee Yojana (PMKSY), accelerated irrigation benefits programme (AIBP) and command area development and water management (CAD&WM) Programme, the sector has attracted a total investment of ~Rs 5.2 trillion. In the future, an investment of Rs 7.7 – 7.9 trillion is estimated over the next five years between fiscal 2024 and 2028, which is an increase of ~1.5 times over the past five years, owing to the push from state governments to increase irrigation penetration in states. (Source: CRISIL Report). We intend to continue to maintain our position in implementation of water infrastructure projects. In case of water supply and sanitation, during fiscal 2019-24 the sector has seen a total infrastructure investment of Rs 4.4 trillion which are expected to grow by ~2.3 times during fiscal 2025-29 reaching a total of Rs 9.9 trillion. This growth is majorly poised by support from government through various schemes such as Swachh Bharat Mission (SBM), Jal jeevan mission and the National Mission for Clean Ganga (NMCG). In addition to these schemes such as Atal Mission for Rejuvenation and Urban Transformation (AMRUT), which focuses on development of water supply and sanitation facilities among others along the infrastructure growth in urban regions. (Source: CRISIL Report).

As of August 31, 2024, we are presently executing 12 ongoing water infrastructure projects. We are also currently executing projects in Madhya Pradesh, Uttar Pradesh and Chhattisgarh under the government's Jal Jeevan Mission initiative. With the increasing focus on water sector projects from the government, we believe we are positioned to capitalize on these opportunities and expand our portfolio in the water infrastructure sector.

Selectively expanding our geographical footprint globally

We started our operations from Madhya Pradesh and gradually expanded over time to complete projects in 22 states in India. As of August 31, 2024, we are currently executing 34 projects across 17 states in India. As part of our growth strategy, we aim to expand into infrastructure EPC projects in the private sector and explore international markets, particularly in African and Middle Eastern regions.

As per International Energy Agency (IEA), world energy outlook 2023, there are around 600 million people without access to electricity in Africa and they constitute around 80% of the global population without access, displaying the critical need for electrical infrastructure in Africa. This lack of access to electricity across the African region has influenced public and private investments in the deployment of new transmission and distribution networks across the region. (Source: CRISIL Report)

We believe our experience and qualifications in domestic power transmission and distribution projects will help us to gain customer base in other countries and capitalize on emerging opportunities.

Expand our EPC portfolio into other EPC sectors

To enhance our business growth, we plan to expand our presence in various verticals, including railways and metros. This is expected to diversify our offerings, reduce dependency on existing services, and target higher-margin opportunities with lower working capital requirements. Over the coming years, we will focus on current projects while exploring opportunities to broaden our portfolio into other EPC sectors. For instance, we are set to expand into the solar

EPC industry by undertaking turnkey projects for solar PV systems up to 100MWp and balance of system projects for solar power plants up to 300MWp.

In the water sector, we are qualified and actively bidding for water irrigation projects.

Investments in railway infrastructure to rise during fiscal 2025-29 led by Amrit Bharat station scheme and high-speed rail among others. Metro projects to see infrastructure investments of Rs 1.0 – 1.2 trillion between fiscal 2025-29 (*Source: CRISIL Report*). As of August 31, 2024, we have secured five projects in the railway infrastructure sector.

Banking on our experience, market position, and project management capabilities across various geographies, we aim to further expand our EPC project portfolio. We are also exploring new sectors such as renewable energy and industrial EPC projects. Our entry into these sectors is expected to reduce our reliance on current infrastructure project portfolio and capitalize on the growing demand for solutions.

Capitalizing on Government initiatives and policies

We are positioning ourselves to capitalize on government infrastructure initiatives and policies that promote the development of power, water, and transportation infrastructure. We intend to participate in government programs like Revamped Distribution Sector Scheme (RDSS), National Solar Mission and Swachh Bharat Mission. We have successfully carried out multiple system strengthening projects in India under Rajiv Gandhi Grameen Vidyutikaran Yojana, Integrated Power Development Scheme (IPDS), Deendayal Upadhyay Gram Jyoti Yojana (DDUGJY), Pradhan Mantri Sahaj Bijli Har Ghar Yojana-(Saubhagya).

Accelerated Irrigation Benefits Programme (AIBP) is one of the components of PMKSY, whereby partial financial assistance is being provided by Government of India for identified major/ medium irrigation projects. During fiscal 2017, Government of India approved funding of the 99 prioritized irrigation projects (and 7 phases) with an estimated balance cost of Rs. 775.9 billion (Central share ~40%, State share ~60%) for completion in phases. The works include both the AIBP and Command Area Development (CAD) works with a target to create a irrigation potential of about 34.63 Lakh hectares. Against the target an Irrigation Potential of about 25.50 Lakh hectares has been created through AIBP works of the prioritized projects during fiscal 2017 to fiscal 2023. As of January 2024, AIBP works of 56 prioritized projects out of identified 99 projects (and 7 phases) were reported to be completed. (*Source: CRISIL Report*). Considering we have become qualified and have undertaken bidding for water irrigation projects, we are well positioned to tap into opportunities afforded by this programme.

The Government of India has envisaged development of high-speed rail (HSR) corridors and has identified 8 corridors for constructing HSR projects of which the Mumbai Ahmedabad corridor is under construction while DPR preparation of the remaining projects is under preparation (*Source: CRISIL Report*). We are currently executing a project for a GIS substation at Dahanu, Maharashtra which will provide power supply to bullet trains under the HSR initiative. By trying to align ourselves with government priorities, we aim to secure more such opportunities in the future.

DESCRIPTION OF OUR BUSINESS AND OPERATIONS

We provide a comprehensive range of service offerings in the EPC space for a diversified portfolio of businesses like power transmission and distribution including substation projects; and water infrastructure and railway projects. For further details, see “-Overview” on page 194

The key projects completed by us as on August 31, 2024 for each of our business verticals, based on the project completion cost, are set out below:

Our Company’s Order Book as of a particular date comprises the estimated revenues from the unexecuted portions of our existing contracts. Further, our Company’s Order Book as of a particular date is calculated on the basis of the aggregate contract value of our ongoing projects as of such date reduced by the value of work executed by us until such date, as certified by the relevant customer. The manner in which we calculate and present our Company’s Order Book information may vary from the manner in which such information is calculated and presented by other companies, including our competitors. For further details, see “*Risk Factors – 3. We have Order Book of ₹ 19,557 million as on August 31, 2024. However, our Order Book may not be representative of our future results, as projects included in our Order Book particularly for the projects where we are the lowest bidder, may be cancelled, modified, or delayed beyond our control, leading to significant deviations from estimated income and adversely affecting our business, reputation, financial condition, and future prospects.*” on page 35.

Our diversified portfolio spreads across the following focus areas:

Power Transmission and Distribution

Our power transmission and distribution portfolio includes a wide range of services such as EHV substation upto 765 kV, GIS substation, transmission line upto 400 kV, EHV underground cabling work for power transmission and power distribution projects of 33 kV and 11 kV. During the last eight years till August 31, 2024, we have completed 3 projects under various schemes in the power transmission sector of up to 400kV level, 7 projects for EHV substations up to 765kV

level and 30 projects in the power distribution sector as well as completed execution of 30,000 smart metering connections.

The following table shows our major ongoing projects in relation to our power transmission and distribution business:

3	Design, Supply & Construction of VIKRAN HOUSE on turnkey basis in Thane District for Swarnayug Developers LLP	Maharashtra	500.00

Project Cycle

The various steps involved in the life cycle of a typical project is described below:

1. Pre-bid Stage

Our Company has a dedicated and focused tender department responsible for bidding and pre-qualifications. The tendering and business development teams evaluate the market to identify opportunities aligned with the company's business mandate. The tendering team then analyzes each opportunity, identifies the internal business group responsible for execution, and assesses the potential business value to make a Bid/No-Bid decision. This decision is made after carefully reviewing the bidding stage project synopsis with input from internal stakeholders and management.

Once the Bid decision is taken the tendering team takes up the Bid preparation by creating technical & commercial bid part for final submission to customer.

The entire bidding process generally comprises the following steps.

1. **Identification of potential projects:** A dedicated team is responsible to review the national newspapers and websites of all authorities, compile all tenders floated and carry out a preliminary internal assessment for viability based on our profile and area of business interest and depending on factors like geographic location, complexity, workload, profitability estimates, competitive advantages, and eligibility. .
2. **Approval and decision-making:** The list containing potential projects is thereafter put up to the management and a discussion is held about each project and approval of the list of tenders where bid is to be submitted is obtained which is forwarded to the concerned departments like finance for arranging bid security, assessment of tax implications, procurement division for providing basic rates, etc. Thereafter, a site visit is planned by the dedicated team
3. **Pre-qualification and bid submission:** The dedicated tender department evaluates our Company's eligibility criteria and if certain criteria cannot be met independently, forming joint ventures with other qualified contractors is considered wherein approval is again sought from the management. The bid submission process involves detailing various aspects, such as financial parameters, employee information, equipment available, portfolio of projects, and legal involvements. The request for proposal (“**RFP**”) document is reviewed by the departments and the bid is submitted in accordance with the requirements mentioned in the RFP document.
4. **Customer's selection criteria:** The criterion of bidding is generally a two packet-system wherein the tenderer pre-qualifies contractors which is called post qualification based on multiple factors like experience, technical ability, safety record, financial strength, and past project size and performance. Once pre-qualified the price bid becomes the sole criteria for selection of the winning bid.
5. **Financial bid submission:** An in-depth study of the proposed project is conducted based on technical and commercial input gathered from detailed site visit report, design department, procurement division, etc. This information helps in arriving at the cost estimation for the bill of quantities, which is then marked up based on our policies regarding overheads, expenditures, and profitability benchmarks.

The above-mentioned entire bidding procedure can be represented diagrammatically as depicted below:

Standard Operating Procedure (SOP) at Bidding Stage:

2. Post-bid Stage .

In order to depict the process flow, the following steps are enumerated sequentially.

1. **Bid evaluation :** Tenderer review and evaluates all received bids for qualification based on the tender requirement and price bid is opened of such bidders only who are pre-qualified. Tenders are opened in the presence of the prospective bidders to maintain transparency and lowest bidder is announced
2. **Clarifications and negotiations:** The lowest bidder is thereafter called for clarifications and negotiations in case price criteria does not meet the requirements and expectations with regard to estimated cost. However, in certain departments negotiations are not permitted and in-case price criteria is not met the tender is cancelled and recalled.
3. **Award of contract:** Once the evaluation and negotiation process conclude, the customer awards the contract to the successful bidder who meets their requirements and expectations. This is typically communicated formally through an award letter or the letter of intent which allows specific time period for submission of performance bank guarantee (“PBG”).
4. **Contract Finalisation:** After the PBG is deposited, both parties enter into contract as per the terms and conditions in the tender.
5. **Mobilization:** After signing the contract, the contractor initiates project mobilization. This involves setting up the construction site, deploying resources, arranging for materials and equipment, and finalizing project plans.
6. **Sub-contractor and supplier engagement:** The contractors start engaging with subcontractors, suppliers, and vendors to execute the project as per the contract requirements. This phase includes finalizing agreements, schedules, and deliveries.
7. **Project kick-off meeting:** Organizing a kick-off meeting with the customer, sub-contractors, and key project stakeholders to ensure alignment on project goals, timelines, procedures, and expectations.
8. **Project Execution:** The actual construction work begins following the agreed-upon project plan, adhering to quality standards, safety regulations, and the project timeline.
9. **Monitoring and Reporting:** Regularly monitoring the project’s progress, tracking milestones, managing risks, and providing periodic progress reports to the customer.
10. **Review Mechanism:**

- **Weekly progress review** – The project team reviews the daily and weekly progress reports. The project team also notifies relevant issues, if any, to the project director / the project controller, the project manager and the business vertical head.
- **Monthly progress review** – Monthly project reviews are conducted at the site and business vertical head level. Financial and physical progress of the project is reviewed in this review meeting. The construction schedule for the project is updated on a monthly basis. In case of any delays, the site team proposes alternative methods to limit the delay. In case additional resources are required, the relevant department at the head office is notified.
- **Quarterly progress review** – Quarterly Review Meetings are held at the Registered and Corporate Office, where the progress is reviewed by the Chairman and Managing Director. These meetings are attended by senior executives including the Chairman and Managing Director, directors, business vertical heads, department heads, project directors, project controllers and project Manager.
- **Management review** – From time-to-time, our senior management, including the Chairman and Managing Director, chief operating officer, chief financial officer, execution head conduct project reviews. In these reviews, all aspects of the project are discussed.

- 11. Project Completion:** After commissioning the project, we apply for a completion certificate from the customer. The customer's authorized representative verifies the work and issues a provisional completion certificate or provisional taking over certificate, subject to any defect or punch points. Once these defect points are resolved, we apply for the final completion certificate. Concurrently, we complete material reconciliation and submit the as-built drawings and documents.
- 12. Project Handover:** Upon completion of the construction work and successful project milestones, the project is prepared for handover to the customer. This involves inspections, snagging, and addressing any outstanding issues before formal handover.
- 13. Defect Liability Period:** As per contract conditions, we are generally responsible for remedying defects during the defect notification period, which usually lasts from 12 to 60 months after project completion.

Summary of our EPC Contracts

Under our EPC contracts with our customers, we undertake our projects business in an integrated manner as we have the key competencies and in-house resources to deliver a project from its conceptualization to completion. Our in-house resources include a dedicated design and engineering team with the required software, workstations and peripheral equipment, smart project management professionals, a competent supply chain management group and the trained construction team along with the required construction machinery and the testing equipment to deliver a project on

complete EPC basis.

In EPC contracts, the customer typically provides conceptual information regarding the project. The contract outlines technical parameters based on the desired performance or output. We are responsible for preparing project-specific layouts, foundation designs, and schematic wiring diagrams that comply with regulatory requirements. Additionally, we procure materials and equipment for the project and execute the actual construction. Various stages involved in an EPC project as stated below:

Engineering: Our engineering work normally includes work related to project/plant layout, foundation design, schematic wiring diagram/cable schedules, construction process, control systems and instrumentation, equipment usage planning, civil works.

Procurement: Following the engineering stage, we place orders for the construction materials and equipment required for the project. We forge a strategic alliance with the major manufacturers/suppliers including service providers and sub-contractors to arrive at the most optimized cost effective solution.

Construction: We commence construction after the engineering and design aspects are finalized and the required equipment and materials are purchased or arranged and delivered at site. We mobilize our workforce and construction machinery to the worksite according to the schedule in the contract and undertake installation, testing and commissioning of the project.

Types of EPC contracts are as follows:

Design and Build Contracts (“DBC”)

DBCs provide for a single price for the total amount of work, subject to variations pursuant to changes in the customer’s project requirements. In DBCs, the customer supplies conceptual information pertaining to the project and spells out the project requirements and specifications. We are required to (a) design the proposed plant; (b) estimate the quantities of various items that would be needed to complete the project based on the designs and drawings prepared by our design and engineering team; and (c) prepare our own BOQs to arrive at the price to be quoted. We are responsible for the execution of all aspects of the project based on the above at our quoted price subject to variations as per contract.

(i) Item Rate Contracts

Item rate contracts are also known as unit-price contracts or schedule contracts. For item rate contracts, we are required to quote rates for individual items of work on the basis of a schedule of quantities furnished by our customer. The design and drawings are provided by the customer. Typically, our risk is lower in item rate contracts as, other than escalation in the rates of items quoted by us to the customer, we are paid according to the actual amount of work on the basis of the per-unit price quoted. Item rate contracts typically contain price variation or escalation clauses that provide for either reimbursement by the customer in the event of a variation in the prices of key materials or a formula that splits the contract into pre-defined components for materials, labour and fuel and links the escalation in amounts payable by the customer.

Additionally, we are typically required to indemnify the customer and its members, officers, and employees against all actions, proceedings, claims, liabilities, damages, losses, and expenses arising from any failure or negligence on our part to fulfil our obligations under an EPC contract. We are also generally required to provide a performance security guarantee equal to a fixed percentage of the contract price, and in certain cases, to furnish unconditional bank guarantees for specific projects. Furthermore, under some EPC contracts, the authorities are obligated to make an interest-bearing advance payment equal to 10% of the contract price, exclusively for mobilization expenses, usually in two instalments. This amount is subsequently adjusted in billings in accordance with the EPC contract terms. However, for internationally funded projects, such advance payments are typically interest-free.

During the warranty period after the completion of construction, we are usually required to cure construction defects at our own risk and costs. We are usually responsible for curing the defects during the defect notification period, which is usually for a period of 12 (twelve) – 60 (sixty) months after completion of work. We may also be required to pay liquidated damages if there are delays in completion of project milestones, which are often specified as a fixed percentage of the balance unexecuted works. Our customers are entitled to deduct the amount of damages from the payments due to us.

Further for successful execution of the EPC contracts, the active involvement and effective contributions from the Project Management Team, Quality Management Team and the Safety team are of paramount importance.

Project Management (PM)

Our PM Team is supported by all the departments that are involved in the planning of a project, namely, design and engineering, procurement, construction, quality control, logistics as well as our on-site teams. Based on the work schedule, each department coordinates with the PM Team for planning efficient use of the available resources in execution of a project. Continuous value engineering is done in coordination with the PM Team. Specifications are finalized by the PM Team in accordance with the design and contractual requirements. Thereafter, the procurement team negotiates with suppliers and issues purchase orders on the basis of advance requirement of materials, to ensure quality and customized sizing as per the project specific requirements, for smooth supply of materials and equipment. Our supply logistics team, in coordination with the PM Team, ensures timely delivery of materials at sites to avoid delays in achieving project timelines.

Quality Management (QM)

We endeavour to ensure that we maintain stringent quality standards at all stages of our project. Our aim is to reduce cost and cycle times through effective and efficient use of resources. We have a team of engineers and professionals, who ensure compliance with our quality management systems and statutory and regulatory compliances. In executing the projects, we monitor and test for quality conformity, track non-conformities and make rectifications to ensure customers' satisfaction.

Health, Safety & Environment (HSE)

We are committed to globally accepted best practices and compliance with applicable health, safety and environmental legislation and other requirements in our operations. We have established various measures in order to eliminate and reduce the risk of workplace accidents at our facilities and properties. Our operations are subject to various environmental, health and safety laws and regulations in each of the jurisdictions in which we operate. Additionally, pursuant to the EPC contracts entered into by us, most of the necessary approvals and environmental clearances for the construction of the project are to be procured by our customers.

Supply chain management

Procurement /Supply Chain Management

Our centralized procurement function is committed to optimizing material acquisition for our diverse projects. By centralizing operations at our corporate office, we have implemented a robust strategy that delivers significant cost savings and fosters strong partnerships with suppliers. During the last three Fiscals, we had over 3,500 suppliers and service providers across many states. Our extent of purchases from suppliers in any particular period depends inter alia on the location of our projects, nature of our projects, commercial terms, proximity of suppliers, etc. By diversifying our supply chain network, we endeavour to maintain regular availability of materials and equipments.

Procurement

Our approach is centred on consolidating project requirements to leverage economies of scale and secure competitive pricing. This includes major materials and specialised engineering items such as transformers, reactors, switchgears, steel structures, conductors, cables, pipes, generators, solar modules, automation systems, valves, pumps, specialised water storage tanks, cement, and steel.

The procurement team actively engages with suppliers to identify strategic procurement opportunities, anticipating future needs based on existing and upcoming tenders. This proactive approach enables us to negotiate favourable terms, including extended interest-free credit periods. The team also tracks, understand and adapts to change in market pricing by implementing various purchase strategies such as Hedging to ensure the project margin remains intact.

Streamlined Procurement Process

Project coordinators initiate purchase requests within our SAP system, providing detailed specifications for each project. The procurement team then processes these requests into purchase orders, managing the entire procurement lifecycle from order placement to payment and warranty claims if any.

This streamlined process ensures a clear understanding of material requirements for each project, facilitating effective communication with vendors and building strong relationships. By adopting a centralized and strategic procurement approach, we are able to achieve cost-effective material acquisition while maintaining high-quality standards and fostering long-term partnerships with suppliers. This approach is essential for our continued success and growth.

Our Customers

We have a diverse customer base comprising public sector undertakings, governmental authorities and private parties as well as customers engaged in the power transmission and distribution, water and railway infrastructure industries. The following tables set forth the value of our revenue from operations attributable to our top customer and top three customers, respectively, in absolute terms and as a percentage of our total revenue from operations as of the dates indicated.

Particulars	Fiscal 2024		Fiscal 2023		Fiscal 2022

Joint Ventures

Typically, we bid for projects as the sole contractor, assuming full responsibility for the entire project, including the discretion to select and supervise subcontractors as needed. However, for certain larger projects that demand additional expertise, local knowledge, or resources beyond our immediate availability, we form joint ventures or consortiums with other entities in the infrastructure and construction sector for bidding for such projects.

The type of joint ventures we engage are project-specific joint ventures in the form of an unincorporated "association of persons" as defined under the Income-tax Act, 1961 established to target and execute certain projects. We are responsible for project completion. However, each member's scope of work is clearly defined, along with the corresponding revenue split. For further details of our Joint Ventures, see "*History and Certain Corporate Matters – Our Joint Ventures*".

Competition

The EPC industry in India is highly competitive, with established players having strong market presence and relationships with key stakeholders. Breaking into this competitive landscape requires significant marketing efforts and the ability to differentiate from existing competitors. The market competition in the EPC sector is intense, characterized by a multitude of competitors competing for the same projects. This coupled with rising input costs will make it difficult for the EPC players to further pass on the costs to their customers. Further, staying abreast of with technologies in power generation and storage poses a significant challenge, necessitating ongoing investments in research and development to remain competitive in the market (*Source: CRISIL Report*).

Information Technology

We have also invested in software and technological tools which are used by our design and engineering team. The details in relation to the specific uses of each of the software and technological tools are as follows:

Sr. No	Software	Utility/Application
1.	SAP	SAP software is used to control all types of critical business functions. By integrating and automating key processes, SAP helps organisations to run faster and more efficiently. By storing data centrally, SAP software provides multiple business functions with real-time and accurate insight into operations

Intellectual property

We have applied for registration for our logo (device mark) in Classes 37, 39, 40 and 42 under the provisions of the Trademarks Act, 1999, as amended, which are currently pending. We have also applied for registration over the trademark logo **VIKRAM** (device mark) in Classes 37, 39, 40 and 42 under the provisions of the Trademarks Act, 1999, as amended, which are currently pending.

Insurance

Under our EPC contracts we are generally required to maintain insurance. We ensure compliance by maintaining policies that cover risks associated with our projects, in line with contract requirements and industry best practices. Our insurance policies include policies such as marine cargo, erection all risk policy, contractors' plant and machinery policy, motor vehicles policies, stock insurance policies, office package policies, employee compensation. Our insurance policies protect us from business-related hazards, including work accidents, explosions, fires, earthquakes, floods, riots, third-party liabilities, and other force majeure events. We also maintain insurance covering our assets and operations at levels that we believe to be appropriate, including workmen's compensation insurance, keyman insurance policy, group medical insurance and personal accident insurance policy.

Corporate Social Responsibility

We have adopted a corporate social responsibility ("CSR") policy in compliance with the requirements of the Companies Act, 2013 and the Companies (Corporate Social Responsibility) Rules, 2014. Our CSR initiatives are part of our overall strategy of developing communities and environmental sustainability, as well as creating a protected future for the generations to come.

The CSR framework extends with our partnership with Raginiben Sevakarya Trust at Ahmedabad, Sunshine Shri Sarda educational Trust, Chennai and Sobti parents association at Thane. One of our Promoters, has also done "Volunteering" and participated in the "Paani" foundation CSR activities for regeneration of water bodies i.e. creation of Water abundance in villages via community led efforts, sustainable farming and water management in Maharashtra.

In furtherance of the same, we have been spending on CSR activities undertaken by the Company, details of which are set out as under:

Industry specific regulations

The Electricity Act, 2003

The Electricity Act, 2003 (the “Electricity Act”) is the central legislation which covers, amongst others, generation, transmission, distribution, trading and use of electricity. The Electricity Act lays down the measures for the development of the electricity industry and power system. These include promoting competition, protecting interests of consumers and the supply of electricity to all areas, rationalization of electricity tariffs, ensuring transparent policies regarding subsidies, promotion of efficient and environmentally friendly policies, the constitution of the Central Electricity Authority and regulatory commissions and the establishment of an appellate tribunal. The Central Electricity Authority’s functions include, inter alia, (a) specifying technical standards for construction of electrical plants, electric lines and connectivity to the grid; (b) specifying grid standards for operation and maintenance of transmission lines; (c) advising the Central Government on matters relating to the National Electricity Policy; and (d) advising the appropriate government and commission on all technical matters relating to the generation, transmission and distribution of electricity. The Electricity Act also provides for a Central Electricity Regulatory Commission (“CERC”) and a State Electricity Regulatory Commission (“SERC”) for each state. Among other functions, the CERC is responsible for: (a) regulating of interstate transmission of electricity; (b) determining of tariff for inter-state transmission of electricity; (c) issuing of licenses to function as a transmission licensee with respect to inter-state operations; and (d) specifying and enforcing standards with respect to the quality, continuity and reliability of service by a licensee. SERCs perform similar such functions at the state level.

Under the Electricity Act, the appropriate commission also oversees promotion of co-generation and generation of electricity from renewable sources of energy. The SERCs under the Electricity Act are also required to promote co-generation and generation of electricity from renewable sources of energy by providing suitable measures for connectivity with the grid and sale of electricity to any person, and also specify, for purchase of electricity from such sources, a percentage of the total consumption of electricity in the area of a distribution license. Pursuant to the powers granted under the Electricity Act, various regulations and guidelines have been framed by the CERC for determination of tariff, which include, among others, the Central Electricity Regulatory Commission (Terms and Conditions for Tariff Determination from Renewable Energy Sources) Regulations, 2017 for determination of tariff for renewable power producers.

The Electricity (Amendment) Bill, 2022 (the “**Bill**”) was introduced in the Lok Sabha in August 2022. The Bill proposes radical changes in the power distribution sector, by enabling competition, strengthening payment security and providing more powers to regulatory commissions. Further, the Bill provides for minimum tariff ceilings to avoid predatory pricing by power distribution companies as well as a maximum price to protect consumers.

Electricity Rules, 2005

The Electricity Rules, 2005 (the “**Rules**”), as amended, were framed under the Electricity Act and provide the requirements in respect of captive generating plants and generating stations. The authorities constituted under the Rules may give appropriate directions for maintaining the availability of the transmission system of a transmission licensee.

National Electricity Policy, 2005

The GoI notified the National Electricity Policy (“NEP”) on February 12, 2005, under Section 3 of the Electricity Act. The key objectives of the NEP are amongst other things stipulating guidelines for accelerated development of the power sector, providing supply of electricity to all areas and protecting interests of consumers and other stakeholders. The NEP vests the Central Transmission Utility (“CTU”) and the State Transmission Utilities (“STUs”) with the responsibility for transmission system planning and development on the national and regional and the intra-state levels, respectively, and requires the CTU to coordinate with the STUs for eliminating transmission constraints in a cost-effective manner. The NEP provides that the network expansion be planned and implemented keeping in view anticipated transmission needs that would be incident on the system in the open access regime. The NEP encourages private investment in the transmission sector, and states that prior agreement with Beneficiaries would not be a pre-condition for network expansion and the CTU and STUs should undertake network expansion after identifying requirements in consultation with stakeholders and obtaining due regulatory approvals. As per Section 3 of the Electricity Act 2003, Central Electricity Authority has been entrusted with the responsibility of preparing the National Electricity Plan in accordance with the NEP and to notify such plan once in five years.

Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2023 (“CEA Regulations”)

The CEA Regulations supersede the Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010. The CEA Regulations have been enacted by the Central Electricity Authority, constituted under Electricity Act, to provide for measures relating to safety and electric supply. The CEA Regulations provide for the general safety requirements pertaining to construction, installation, protection, operation and maintenance of electric supply lines and apparatus. Further, as per the CEA Regulations, installations, defined under the CEA Regulations as any composite electrical unit used for the purpose of generating, transforming, transmitting, converting, distributing, or utilizing electricity, already connected to the supply system of the supplier or trader must be periodically inspected and tested at intervals not exceeding five years, by the electrical inspector or a supplier directed by the relevant State Government. In case the owner fails to rectify the defects in the installation pointed out by the electrical inspector in his inspection report, the electrical inspector has the authority to disconnect the electric supply for such installation after serving the owner of such installation with a notice for not less than 48 hours

Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010

Central Electricity Authority (Measures relating to Safety and Electric Supply) Regulations, 2010 (the “Safety and Electric Supply Regulations”) lays down the regulations for safety requirements for electric supply lines and accessories. It requires all relevant specifications prescribed by the Bureau of Indian Standards or the International Electro-Technical Commission to be adhered to. These include all electric supply lines and accessories to: (a) have adequate power ratings and proper insulation; (b) be of adequate mechanical strength for the duty cycle; (c) have a switchgear installation in each conductor of every service line within a consumer’s premises; and (d) be encased in a fireproof receptacle.

The Petroleum Act, 1934 (“Petroleum Act”) and Petroleum Rules, 2002 (“Petroleum Rules”)

The Petroleum Act consolidates and amends the laws relating to the import, transport, storage, production, refining and blending of petroleum. As per the Petroleum Act, the Central Government may make rules regulating inter-alia the import, transport and storage of petroleum. The Central Government has prescribed the Petroleum Rules under the Petroleum Act. Under the Petroleum Rules, any person intending to store petroleum, of such class and in such quantities as mentioned in the Petroleum Rules, otherwise than under a license shall take the approval of the chief controller before commencing storage. Further, as per the Petroleum Rules, petroleum shall not be imported into India by sea except through the ports which are duly approved for this purpose by the Ministry of Shipping, Government of India, in consultation with the chief controller and declared as custom’s ports by the commissioner of customs and any person(s) desirous of seeking approval in respect of proposed facilities for unloading of petroleum for the purpose of import of petroleum by sea or of making modifications in the existing facilities shall submit an application to the chief controller.

The Railways Act, 1989 (“Railways Act”)

The Railways Act was enacted to consolidate and amend the law relating to railways. The railway administration under Chapter IV of the Railways Act is empowered to, make or construct in or upon, across, under or over any road, railway, tramways, electric supply lines, or telegraph lines, such temporary or permanent inclined-planes, bridges, tunnels, etc. for the purposes of constructing or maintaining a railway, and to do all other acts necessary for making, maintaining, altering or repairing and using the railway. Chapter II-A of the Railways Act provides an institutional framework for development of railway land. Chapter IV-A empowers the Central Government to acquire land for execution of a special railway project for a public purpose, after declaring its intent.

Land Acquisition Act, 1894 (the “LA Act”)

Land holdings are subject to the LA Act which provides for the compulsory acquisition of land by the appropriate government for ‘public purposes’ including planned development and town and rural planning. However, any person having an interest in such land has the right to object and claim compensation. The award of compensation must be made within two years from the date of declaration of the acquisition.

Any person who does not accept the compensation awarded may make an application for the matter to be referred to the appropriate civil court, whether his objection is with respect to the quantum of compensation, the apportionment of the compensation among the persons interested, etc

Environmental legislations

The Noise Pollution (Regulation and Control) Rules, 2000 (“Noise Pollution Rules”)

The Noise Pollution Rules were enacted to regulate and control noise producing and generating sources with the objective of maintaining of ambient air quality standards in respect of noise. Pursuant to the Noise Pollution Rules, different areas / zones shall be classified into industrial, commercial, residential or silence areas/zones, with each area having a permitted ambient air quality standard in respect of noise.

Public Liability Insurance Act, 1991 (“Public Liability Act”)

The Public Liability Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substance. A list of hazardous substances covered by the Public Liability Act has been enumerated by the Government of India by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute a sum equal to the premium paid on the insurance policies towards the environment relief fund.

Labour law legislations

Building and Other Construction Workers’ (Regulation of Employment and Conditions of Service) Act, 1996 (“Construction Workers Act”)

The Construction Workers Act provides for regulation of employment and conditions of service of building and other construction workers including safety, health and welfare measures in every establishment which employs or employed during the preceding year, 10 or more workers. Every establishment to which the Construction Workers

Act applies is required to obtain a registration thereunder within a period of 60 days from the commencement of work. In the event that after the registration of an establishment, any change occurs in the ownership or management in respect of such establishment, such change is also required to be intimated by the employer to the registering officer within 30 days of such change.

Further, every employer is required to issue a notice of commencement of building or other construction work 30 days in advance.

Buildings and Other Construction Workers’ Welfare Cess Act, 1996 (“BOCW Cess Act”)

The BOCW Cess Act provides for the levy and collection of a cess on the cost of construction incurred by employers with a view to augmenting the resources of the Building and Other Construction Workers' Welfare Boards constituted under the Construction Workers Act. The BOCW Cess Act requires the prescribed quantum of cess (between 1-2%) to be levied and collected from every employer (as defined in the Construction Workers Act).

Contract Labour (Regulation and Abolition) Act, 1970 (the “CLRA Act”)

The CLRA Act has been enacted to regulate the employment of contract labour in certain establishments, the regulation of their conditions and terms of service and to provide for its abolition in certain circumstances. The CLRA Act applies to every establishment in which 20 or more workmen are employed or were employed on any day of the preceding 12 months as contract labour. The CLRA Act vests the responsibility on the principal employer of an establishment to which the CLRA Act applies to make an application to the registered officer in the prescribed manner for registration of the establishment. In the absence of registration, a contract labour cannot be employed in the establishment. Likewise, every contractor to whom the CLRA Act applies is required to obtain a license and not to undertake or execute any work through

contract labour except under and in accordance with the license issued. The principal employer is under an obligation to provide various facilities as provided under the CLRA Act, within a prescribed time period, in case the contractor does not provide such facilities. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLRA Act.

Shops and establishments legislations

Under the provisions of local shops and establishments legislations applicable in the states in India where our establishments are set up and business operations exist, such establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments, including commercial establishments, and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of records, maintenance of shops and establishments and other rights and obligations of the employers and employees. These shops and establishments' acts, and the relevant rules framed thereunder, in each state, also prescribe penalties in the form of monetary fine or imprisonment for violation of provisions, as well as procedures for appeal in relation to such contravention of the provisions.

Other labour law legislations:

The various labour and employment related legislations that may apply to our operations, from the perspective of protecting the workers' rights and specifying registration, reporting and other compliances, and the requirements that may apply to us as an employer, would include the following:

- *Apprentices Act, 1961 and Apprenticeship Rules, 1992;*
- *Child Labour (Prohibition and Regulation) Act, 1986; and Child Labour (Prohibition and Regulation) Rules, 1988;*
- *Child and Adolescent Labour (Prohibition and Regulation) Act, 1986;*
- *Employees' State Insurance Act, 1948;*
- *Employee's Provident Fund and Miscellaneous Provisions Act, 1952;*
- *Labour Laws (Exemption from Furnishing Returns and Maintaining Registers by certain Establishments) Act, 1988 as amended by Labour Laws (Exemption from Furnishing Returns and Maintaining Registers by certain Establishments) Amendment Act, 2014;*
- *Equal Remuneration Act, 1976;*
- *Maternity Benefit Act, 1961;*
- *Minimum Wages Act, 1948;*
- *Payment of Gratuity Act, 1972;*
- *Payment of Bonus Act, 1965;*
- *Payment of Wages Act, 1936;*
- *Sexual Harassment of Women at Workplace (Prevention, Prohibition, and Redressal) Act, 2013; and*
- *Employee's Compensation Act, 1923 as amended by Employee's Compensation (Amendment) Act, 2017.*

In order to rationalize and reform labour laws in India, the Government has enacted the following codes, which will be brought into force on a date to be notified by the Central Government:

- (a) **Code on Wages, 2019**, which amends and consolidates the laws relating to wage and bonus payments and subsumes four existing laws namely – the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. It regulates, *inter alia*, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employees. The Central Government has notified certain provisions of the Code on Wages, mainly in relation to the constitution of the central advisory board.
- (b) **Industrial Relations Code, 2020**, which consolidates and amends laws relating to trade unions, the conditions of employment in industrial establishments or undertakings, the investigation and settlement of industrial disputes. It subsumes and simplifies the Trade Unions Act, 1926, the Industrial Employment (Standing Orders) Act, 1946 and the Industrial Disputes Act, 1947.
- (c) **Code on Social Security, 2020**, which amends and consolidates laws relating to social security, and subsumes various social security related legislations, *inter alia* including the Employee's State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, Building and Other Construction Workers' Welfare Cess Act, 1996 and the Payment of Gratuity Act, 1972. It governs the constitution and functioning of social security organisations such as the Employee's Provident Fund Organisation and the Employee's State Insurance Corporation, regulates the payment of gratuity, the provision of maternity benefits for unorganised workers and compensation in the event of accidents that employees may suffer, among others.

- (d) **The Occupational Safety, Health and Working Conditions Code, 2020**, consolidates and amends the laws regulating the occupational safety and health and working conditions of the persons employed in an establishment. It replaces 13 old central labour laws including the Factories Act, 1948, Contract Labour (Regulation and Abolition) Act, 1970, the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979.

Tax laws

In addition to the aforementioned material legislations which are applicable to our Company, some of the tax legislations that may be applicable to the operations of our Company include:

- Income-tax Act 1961, the Income-tax Rules, 1962, as amended by the Finance Act in respective years;
- Central Goods and Services Tax Act, 2017, the Central Goods and Services Tax Rules, 2017 and various state-wise legislations made thereunder;
- The Integrated Goods and Services Tax Act, 2017 and rules thereof;
- Professional tax-related state-wise legislations;
- Indian Stamp Act, 1899 and various state-wise legislations made thereunder; and
- Customs Act, 1962

Intellectual property laws

Trade Marks Act, 1999 (“Trademarks Act”) and the Trade Marks Rules, 2017 (“Trademarks Rules”)

The Trademarks Act provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement of such marks. The Trademarks Act permits registration of trademarks for goods and services and prohibits any registration of deceptively similar trademarks or compounds, among others. It also covers infringement of trademarks and falsifying and falsely applying for trademarks. As per the Trademarks Act, any person found to be falsifying trademarks shall be punishable with imprisonment for a term which shall not be less than six months but which may extend to three years and with fine which shall not be less than fifty thousand rupees but which may extend to two lakh rupees. The Trademarks Rules provide for inter-alia the procedures for filing an application for registration of trademarks to the Trade Marks Registry (“Registry”) and for filing an opposition to any application for registration of a trademark.

Laws governing foreign investments

Foreign Investment Regulations

Foreign investment in India is governed by the provisions of Foreign Exchange Management Act, 1999 (“**FEMA**”) along with the rules, regulations and notifications made by the Reserve Bank of India thereunder, and the consolidated FDI Policy (“**FDI Policy**”) issued by the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India from time to time. Under the current FDI Policy (effective from August 28, 2017), foreign direct investment in the sector in which company operates is permitted up to 100% of the paid-up share capital of the Company under the automatic route, i.e. without requiring prior government approval, subject to compliance with certain prescribed pricing guidelines and reporting requirements.

Other applicable laws

In addition to the above, our Company is also required to comply with the provisions of the Companies Act, 2013 and rules framed thereunder, the Indian Contract Act, 1872, the Specific Relief Act, 1963, the Transfer of Property Act, 1882, the Sale of Goods Act, 1930, each as amended, and other applicable statutes promulgated by the relevant Central and State Governments.

Details regarding material acquisitions or divestments of business/undertakings, mergers, amalgamations, and revaluation of assets, if any, in the last ten years

Except as detailed below, our Company has not made any material acquisitions or divestments of business or undertakings, mergers, amalgamations or any revaluation of assets in the last 10 years immediately preceding the date of this Draft Red Herring Prospectus:

Scheme of Amalgamation by way of merger by absorption (the “Scheme of Amalgamation”) between our Company (“Transferee Company”), Deb Suppliers and Traders Private Limited (“Transferor Company no. 1”), Farista Financial Consultants Private Limited (“Transferor Company no.2”) and their respective shareholders

Pursuant to the Scheme of Amalgamation under Sections 230 to 232 and other applicable provisions of the Companies Act, 2013 among Transferor Company no. 1, Transferor Company no. 2 (collectively, the “Transferor Companies”) and our Company (the “Transferee Company”), the entire undertakings of the Transferor Companies, including all the properties, assets, rights, claims, title, interest, authorities, investments and liabilities comprised in the Transferor Companies immediately before the merger were transferred to and vested in the Transferee Company on a going concern basis.

The Scheme of Amalgamation was sanctioned by the Mumbai Bench of the National Company Law Tribunal (“NCLT”) through its Order dated August 14, 2024 (“NCLT Order”). The appointed date of the Scheme of Amalgamation was April 01, 2023, and the effective date of the Scheme of Amalgamation was August 23, 2024, being the date of filing of the NCLT Order with the RoC.

The rationale of the Scheme of Amalgamation was amongst others:

- (i) To provide for overall business efficiency;
- (ii) Achieving synergistic linkages and benefit of combined financial resources;
- (iii) To consolidate market share in a systematic manner; and
- (iv) Opportunity to leverage combined assets and build a stronger sustainable business.

Upon the Scheme of Amalgamation being effective, the authorized share capital of the Transferor Companies, was combined with the authorized share capital of the Transferee Company, which stood increased to ₹7,050,000 comprising 705,000 Equity Shares of ₹ 10 each and the Transferor Companies were dissolved without being wound up.

Further, each of Rakesh Ashok Markhedkar and Nakul Markhedkar, our Promoters and Directors were shareholders and Promoters of the Transferor Companies. In addition, the erstwhile shareholders of the Transferor Companies included the relatives of our Promoters, namely, Kanchan Markhedkar and Vipul Markhedkar.

Based on the valuation report dated December 15, 2021, issued by Manish Chulawala, registered valuer (registered valuer no: IBBI/RV/05/2020/12940), (“**Valuation Report**”) in relation to the valuation of the shares of the Transferor Companies and the Transferee Company, the fair value per share arrived at for each respective Company for computation of swap ratio was as follows:

Sr. No.	Company	Fair Value per Share (in ₹)
1.	Transferee Company	3,192
2.	Transferor Company no. 1	46,311
3.	Transferor Company no. 2	46,154

Pursuant to the Scheme of Amalgamation and the Valuation Report, the Transferee Company was to be issued the following Equity Shares to shareholders of the Transferor Companies:

- (i) 145,084 Equity Shares of face value of ₹ 10 each to the shareholders of the Transferor Company no. 1;
- (ii) 144,594 Equity Shares of face value of ₹ 10 each to the shareholders of the Transferor Company no. 2.

Further, 144,948 Equity Shares of face value of ₹ 10 each held by Transferor Company no. 1, and 144,430 Equity Shares of face value of ₹ 10 each held by Transferor Company no. 2, were cancelled and extinguished pursuant to the Scheme of Amalgamation.

For details of such allotment, see “*Capital Structure—Notes to Capital Structure—Share Capital History of Our Company*” on page 88. The Scheme of Amalgamation and the Valuation Report are part of “*Material Contracts and Documents for Inspection*” on page 495.

Shareholders’ Agreements and other agreements

Except as set out below, there are no other arrangements or agreements, deeds of assignment, shareholders’ agreements, inter-se agreements, any agreements between the Company, the Promoters and the Shareholders, agreements of like nature and clauses/ covenants which are material to the Company. Further, there are no other clauses/ covenants which are adverse or prejudicial to the interest of the minority/ public shareholders of the Company nor are there agreements that the Company has entered into that are required to be disclosed under the SEBI ICDR Regulations or non-disclosure of which may have a bearing on the investment decisions of the Bidders, except as already disclosed in this Draft Red Herring Prospectus. Further, except as disclosed in this section - “*History and Certain Corporate Matters*”, there are no other agreements / arrangements and clauses / covenants which are material, and which need to be disclosed or non-disclosure of which may have bearing on the investment decision. Change in the management and control of our Company

Our Promoters are not the original promoters of our Company. On May 28, 2010, Jayshree Investors Private Limited and G.I.R Marketing Training Company Private Limited transferred 144,948 Equity Shares of our Company,

aggregating 49.92 % of our Equity Share capital, for aggregate consideration of ₹ 1,449,480 to the erstwhile Deb Suppliers & Traders Private Limited (now amalgamated into our Company); and G.I.R Marketing Training Company Private Limited transferred 144,430 Equity Shares of our Company, aggregating 49.74 % of our Equity Share capital, for a consideration of ₹ 1,444,300 to the erstwhile Farista Financial Consultants Private Limited (now amalgamated into our Company) thereby transferring control of our Company. No acquisition agreement was entered into for acquiring the Equity Shares of our Company. The acquisition of Equity Shares was completed by way of executing share transfer forms by the parties. The mode of payment of the purchase consideration was cash by way of bank transfer. In 2014, Kanchan Markhedkar and Vipul Markhedkar acquired 5,000 equity shares each of erstwhile Deb Suppliers & Traders Private Limited from Amisha Joshi and Sunaina Agarwal, respectively. Additionally, Kanchan Markhedkar and Nakul Markhedkar acquired 5,000 equity shares of erstwhile Farista Financial Consultants Private Limited from Abhinash Sharma and Suresh Kumar Sharma, respectively. Thereafter, pursuant to three separate gift deeds each dated March 28, 2024: (i) Kanchan Markhedkar transferred 4,100 equity shares each of erstwhile Deb Suppliers & Traders Private Limited and erstwhile Farista Financial Consultants Private Limited, respectively to our Promoter, Rakesh Ashok Markhedkar; (ii) Nakul Markhedkar transferred 3,200 equity shares of erstwhile Farista Financial Consultants Private Limited to our Promoter, Rakesh Ashok Markhedkar; (iii) Vipul Markhedkar transferred 3,200 equity shares of the erstwhile Deb Suppliers & Traders Private Limited. Consequently, our Promoter, Rakesh Ashok Markhedkar acquired 7,300 equity shares each of the erstwhile Deb Suppliers & Traders Private Limited and Farista Financial Consultants Private Limited aggregating 73.00% of their share capital, respectively thereby, acquiring control of our Company. No acquisition agreement was entered into for acquiring the equity shares of erstwhile Deb Suppliers & Traders Private Limited and Farista Financial Consultants Private Limited. The acquisition of equity shares was completed by way of executing share transfer forms by the parties. The mode of payment of the purchase consideration was cash by way of bank transfer. The acquisition price was arrived at by way of a valuation report dated November 15, 2014, issued by CA Amit Kumar Agarwal, Registered Valuer.

Except as disclosed below, there has been no change in the control of our Company in the last five years preceding the date of the Draft Red Herring Prospectus.

Pursuant to the Scheme of Amalgamation between Deb Suppliers & Traders Private Limited and Farista Financial Consultants Private Limited and our Company, which was approved by the National Company Law Tribunal, Mumbai Bench, vide its Order dated August 14, 2024, Deb Suppliers & Traders Private Limited and Farista Financial Consultants Private Limited were amalgamated with our Company, by way of a merger of absorption and dissolution of Deb Suppliers & Traders Private Limited and Farista Financial Consultants Private Limited without winding up and the Equity Shares of our Company were allotted to the shareholders of Deb Suppliers & Traders Private Limited and Farista Financial Consultants Private Limited, in accordance with the Scheme of Amalgamation, thereby transferring control to the Promoters of our Company.

Additionally, pursuant to a resolution dated September 24, 2024, the Board took note that Rakesh Ashok Markhedkar, Avinash Markhedkar and Nakul Markhedkar are the Promoters of our Company. For details see “*History and Certain Corporate Matters*” on page 230 and “*Capital Structure – Build-up of Promoter’s shareholding in our Company*” on page 99 in the five years preceding the date of this Draft Red Herring Prospectus, see “*Capital Structure*” on page 88.

DIVIDEND POLICY

The dividend distribution policy of our Company was adopted and approved by our Board in their meeting held on September 24, 2024. The declaration and payment of dividend on our Equity Shares, if any, will be recommended by our Board and approved by our Shareholders, at their discretion, in accordance with provisions of our Articles of Association and applicable law, including the Companies Act (together with applicable rules issued thereunder).

Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on internal factors that our Board deems relevant, including among others, profitable growth of our Company and specifically profits earned during the financial year, earning stability and outlook, past dividend pattern, cash flow position of our Company, capital expenditure to be incurred by our Company, accumulated reserves, statutory requirements like transfer to statutory reserve fund, liquidity position of our Company including our working capital requirements and debt servicing obligations. In addition, our ability to pay dividends may be impacted by a number of external factors such as macro-economic environment, changes in the government policies, industry specific rulings and regulatory provisions, industry outlook for the future years, and inflation rate. Our Company may decide against paying dividend due to, *inter alia*, inadequacy of profits or whenever the Company has incurred losses, undertaking of or proposal to undertake a significant expansion project requiring higher allocation of capital, and undertaking of any acquisitions or joint arrangements requiring significant allocation of capital. For more information on restrictive covenants under our current loan agreements, see “*Financial Indebtedness*” on page 339. Our Company may pay dividend by cheque, or electronic clearance service, as will be approved by our Board in the future.

Our Board may also declare interim dividend from time to time and the final dividend will be paid on the approval of shareholders at a general meeting.

While the Company endeavours to pay dividend within the range of 7% - 15% of the post-tax profits as dividend to the shareholders of the Company in any Fiscal subject to sufficiency of stand-alone profits available for distribution of dividend in the relevant year and the said payout shall be subject to applicable taxes as per relevant regulations. However, the Board reserves the right to recommend a higher or a lower dividend based on the performance of that year and after taking into consideration other factors enumerated above.

Except as disclosed below, our Company has not paid any dividends on the Equity Shares during Fiscals 2024, 2023, 2022 and the period from April 1, 2024 until the date of this Draft Red Herring Prospectus:

The amounts paid as dividends in the past are not necessarily indicative of dividend amounts, if any, in the future. Investors are cautioned not to rely on past dividends as an indication of the future performance of our Company or for an investment in the Equity Shares offered in the Offer. There is no guarantee that any dividends will be declared or paid in the future.

The past trend in relation to our payment of dividends is not necessarily indicative of our dividend trend or dividend policy, in the future, and there is no guarantee that any dividends will be declared or paid in the future. For details in relation to the risk involved, see “*Risk Factors – 45. Our ability to pay dividends in the future will depend on our future cash flows, working capital requirements, capital expenditures and financial condition*” on page 60.

The Board of Directors

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)

401, Odyssey IT Park,
Road No. 9, Wagle Industrial Estate,
Thane – 400 604,
Maharashtra – India

Dear Sirs,

1. We have examined the attached Restated Financial Information of **Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)** (the “Company” or the “Issuer”), comprising the Restated Statement of Assets and Liabilities as at 31 March 2024, 31 March 2023 and 31 March 2022, the Restated Statement of Profit and Loss (including other comprehensive income), the Restated Statement of Changes in Equity, the Restated Statement of Cash Flows for the years ended 31 March 2024, 31 March 2023 and 31 March 2022, and Notes to the Restated Financial Information including material accounting policies and other explanatory information (collectively, the “**Restated Financial Information**”), as approved by the Board of Directors of the Company at their meeting held on 24 September 2024, for the purpose of inclusion in the Draft Red Herring Prospectus (“**DRHP**”), prepared by the Company in connection with its proposed Initial Public Offer of equity shares (“**IPO**”) prepared in terms of the requirements of:
 - a) Section 26 of Part I of Chapter III of the Companies Act, 2013 (the “Act”);
 - b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (“**ICDR Regulations**”); and
 - c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (“**ICAI**”), as amended from time to time (the “**Guidance Note**”).
2. The Company's Board of Directors is responsible for the preparation of the Restated Financial Information for the purpose of inclusion in the DRHP to be filed with Securities and Exchange Board of India, National Stock Exchange of India Limited (“**NSE Limited**”) and BSE Limited (collectively “**stock exchanges**”) in connection with the proposed IPO. The Restated Financial Information have been prepared by the management of the Company on the basis of preparation stated in Note 1 to the Restated Financial Information. The Board of Directors of the Company's responsibility includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Financial Information. The Board of Directors are also responsible for identifying and ensuring that the Company complies with the Act, ICDR Regulations and the Guidance Note.

3. We have examined such Restated Financial Information taking into consideration:

- a) The terms of reference and terms of our engagement agreed upon with you in accordance with our engagement letter dated 08 August 2024 along with addendum dated 17 September 2024 thereto in connection with the proposed IPO of equity shares of the Company;
- b) The Guidance Note. The Guidance Note also requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI;
- c) Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Financial Information; and
- d) The requirements of Section 26 of the Act and the ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the proposed IPO.

4. These Restated Financial Information have been compiled by the management from:

- a) Audited Special Purpose Ind AS Financial Statements of the Company as at and for the year ended 31 March 2024, prepared in accordance with the basis of preparation, as set out in Note 1 to the Restated Financial Information, which have been approved by the Board of Directors at their meeting held on 24 September 2024; and
- b) As at and for the years ended 31 March 2023 and 31 March 2022:
 - i. Audited Special Purpose Ind AS Financial Statements of the Company as at and for the years ended 31 March 2023 and 31 March 2022 (hereinafter referred to as '**2023 and 2022 financial statements**') prepared in accordance with the basis of preparation, as set out in Note 1 to the Restated Financial Information, which have been approved by the Board of Directors at their meeting held on 05 August 2024.

The 2023 and 2022 financial statements have been prepared by the Company in accordance with the Ind AS with date of transition as 01 April 2021 for the limited purpose of complying with the requirement of getting its financial statements audited by an audit firm holding a valid peer review certificate issued by the "Peer Review Board" of the ICAI as required by ICDR Regulations in relation to proposed IPO. These 2023 and 2022 financial statements have been audited by M/s Pramodkumar Dad & Associates, Chartered Accountants ("**Other Auditor**") on which they have issued audit report dated 05 August 2024 to the Board of Directors who have approved these in their meeting held on 05 August 2024.

- ii. From the audited financial statements of the Company as at and for the years ended 31 March 2023 and 31 March 2022 prepared in accordance with the accounting standards prescribed under Section 133 of the Act, read with the Companies (Accounting Standards) Rules, 2021 ('Indian GAAP') which were approved by the Board of Directors in their meetings held on 28 August 2023 and 11 August 2022, respectively.

5. For the purpose of our examination, we have relied on:

- a) Auditors' reports issued by us dated 24 September 2024 on the Special Purpose Ind AS financial statements of the Company as at and for the year ended 31 March 2024 as referred in Paragraph 4(a) above.

Our report on the Special Purpose Ind AS Financial Statements of the Company for the year ended 31 March 2024 expresses an unmodified opinion and includes emphasis of matter paragraphs which are reproduced as follows:

1. Recoverability of Trade Receivables

"We draw attention to Note 13.1 to the accompanying Special Purpose Ind AS Financial Statements, which describe an uncertainty to the outcome of an ongoing litigation with a customer on recoverability of balance amounting to INR 292.90 million due from such customer, which is currently pending in the Commercial Court, Jaipur. The management based on their internal evaluation and legal advice as obtained, is of the view that the aforesaid amount receivable is good and recoverable and no liability is likely to arise on the aforesaid matter, and accordingly, no adjustments have been made to the special purpose Ind AS financial statements in this respect. Our opinion is not modified in respect of this matter."

2. Basis of Preparation and Restriction on Distribution and Use

"We draw attention to Note 1 to the accompanying Special Purpose Ind AS Financial Statements, which describes the basis of its preparation. The Special Purpose Ind AS Financial Statements have been prepared by the Company solely for the purpose of preparation of the Restated Financial Information for the year ended 31 March 2024 to be included in the Draft Red Herring Prospectus ('DRHP') as per the requirements of Section 26 of Part I of Chapter III of the Act, read with the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended from time to time (the "ICDR Regulations") and the general directions issued by Securities and Exchange Board of India ("SEBI") dated 28 October 2021 through the Association of Investment Bankers of India to the Lead Managers of the Company, to be filed with SEBI, National Stock Exchange of India Limited and BSE Limited, in relation to the proposed initial public offering of the equity shares of the Company. Therefore, these Special Purpose Ind AS Financial Statements may not be suitable for any another purpose. Our report is issued solely for the aforementioned purpose, and accordingly, should not be used, referred to or distributed for any other purpose or to any other party without our prior consent in writing. Further, we do not accept or assume any liability or any duty of care for any other purpose for which or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing. Our opinion is not modified in respect of this matter."

- b) Auditors' Report issued by Other Auditor dated 05 August 2024 on the 2023 and 2022 financial statements of the Company as at and for the years ended 31 March 2023 and 31 March 2022, as referred in Paragraph 4(b)(i) above.

Report of the Other Auditor on the Special Purpose Financial Statements for the years ended 31 March 2023 and 31 March 2022 of the Company expresses an unmodified opinion and includes an emphasis of matter paragraph which is reproduced as follows:

Restriction on Distribution and Use

"We draw attention to Note 1 to the accompanying special purpose financial statements which describes the basis of preparation used by the management for the preparation of the special purpose financial statements. These special purpose financial statements have been prepared solely for the purpose as explained in the aforementioned note. This report is issued solely for the aforementioned purpose and for the use by the statutory auditors of the Company and accordingly, this report should not be used, referred to or distributed for any other purpose or to any other party without our prior written consent. To the fullest extent permitted by law, we do not accept or assume responsibility to any other person in whose hands our report may come without our prior consent in writing. Our opinion is not modified in respect of this matter."

- c) Auditors' Report issued by M/s Manish Kumar Agarwal & Co, Chartered Accountants ('Predecessor Auditor') dated 28 August 2023 and 11 August 2022 on the audited Indian GAAP financial statements of the Company as at and for the years ended 31 March 2023 and 31 March 2022, respectively, as referred in Paragraph 4(b)(ii) above. As informed to us by the management, the Predecessor Auditor does not hold a valid peer review certificate as issued by the 'Peer Review Board' of the Institute of Chartered Accountants of India and has therefore, expressed its inability to perform any work on the restated financial information for the aforesaid years. Accordingly, in accordance with ICDR Regulations and the Guidance Note, restated financial information for the years ended 31 March 2023 and 31 March 2022 has been audited by Other Auditor.
6. The audits of 2023 and 2022 financial statements were conducted by the Other Auditor, and accordingly reliance has been placed on the restated statement of assets and liabilities and the restated statement of profit and loss (including other comprehensive income), statement of changes in equity and cash flow statement, the summary statement of material accounting policies, and other explanatory information (collectively, the "**2023 and 2022 Restated Financial Information**") examined by Other Auditor for the said years. The examination report included for the said years is based solely on the examination report submitted by the Other Auditor. They have also confirmed that the 2023 and 2022 Restated Financial Information:
- a) have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the financial years ended 31 March 2023 and 31 March 2022 to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed as at and for the year ended 31 March 2024;
- b) does not require any adjustment for the matters mentioned in paragraph 6(a) above and do not contain any modifications requiring adjustments. However, those qualifications/ adverse remarks in the Companies (Auditor's Report) Order, 2020 issued by the Central Government of India in terms of sub section (11) of section 143 of the Act and items relating to emphasis of matters, which do not require any corrective adjustments in the Restated Financial Information have been disclosed in Note 57(2) to the Restated Financial Information; and
- c) have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note.
7. Based on our examination and according to the information and explanations given to us and also as per the reliance placed on the examination report submitted by the Other Auditor on the 2023 and 2022 Restated Financial Information, we report that the Restated Financial Information:

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)
Independent Auditor's Examination Report on Restated Financial Information

- a) have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the financial years ended 31 March 2023 and 31 March 2022 to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed as at and for the year ended 31 March 2024;
 - b) does not require any adjustment for the matters mentioned in paragraph 6(a) above and do not contain any modifications requiring adjustments. However, those qualifications/adverse remarks in the Companies (Auditor's Report) Order, 2020 issued by the Central Government of India in terms of sub section (11) of section 143 of the Act, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended) and items relating to emphasis of matters, which do not require any corrective adjustments in the Restated Financial Information have been disclosed in Note 57(2) to the Restated Financial Information; and
 - c) have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note.
8. The Restated Financial Information do not reflect the effects of events that occurred subsequent to the respective dates of approval of statutory purpose financial statements for the financial years ended 31 March 2024, 31 March 2023 and 31 March 2022 except for effects of the share split and issuance of the bonus shares as described in Note 1 to the Restated Financial Information.
 9. This report should not in any way be construed as a reissuance or re-dating of any of the previous audit reports issued by us or by the Predecessor Auditor on the statutory purpose financial statements, nor should this report be construed as a new opinion on any of the financial statements referred to herein.
 10. We have no responsibility to update our report for events and circumstances occurring after the date of this report.
 11. Our report is intended solely for use of the Board of Directors for inclusion in the DRHP to be filed with Securities and Exchange Board of India and stock exchanges in connection with the proposed IPO. Our report should not be used, referred to, or distributed for any other purpose except with our prior consent in writing. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Post that, with effect from 20 September 2024, the name of the Company has been changed from Vikran Engineering Private Limited to Vikran Engineering Limited and accordingly, the Company has become a public limited company with effect from such date.

1) Basis of preparation

The Restated Financial Information comprises of the Restated Statement of Asset and Liabilities as at 31 March 2024, 31 March 2023 and 31 March 2022, the Restated Statement of Profit and Loss (including Other Comprehensive Income), the Restated Statement of Cash Flows and the Restated Statement of Changes in Equity for the years ended 31 March 2024, 31 March 2023 and 31 March 2022 and the notes comprising material accounting policies and other explanatory information (collectively referred to as “Restated Financial Information”).

The Restated Financial Information comply in all material aspects with Indian Accounting Standards (Ind AS) notified under the Act, Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other relevant provisions of the Act.

The Restated Financial Information has been approved by the Board of Directors of the Company at their meeting held on 24 September 2024 and has been specifically prepared by the management for inclusion in the Draft Red Herring Prospectus (“DRHP”) to be filed by the Company with Securities and Exchange Board of India (‘SEBI’), the National Stock Exchange of India Limited and BSE Limited (collectively, the ‘Stock Exchanges’) in connection with the proposed Initial Public Offer (“IPO”) of Company’s equity shares of face value of INR 1 each (referred to as the ‘Offer’). The Restated Financial Information has been prepared by the management of the Company to comply in all material respects with the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013 (‘the Act’) as amended from time to time;
- b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended to date (“ICDR Regulations”); and
- c) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (“ICAI”), as amended from time to time (the “Guidance Note”).

The Restated Financial Information have been compiled from the audited special purpose Ind AS financial statements as at and for the years ended 31 March 2024, 31 March 2023 and 31 March 2022 prepared in accordance with the Ind AS, as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other recognised accounting practices and policies generally accepted in India including the requirements of the Act. The special purpose Ind AS financial statements for the year ended 31 March 2024 were approved by the Board of Directors on 24 September 2024.

The special purpose Ind AS financial statements for the years ended 31 March 2023 and 31 March 2022 were approved by the Board of Directors on 05 August 2024 and have been prepared using the financial statements which were earlier prepared in accordance with Accounting Standards prescribed under section 133 of the Act, read with the Companies (Accounting Standards) Rules, 2021 and other accounting principles generally accepted in India (hereinafter referred to as ‘Indian GAAP financial statements’) for the respective aforementioned periods, being the applicable financial reporting framework of the Company in such periods. The said audited Indian GAAP financial statements have been adjusted for the differences in the accounting principles on transition to Ind AS, as per the requirements of Ind AS 101, First-time Adoption of the Indian Accounting Standards (‘Ind AS 101’). Such audited Indian GAAP financial statements for the years ended 31 March 2023 and 31 March 2022 were approved by the Board of Directors at their meeting held on 28 August 2023 and 11 August 2022, respectively.

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)
Notes to the Restated Financial Information

The Company has transitioned to Ind AS in the financial year ended 31 March 2024 and accordingly has also prepared a separate set of financial statements for the year ended 31 March 2024 in accordance with Indian Accounting Standards as specified under Companies (Indian Accounting Standards) Rules 2015 prescribed by Section 133 of the Act using 01 April 2022 as transition date for the statutory requirements under section 129 of the Act, in accordance with the roadmap on transition to Ind AS applicable to companies as announced by the Ministry of Corporate Affairs and specified in Rule 4 of Companies (Indian Accounting Standards) 2015. Such statutory purpose financial statements were approved by the Board of Directors at their meeting held on 07 August 2024.

However, in accordance with the general directions issued by the SEBI dated 28 October 2021 to Association of Investment Banker of India, the transition date considered for the purpose of Special Purpose Ind AS Financial Statements for the years ended 31 March 2024, 31 March 2023 and 31 March 2022 is 01 April 2021, which is different from the transition date (i.e., 01 April 2022) adopted by the Company for the preparation of first Ind AS compliant financial statements for the year ended 31 March 2024 under section 129 of the Act. Accordingly, the Company has applied the accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101) as on 01 April 2021 for these Special Purpose Ind AS financial statements.

The accounting policies have been consistently applied by the Company in preparation of the Restated Financial Information and are consistent with those adopted in the preparation of the special purpose Ind AS financial statements as at and for the year ended 31 March 2024.

Subsequent to 31 March 2024, pursuant to a resolution passed in extraordinary general meeting of the Company dated 12 August 2024, shareholders have approved split of each equity share having face value of INR 10 each into equity shares of face value of INR 1 each (the "split"). Further, the Company in its annual general meeting dated 26 August 2024, have approved the issuance of bonus shares to the equity shareholders in the ratio of 50 equity shares for each share held. The record date for the said purpose was fixed as 23 August 2024. As required under Ind AS 33 - "Earnings per share", the effect of such split and bonus is adjusted to the weighted average number of equity shares outstanding during the reporting periods for the purpose of computing earnings per share for all the period presented retrospectively. As a result, the effect of such split and bonus has been considered in this restated financial information for the purpose of calculating earnings per share (Refer Note 36 of the Restated Financial Information).

This Restated Financial Information does not reflect the impact of any subsequent events or changes in estimates from the respective dates of the Board of Directors meetings held for the adoption of the statutory purpose financial statements for the respective financial years, except for the effects of share split and issuance of bonus shares, as explained above.

The Restated Financial Information have been prepared so as to contain information / disclosures and incorporating adjustments set out below in accordance with the SEBI ICDR Regulations:

- a) Adjustments to the profits or losses of the earlier periods and of the period in which the change in the accounting policy has taken place is recomputed to reflect what the profits or losses of those periods would have been if a uniform accounting policy was followed in each of these periods, if any;
- b) Adjustments for reclassification of the corresponding items of income, expenses, assets, liabilities and cash flows, in order to bring them in line with the groupings as per the special purpose Ind AS financial statements as at and for the year ended 31 March 2024 and the requirements of the ICDR Regulations, if any; and
- c) The resultant impact of tax due to the aforesaid adjustments, if any.

The Restated Financial Information has been prepared using going concern assumption and on a historical cost convention, except for certain financial assets and liabilities and defined benefit obligations, which are measured at fair value.

The Restated Financial Information is presented in Indian Rupee (INR), which is also the Company's functional currency. All amounts disclosed in the Restated Financial Information and notes thereto have been rounded off to the nearest million, unless otherwise stated. Any amount appearing in restated financial information as '0.00' represent amount less than INR 5,000.

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)
Notes to the Restated Financial Information

All the assets and liabilities have been classified as current or non-current, wherever applicable, as per the operating cycle of the Company as per the guidance set out in Schedule III to the Act. Operating cycle for the business activities of the Company covers the duration of the project/ contract/ service including the defect liability/ warranty period and extends up to the realisation of receivables (including retention monies) within the credit period normally applicable to the respective project/ contract/ service. Deferred tax assets and liabilities are classified as non-current only.

The Restated Financial Information do not require any adjustment for modifications. The audit observations which do not require any corrective adjustments in the Restated Financial Information have been disclosed in Note 57(2).

2) Material accounting policy information

a) Revenue Recognition

Revenue is measured based on the transaction price, which is the consideration, adjusted for variable considerations, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Accruals for variable considerations are estimated based on accumulated experience and underlying agreements with customers.

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- As the entity performs, the customer simultaneously receives and consumes the benefits provided by the entity's performance.
- The entity's performance creates or enhances an asset (e.g., work in progress) that the customer controls as the asset is created or enhanced.
- The entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

Performance obligations with reference to EPC contracts are satisfied over the period of time, and accordingly, revenue from such contracts is recognized based on progress of performance determined using input method with reference to the cost incurred on contract and their estimated total costs. Margin is not recognised until the outcome of the contract is certain. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party. Revenue, measured at transaction price, is adjusted towards liquidated damages, time value of money and price variations, escalation, change in scope etc. wherever, applicable. Variation in contract work and other claims are included to the extent that the amount can be measured reliably, and it is agreed with customer. Margin is not recognised until the outcome of the contract is certain.

The Company evaluates whether each contract consists of a single performance obligation or multiple performance obligations. Due to the nature of the work required to be performed on many of the performance obligations, the estimation of total revenue and cost at completion is subject to many variables and requires significant judgement. The Company considers its experience with similar transactions and expectations regarding the contract in estimating the amount of variable consideration to which it will be entitled and determining whether the estimated variable consideration should be constrained. The Company includes estimated amounts in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved.

Contracts where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognised as per the input method, based on the nature of obligations to be performed. The Company determines the input method on the basis of ratio of costs incurred to date to the total estimated costs at completion of performance obligation. Revenue is recognised when the Company satisfies performance obligations by transferring the promised services or goods to its customers. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price.

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)
Notes to the Restated Financial Information

Progress billings are generally issued upon completion of certain phases of the work as stipulated in the contract. Billing terms of the over-time contracts vary but are generally based on achieving specified milestones. The difference between the timing of revenue recognised and customer billings result in changes to contract assets (unbilled work in progress) and contract liabilities. Contractual retention amounts billed to customers are generally due upon expiration of the contract period.

The contracts generally result in revenue recognised in excess of billings which are presented as contract assets in the restated statement of assets and liabilities. Amounts billed and due from customers are classified as receivables on the statement of financial position. The portion of the payments retained by the customer until final contract settlement is not considered a significant financing component since it is usually intended to provide customer with a form of security for Company's remaining performance as specified under the contract, which is consistent with the industry practice. Contract liabilities represent amounts billed to customers in excess of revenue recognised till date. A liability is recognised for advance payments, and it is not considered as a significant financing component since it is used to meet working capital requirements at the time of project mobilization stage. The same is presented as contract liability in the restated statement of assets and liabilities.

Estimates of revenue and costs are reviewed periodically and revised, wherever circumstances change, resulting increases or decreases in revenue determination, is recognized in the restated statement of profit and loss in the period in which estimates are revised.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are charged-off in restated statement of profit and loss immediately in the period in which such costs are incurred.

Interest income is accrued on a time basis, by reference to the principle outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Other non-operating income is recognised as and when due or received, whichever is earlier.

b) Taxes

Income tax expense comprises of current tax expense and deferred tax expenses. Current tax and deferred tax are recognized in Restated statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

(i) Current income tax:

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act of the respective jurisdiction. The current tax is calculated using tax rates that have been enacted or substantively enacted, at the reporting date.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(ii) Deferred tax:

Deferred tax is recognized using the Balance Sheet approach on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)
Notes to the Restated Financial Information

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities.

The Company recognises deferred tax liability for all taxable temporary differences, except to the extent that both of the following conditions are satisfied:

- When the Company can control the timing of the reversal of the temporary difference; and
- It is probable that the temporary difference will not reverse in the foreseeable future.

c) Property, Plant and Equipment

All items of property, plant and equipment are initially recorded at cost. Cost of property, plant and equipment comprises purchase price, non-refundable taxes, levies and any directly attributable cost of bringing the asset to its working condition for the intended use. Subsequent to initial recognition, property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The cost of an item of property, plant and equipment is recognized as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost includes the cost of replacing part of the property, plant and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property, plant and equipment.

Items such as spare parts, stand-by equipment and servicing equipment that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Costs in nature of repairs and maintenance are recognized in the Restated statement of profit and loss as and when incurred.

Depreciation on property, plant and equipment is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 as per straight line method.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of transition date, measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

d) Investment properties

Investment properties are held to earn rentals or for capital appreciation, or both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investment properties are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in restated statement of profit and loss as incurred.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its investment properties recognised as of transition date, measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

e) Intangible assets

Intangible assets such as computer software acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment loss, if any.

Intangible assets are amortised over their estimated useful life of 3 years on straight line method and is recognised in the restated statement of profit and loss under the head “Depreciation and Amortisation expense”. The estimated useful life of the intangible assets and the amortization period are reviewed at the end of each financial year and the amortization period is revised to reflect the changed pattern, if any.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognised as of transition date, measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

f) Inventories

The stock of construction materials, stores, spares is valued at cost or net realisable value, whichever is lower. However, these items are considered to be realisable at cost if the finished products in which they will be used, are expected to be sold at or above cost. Cost is determined on weighted average basis and includes all applicable cost of bringing the goods to their present location and condition. Revenue from sale of scrap material is presented as reduction from cost of materials consumed in the restated statement of profit and loss.

g) Cash and cash equivalents

Cash and cash equivalents comprises cash in hand and demand deposits with banks, short-term balances (with an original maturity of three months or less), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Margin money deposits, earmarked balances with banks and other bank balances which have restrictions are presented as other bank balances.

h) Borrowing costs

Borrowing costs consists of interest, ancillary costs and other costs in connection with the borrowing of funds.

Borrowing costs attributable to acquisition and/or construction of qualifying assets are capitalised as a part of the cost of such assets, up to the date such assets are ready for their intended use. All other borrowing costs are charged to the restated statement of profit and loss.

i) Impairment of non-financial assets

The Company assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or cash-generating unit’s (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses of continuing operations are recognised in the Restated statement of profit and loss.

j) Leases

Company as a lessee

At the commencement date of a lease, the Company recognises a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Right-of-use assets are measured at cost, less any accumulated depreciation, impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized and lease payments made at or before the commencement date. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. If ownership of the leased asset transfers to the Company at the

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)
Notes to the Restated Financial Information

end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or a change in the lease term. The Company separately recognises the interest expense on the lease liability as finance cost and the depreciation expense on the right-of-use asset.

The Company accounts for a lease modification as a separate lease when both of the following conditions are met:

- The modification increases the scope of the lease by adding the right to use one or more underlying assets.
- The consideration for the lease increases commensurate with the price for the increase in scope and any adjustments to that stand-alone price reflect the circumstances of the particular contract.

For a lease modification that fully or partially decreases the scope of the lease the Company decreases the carrying amount of the right-of-use asset to reflect partial or full termination of the lease. Any difference between those adjustments is recognized in profit or loss at the effective date of the modification.

The Company has elected to use the exemptions proposed by the standard on lease contracts for which the lease terms end within 12 months as of the date of initial application, and lease contracts for which the underlying asset is of low value. The Company recognises the lease payments associated with such leases as an expense in the restated statement of profit and loss.

k) Financial Instruments

Initial recognition and measurement

Financial instruments (assets and liabilities) are recognised when the Company becomes a party to a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets (unless it is a trade receivable without a significant financing component) and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, other than those designated as fair value through profit or loss (FVTPL), are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in restated statement of profit and loss. A trade receivable without a significant financing component is initially measured at the transaction price. The amount of retention money held by the customers is disclosed as part of trade receivables.

i. Financial assets

All regular way purchase or sale of financial assets are recognised and derecognised on a trade date basis. Regular way purchase or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Subsequent measurement

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets:

- a) Financial assets measured at amortised cost
- b) Financial assets measured at fair value through profit or loss (FVTPL)

Financial assets measured at amortised cost

A financial asset is measured at amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)
Notes to the Restated Financial Information

- Contractual terms of the instruments give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. EIR is the rate that exactly discounts estimated future cash receipts (including all fees, transaction costs and other premiums or discounts) through the expected life of the debt instrument or where appropriate, a shorter period, to the net carrying amount on initial recognition.

The EIR amortisation is included in other income in the restated statement of profit and loss. The losses arising from impairment are recognised in the restated statement of profit and loss. This category generally applies to trade and other receivables, loans, etc.

Financial assets measured at FVTPL

Debt instrument

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Financial assets included within the FVTPL category are measured at fair value with all changes recognised in the restated statement of profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either
 - the Company has transferred substantially all the risks and rewards of the asset, or
 - the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Debt instruments measured at amortised cost e.g., bank deposits
- Trade receivables
- Other financial assets not designated as FVTPL

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)
Notes to the Restated Financial Information

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables (including lease receivables). The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

ii. Financial liabilities

Subsequent measurement

All financial liabilities are subsequently measured at amortised cost using the EIR method or at FVTPL.

Financial liabilities at amortised cost

After initial recognition, interest-bearing borrowings and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in restated statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the restated statement of profit and loss.

Financial liabilities at FVTPL

Financial liabilities are classified as FVTPL when the financial liabilities are held for trading or are designated as FVTPL on initial recognition. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

De-recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires.

iii. Trade receivables

A receivable represents the Company's right to an amount of consideration under the contract with a customer that is unconditional and realizable on the due date (i.e., only the passage of time is required before payment of the consideration is due). Trade receivable without a significant financing component is initially measured at the transaction price.

iv. Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per agreed terms. Trade payables are presented based on the operating cycle of the Company. They are recognised initially at their transaction price and subsequently measured at amortised cost using the effective interest method.

v. Offsetting financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the restated statement of assets and liabilities if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

l) Provisions (other than employee benefits)

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

m) Provision for warranty

The estimated liability for warranty is recorded at the commencement of defect liability period. These estimates are established using historical information on the nature, frequency and average cost of obligations and management estimates regarding possible future incidence based on corrective actions during the period under warranty phase.

n) Contingencies

Disclosure of contingent liabilities is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognised in the restated financial information. However, contingent assets are assessed continuously and if it is virtually certain that an inflow of economic benefits will arise, the assets and the related income are recognised in the period in which the change occurs. Contingent assets are disclosed where an inflow of economic benefits is probable.

o) Employee Benefits

Liability on account of short-term employee benefits is recognised on an undiscounted and accrual basis during the period when the employee renders service/ vesting period of the benefit.

Defined Contribution Plan:

The Company pays contribution to the provident fund and employee state insurance corporation which is administered by respective Government authorities. The Company has no further payment obligations once the contributions have been paid. The Contributions are recognized as employee benefit expense in the restated statement of profit and loss to the year it pertains.

Defined benefit plan:

Gratuity: The Company's liability towards gratuity is determined using the projected unit credit method which considers each period of service as giving rise to additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The cost for past services is recognized on a straight-line basis over the average period until the amended benefits become vested.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the restated statement of changes in equity and in the restated statement of assets and liabilities.

Obligation is measured at the present value of estimated future cash flows using a discount rate that is determined by reference to market yields at the reporting date on Government bonds where the currency and the terms of Government bonds are consistent with the currency and estimated term of defined benefit obligation.

p) Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit attributable to equity shareholders and the weighted average number of shares outstanding are adjusted for the effect of all dilutive potential equity shares from the exercise of options on unissued share capital. The number of equity shares is the aggregate of the weighted average number of equity shares and the weighted average number of equity shares which are to be issued in the conversion of all dilutive potential equity shares into equity shares.

q) Exceptional items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such material items are disclosed separately as exceptional items.

r) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker regularly monitors and reviews the operating result as one segment of EPC. Thus, as defined in Ind AS 108 “Operating Segments”, the Company’s entire business falls under this one operational segment and hence the necessary information has already been disclosed in the Restated statement of assets and liabilities and the restated statement of profit and loss.

2.1 Key accounting estimates and judgements

The preparation of the Company’s financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Examples of such estimates include estimation of useful lives of property plant and equipment, employee costs, assessments of recoverable amounts of deferred tax assets, trade receivables and cash generating units, provisions against litigations and contingencies. Estimates and underlying assumptions are reviewed by management at each reporting date. Actual results could differ from these estimates. Any revision of these estimates is recognised prospectively in the current and future periods.

(i) Deferred income taxes

The assessment of the probability of future taxable profit in which deferred tax assets can be utilized is based on the Company’s latest forecast, which is adjusted for significant non-taxable profit and expenses and specific limits to the use of any unused tax loss or credit. The tax rules in the different jurisdictions in which the Company operates are also carefully taken into consideration. If a positive forecast of taxable profit indicates the probable use of a deferred tax asset, especially when it can be utilized without a time limit, that deferred tax asset is usually recognized in full.

(ii) Revenue recognition

Determination of revenue under percentage of completion method necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the percentage of completion, costs to completion, the expected revenue from the project or activity and foreseeable losses to completion. Estimates of project income, as well as project costs, are reviewed periodically. The effect of changes, if any, to estimates is recognised in the financial statements for the year in which such changes are determined.

(iii) Current income taxes

The tax jurisdiction for the Company is India. Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods. The recognition of taxes that are subject to certain legal or economic limits or uncertainties is assessed individually by management based on the specific facts and circumstances.

(iv) Accounting for defined benefit plans

In accounting for post-retirement benefits, several statistical and other factors that attempt to anticipate future events are used to calculate plan expenses and liabilities. These factors include expected discount rate assumptions and rate of future compensation increases. To estimate these factors, actuarial consultants also use estimates such as withdrawal, turnover, and mortality rates which require significant judgment. The actuarial assumptions used by the Company may differ materially from actual results in future periods due to changing market and economic conditions, regulatory events, judicial rulings, higher or lower withdrawal rates, or longer or shorter participant life spans.

Vikran Engineering Limited (formerly, Vikran Engineering Private Limited)
Notes to the Restated Financial Information

(v) Impairment

An impairment loss is recognised for the amount by which an asset's or cash-generating unit's carrying amount exceeds its recoverable amount to determine the recoverable amount, management estimates expected future cash flows from each asset or cash generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. In the process of measuring expected future cash flows, management makes assumptions about future operating results. These assumptions relate to future events and circumstances. The actual results may vary and may cause significant adjustments to the Company's assets.

In most cases, determining the applicable discount rate involves estimating the appropriate adjustment to market risk and the appropriate adjustment to asset-specific risk factors.

(vi) Foreseeable losses

In case of contracts, when it is probable that total contract costs will exceed total contract revenue, the expected loss (foreseeable loss) is recognised. Such loss is measured based on management experience of handling similar contract in past and estimates regarding possible future incidence during the contract period.

(vii) Expected credit loss

Refer note for Impairment of financial assets mentioned in accounting policy on financial instruments above.

(viii) Fair value of financial instruments

Management uses valuation techniques in measuring the fair value of financial instruments where active market quotes are not available. In applying the valuation techniques, management makes maximum use of market inputs and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in pricing the instrument. Where applicable data is not observable, management uses its best estimate about the assumptions that market participants would make. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

(ix) Provisions and contingent liabilities

A provision is recognised when the Company has a present obligation as result of a past event and it is probable that the outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each reporting date and adjusted to reflect the current best estimates. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgements and the use of estimates regarding the outcome of future events.

(x) Joint arrangements

Based on the requirement of tender issuing authority/ prospective customer, the Company has formed joint arrangement which are not body corporate. The Company applies judgment considering the underlying terms agreed with the venturer, substance of transactions and responsibility assumed by the Company including managing operations of such venture. Basis such assessment, if the Company determines that (a) joint control does not exist and (b) in substance it assumes practically all the risk and rewards related to such arrangements, it considers such arrangement as its own extension. Accordingly, as at reporting periods, the Company has included the results and transactions of such arrangements in its financial statements and has not considered such arrangements as separate component for reporting purpose.

(xi) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease required significant judgement. The Company uses judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company revises the lease term if there is a change in non-cancellable period of a lease.

3) Standards issued but not yet effective

As on the date of release of these restated financial information, Ministry of Corporate Affairs has not issued any new accounting standards/ amendments to existing accounting standards which are effective from 01 April 2024.

Note 37: Employee benefits

1. Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, incentives and allowances, short terms compensated absences, etc., and the expected cost of bonus, ex-gratia are recognised in the year in which the employee renders the related service.

2. Long term employee benefits

(i) Defined benefit plan

(a) Gratuity (unfunded)

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service.

The following tables summaries the components of net benefits expense recognised in the restated statement of profit and loss (including other comprehensive income) and the amount recognised in the restated statement of assets and liabilities for the defined benefit plan.

Attrition rate (% per annum)	2.00% to 10.00%	1.00%	1.00%

These assumptions were developed by the management with the assistance of independent actuarial appraisers. Discount factors are determined close to each year end by reference to government bonds of relevant economic markets and that have terms to maturity approximating to the terms of the related obligation. Other assumptions are based on management's historical experience. The estimate of future salary increase considered in actuarial valuation take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

Sensitivity analysis

The reported figures are sensitive to the actuarial assumptions. The changes to the defined benefit obligations for increase / decrease of 1% from assumed discount rate, salary growth rate and attrition rate are given below. In presenting the sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the defined benefit obligation. The sensitivity analysis is based on a change in one assumption while not changing all other assumptions. This analysis may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in the assumptions would occur in isolation of one another since some of the assumptions may be co-related. The following table summarises the effects of changes in these actuarial assumptions on the defined benefit liability at year-end. There was no change in the methods and assumptions used in preparing the sensitivity analysis from previous year.

	Year ended 31 March 2024		Year ended 31 March 2023		Year ended 31 March 2022

Note 38: Leases

The Company's leased assets primarily consists of leases for office premises having different lease terms to conduct its business in the ordinary course.

The Company has discounted lease payments using the incremental borrowing rate for measuring lease liabilities and accordingly recognised ROU assets, after adjusting any prepaid lease rentals.

The lease arrangements with lease term of 12 months or less, and the leases of low-value assets have been excluded from measurement of lease liability and ROU assets. The lease payments related to these arrangements are charged to statement of profit and loss under the respective head.

The Company does not have any major lease restrictions and commitment towards variable rent as per the contract.

The following is the summary of practical expedients elected on initial application:

(i) Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than twelve months of lease term on the date of initial application.

(ii) Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.

Right-of-use assets:

(i) The net carrying value of right-of-use assets as at 31 March 2024 amounts to INR 9.43 million (31 March 2023: INR 18.06 million and 31 March 2022: INR 6.12 million) and the movement thereof has been disclosed separately in note 6 to the restated financial information.

The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period in which the Code becomes effective.

46 Fair value measurements

(i) Fair value hierarchy

The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participant at the measurement date.

This section explains the judgments and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the restated financial information. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Level 1: Prices (unadjusted) in active markets for financial instruments.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

(ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the use of discounted cash flow for fair value at amortised cost

(iii) Summary of assets and liabilities which are measured at amortised cost and which are measured at fair values are disclosed below:

Fair value of financial assets and liabilities measured at amortised cost

The carrying amounts of trade receivable, cash and cash equivalents, other bank balances, security deposits, trade payables and other current financial liabilities are considered to be the same as their fair values, due to their short term nature.

Fair value of other non-current financial assets approximate their carrying amounts due to the fact that it is estimated by discounting future cash flows using market rates of interest applicable as at reporting date.

Fair value of long term borrowings approximate their carrying amounts due to the fact that long term borrowings are availed at floating rates/ fixed rates of interest, which intum are based on interest rates prevailing in the market for similar transaction.

Fair value of financial assets measured at FVTPL

The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at the reporting dates.

There are no transfers in either level during the reporting periods.

There are no financial assets/ liabilities which are measured at fair value through other comprehensive income.

47 Financial risk management

The Company activities expose it to interest rate risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance, the Company's risk management is carried out by a corporate treasury and corporate finance department under policies approved by the board of directors and top management. The Company's treasury identifies, evaluates and mitigates financial risks in close cooperation with the Company's operating units. The board provides guidance for overall the risk management, as well as policies covering specific areas.

This note explains the sources of risk which the entity is primarily exposed to and how the entity manages the risk and the related impact in the restated financial information.

A Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service dues according to the contractual terms and obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and credit worthiness of the customer on continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. The financial instruments that are subject to concentration of credit risk principally consist of trade receivables and cash and bank equivalents.

Bank deposits are placed with reputed banks / financial institutions. Hence, there is no significant credit risk on such fixed deposits. Mutual fund investments are made in plans of renowned asset management company only. The credit risk associated with bank, security deposits and mutual fund investments is relatively low.

Other financial assets includes deposits receivable, interest accrued on deposits and other receivables. These receivables are monitored on a periodic basis for assessing any significant risk of non-recoverability of dues and provision is created accordingly.

Trade receivables are typically unsecured. Credit risk on trade receivables is limited as the Company's customer base substantially includes government promoted undertakings and public sector undertakings. Also, generally the company does not enter into sales transaction with customers having credit loss history. In addition, trade receivable balances are monitored on an on-going basis with the result that the Company's exposure to bad debts is not significant. The portion of the payments retained by the customer until final contract settlement is not considered a significant financing component since it is usually intended to provide customer with a form of security for Company's remaining performance as specified under the contract, which is consistent with the industry practice. The Company does not require collateral in respect of its trade receivables. An impairment analysis is performed at each reporting date using a provision matrix to measure ECL. The provision rates are based on days past due. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions, if any. In case of disputed trade receivables, the Company performs individual credit risk assessment and creates expected credit loss allowance (ECL) based on internal assessment for such cases.

The following table provides information about the ECL rate for trade receivables :

Ageing bracket of trade receivables past due date	As at 31 March 2024	As at 31 March 2023	As at 31 March 2022
Upto 90 days	0.10% to 1.00%	0.10% to 1.00%	0.10% to 1.00%
91 to 180 days	2.50% to 4.50%	2.00% to 4.00%	2.00% to 4.00%
181 to 365 days	8.00% to 12.00%	8.00% to 11.00%	8.00% to 11.00%
More than 365 days	25.00% to 80.00%	25.00% to 80.00%	25.00% to 80.00%

a) For reconciliation of loss allowance on trade receivables, refer note 13.1.

B Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding to meet obligations when due. Due to the dynamic nature of the underlying businesses, Company maintains flexibility in funding by maintaining sufficient cash and bank balances available to meet the working capital requirements. Management monitors rolling forecasts of the Company's liquidity position on the basis of expected cash flows.

The Company's principal sources of liquidity are cash and cash equivalents, and the cash flow that is generated from operations. The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived. The Company closely monitors its liquidity position and maintains adequate source of funding.

The Company also participates in supply chain financing arrangement (SCF) which under which suppliers may elect to receive early payment of their invoice from by factoring their receivables.

(i) Maturities of financial liabilities

The table below provides details regarding the remaining contractual maturities of significant financial liabilities at the reporting date based on the contractual undiscounted payments. Refer note 38 for contractual maturities of lease liabilities.

Notes to the Restated Financial Information

C Market risk

Market risk is the risk that changes in market prices, such as interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations provisions and on the non-financial assets and liabilities. The sensitivity of the relevant profit and loss item is the effect of the assumed changes in respective market risks.

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rate risks. The Company's exposure to risk of changes in market interest rates primarily to the Company's long-term debt obligations. For the Company the interest risk arises mainly from interest bearing borrowings which are at floating interest rates. To mitigate interest rate risk, the Company closely monitors market interest and optimise borrowing mix / composition.

- Interest rate exposure

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

Particulars	As at 31 March 2024	As at 31 March 2023	As at 31 March 2022
Variable rate borrowing	1,519.29	1,473.99	1,122.72
Fixed rate borrowings	314.62	75.26	64.52
Total	1,833.91	1,549.25	1,187.24

- Interest rate sensitivity

A change of 50 bps in interest rates would have following impact on profit before tax and equity (holding all other variables constant)

Particulars	As at 31 March 2024	As at 31 March 2023	As at 31 March 2022
50 bps increase would decrease the profit before tax/equity by*	(7.60)	(7.37)	(5.61)
50 bps decrease would increase the profit before tax/equity by*	7.60	7.37	5.61

* Sensitivity is calculated based on the assumption that amount outstanding as at reporting dates were utilised during the period.

Mutual fund price risk

The value of unquoted mutual fund investments measured at fair value through profit and loss as at 31 March 2024 is INR 9.00 million (31 March 2023: INR 8.09 million, 31 March 2022: INR 3.90 million). A 10% change in value for year ended 31 March 2024 would result in an impact of INR 0.90 million (31 March 2023: INR 0.81 million, 31 March 2022: INR 0.39 million) on profit before tax and other equity (holding all other variables constant).

48 Capital management

The Company's objectives when managing capital are to :

1. Safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
2. Maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, reduce debt or sell assets.

The Company maintains its capital structure and makes adjustments, if required in the light of changes in economic conditions and the requirements of the financial covenants. Consistent with others in the industry, the Company monitors its capital using the gearing ratio which is net debt divided by equity and intends to manage optimal gearing ratios. In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define the capital structure requirements.

The gearing ratios are as follows:

Particulars	As at 31 March 2024	As at 31 March 2023	As at 31 March 2022
Net debt (Total borrowings less cash and cash equivalents)	1,833.20	1,548.01	1,185.71
Total equity	2,912.80	1,311.35	892.12
Capital gearing ratio	0.63	1.18	1.33

Note 49: First time adoption of Indian Accounting Standard

First Ind AS Financial statements

For periods up to and including the year ended 31 March 2023, the Company prepared its statutory financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with the Companies (Accounting Standards) Rules, 2021 (Previous GAAP / Indian GAAP).

The basis of preparation, as set out in note 1 has been applied in preparing the restated financial information for the year ended 31 March 2024. This note explains the principal adjustments made by the Company in restating its earlier statutory financial statements for the years ended 31 March 2023 and 31 March 2022.

A. Exemptions and exceptions availed

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. Set out below are the applicable Ind AS 101 optional exemption and mandatory exemption applied in the transition from previous GAAP to Ind AS.

A.1 Ind AS optional exemptions:

Deemed cost for property, plant and equipment, intangible assets and investment properties

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 - Intangible Assets and investment properties covered under Ind AS 40 - Investment properties.

Accordingly, the Company has elected to measure all of its property, plant and equipment, intangibles assets and investment properties at the carrying value under the previous GAAP and use that carrying value as the deemed cost on the date transition to Ind AS.

Fair value measurement of financial assets and financial liabilities at initial recognition

Ind AS 109 requires fair value measurement, retrospectively, however an entity may apply the requirements of Ind AS 109 prospectively to transactions entered into on or after the date of transition to Ind AS. Accordingly, the Company has opted such exemption.

A.2 Ind AS mandatory exceptions:

A.2.1 Estimates

The estimates as at 01 April 2021, 31 March 2022 and as at 31 March 2023 are consistent with those made for the same dates in accordance with previous GAAP (after adjustments to reflect differences, if any in accounting policies) apart from impairment of financial assets based on the expected credit loss model where the application of previous GAAP did not require such estimation.

The estimates used by the Company to present these amounts in accordance with Ind AS reflect conditions as at 01 April 2021, the date of transition to Ind AS and as at 31 March 2022 and 31 March 2023.

A.2.2 Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of facts and circumstances that exist at the date of transition to Ind AS. Financial assets can be measured using effective interest method by assessing its contractual cash flow characteristics only on the basis of facts and circumstances existing at the date of transition and if it is impracticable to assess the use of effective interest method, fair value of financial asset at the date of transition shall be the new carrying amount of that asset. The measurement exemption applies for financial liabilities as well.

A.2.3 Impairment of financial assets

Ind AS 101 provides relaxation from applying the impairment related requirements of Ind AS 109 retrospectively.

At the date of transition, the Company has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised and compare that to the credit risk at the date of transition to Ind AS. Similarly the Company has recognised a loss allowance at an amount equal to lifetime expected credit losses at each reporting date until that financial instrument is de-recognised.

A.2.4 Derecognition of financial assets and financial liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transitions to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from date of transition to Ind AS.

A.2.5 Impact of application of lease accounting under Ind AS 116

Under Ind AS, the Company has recognised a lease liability measured at the present value of the remaining lease payments, and right-of-use (ROU) asset at an amount equal to lease liability (adjusted for any related prepayments and present value of security deposits), the Company adopted Ind AS 116 using the modified retrospective approach.

B. Reconciliation of equity and total comprehensive income between previous GAAP and Ind AS:

B.1 Reconciliation of equity as at 31 March 2023, 31 March 2022 and 01 April 2021

Other comprehensive income as per Ind AS		0.99	0.12
Total comprehensive income as per Ind AS framework		429.39	66.04

B.3 : Notes to first time adoption of Ind AS

1. Impact of accounting under Ind AS 116 'Leases'

Under Ind AS, the Company has recognised a lease liability measured at the present value of the remaining lease payments, and right-of-use (ROU) asset at an amount equal to lease liability (adjusted for any related prepayments, and present value of security deposits). The Company adopted Ind AS 116 using the modified retrospective approach.

2. Allowance as per expected credit loss model

Under previous GAAP, the Company created provision of doubtful debts and advances based on the incurred credit loss model. Under Ind AS, provision has been determined based on expected credit loss model (ECL) on all financial assets (other than those measured at fair value).

3. Remeasurement of post-employment benefit obligations - gratuity and compensated absences

Under the previous GAAP, these remeasurement were forming part of the statement of profit and loss for the year.

Under Ind AS, remeasurement i.e. actuarial gains and losses, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income.

4. Remeasurement of investments in mutual funds

Under the previous GAAP, investments in mutual fund units were accounted at cost. Under Ind AS, these investments have been recognised at FVTPL.

C : Others

Pursuant to changes described above on adoption of Ind AS, corresponding effect has been given in the operating, investing and financing activity in the restated statement of cash flows as well. The transition to Ind AS did not effect the net increase/ decrease in cash and cash equivalents.

55 Subsequent events:

(i) The Board of Directors of the Company, at their meeting held on 18 December 2021, had approved the scheme of amalgamation of Farista Financials Consultants Private Limited and Deb Suppliers & Traders Private Limited with the Company, under Section 230 to 232 of the Act and other applicable provisions of the Act read with Companies (Compromises, Arrangements and Amalgamation) Rules, 2016 ('the Merger'). The Company had filed petition with National Company Law Tribunal (NCLT), Mumbai Bench in relation to the Merger, pursuant to applicable provision of the Act. The aforesaid scheme of Merger has been approved by the NCLT vide its order dated 14 August 2024 pronouncing 01 April 2023 as the 'Appointed Date'. The certified true copy of the NCLT order has been filed by the Company with Registrar of Companies, Mumbai on 23 August 2024. Such acquisition is not accounted for in this Restated Financial Information as the event has occurred subsequent to the date of the Board of Director's meeting held for approval of Ind AS Financial Statements for the year ended 31 March 2024, prepared for statutory purpose.

(ii) Subsequent to 31 March 2024, the Company has issued 20,992 and 6,642 equity shares of face value INR 10 each, on a private placement basis as approved by the shareholders in their meetings dated 24 July 2024 and 12 August 2024, respectively.

Pursuant to a resolution passed in extraordinary general meeting of the Company dated 12 August 2024, shareholders have approved split of each equity share having face value of INR 10 each into equity shares of face value of INR 1 each.

Further, the Company has also allotted 3,000 equity shares of face value INR 1 each as approved by the Board of Directors in their meeting dated 24 August 2024.

The Company, in its annual general meeting dated 26 August 2024, have approved the issuance of bonus shares to the equity shareholders in the ratio of 50 equity shares for each share held. The record date for the said purpose was fixed as 23 August 2024.

56 Ministry of Corporate Affairs (MCA) has prescribed a new requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules, 2021 requiring companies, which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail is not disabled.

The Company uses an accounting software for maintaining its books of account which is operated by a third party software service provider which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software at an application level. The 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation) does not provide any information on the audit trail feature at database level for the said accounting software. Further, the audit trail feature is not tampered with, where such feature is enabled.

Note on First time adoption of Indian Accounting Standard

A. Exemptions and exceptions availed

Ind AS 101 allows first-time adopters certain exemptions from the retrospective application of certain requirements under Ind AS. Set out below are the applicable Ind AS 101 optional exemption and mandatory exemption applied in the transition from previous GAAP to Ind AS.

A.1 Ind AS optional exemptions:

Deemed cost for property, plant and equipment, intangible assets and investment properties

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition after making necessary adjustments for de-commissioning liabilities. This exemption can also be used for intangible assets covered by Ind AS 38 - Intangible Assets and investment properties covered under Ind AS 40 - Investment properties.

Accordingly, the Company has elected to measure all of its property, plant and equipment, intangibles assets and investment properties at the carrying value under the previous GAAP and use that carrying value as the deemed cost on the date transition to Ind AS.

Fair value measurement of financial assets and financial liabilities at initial recognition

Ind AS 109 requires fair value measurement, retrospectively, however an entity may apply the requirements of Ind AS 109 prospectively to transactions entered into on or after the date of transition to Ind AS. Accordingly, the Company has opted such exemption.

A.2 Ind AS mandatory exceptions:

A.2.1 Estimates

The estimates as at 01 April 2021, 31 March 2022 and as at 31 March 2023 are consistent with those made for the same dates in accordance with previous GAAP (after adjustments to reflect differences, if any in accounting policies) apart from impairment of financial assets based on the expected credit loss model where the application of previous GAAP did not require such estimation.

A.2.2 Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of facts and circumstances that exist at the date of transition to Ind AS. Financial assets can be measured using effective interest method by assessing its contractual cash flow characteristics only on the basis of facts and circumstances existing at the date of transition and if it is impracticable to assess the use of effective interest method, fair value of financial asset at the date of transition shall be the new carrying amount of that asset. The measurement exemption applies for financial liabilities as well.

A.2.3 Impairment of financial assets

Ind AS 101 provides relaxation from applying the impairment related requirements of Ind AS 109 retrospectively.

At the date of transition, the Company has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised and compare that to the credit risk at the date of transition to Ind AS. Similarly the Company has recognized a loss allowance at an amount equal to lifetime expected credit losses at each reporting date until that financial instrument is de-recognised.

A.2.4 Derecognition of financial assets and financial liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transitions to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

The Company has elected to apply the de-recognition provisions of Ind AS 109 prospectively from date of transition to Ind AS.

A.2.5 Impact of application of lease accounting under Ind AS 116

Under Ind AS, the Company has recognised a lease liability measured at the present value of the remaining lease payments, and right-of-use (ROU) asset at an amount equal to lease liability (adjusted for any related prepayments and present value of security deposits), the Company adopted Ind AS 116 using the modified retrospective approach.

B. Impact on first time adoption under Ind AS

1. Impact of accounting under Ind AS 116 'Leases'

Under Ind AS, the Company has recognised a lease liability measured at the present value of the remaining lease payments, and right-of-use (ROU) asset at an amount equal to lease liability (adjusted for any related prepayments, and present value of security deposits). The Company adopted Ind AS 116 using the modified retrospective approach.

2. Allowance as per expected credit loss model

Under previous GAAP, the Company created provision of doubtful debts and advances based on the incurred credit loss model. Under Ind AS, provision has been determined based on expected credit loss model (ECL) on all financial assets (other than those measured at fair value).

3. Remeasurement of post-employment benefit obligations - gratuity and compensated absences

Under the previous GAAP, these remeasurement were forming part of the statement of profit and loss for the year.

Under Ind AS, remeasurement i.e. actuarial gains and losses, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income.

4. Remeasurement of investments in mutual funds

Under the previous GAAP, investments in mutual fund units were accounted at cost. Under Ind AS, these investments have been recognised at FVTPL.

C : Others

Pursuant to changes described above on adoption of Ind AS, corresponding effect has been given in the operating, investing and financing activity in the restated statement of cash flows as well. The transition to Ind AS did not effect the net increase/ decrease in cash and cash equivalents.

(2) Non-adjusting events

i) Audit qualifications in relation to reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended) for the year ended 31 March 2024, which do not require any adjustments in the restated financial information:

"As stated in Note 56 to the accompanying financial statements and based on our examination which included test checks, the Company, in respect of financial year commencing on 01 April 2023, has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all relevant transactions recorded in the software. The database of the same accounting software is managed by a third-party service provider. In the absence of any information on existence of audit trail (edit log) facility for any direct data changes made at the database level in the 'Independent Service Auditor's Report on the Description of Controls their Design and Operating Effectiveness ('Type 2 report' issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organization), we are unable to comment on whether audit trail feature with respect to the database of the said software was enabled and operated throughout the year. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, where such feature is enabled."

ii) a) Emphasis of matters in respect of the audited statutory purpose financial statements for the years ended 31 March 2024, 31 March 2023 and 31 March 2022, not requiring adjustments to Restated Financial Information:

As at and for the year ended 31 March 2024

(the figures reported in this section have been presented in million for consistency purpose)

1 "We draw attention to Note 13.1 to the financial statements, which describe an uncertainty to the outcome of an ongoing litigation with a customer on recoverability of balance amounting to INR 292.90 million due from such customer, which is currently pending in the Commercial Court, Jaipur. The management based on their internal evaluation and legal advice as obtained, is of the view that the aforesaid amount receivable is good and recoverable and no liability is likely to arise on the aforesaid matter, and accordingly, no adjustments have been made to the financial statements in this respect. Our opinion is not modified in respect of this matter."

As at and for the year ended 31 March 2023

(the figures reported in this section have been presented in million for consistency purpose)

We draw attention to:

1 "In the FY 2019-20 a survey by the DGGI (GST) department was conducted w.r.t to transaction for the FY 2017-18. Where company had accepted the GST liability of INR 133.60 Millions on pretext to buy peace of mind and started paying GST amount. Upto 31 March, 2022 company had paid GST amounting to INR 86.20 Millions against the same. During the current financial year company has received the SCN from the DGGI department and based on the legal opinion obtained, management is of the view that neither the balance GST amount of INR 47.40 Millions is payable by the company nor there is requirement of making any provision for interest and penalty. Hence company has reversed the GST liability of INR 127.40 Millions during the FY 22-23 and disclosed under exceptional item and recognised assets of INR 80.00 Millions. Presently the matter is under litigation."

2 "As on 31 March, 2023 company is custodian of customer owned inventory amounting to INR 3,901.79 Millions, where execution/handover to customer is pending. Further during the year company has supplied material having sales value of INR 1,279.62 Millions, which are yet to be invoiced to the customer, was under certification from respective customers. As per the management, these inventories are lying at different/ remote locations at various stages of project execution. Hence, physical verification of inventory was not possible."

3 "We draw attention to Note No. 32 to the financial statements, we had sent positive external confirmation requests through electronic modes. However, there are fewer confirmations received than anticipated. In respect to trade receivable, trade payable and advances are subject to confirmation from respective parties and consequential reconciliation/adjustment arising there from, if any. However, management anticipates that there is no material impact due to such reconciliation and confirmations."

4 "The Company enters into Engineering Procurement and Construction (EPC) contracts, which are complex in nature and span over a number of reporting periods. AS 7, Contracts Accounts, Revenue from construction contracts is recognised based on the stage of completion determined with reference to the actual costs incurred up to reporting date on the construction contract and the estimated cost to complete the project. Cost estimates involves judgments including those relating to cost escalations; assessment of technical, political, regulatory and other related contract risks and their financial estimation; scope of deliveries and services required for fulfilling the contractually defined obligations and expected delays, it relies on management's estimates of the final outcome of each contract, and involves management judgement, particularly in forecasting the cost to complete a contract, valuing contract variations, claims and liquidated damages."

5 "During the year company has accounted the work execution of INR 1,786.20 Millions which were under certification by the respective customers as on 31 March 2023. Company has started practice of raising proforma Invoice on uncertified work, where GST liability was not provided. Later as the work get certified, company raises the Tax Invoice including the GST amount. Company has taken a legal opinion according to which, GST liability is applicable only when amount is received or milestone achieve as per the contract terms. However company has reversed the uncertified sale to complied with AS-7."

6 "At the year end, company has booked unbilled sub-contract services amounting to INR 446.90 Millions based on the proforma invoice and joint measurement sheet between sub-contractor and company. However till signing of the financials statements out of the provision for INR 446.90 Millions, tax invoice has been received for INR 267.40 Millions. Management explain that balance work is under certification from respective customers and tax invoice will be received once the work is certified by the customers"

7 "As fully explain in Note no 28 of the financial statement, in the month of April 23, one of the client has short closed the ongoing project. The Company has accounted the project loss of INR 160.20 Millions in AS-7 working during the current financial year. Further, Company has taken a legal opinion based on which management is confident that it will get the refund. Hence, no provision against advances received, debtors outstanding and performance liability was made in the current financials statement. However as the matter of abundant precaution the amount is duly disclosed the amount as contingent liability."

8 "The Company is principally engaged in the EPC business where majority of erection/installation work are carried through various sub-contractors. As a principal contractor company is liable for various labour compliance as per provisions of Employee Provident Fund Act, 1952 and allied labour Act's. During our course of audit, we found unsatisfactory compliance of labour laws by some sub-contractors. However, management has explained that they have the practice of deducting and retaining five percent amount from the invoices of sub-contractor for the PF Compliance."

9 "The Company is principally engaged in the EPC business where majority of erection/installation work are carried through various sub-contractors. Company has a practice of material reconciliation with sub-contractor at the closer of project, whereas it should be done periodically. However, management has explained that they have the practice of deducting and retaining ten percent amount from the invoices of sub-contractor till the material is reconciled."

10 "We draw attention to Note no 6 of the Financial Statements regarding classification of retention payable to certain vendors as non-current Trade Payable. These retention to vendors are payable only on completion and reconciliation of ongoing project which involves management's judgement."

"Our opinion is not qualified in respect of aforesaid matters."

As at and for the year ended 31 March 2022

(the figures reported in this section have been presented in million for consistency purpose)

We draw attention to:

1 "As on 31 March 2022 company is custodian of customer owned inventory amounting to INR 3,330.38 Millions, where execution/handover to customer is pending. As per the management, these inventories are lying at different/ remote locations at various stages of project execution. We are not able to verify the physical inventory neither able to satisfy ourselves with the alternative procedures."

2 "We draw attention to Note No. 30 to the financial statements, we had sent positive external confirmation requests through electronic modes. However, there are fewer confirmations received than anticipated. In respect to trade receivable, trade payable and advances are subject to confirmation from respective parties and consequential reconciliation/adjustment arising there from, if any. However, management anticipates that there is no material impact due to such reconciliation and confirmations."

3 "The Company enters into Engineering Procurement and Construction (EPC) contracts, which are complex in nature and span over several reporting periods. AS 7, Contracts Accounts, Revenue from construction contracts is recognised based on the stage of completion determined with reference to the actual costs incurred up to reporting date on the construction contract and the estimated cost to complete the project. Cost estimates involves judgments including those relating to cost escalations; assessment of technical, political, regulatory and other related contract risks and their financial estimation; scope of deliveries and services required for fulfilling the contractually defined obligations and expected delays, it relies on management's estimates of the final outcome of each contract, and involves management judgement, particularly in forecasting the cost to complete a contract, valuing contract variations, claims and liquidated damages."

4 "The Company is principally engaged in the EPC business of transmission and distribution sector where majority of erection/installation work are carried through various sub-contractors. As a principal contractor company is liable for various labour compliance as per provisions of Employee Provident Fund Act, 1952 and allied labour Act's. During our course of audit, we found unsatisfactory compliance of labour laws by some sub-contractors. However, management has explained that they have the practice of deducting and retaining five percent amount from the invoices of sub-contractor for the PF Compliance."

5 "The Company is principally engaged in the EPC business of transmission and distribution sector where majority of erection/installation work are carried through various sub-contractors. Company has a practice of material reconciliation with subcontractor at the closer of project, whereas it should be done periodically. However, management has explained that they have the practice of deducting and retaining ten percent amount from the invoices of sub-contractors till the material is reconciled."

6 "As of 31 March 2022, trade receivables of INR 318.36 Millions related to amount collectible in respect of the operationally closed project. In determining whether provision is required, the management takes into consideration the ageing status and likelihood of collection based on contractual terms, experience, customer correspondence etc. Based on such assessment, specific allowances are made for receivable that are unlikely to be collected. There is the involvement of material amount which are based on the management judgement. Out of INR 318.36 Millions of trade receivable, INR 113.69 Millions have been disputed by certain customers on account of liquidated damages/price variation/others. Management is confident that Company is following the contractual terms with the customers and accordingly amount would be realized in due course of time. However, as a matter of abundant precaution, it has made total provision of INR 33.97 Millions against disputed trade receivables."

7 "We draw attention to Note no 6 of the Financial Statements regarding classification of retention payable to certain vendors as non-current Trade Payable. These retention to vendors is payable only on completion and reconciliation of ongoing project which involves management's judgement."

"Our opinion is not qualified in respect of aforesaid matters."

The term loans availed by our Company are typically repayable in structured instalments, in accordance with the loan documentation as applicable. The working capital facilities availed by us are typically repayable in structured instalments in accordance with their respective sanction letters and loan documents.

7. **Key covenants:**

In terms of our borrowing arrangements, we are required to comply with various financial covenants, restrictive covenants and conditions restricting certain corporate actions, and we are required to take prior consent from the lender and/or intimate the respective lender before carrying out such actions, including, but not limited to the following:

- (a) Effecting any change in our capital structure, ownership or shareholding pattern including transfer or issue of shares and in the management control of our Company;
- (b) Effecting any change in our ownership or capital structure where the shareholding of certain of our existing Promoters gets diluted below current levels or leads to dilution in controlling stake;
- (c) Entering into any scheme of merger, amalgamation, de-merger, re-arrangement, reorganization, compromise or reconstruction by our Company or investing in third parties;
- (d) Effecting any change in the management or management set up of our Company or any change in the composition of our Board, management control of our Company including resignation of promoter or director;
- (e) Undertaking any expansion, diversification or further capital expenditure except being funded by our Company's own resources;
- (f) Making any changes in the Memorandum of Association and Articles of Association our Company;
- (g) Selling, assigning, mortgaging or disposing off any fixed assets of our Company charged with the Bank;
- (h) Creating charge, lien or encumbrance over the Company's undertaking or any part thereof in favor of any financial institution, bank, company, firm or persons;
- (i) In event of any material event having negative effect on the operations or functioning of the Company, the lender must be informed.

This is an indicative list and there additional restrictive and covenants under the various borrowing arrangements entered into by our Company.

8. **Events of default:** In terms of the borrowing arrangements entered into by our Company, the occurrence of any of the following, *inter alia*, constitutes an event of default:
 - (a) Default in payment of interest, other charges or instalment amount due or repayment of principal amounts;
 - (b) Cessation to carry on our business or any material part of the business or give notice of our intention to do so;
 - (c) Failure to furnish additional security or replace the security in order to maintain the security or the security is in jeopardy or ceases to have effect or any document pertaining to it executed or furnished by becomes illegal, invalid or unenforceable;

- (d) Breach of any financial covenants, reporting covenants, additional covenants, negative covenants, undertaking, conditions or agreement or in event that the information provided or statements made is incorrect or misleading;
- (e) Failure to perform or comply with any obligation or covenant or undertaking of the lenders and/or fails to ensure performance or compliance with any obligation or covenant or undertaking of the lenders as specified in any facility documents;
- (f) If a judgment has been passed against the Company under Section 138 of the Negotiable Instruments Act, 1881, or if any enforcement action has been initiated for any loan security, or if the Company defaults on any payment, is unable to pay its debts, or commits any other act of insolvency that materially impacts its ability to repay the outstanding;
- (g) Non-compliance of any terms or conditions stipulated by the lenders.

9. ***Consequences of occurrence of events of default:*** In terms of our borrowing arrangements, the following, among others, are the consequences of the occurrence of events of default, whereby the lenders may, *inter alia*:

- (a) Declare that any amount outstanding under or in relation to the facility (whether principal, interest or other sum and whether or not then due) be immediately payable on demand within such time period as specified by the lender;
- (b) Impose penal interest over and above the contracted rate on the amount in default;
- (c) Enforce any/all security provided to the lenders in terms of the facility documents including by invoking the guarantee(s) if any furnished;
- (d) Demand cure of the default;
- (e) Suspend further access/ draws by the lender to use the facilities;
- (f) Initiate legal proceedings for recovery of their dues;
- (g) Exercise any other rights/remedies available to the lender under any regulations/law or the facility documents;

This is an indicative list and there may be additional terms that may amount to an event of default under the various borrowing arrangements entered into by us.

For risks in relation to additional financing which we may be required to avail, see “*Risk Factors – 21. Our actual cost incurred in completing a project may vary substantially from the assumptions underlying our bid. We may be unable to recover all or some of the additional expenses incurred, which could adversely affect our financial condition, results of operation and cash flows.*” on page 49.

MANAGEMENT'S DISCUSSIONS AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion is intended to convey management's perspective on our financial condition and results of operations for Fiscals 2024, 2023 and 2022. You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our Restated Financial Information as of and for Fiscals 2024, 2023 and 2022, including the related annexures.

Unless otherwise indicated or context otherwise requires, the financial information for Fiscals 2024, 2023 and 2022 is derived from the Restated Financial Information, included in this Draft Red Herring Prospectus. For further information, see "Restated Financial Information" and "Summary of Financial Information" on pages 272 and 75. Our Fiscal year ends on March 31 of each year. Accordingly, all references to a particular Fiscal are to the 12-month period ended March 31 of that year.

The industry-related information contained in this section is derived from the industry report titled "Assessment of the infrastructure EPC industry in India" dated September 2024, prepared by CRISIL (the "CRISIL Report"). We commissioned and paid for the Industry Report for the purposes of confirming our understanding of the industry specifically for the purpose of the Offer, as no report is publicly available which provides a comprehensive industry analysis, particularly for our Company's services, similar to the CRISIL Report. CRISIL is an independent agency and is not a related party of our Company, its Directors, Promoters, Key Managerial Personnel, Senior Management or the Book Running Lead Managers. A copy of the CRISIL Report is available on the website of our Company at www.vikranguroup.com.

We have included certain non-GAAP financial measures and other performance indicators relating to our financial performance and business in this Draft Red Herring Prospectus, each of which is a supplemental measure of our performance and liquidity and not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or U.S. GAAP. Furthermore, such measures and indicators are not defined under Ind AS, IFRS, U.S. GAAP or other accounting standards, and therefore should not be viewed as substitutes for performance, liquidity or profitability measures under such accounting standards. In addition, such measures and indicators, are not standardised terms, hence a direct comparison of these measures and indicators between companies may not be possible. Other companies may calculate these measures and indicators differently from us, limiting their usefulness as a comparative measure. Although such measures and indicators are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that they are useful to an investor in evaluating our operating performance. For risks relating to such non-GAAP measures, see "Risk Factors – 56. We have presented certain supplemental information of our performance and liquidity which is not prepared under or required under Ind AS" on page 64.

This discussion contains forward-looking statements that involve risks and uncertainties and reflects our current view with respect to future events and financial performance. Actual results may differ from those anticipated in these forward-looking statements as a result of factors such as those set forth under "Forward-Looking Statements" and "Risk Factors" on pages 20 and 33, respectively.

Overview

We are one of the fast-growing Indian Engineering, Procurement and Construction (EPC) company. We have a diversified project portfolio, with majority revenue from energy and water infrastructure verticals (contributing 49% each) which have a high growth potential in the medium term. We provide end-to-end services from conceptualisation, design, supply, installation, testing and commissioning on a turnkey basis and has presence across multiple sectors including power, water, and railway infrastructure. Within the power sector, we have presence in both- power transmission and power distribution and have completed projects under various schemes in power transmission (up to 400kV level), extra high voltage (EHV) substations (up to 765kV level) including construction of 132 KV transmission line and bay extension projects as part of railway electrification. In the water sector, our projects include underground water distribution and surface water extraction, overhead tanks, and distribution networks. The company also has experience in Solar EPC of ground mounted solar projects and smart metering. (Source : CRISIL Report)

Our key competencies encompass inhouse design and engineering and timely project execution. We have successfully executed projects for government entities, public sector undertakings and private companies. Our focus on operational excellence, and efficient cost structure, and has enabled us to deliver high-value projects that meet stringent regulatory and quality standards. (Source : CRISIL Report)

Significant Factors Affecting our Financial Condition and Results of Operations

Our results of operations and financial condition are affected by a number of important factors including:

Government policies, macro-economic conditions and performance of the power transmission and distribution sectors

Our business is substantially dependent on co-existence of power transmission and distribution sector in India which is primarily undertaken or awarded by governmental authorities, entities funded by the central and state Governments which is undertaken through tariff based competitive bidding process. We currently derive and, in the future expect to derive a significant portion of our revenue from power transmission and distribution business projects in India which are dependent on budgetary allocations made by central and state Governments, participation from multilateral agency sponsored developments, public bodies as well as significant access through private sector funding. We believe that sustained increase in budgetary allocation for and the participation of public bodies, multilateral agencies in and the development of comprehensive infrastructure policies that encourage greater private sector participation and funding will result in several power transmission and distribution business and other infrastructure projects being launched in India. Macroeconomic factors like increasing need of power for residential, industrial and commercial purposes, increased usage of electricity in rural economy, creation of green energy corridors higher focus on renewable energy and related governmental policies thereof, Indian government's specific focus on transmission sector and related policies will have a significant impact on our prospects and results of operations. Other macroeconomic factors like global GDP growth, Indian foreign investment regulations, oil prices, financial stability may impact the economic environment of India and the policies of the government with respect to the infrastructure sector. A change in policy resulting from a change in government (including change in central government and/or state governments of regions where our projects are under construction) may also impact our business.

Diversified Order Book across geographies

Our diversified Order Book impacts our revenues and profitability in a number of ways. In our industry, the Order Book holds significant importance as it represents the estimated contract value of the unexecuted portion of a company's existing assigned EPC contracts and provides visibility on future revenues. Our Order Book is diversified across business verticals including power transmission and distribution, water infrastructure, and railway infrastructure. Although our power sector business vertical forms the largest part of our Order Book, it has different components which ensure that our orderbook continues to remain diversified. For further details, see “- *Description of our Business and Operations*” on page 210.

Additionally, our ability to leverage our experience in executing projects in diverse geographies provides us with a significant advantage in project execution and timely delivery in India.

The tables below set out details of our Order Book by business verticals and types of customers, as of the dates mentioned:

Business Vertical	As at March 31, 2024		As at March 31, 2023		As at March 31, 2022

2. *Comprises government agencies and government-owned enterprises*

The significant growth of our business for the Financial Years ended March 31, 2022, March 31, 2023 and March 31, 2024 has contributed significantly to our financial strength. Our total revenue increased at a CAGR of 28.74 % while our profit for the year increased at a CAGR of 236.94 %.

Our bidding and execution capabilities

Most of our EPC contracts are obtained through a competitive bidding process. In selecting consultants and contractors for major engineering consultancy and EPC projects, customers generally limit the tender to consultants and contractors they have pre-qualified based on several criteria. These criteria include, among other factors, experience, technological capacity and performance, reputation for quality, safety record, financial strength and bonding capacity and size of previous contracts in similar projects, as well as price competitiveness of the bid. Our recent experience and the infrastructure initiatives by the Governments across the world indicate that the customers in the energy industry are expected to develop larger and more technically complex EPC projects. Accordingly, this is resulting into awarding the entire contract to a single EPC contractor in order to avoid lack of synergies between multiple contractors. Therefore, while we are usually eligible to bid for the transmission projects opened in India on the basis of pre-qualification criteria, the execution and completion of such projects is dependent upon factors which may not be foreseeable at the time of bidding.

A significant portion of our revenue and earnings is generated from large project awards. The details of contribution to revenue from operations by each vertical is set out below:

(Amount in ₹ million, unless otherwise stated)

Vertical	For the Fiscal 2024		For the Fiscal 2023		For the Fiscal 2022	
	Revenue from operations generated	% of total revenue from operations	Revenue from operations generated	% of total revenue from operations	Revenue from operations generated	% of total revenue from operations
Power Transmission and Distribution	3,875.83	49%	2,530.80	48%	4,742.12	100%
Water Infrastructure	3,873.37	49%	2,590.08	49%	-	-
Railway Infrastructure	110.28	1%	122.17	2%	-	-
Total	7,859.48	100%	5,243.05	100%	4,742.12	100%

We are usually qualified to bid for most projects in India. We operate in competitive markets where it is difficult to predict whether and when we will receive awards since these awards and projects often involve complex and lengthy negotiations and bidding processes. These processes can be impacted by a wide variety of factors including governmental approvals, our ability to show experience of working on similar projects, financing contingencies, commodity prices, investment bottlenecks such as environmental clearance and land acquisition issues, and, overall market and economic conditions. During an economic downturn, many of our competitors may be more inclined to take greater or unusual risks or terms and conditions in a contract that we might not deem favourable or standard as per the market practice, since investment in such projects by the Governments or entities may be reduced significantly and be only acceptable if a bidder is accepting the terms prescribed by the employer. Since a significant portion of our revenue is generated from large projects, our results of operations can fluctuate from quarter to quarter and year to year depending on whether and when project awards occur and the commencement and progress of work under awarded contracts.

Nature of contracts and the risks associated therewith

Under our EPC contracts with our customers, we undertake our projects business in an integrated manner as we have the key competencies and in-house resources to deliver a project from its conceptualization to completion. There are two types of EPC contracts namely, (i) Design and Build Contracts (“DBC”); and (ii) Item Rate Contracts. DBCs provide for a single price for the total amount of work, subject to variations pursuant to changes in the customer’s project requirements. In DBCs, the customer supplies conceptual information pertaining to the project and spells out the project requirements and specifications.

Item rate contracts are also known as unit-price contracts or schedule contracts. For item rate contracts, we are required to quote rates for individual items of work on the basis of a schedule of quantities furnished by our customer. The design and drawings are provided by the customer. Typically, our risk is lower in item rate contracts as, other than escalation in the rates of items quoted by us to the customer, we are paid according to the actual amount of work on the basis of the

per-unit price quoted.

Additionally, we are typically required to indemnify the customer and its members, officers, and employees against all actions, proceedings, claims, liabilities, damages, losses, and expenses arising from any failure or negligence on our part to fulfil our obligations under an EPC contract. We are also generally required to provide a performance security guarantee equal to a fixed percentage of the contract price, and in certain cases, to furnish unconditional bank guarantees for specific projects. Furthermore, under some EPC contracts, the authorities are obligated to make an interest-bearing advance payment equal to 10% of the contract price, exclusively for mobilization expenses, usually in two instalments. This amount is subsequently adjusted in billings in accordance with the EPC contract terms. However, for internationally funded projects, such advance payments are typically interest-free.

We may also be required to pay liquidated damages if there are delays in completion of project milestones, which are often specified as a fixed percentage of the balance unexecuted works. Our customers are entitled to deduct the amount of damages from the payments due to us

Competition

We operate in a highly competitive environment in the Indian markets and the industry is highly fragmented. Success of our operations depends on our ability to effectively compete, including by continuing to distinguish our brand and products from competition by maintaining our brand perception centred around the values of trust and transparency and by continuing to optimize our product assortment and marketing campaigns to cater to preferences in the markets in which we operate. As a result, to remain competitive in the market we must, in addition, continuing to meet exacting quality standards, continuously strive to reduce our production and distribution costs and improve our operating efficiencies and innovate our products offering. If we fail to do so, it may have an adverse effect on our market share and results of operations. Many of our competitors may be larger than us and may benefit from greater economies of scale and operating efficiencies. There can be no assurance that we can continue to effectively compete with such manufacturers in the future, and failure to compete effectively may have an adverse effect on our business, financial condition, and results of operations. Moreover, the competitive nature of the manufacturing industry may result in lower prices for our products and decreased profit margins, which may materially adversely affect our revenue and profitability.

Cost drivers

Expenses

Our expenses include:

Cost of materials consumed: During Fiscals 2024, 2023 and 2022, our cost of materials consumed (including stores and spares) were ₹ 3,849.57 million, ₹ 2,664.83 million and ₹ 3,037.78 million, constituting 48.64%, 50.36%, and 63.34% of our total income, respectively.

Project related expense: Our project related expenses include sub-contracting charges, technical consultancy charges, plant and machinery hire charges, transportation charges, loading and unloading charges, survey costs, warranty expenses and other project expenses. During Fiscals 2024, 2023 and 2022, these expenses were ₹ 1,677.68 million, ₹ 961.78 million and ₹ 637.44 million, constituting 21.20%, 18.17%, and 13.29% of our total income, respectively.

Employee benefit expenses: During Fiscals 2024, 2023 and 2022 our employee benefit expenses were ₹ 589.63 million, ₹ 405.26 million and ₹ 336.81 million constituting 7.45%, 7.66%, and 7.02% of our total income, respectively.

Finance costs: Our finance costs include interest expense on borrowings carried at amortised cost, interest expense on delayed payment of statutory dues, interest expense on lease liabilities, interest expense on delayed payment to micro and small enterprises vendors and other borrowing costs. During Fiscals 2024, 2023 and 2022, these expenses were ₹ 319.87 million, ₹ 282.16 million and ₹ 186.96 million, constituting 4.04%, 5.33%, and 3.90% of our total income, respectively.

Depreciation and amortization expenses: During Fiscals 2024, 2023 and 2022 our depreciation and amortization expenses were ₹ 40.51 million, ₹ 36.98 million and ₹ 24.97 million constituting 0.51%, 0.70%, and 0.52% of our total income, respectively.

Other expenses

We also incur other expenses such as rent expense, vehicle hire charges, security charges, insurance, rates and taxes, travelling and conveyance, consulting and professional fees and miscellaneous expenses. The total other expenses incurred by us were ₹ 409.65 million, ₹ 414.04 million and ₹ 478.15 million, constituting 5.18%, 7.82% and 9.97% of

our total income during Fiscals 2024, 2023 and 2022, respectively.

Supply chain management

Our centralized procurement function is committed to optimizing material acquisition for our diverse projects. By centralizing operations at our corporate office, we have implemented a robust strategy that delivers significant cost savings and fosters strong partnerships with suppliers. During the last three Fiscals, we had over 3,500 suppliers and service providers across many states. Our extent of purchases from suppliers in any particular period depends inter alia on the location of our projects, nature of our projects, commercial terms, proximity of suppliers, etc. By diversifying our supply chain network, we endeavour to maintain regular availability of materials and equipments.

Critical accounting policies

The significant accounting policies followed by us in the preparation of our Restated Financial Information are set out below:

a) Revenue Recognition

Revenue is measured based on the transaction price, which is the consideration, adjusted for variable considerations, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Accruals for variable considerations are estimated based on accumulated experience and underlying agreements with customers.

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- As the entity performs, the customer simultaneously receives and consumes the benefits provided by the entity's performance.
- The entity's performance creates or enhances an asset (e.g., work in progress) that the customer controls as the asset is created or enhanced.
- The entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

Performance obligations with reference to EPC contracts are satisfied over the period of time, and accordingly, revenue from such contracts is recognized based on progress of performance determined using input method with reference to the cost incurred on contract and their estimated total costs. Margin is not recognised until the outcome of the contract is certain. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party. Revenue, measured at transaction price, is adjusted towards liquidated damages, time value of money and price variations, escalation, change in scope etc. wherever, applicable. Variation in contract work and other claims are included to the extent that the amount can be measured reliably, and it is agreed with customer. Margin is not recognised until the outcome of the contract is certain.

The Company evaluates whether each contract consists of a single performance obligation or multiple performance obligations. Due to the nature of the work required to be performed on many of the performance obligations, the estimation of total revenue and cost at completion is subject to many variables and requires significant judgement. The Company considers its experience with similar transactions and expectations regarding the contract in estimating the amount of variable consideration to which it will be entitled and determining whether the estimated variable consideration should be constrained. The Company includes estimated amounts in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved.

Contracts where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognised as per the input method, based on the nature of obligations to be performed. The Company determines the input method on the basis of ratio of costs incurred to date to the total estimated costs at completion of performance obligation. Revenue is recognised when the Company satisfies performance obligations by transferring the promised services or goods to its customers. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price.

Progress billings are generally issued upon completion of certain phases of the work as stipulated in the contract. Billing terms of the over-time contracts vary but are generally based on achieving specified milestones. The difference between

the timing of revenue recognised and customer billings result in changes to contract assets (unbilled work in progress) and contract liabilities. Contractual retention amounts billed to customers are generally due upon expiration of the contract period.

The contracts generally result in revenue recognised in excess of billings which are presented as contract assets in the restated statement of assets and liabilities. Amounts billed and due from customers are classified as receivables on the statement of financial position. The portion of the payments retained by the customer until final contract settlement is not considered a significant financing component since it is usually intended to provide customer with a form of security for Company's remaining performance as specified under the contract, which is consistent with the industry practice. Contract liabilities represent amounts billed to customers in excess of revenue recognised till date. A liability is recognised for advance payments, and it is not considered as a significant financing component since it is used to meet working capital requirements at the time of project mobilization stage. The same is presented as contract liability in the restated statement of assets and liabilities.

Estimates of revenue and costs are reviewed periodically and revised, wherever circumstances change, resulting increases or decreases in revenue determination, is recognized in the restated statement of profit and loss in the period in which estimates are revised.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are charged-off in restated statement of profit and loss immediately in the period in which such costs are incurred.

Interest income is accrued on a time basis, by reference to the principle outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Other non-operating income is recognised as and when due or received, whichever is earlier.

b) Taxes

Income tax expense comprises of current tax expense and deferred tax expenses. Current tax and deferred tax are recognized in Restated statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

(i) Current income tax:

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act of the respective jurisdiction. The current tax is calculated using tax rates that have been enacted or substantively enacted, at the reporting date.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(ii) Deferred tax:

Deferred tax is recognized using the Balance Sheet approach on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts.

Deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities.

The Company recognises deferred tax liability for all taxable temporary differences, except to the extent that both of the following conditions are satisfied:

- When the Company can control the timing of the reversal of the temporary difference; and
- It is probable that the temporary difference will not reverse in the foreseeable future.

c) Property, Plant and Equipment

All items of property, plant and equipment are initially recorded at cost. Cost of property, plant and equipment comprises purchase price, non-refundable taxes, levies and any directly attributable cost of bringing the asset to its working condition for the intended use. Subsequent to initial recognition, property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The cost of an item of property, plant and equipment is recognized as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost includes the cost of replacing part of the property, plant and equipment and borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying property, plant and equipment.

Items such as spare parts, stand-by equipment and servicing equipment that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Costs in nature of repairs and maintenance are recognized in the Restated statement of profit and loss as and when incurred.

Depreciation on property, plant and equipment is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 as per straight line method.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of transition date, measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

d) Investment properties

Investment properties are held to earn rentals or for capital appreciation, or both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investment properties are measured initially at their cost of acquisition. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company. All other repair and maintenance costs are recognised in restated statement of profit and loss as incurred.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its investment properties recognised as of transition date, measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

e) Intangible assets

Intangible assets such as computer software acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment loss, if any.

Intangible assets are amortised over their estimated useful life of 3 years on straight line method and is recognised in the restated statement of profit and loss under the head "Depreciation and Amortisation expense". The estimated useful life of the intangible assets and the amortization period are reviewed at the end of each financial year and the amortization period is revised to reflect the changed pattern, if any.

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets

recognised as of transition date, measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

f) Inventories

The stock of construction materials, stores, spares is valued at cost or net realisable value, whichever is lower. However, these items are considered to be realisable at cost if the finished products in which they will be used, are expected to be sold at or above cost. Cost is determined on weighted average basis and includes all applicable cost of bringing the goods to their present location and condition. Revenue from sale of scrap material is presented as reduction from cost of materials consumed in the restated statement of profit and loss.

g) Cash and cash equivalents

Cash and cash equivalents comprises cash in hand and demand deposits with banks, short-term balances (with an original maturity of three months or less), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Margin money deposits, earmarked balances with banks and other bank balances which have restrictions are presented as other bank balances.

h) Borrowing costs

Borrowing costs consists of interest, ancillary costs and other costs in connection with the borrowing of funds.

Borrowing costs attributable to acquisition and/or construction of qualifying assets are capitalised as a part of the cost of such assets, up to the date such assets are ready for their intended use. All other borrowing costs are charged to the restated statement of profit and loss.

i) Impairment of non-financial assets

The Company assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Groups of assets.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses of continuing operations are recognised in the Restated statement of profit and loss.

j) Leases

Company as a lessee

At the commencement date of a lease, the Company recognises a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Right-of-use assets are measured at cost, less any accumulated depreciation, impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized and lease payments made at or before the commencement date. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification or a change in the lease term. The Company separately recognises the interest expense on the lease liability as finance cost and the depreciation expense on the right-of-use asset.

The Company accounts for a lease modification as a separate lease when both of the following conditions are met:

- The modification increases the scope of the lease by adding the right to use one or more underlying assets.
- The consideration for the lease increases commensurate with the price for the increase in scope and any adjustments to that stand-alone price reflect the circumstances of the particular contract.

For a lease modification that fully or partially decreases the scope of the lease the Company decreases the carrying amount of the right-of-use asset to reflect partial or full termination of the lease. Any difference between those adjustments is recognized in profit or loss at the effective date of the modification.

The Company has elected to use the exemptions proposed by the standard on lease contracts for which the lease terms end within 12 months as of the date of initial application, and lease contracts for which the underlying asset is of low value. The Company recognises the lease payments associated with such leases as an expense in the restated statement of profit and loss.

k) Financial Instruments

Initial recognition and measurement

Financial instruments (assets and liabilities) are recognised when the Company becomes a party to a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets (unless it is a trade receivable without a significant financing component) and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, other than those designated as fair value through profit or loss (FVTPL), are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in restated statement of profit and loss. A trade receivable without a significant financing component is initially measured at the transaction price. The amount of retention money held by the customers is disclosed as part of trade receivables.

i. Financial assets

All regular way purchase or sale of financial assets are recognised and derecognised on a trade date basis. Regular way purchase or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Subsequent measurement

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets:

- Financial assets measured at amortised cost
- Financial assets measured at fair value through profit or loss (FVTPL)

Financial assets measured at amortised cost

A financial asset is measured at amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the instruments give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. EIR is the rate that exactly discounts estimated future cash receipts (including all fees, transaction costs and other premiums or discounts) through the expected life of the debt instrument or where appropriate, a shorter period, to the net carrying amount on initial recognition.

The EIR amortisation is included in other income in the restated statement of profit and loss. The losses arising from impairment are recognised in the restated statement of profit and loss. This category generally applies to trade and other receivables, loans, etc.

Financial assets measured at FVTPL

Debt instrument

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. Financial assets included within the FVTPL category are measured at fair value with all changes recognised in the restated statement of profit and loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass through' arrangement; and either
 - the Company has transferred substantially all the risks and rewards of the asset, or
 - the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Debt instruments measured at amortised cost e.g., bank deposits
- Trade receivables
- Other financial assets not designated as FVTPL

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables (including lease receivables). The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

ii. Financial liabilities

Subsequent measurement

All financial liabilities are subsequently measured at amortised cost using the EIR method or at FVTPL.

Financial liabilities at amortised cost

After initial recognition, interest-bearing borrowings and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in restated statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the restated statement of profit and loss.

Financial liabilities at FVTPL

Financial liabilities are classified as FVTPL when the financial liabilities are held for trading or are designated as FVTPL

on initial recognition. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

De-recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires.

iii. Trade receivables

A receivable represents the Company's right to an amount of consideration under the contract with a customer that is unconditional and realizable on the due date (i.e., only the passage of time is required before payment of the consideration is due). Trade receivable without a significant financing component is initially measured at the transaction price.

iv. Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per agreed terms. Trade payables are presented based on the operating cycle of the Company. They are recognised initially at their transaction price and subsequently measured at amortised cost using the effective interest method.

v. Offsetting financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the restated statement of assets and liabilities if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

l) Provisions (other than employee benefits)

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

m) Provision for warranty

The estimated liability for warranty is recorded at the commencement of defect liability period. These estimates are established using historical information on the nature, frequency and average cost of obligations and management estimates regarding possible future incidence based on corrective actions during the period under warranty phase.

n) Contingencies

Disclosure of contingent liabilities is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognised in the restated financial information. However, contingent assets are assessed continuously and if it is virtually certain that an inflow of economic benefits will arise, the assets and the related income are recognised in the period in which the change occurs. Contingent assets are disclosed where an inflow of economic benefits is probable.

o) Employee Benefits

Liability on account of short-term employee benefits is recognised on an undiscounted and accrual basis during the period when the employee renders service/ vesting period of the benefit.

Defined Contribution Plan:

The Company pays contribution to the provident fund and employee state insurance corporation which is administered by respective Government authorities. The Company has no further payment obligations once the contributions have been paid. The Contributions are recognized as employee benefit expense in the restated statement of profit and loss to the year it pertains.

Defined benefit plan:

Gratuity: The Company's liability towards gratuity is determined using the projected unit credit method which considers each period of service as giving rise to additional unit of benefit entitlement and measures each unit separately to build up the final obligation. The cost for past services is recognized on a straight-line basis over the average period until the amended benefits become vested.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the restated statement of changes in equity and in the restated statement of assets and liabilities.

Obligation is measured at the present value of estimated future cash flows using a discount rate that is determined by reference to market yields at the reporting date on Government bonds where the currency and the terms of Government bonds are consistent with the currency and estimated term of defined benefit obligation.

p) Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit attributable to equity shareholders and the weighted average number of shares outstanding are adjusted for the effect of all dilutive potential equity shares from the exercise of options on unissued share capital. The number of equity shares is the aggregate of the weighted average number of equity shares and the weighted average number of equity shares which are to be issued in the conversion of all dilutive potential equity shares into equity shares.

q) Exceptional items

When items of income and expense within profit or loss from ordinary activities are of such size, nature or incidence that their disclosure is relevant to explain the performance of the enterprise for the period, the nature and amount of such material items are disclosed separately as exceptional items.

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker regularly monitors and reviews the operating result of the whole Group as one segment of EPC. Thus, as defined in Ind AS 108 "Operating Segments", our Company's entire business falls under this one operational segment and hence the necessary information has already been disclosed in the Restated statement of assets and liabilities and the restated statement of profit and loss.

Onerous contracts/Foreseeable losses

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist where our Company has a contract under which unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The expected loss is recognised as an expense immediately in the restated statement of profit and loss.

Key accounting estimates and judgements

The preparation of our Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Examples of such estimates include estimation of useful lives of property plant and equipment, employee costs, assessments of recoverable amounts of deferred tax assets, trade receivables and cash generating units, provisions against

litigations and contingencies. Estimates and underlying assumptions are reviewed by management at each reporting date. Actual results could differ from these estimates. Any revision of these estimates is recognised prospectively in the current and future periods.

Deferred income taxes

The assessment of the probability of future taxable profit in which deferred tax assets can be utilized is based on our Company's latest forecast, which is adjusted for significant non-taxable profit and expenses and specific limits to the use of any unused tax loss or credit. The tax rules in the different jurisdictions in which our Company operates are also carefully taken into consideration. If a positive forecast of taxable profit indicates the probable use of a deferred tax asset, especially when it can be utilized without a time limit, that deferred tax asset is usually recognized in full.

Revenue recognition

Determination of revenue under percentage of completion method necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the percentage of completion, costs to completion, the expected revenue from the project or activity and foreseeable losses to completion. Estimates of project income, as well as project costs, are reviewed periodically. The effect of changes, if any, to estimates is recognised in the financial statements for the year in which such changes are determined.

Current income taxes

The tax jurisdiction for our Company is India. Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods. The recognition of taxes that are subject to certain legal or economic limits or uncertainties is assessed individually by management based on the specific facts and circumstances.

Accounting for defined benefit plans

In accounting for post-retirement benefits, several statistical and other factors that attempt to anticipate future events are used to calculate plan expenses and liabilities. These factors include expected discount rate assumptions and rate of future compensation increases. To estimate these factors, actuarial consultants also use estimates such as withdrawal, turnover, and mortality rates which require significant judgment. The actuarial assumptions used by our Company may differ materially from actual results in future periods due to changing market and economic conditions, regulatory events, judicial rulings, higher or lower withdrawal rates, or longer or shorter participant life spans.

Impairment

An impairment loss is recognised for the amount by which an asset's or cash-generating unit's carrying amount exceeds its recoverable amount to determine the recoverable amount, management estimates expected future cash flows from each asset or cash generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. In the process of measuring expected future cash flows, management makes assumptions about future operating results. These assumptions relate to future events and circumstances. The actual results may vary and may cause significant adjustments to our Company's assets.

In most cases, determining the applicable discount rate involves estimating the appropriate adjustment to market risk and the appropriate adjustment to asset-specific risk factors.

Expected credit loss

See “ - *Impairment of financial assets*” on page 351.

Fair value of financial instruments

Management uses valuation techniques in measuring the fair value of financial instruments where active market quotes are not available. In applying the valuation techniques, management makes maximum use of market inputs and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in pricing the instrument. Where applicable data is not observable, management uses its best estimate about the assumptions that market participants would make. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Provisions and contingent liabilities

A provision is recognised when our Company has a present obligation as result of a past event and it is probable that the outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each reporting date and adjusted to reflect the current best estimates. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgements and the use of estimates regarding the outcome of future events

Joint arrangements

Based on the requirement of tender issuing authority/ prospective customer, our Company has formed joint arrangement which are not body corporate. Our Company applies judgment considering the underlying terms agreed with the venturer, substance of transactions and responsibility assumed by our Company including managing operations of such venture. Basis such assessment, if our Company determines that (a) joint control does not exist and (b) in substance it assumes practically all the risk and rewards related to such arrangements, it considers such arrangement as its own extension. Accordingly, as at reporting periods, our Company has included the results and transactions of such arrangements in its financial statements and has not considered such arrangements as separate component for reporting purpose.

Leases

Our Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease required significant judgement. Our Company uses judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company revises the lease term if there is a change in non-cancellable period of a lease.

Segment information

Our Company is principally engaged in a single business segment viz. Engineering, Procurement and Construction (EPC) services. Our Company's Chief Operating Decision Maker (CODM) monitor and review the operating result of our Company prepared on the basis of financial information of EPC business, as a whole. Thus, as defined in Ind AS 108 "Operating Segments", our Company's entire business falls under this one operational segment.

Information about revenue split by geographical area

There is no reportable geographical segment as our customers are located in India.

Key components of Income and Expenses

We report our income and expenditure in the following manner:

Total income

Our total income comprises our revenue from operations and other income.

Revenue from operations. Our revenue from operations primarily comprises sales of services (i.e., income from engineering, procurement and construction (EPC) services) and other operating revenue.

Other income. Other income primarily comprises interest income bank deposits, interest income on income tax refund, and other non-operating income which include provisions no longer required written back, gain on sale of property, plant and equipment (net), gain on mutual fund investments (on sale and fair value changes), allowance for expected credit loss written back and miscellaneous income.

Expenses

Our total expenses comprise cost of materials consumed, project related expense, employee benefits expense, finance costs, depreciation and amortisation expense and other expenses.

Cost of materials consumed. Our cost of materials consumed include stores and spares.

Project related expense. Our project related expense comprises sub-contracting charges, technical consultancy charges, plant and machinery hire charges, transportation charges, loading and unloading charges, survey costs, warranty expenses and other project expenses.

Employee benefits expense. Our employee benefits expense comprises salaries and bonus (including directors' remuneration), contribution to provident and other funds, staff welfare expenses, gratuity expense and compensated

absences expense.

Finance costs. Our finance costs includes interest expense on borrowings carried at amortised cost, interest expense on delayed payment of statutory dues, interest expense on lease liabilities, interest expense on delayed payment to micro and small enterprises vendors and other borrowing costs which primarily includes loan processing charges, guarantee charges and other charges.

Depreciation and amortization expense. Depreciation and amortization expense include depreciation on property, plant and equipment, depreciation of right-of-use assets and amortization of intangible assets.

Other expenses. Our other expenses primarily comprise electricity expenses, rent expense, repairs and maintenance – buildings, repairs and maintenance – others, security charges, insurance, rates and taxes, vehicle hire charges, auditor's remuneration, travelling and conveyance, consulting and professional fees, site expenses, donation, printing and stationary, bank charges, business promotion expenses, provision for foreseeable losses on contracts (net), contribution to political party, corporate social responsibility expenses, allowance for expected credit loss and miscellaneous expenses.

Other comprehensive income

Other comprehensive income / (loss) comprises items that will not be reclassified to profit or loss.

Our results of operations

The following table sets forth select financial data derived from our restated statement of profit and loss for Fiscals 2024, 2023 and 2022 and we have expressed the components of select financial data as a percentage of total income for such years:

Fiscal 2024 compared to Fiscal 2023

Total income

Our total income increased by 49.56 % to ₹ 7,914.37 million for Fiscal 2024 from ₹ 5,291.79 million for Fiscal 2023. This increase was primarily due to an increase in revenue from operations, which was primarily driven by an increase in income from engineering, procurement and construction (EPC) services. For further details, see “-Revenue from operations” below.

Revenue from operations. Our revenue from operations increased by 49.90 % to ₹ 7,859.48 million for Fiscal 2024 from ₹ 5,243.05 million for Fiscal 2023. This was primarily attributable to an increase in income from engineering, procurement and construction (EPC) services by 48.14% to ₹ 7,766.89 million for Fiscal 2024 from ₹ 5,243.05 million for Fiscal 2023, primarily due to increase in the number of projects awarded to us;

Other income. Our other income increased by 12.62 % to ₹ 54.89 million for Fiscal 2024 from ₹ 48.74 million for Fiscal 2023, primarily due to an increase in interest income on bank deposits.

Expenses

Cost of materials consumed. The cost of materials consumed increased by 44.46 % to ₹ 3,849.57 million for Fiscal 2024 from ₹ 2,664.83 million for Fiscal 2023, primarily due to an increase in an increase in Revenue from Operations on account of increase in the number of projects awarded to us.

Project related expense. Project related expense increased by 74.43 % to ₹ 1,677.68 million for Fiscal 2024 from ₹ 961.78 million for Fiscal 2023, primarily due to an increase in sub-contracting charges to ₹ 1,278.04 million for Fiscal 2024 from ₹ 783.15 million for Fiscal 2023 and technical consultancy charges to ₹ 281.28 million for Fiscal 2024 from ₹ 77.70 million for Fiscal 2023.

Employee benefits expense. Employee benefits expense increased by 45.49 % to ₹ 589.63 million for Fiscal 2024 from ₹ 405.26 million for Fiscal 2023, primarily due to an increase in salaries and bonus expenses (including directors' remuneration) to ₹ 530.35 million for Fiscal 2024 from ₹ 361.97 million for Fiscal 2023 and compensated absences expense to ₹ 10.31 million for Fiscal 2024 from ₹ 2.83 million for Fiscal 2023.

Finance costs. Finance costs increased by 13.37 % to ₹ 319.87 million for Fiscal 2024 from ₹ 282.16 million for Fiscal 2023, primarily due to an increase in the interest expense on borrowings carried at amortised cost to ₹ 234.07 million for Fiscal 2024 from ₹ 189.61 million for Fiscal 2023. The increase in the interest expense on borrowings carried at amortised cost was primarily attributable to an increase in an increase in cash credit facilities.

Depreciation and amortization expense. Depreciation and amortization expense increased by 9.55 % to ₹ 40.51 million for Fiscal 2024 from ₹ 36.98 million for Fiscal 2023, primarily due to an increase in the depreciation of right of use assets to ₹ 8.63 million for Fiscal 2024 from ₹ 7.73 million for Fiscal 2023 and an increase in depreciation of property, plant, and equipment to ₹ 24.32 million for Fiscal 2024 from ₹ 21.73 million for Fiscal 2023. The increase in depreciation of right of use assets and increase in depreciation of property, plant and equipment was primarily attributable to an increase in additions to Computers, Tools & Tackles.

Other expenses. Our other expenses decreased by 1.06 % to ₹ 409.65 million for Fiscal 2024 from ₹ 414.04 million for Fiscal 2023, primarily due to a decrease in:

- consulting and professional fees to ₹ 80.25 million in Fiscal 2024 from ₹ 93.64 million in Fiscal 2023, primarily attributable to demobilisation of old project sites;
- site expenses to ₹ 13.94 million in Fiscal 2024 from ₹ 17.94 million in Fiscal 2023, primarily attributable to demobilisation of old project sites;
- miscellaneous expenses to ₹ 6.62 million in Fiscal 2024 from ₹ 9.13 million in Fiscal 2023, primarily attributable to demobilisation of old project sites.

Restated profit for the year

For the reasons discussed above, the restated profit increased by 74.67% to ₹ 748.31 million for Fiscal 2024 from ₹ 428.40 million for Fiscal 2023.

Fiscal 2023 compared to Fiscal 2022

Total income

Our total income increased by 10.34 % to ₹ 5,291.79 million for Fiscal 2023 from ₹ 4,795.67 million for Fiscal 2022. This increase was primarily due to an increase in revenue from operations, which was primarily driven by an increase in income from engineering, procurement and construction (EPC) services. For further details, see “-Revenue from operations” below.

Revenue from operations. Our revenue from operations increased by 10.56 % to ₹ 5,243.05 million for Fiscal 2023 from ₹ 4,742.12 million for Fiscal 2022. This was primarily attributable to an increase in income from engineering, procurement and construction (EPC) services by 10.56% to ₹ 5,243.05 million for Fiscal 2024 from ₹ 4,742.12 million for Fiscal 2023, primarily due to increase in project sites;

Other income. Our other income decreased by 8.98 % to ₹ 48.74 million for Fiscal 2023 from ₹ 53.55 million for Fiscal 2022, primarily due to a decrease in gain on mutual fund investments and miscellaneous income.

Expenses

Cost of materials consumed. The cost of materials consumed decreased by 12.28 % to ₹ 2,664.83 million for Fiscal 2023 from ₹ 3,037.78 million for Fiscal 2022, primarily due to lower portion of material cost in total cost for water projects compared to power projects.

Project related expense. Project related expense increased by 50.88 % to ₹ 961.78 million for Fiscal 2023 from ₹ 637.44 million for Fiscal 2022, primarily due to an increase in sub-contracting charges to ₹ 783.15 million for Fiscal 2023 from ₹ 492.84 million for Fiscal 2022 and technical consultancy charges to ₹ 77.70 million for Fiscal 2023 from ₹ 16.18 million for Fiscal 2022.

Employee benefits expense. Employee benefits expense increased by 20.32 % to ₹ 405.26 million for Fiscal 2023 from ₹ 336.81 million for Fiscal 2022, primarily due to an increase in salaries and bonus expenses (including directors’ remuneration) to ₹ 361.97 million for Fiscal 2023 from ₹ 300.44 million for Fiscal 2022 and staff welfare expenses to ₹ 17.51 million for Fiscal 2023 from ₹ 11.25 million for Fiscal 2022.

Finance costs. Finance costs increased by 50.92 % to ₹ 282.16 million for Fiscal 2023 from ₹ 186.96 million for Fiscal 2022, primarily due to an increase in the interest expense on borrowings carried at amortised cost to ₹ 189.61 million for Fiscal 2023 from ₹ 134.21 million for Fiscal 2022, increase in interest expense on delayed payment of statutory dues to ₹ 6.82 million for Fiscal 2023 from ₹ 0.17 million for Fiscal 2022, and interest expense on delayed payment to micro and small enterprises vendors to ₹ 20.37 million for Fiscal 2023 from ₹ 0.58 million for Fiscal 2022.

Depreciation and amortization expense. Depreciation and amortization expense increased by 48.10 % to ₹ 36.98 million for Fiscal 2023 from ₹ 24.97 million for Fiscal 2022, primarily due to an increase in the depreciation of right of use assets to ₹ 7.73 million for Fiscal 2023 from ₹ 3.68 million for Fiscal 2022 and an increase in depreciation of property, plant, and equipment to ₹ 21.73 million for Fiscal 2023 from ₹ 14.12 million for Fiscal 2022. The increase in depreciation of right of use assets and increase in depreciation of property, plant and equipment was primarily attributable to an increase in computers, tools & tackles.

Other expenses. Our other expenses decreased by 13.41 % to ₹ 414.04 million for Fiscal 2023 from ₹ 478.15 million for Fiscal 2022, primarily due to a decrease in:

- vehicle hire charges to ₹ 33.73 million in Fiscal 2023 from ₹ 55.35 million in Fiscal 2022, primarily attributable to demobilisation of old project sites ;
- consulting and professional fees to ₹ 93.64 million in Fiscal 2023 from ₹ 107.87 million in Fiscal 2022, primarily attributable to demobilisation of old project sites;
- miscellaneous expenses to ₹ 9.13 million in Fiscal 2023 from ₹ 17.81 million in Fiscal 2022, primarily attributable to demobilisation of old project sites.

Restated profit for the year

For the reasons discussed above, the restated profit increased by 549.97% to ₹ 428.40 million for Fiscal 2023 from ₹ 65.91 million for Fiscal 2022.

Non-GAAP measures

This Draft Red Herring Prospectus includes Net Asset Value per Equity Share, EBITDA, EBITDA Margin, Profit After Tax, Profit After Tax Margin, Capital Employed, Return on Equity, Return on Capital Employed, Debt to Equity Ratio, Revenue CAGR, EBITDA CAGR, PAT CAGR, Order Book, Order book to Revenue from Operations and Net Worth (collectively “**Non-GAAP Measures**”) and certain other industry measures related to our operations and financial performance, which are supplemental measures of our performance and liquidity and are not required by, or presented in accordance with, Ind AS, IFRS or U.S. GAAP. In addition to our results determined in accordance with Ind AS, we believe the following Non-GAAP measures are useful to investors in evaluating our operating performance and liquidity. We use the following Non-GAAP financial information to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that Non-GAAP financial information, when taken collectively with financial measures prepared in accordance with Ind AS, may be helpful to investors because it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance. However, our management does not consider these Non-GAAP measures in isolation or as an alternative to financial measures determined in accordance with Ind AS.

Non-GAAP financial information is presented for supplemental informational purposes only, has limitations as an analytical tool and should not be considered in isolation or as a substitute for financial information presented in accordance with Ind AS. Non-GAAP financial information may be different from similarly titled Non-GAAP measures used by other companies. Non-GAAP financial measures are not required by, or presented in accordance with, IndAS, IFRS or U.S. GAAP. Our Non-GAAP financial measures are not a measurement of financial performance or liquidity under these accounting standards and should not be construed in isolation or construed as an alternative to restated cash flows, restated loss for the period or any other measures of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated from our operating, investing or financing activities, derived in accordance with Ind AS, IFRS or U.S. GAAP. The principal limitation of these Non-GAAP financial measures is that they exclude significant expenses and income that are required by IndAS to be recorded in our financial statements, as further detailed below. In addition, they are subject to inherent limitations as they reflect the exercise of judgment by management about which expenses and income are excluded or included in determining these Non-GAAP financial measures. A reconciliation is provided below for each Non-GAAP financial measure to the most directly comparable financial measure prepared in accordance with Ind AS. Investors are encouraged to review the related Ind AS financial measures and the reconciliation of Non-GAAP financial measures to their most directly comparable Ind AS financial measures included below and to not rely on any single financial measure to evaluate our business.

(₹ in million)

*Future cash outflows in respect of above matters are determinable only on receipt of judgements / decisions pending at various forums / authorities. The management, based on their assessment, does not expect these claims to succeed and accordingly, no provision has been recognised in the financial statements. These amount represents gross demand raised by the authorities and the amount paid under protest is not charged to the statement of profit and loss by the Company.

Off-balance sheet commitments and arrangements

We do not have any off-balance sheet arrangements, derivative instruments, swap transactions or relationships with affiliates or other unconsolidated entities or financial partnerships that would have been established for the purpose of facilitating off-balance sheet arrangements.

Quantitative and Qualitative Analysis of Market Risks

We are exposed to various types of market risks during the normal course of business. For further details, see “*Risk Factors*” beginning on page 33:

Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service dues according to the contractual terms and obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and credit worthiness of the customer on continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. The financial instruments that are subject to concentration of credit risk principally consist of trade receivables and cash and bank equivalents.

Bank deposits are placed with reputed banks / financial institutions. Hence, there is no significant credit risk on such fixed deposits. Mutual fund investments are made in plans of renowned asset management company only. The credit risk associated with bank, security deposits and mutual fund investments is relatively low.

Other financial assets includes deposits receivable, interest accrued on deposits and other receivables. These receivables are monitored on a periodic basis for assessing any significant risk of non-recoverability of dues and provision is created accordingly.

Trade receivables are typically unsecured. Credit risk on trade receivables is limited as the Company’s customer base substantially includes government promoted undertakings and public sector undertakings. Also, generally the company does not enter into sales transaction with customers having credit loss history. In addition, trade receivable balances are monitored on an on-going basis with the result that the Company’s exposure to bad debts is not significant. The portion of the payments retained by the customer until final contract settlement is not considered a significant financing component since it is usually intended to provide customer with a form of security for Company’s remaining performance as specified under the contract, which is consistent with the industry practice. The Company does not require collateral in respect of its trade receivables. An impairment analysis is performed at each reporting date using a provision matrix to measure ECL. The provision rates are based on days past due. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions, if any. In case of disputed trade receivables, the Company performs individual credit risk assessment and creates expected credit loss allowance (ECL) based on internal assessment for such cases.

The following table provides information about the ECL rate for trade receivables:

Ageing bracket of trade receivables past due date	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022
Upto 90 days	0.10% to 1.00%	0.10% to 1.00%	0.10% to 1.00%
91 to 180 days	2.50% to 4.50%	2.00% to 4.00%	2.00% to 4.00%
181 to 365 days	8.00% to 12.00%	8.00% to 11.00%	8.00% to 11.00%
More than 365 days	25.00% to 80.00%	25.00% to 80.00%	25.00% to 80.00%

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding to meet obligations when due. Due to the dynamic nature of the underlying businesses, Company maintains flexibility in funding by maintaining sufficient cash and bank balances available to meet the working capital requirements. Management monitors rolling forecasts of the Company’s liquidity position on the basis of expected cash flows.

The Company’s principal sources of liquidity are cash and cash equivalents, and the cash flow that is generated from operations. The Company believes that the working capital is sufficient to meet its current requirements. Accordingly, no liquidity risk is perceived. The Company closely monitors its liquidity position and maintains adequate source of funding.

The Company also participates in supply chain financing arrangement (SCF) which under which suppliers may elect to receive early payment of their invoice from by factoring their receivables.

Market risk

Market risk is the risk that changes in market prices, such as interest rates and equity prices will affect the Company’s

income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations provisions and on the non-financial assets and liabilities. The sensitivity of the relevant profit and loss item is the effect of the assumed changes in respective market risks.

Interest rate risk

Interest rate risk is the risk that the fair value or the future cash flows of a financial instrument will fluctuate because of changes in market interest rate risks. The Company's exposure to risk of changes in market interest rates primarily to the Company's long-term debt obligations. For the Company the interest risk arises mainly from interest bearing borrowings which are at floating interest rates. To mitigate interest rate risk, the Company closely monitors market interest and optimise borrowing mix / composition.

Auditor qualifications and emphasis of matter

There are no qualifications of the Statutory Auditors which have not been given effect to in the Restated Financial Information except for reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended) for the year ended March 31, 2024, as disclosed in the section "*Restated Financial Information*" on page 272. Such qualification do not require any adjustments in the Restated Financial Information. Certain emphasis of matter, which do not require any adjustments in the Restated Financial Information are as follows:

Fiscal 2024:

"We draw attention to Note 13.1 to the financial statements, which describe an uncertainty to the outcome of an ongoing litigation with a customer on recoverability of balance amounting to INR 2,929 lakhs due from such customer, which is currently pending in the Commercial Court, Jaipur. The management based on their internal evaluation and legal advice as obtained, is of the view that the aforesaid amount receivable is good and recoverable and no liability is likely to arise on the aforesaid matter, and accordingly, no adjustments have been made to the financial statements in this respect. Our opinion is not modified in respect of this matter."

Fiscal 2023:

"We draw attention to:

"In the FY 2019-20 a survey by the DGGI (GST) department was conducted w.r.t to transaction for the FY 2017-18. Where company had accepted the GST liability of INR 133.60 Millions on pretext to buy peace of mind and started paying GST amount. Upto 31 March, 2022 company had paid GST amounting to INR 86.20 Millions against the same. During the current financial year company has received the SCN from the DGGI department and based on the legal opinion obtained, management is of the view that neither the balance GST amount of INR 47.40 Millions is payable by the company nor there is requirement of making any provision for interest and penalty. Hence company has reversed the GST liability of INR 127.40 Millions during the FY 22-23 and disclosed under exceptional item and recognised assets of INR 80.00 Millions. Presently the matter is under litigation."

"As on 31 March, 2023 company is custodian of customer owned inventory amounting to INR 3901.79 Millions, where execution/handover to customer is pending. Further during the year company has supplied material having sales value of INR 1279.62 Millions, which are yet to be invoiced to the customer, was under certification from respective customers,. As per the management, these inventories are lying at different/ remote locations at various stages of project execution. Hence, physical verification of inventory was not possible."

"We draw attention to Note No. 32 to the financial statements, we had sent positive external confirmation requests through electronic modes. However, there are fewer confirmations received than anticipated. In respect to trade receivable, trade payable and advances are subject to confirmation from respective parties and consequential reconciliation/adjustment arising there from, if any. However, management anticipates that there is no material impact due to such reconciliation and confirmations."

"The Company enters into Engineering Procurement and Construction (EPC) contracts, which are complex in nature and span over a number of reporting periods. AS 7, Contracts Accounts, Revenue from construction contracts is recognised based on the stage of completion determined with reference to the actual costs incurred up to reporting date on the construction contract and the estimated cost to complete the project. Cost estimates involves judgments including those relating to cost escalations; assessment of technical, political, regulatory and other related contract risks and their financial estimation; scope of deliveries and services required for fulfilling the contractually defined obligations and expected delays, it relies on management's estimates of the final outcome of

each contract, and involves management judgement, particularly in forecasting the cost to complete a contract, valuing contract variations, claims and liquidated damages.”

“During the year company has accounted the work execution of INR 1786.20 Millions which were under certification by the respective customers as on 31 March 2023. Company has started practice of raising proforma Invoice on uncertified work, where GST liability was not provided. Later as the work get certified, company raises the Tax Invoice including the GST amount. Company has taken a legal opinion according to which, GST liability is applicable only when amount is received or milestone achieve as per the contract terms. However company has reversed the uncertified sale to complied with AS-7.”

“At the year end, company has booked unbilled sub-contract services amounting to INR 446.90 Millions based on the proforma invoice and joint measurement sheet between sub-contractor and company. However till signing of the financials statements out of the provision for INR 446.90 Millions, tax invoice has been received for INR 267.40 Millions. Management explain that balance work is under certification from respective customers and tax invoice will be received once the work is certified by the customers”

“As fully explain in Note no 28 of the financial statement, in the month of April 23, one of the client has short closed the ongoing project. The Company has accounted the project loss of INR 160.20 Millions in AS-7 working during the current financial year. Further, Company has taken a legal opinion based on which management is confident that it will get the refund. Hence, no provision against advances received, debtors outstanding and performance liability was made in the current financials statement . However as the matter of abundant precaution the amount is duly disclosed the amount as contingent liability.”

“The Company is principally engaged in the EPC business where majority of erection/installation work are carried through various sub-contractors. As a principal contractor company is liable for various labour compliance as per provisions of Employee Provident Fund Act, 1952 and allied labour Act’s. During our course of audit, we found unsatisfactory compliance of labour laws by some sub-contractors. However, management has explained that they have the practice of deducting and retaining five percent amount from the invoices of sub-contractor for the PF Compliance.”

“The Company is principally engaged in the EPC business where majority of erection/installation work are carried through various sub-contractors. Company has a practice of material reconciliation with sub-contractor at the closer of project, whereas it should be done periodically. However, management has explained that they have the practice of deducting and retaining ten percent amount from the invoices of sub-contractor till the material is reconciled.”

“We draw attention to Note no 6 of the Financial Statements regarding classification of retention payable to certain vendors as non-current Trade Payable. These retention to vendors are payable only on completion and reconciliation of ongoing project which involves management’s judgement.”

Fiscal 2022:

“As on 31 March 2022 company is custodian of customer owned inventory amounting to INR 3330.38 Millions, where execution/handover to customer is pending. As per the management, these inventories are lying at different/remote locations at various stages of project execution. We are not able to verify the physical inventory neither able to satisfy ourselves with the alternative procedures.”

“We draw attention to Note No. 30 to the financial statements, we had sent positive external confirmation requests through electronic modes. However, there are fewer confirmations received than anticipated. In respect to trade receivable, trade payable and advances are subject to confirmation from respective parties and consequential reconciliation/adjustment arising there from, if any. However, management anticipates that there is no material impact due to such reconciliation and confirmations.”

“The Company enters into Engineering Procurement and Construction (EPC) contracts, which are complex in nature and span over several reporting periods. “The Company is principally engaged in the EPC business of transmission and distribution sector where majority of erection/installation work are carried through various sub-contractors. Company has a practice of material reconciliation with subcontractor at the closer of project, whereas it should be done periodically. However, management has explained that they have the practice of deducting and retaining ten percent amount from the invoices of sub-contractors till the material is reconciled.”

“As of 31 March 2022, trade receivables of INR 318.36 Millions related to amount collectible in respect of the operationally closed project. In determining whether provision is required, the management takes into consideration the ageing status and likelihood of collection based on contractual terms, experience, customer correspondence etc. Based on such assessment, specific allowances are made for receivable that are unlike to be collected. There is the involvement of material amount which are based on the management judgement. Out of INR 318.36 Millions of trade receivable, INR 113.69 Millions have been disputed by certain customers on account of liquidated damages/price variation/others. Management is confident that Company is following the contractual terms with the customers and accordingly amount would be realized in due course of time. However, as a matter of abundant precaution, it has made total provision of INR 33.97 Millions against disputed trade receivables.”

“We draw attention to Note no 6 of the Financial Statements regarding classification of retention payable to certain vendors as non-current Trade Payable. These retention to vendors is payable only on completion and reconciliation of ongoing project which involves management's judgement.”

Vide order delivered on August 14, 2024 and effective from August 23, 2024 w.e.f appointed date April 01, 2021, Hon’ble National Company Law Tribunal (NCLT), Mumbai Bench approved the scheme of amalgamation of the Company with Farista Financials Consultants Private Limited and Deb Suppliers and Traders Private Limited under Section 230 to 232 of the Companies Act, 2013 and other applicable provisions of the Act read with Companies (Compromises, Arrangements and Amalgamation) Rules, 2016 (‘the Merger’).

SECTION VI: LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATIONS AND MATERIAL DEVELOPMENTS

Except as disclosed in this section, there are no outstanding (i) criminal proceedings; (ii) actions taken by regulatory or statutory authorities including notices issued by such authorities; (iii) claims related to direct and indirect taxes; and (iv) any other outstanding litigation as determined to be material pursuant to the Materiality Policy in accordance with the SEBI ICDR Regulations in each case involving our Company, Promoters, and Directors (“**Relevant Parties**”) and (v) litigation involving our Group Company which have a material impact on our Company. Further, except as disclosed in this section, there are no disciplinary actions including penalties imposed by the SEBI or the stock exchanges against the Promoters in the last five financial years including any outstanding action.

Further, as on the date of this Draft Red Herring Prospectus, there are no findings/observations of any inspections by SEBI or any other regulator involving our Company which are material and which need to be disclosed or non-disclosure of which may have bearing on the investment decision.

There are no outstanding litigation involving our Group Company which would have a material impact on our Company.

Pursuant to the Materiality Policy adopted by our Board on September 24, 2024 for the purposes of (iv) above, any pending litigation involving the Relevant Parties, has been considered ‘material’ and accordingly disclosed in this Draft Red Herring Prospectus where:

- (i) the claim/ dispute amount, to the extent quantifiable, exceeds ₹ 20.71 million, being the amount equivalent to 5% of the average of absolute value of profit or loss after tax, as per the Restated Financial Information of our Company; or
- (ii) where monetary liability is not quantifiable or does not exceed the threshold mentioned in point (i) above, the outcome of any such pending proceedings may have a material bearing on the business, operations, performance, prospects, financial position or reputation of our Company; in the opinion of the Board or
- (iii) any claim/dispute involving the Relevant Parties where the decision in one litigation is likely to affect the decision in similar litigations, even though the amount involved in an individual litigation may not exceed ₹ [20.71 million], being the amount equivalent to 5% of the average of absolute value of profit or loss after tax, as per the Restated Financial Information of our Company.

For the purposes of the above, pre-litigation notices received by any of the Relevant Parties from third parties (excluding such notices issued by any statutory/ regulatory/ governmental/ taxation authorities or notices threatening criminal action to the Relevant Parties) shall, unless otherwise decided by the Board, not be considered as litigation until such time that the Relevant Parties are impleaded as defendants or respondents in litigation proceedings before any judicial or arbitral forum. Additionally, FIRs (whether cognizance has been taken or not) initiated against the Relevant Parties shall be disclosed in this Draft Red Herring Prospectus.

Except as stated in this section, there are no outstanding material dues to creditors of our Company. Further in terms of the Materiality Policy, a creditor shall be considered “material”, if the outstanding dues to such creditor is equal to or exceeds 5% of total outstanding dues (trade payables) of our Company, based on the Restated Financial Information. Accordingly, any outstanding dues exceeding ₹ 148.46 million, which is 5% of the total trade payables of our Company as at March 31, 2024 as per the Restated Financial Information, have been considered as material outstanding dues for the purposes of disclosure in this section. Further, for outstanding dues to any party which is a micro, small or medium enterprise (“**MSME**”), the disclosure will be based on information available with the Company regarding the status of the creditor as defined under Micro, Small and Medium Enterprises Development Act, 2006, as amended read with the rules and notifications thereunder.

I. Litigation involving our Company

A. *Litigation filed against our Company*

a. *Criminal proceedings*

1. CBI has filed the charge sheet under Sections 7, 9, 10 and 12 of Prevention of Corruption Act and under Section 120 (B) of the Indian Penal Code, 1860 against one Abhay Chaudhary, a railway officer along with 4 (four) other persons including our Company (“**Accused**”). In the charge sheet the CBI has alleged that the railway officer has

asked for the bribe of Rs. 1.5 million for favouring our Company in procuring the tender and our Company has given the bribe to the employees. The matter is pending for framing of charges against the Accused. The matter is currently pending.

b. Outstanding actions by regulatory and statutory authorities

1. The Company has filed Writ Petition bearing No. W.P.(C) 11215/2024 & CM APPL 46390/2024 before the Hon'ble High Court of Delhi at New Delhi against Union of India and Another (“**the Respondents**”) challenging the order dated July 26, 2024 (“**Order**”) passed by Bhupender Singh Bodh, Executive Director/Gati Shakti (Elect.) Railway Board. In terms of the said Order CORE/Vigilance held that the Ministry of Railways should ban the Company for a period of two years for breaching code of integrity and involvement in illegal gratification. In this Writ Petition, the Company has refuted the allegations of giving bribe and indicating that there is no provision in the conditions of tender documents and contract, which debars or ban any business with the contractor on the grounds of mere allegations of giving bribe. The Company has also pointed that General Manager, Railways failed to follow principles of natural justice in deciding whether such transactions as alleged has been committed or not.. Vide its Order dated August 13, 2024, the Hon'ble High Court of Delhi held that prima facie it is of the opinion that the impugned order is unsustainable and has also stayed operation of the Order dated July 26, 2024. The matter is currently pending.

c. Material civil proceedings

As on the date of this Draft Red Herring Prospectus, there are no outstanding material civil proceedings initiated against our Company

B. Litigation filed by our Company

a. Criminal proceedings

1. Ajit Singh, Dy. Manager of the Company (“**the Appellant**”) has filed Criminal Revision No. 384 of 2022 against the State of M.P. through Police Station, Civil Line, Morena, District Morena (MP) challenging the Order dated January 28, 2022 passed in Case No. 48/2020 ST by Learned IVth Additional Sessions Judge, Morena by which charges for the offence punishable under sections 304- Part-2 of IPC has been framed against the Appellant. The Appellant is Dy. Manager of the Company. On February 22, 2019 an F.I.R. was lodged against the Applicant and contractor Neeraj Tyagi on a written report lodged by complainant Ravi S/o Late Shri Lokendra @ Chote Kushwah, R/o - Pahawali, Jhous Ka Pura, Civil Line, Morena (M.P.). It was alleged by the complainant that his father Lokendra @ Chote Kushwah is working with the Company on the electricity line. It was further alleged that at 12 p.m, the Manager of Company Ajit Singh and contractor Neeraj Tyagi asked him to climb on the pole, his father told them that electric line is live and he refused to climb on the pole but the Appellant and Ajit Singh forced him to climb on the pole, as the electricity current was flowing to the lines, the complainant's father died. On the report of the complainant, a case under Section 304-A of IPC was registered against the Applicant, Ajit Singh and Contractor Neeraj Tyagi at FIR No. 0106 at police station civil line, Morena on February 22, 2019. The Police filed charge-sheet Before Learned Chief Judicial Magistrate, Morena (M.P) for an offence under Section 304 of IPC though the FIR was lodged under Section 304 A of IPC. The Learned Chief Judicial Magistrate Morena committed the matter to the Session Court, Morena for session trial. Learned Session Judge vide its Order dated January 28, 2022 framed the charges under Section 304 part-2 of IPC, hence this revision has been filed inter alia on the grounds that the Order dated January 28, 2022 is contrary to law and the chargesheet does not make out that offence under Section 304 part-2. Further, it was contended that the bare perusal of the charge-sheet indicates that the present Applicant was not present nor did he issue instructions to the deceased to climb on the pole, therefore, he cannot be made liable under Section 304 part-2 of IPC. In view of the same, the Appellant has prayed to allow the instant revision and set aside/quash the impugned Order dated January 28, 2022. and all the proceedings pending before the learned IVth Additional Session Judge, Morena pursuant to FIR No. 0106 at police station Civil Line Morena dated February 22, 2019. After filing of Criminal Revision No. 384 of 2022, the judgement dated November 29, 2023 has been passed by the Hon'ble Sessions Court in the Criminal Case no. 48/2020, wherein the Court has exonerated all the accused including the Appellant. Accordingly, the Criminal Revision No. 384 of 2022 will be withdrawn in due course. The matter is currently pending.

b. Material civil proceedings

The Company has challenged the Public Notice and prayed that RSDCL should take the handing over of the site with the proper acknowledgement. The Hon'ble High Court of Rajasthan has enjoined RSDCL from taking any coercive action against the Company. Later the Public Notice was revoked by RSDCL. In view of the withdrawal of Public Notice, the Hon'ble High Court vide Order dated 31st October, 2023 dismissed this Writ Petition being infructuous. The Company has filed Writ Appeal bearing No.104 of 2024 against the Order of the Hon'ble High Court of Rajasthan for setting aside the said Order dated October 31, 2023 and the fresh adjudication of the matter on merits. The matter is currently pending.

RSDCL had also issued the Show Cause Notice dated June 8, 2023 (“**Show Cause Notice**”) to the Company for showing cause why the action of debarment should not be taken against the Company. The Company filed Writ Petition bearing No.10309 of 2023 challenging the said Show cause notice as per Section 46(4) of the Rajasthan Transparency in Public Procurement Act, 2012. The Hon'ble High Court of Rajasthan dismissed this Writ Petition vide Order dated November 22, 2023 with the direction to the Company for approaching the authority for their decision. The Company filed an Appeal bearing DB Special Appeal No.1023 of 2023 before the Hon'ble High Court of Rajasthan against the said Order. The Hon'ble High Court of Rajasthan has stayed the operation of the Order dated November 22, 2023 and directed RSDCL not to take any coercive steps under the Show Cause Notice. The matter is currently pending.

The Company has also filed Civil Suit No.506/2023 as also Misc. Application No.610/2023 against RSDCL before the Commercial Court No.1, Jaipur, Rajasthan praying for mandatory injunction against RSDCL from proceeding with the project without properly acknowledging the receipt of the material, assets and measurement of the work of the Company. Material Tax Proceedings involving our Company

1. The Company has filed an appeal before DCIT (Central Circle-1), Thane, in respect of A.Y. 2016-17 under Section 153A of Income-tax Act, 1961 challenging notice of demand dated March 31, 2022 under Section 156 of the Income-tax Act, 1961 amounting to Rs. 31,864,977/-. The Assessing Officer has alleged that the Company has availed accommodation facilities from shell companies in the form of unsecured loans, which are not genuine transactions and therefore, certain amounts are added to the total income of the Company. The matter is currently pending.
2. Investigation was initiated against the Company on the basis of an intelligence that some of the Company's Suppliers were involved in raising invoices without actual supply of goods/services and that the Company had availed inadmissible/ineligible ITC on the strength of bogus invoices and that they utilised this ineligible Inpat Tax

Credit (ITC) for discharging their due GST liability. It was observed from the data available in GSTN portal that more than 82% of their GST liability was paid by the Company by utilising ITC during the period July 2017 to March 2021. Investigation revealed that the Company had received contract from M/s High Ground Enterprise Ltd. and M/s. Aditi Infrabuild & Services Ltd for internal road at T2 Terminal at CS1A, Mumbai. The Company sub-contracted the contract received from M/s High Ground Enterprise Ltd. to M/s Sunil Hitech Engineers Ltd and M/s Rayon Infrastructures Pvt. Ltd and the contract received from M/s. Aditi Infrabuild & Services Ltd was sub-contracted to Mehar Power India Pvt. Ltd. it is alleged in the SCN that these contracts were not executed and sub-contractors issued invoices to the Company without actual supply of service and the Company fraudulently availed ITC on the strength of these invoices. The Company, thereby, raised bogus invoices without actual supply of service to M/s High Ground Enterprise Ltd. and M/s. Aditi Infrabuild & Services Ltd who would make payment to the Company and thereafter they would make payment to their sub-contractors.

It is alleged in the SCN that the investigation found that the Company availed ineligible ITC of Rs.133,591,706/- during the period July 2017 to March 2021, on the strength of the invoices issued by their sub-contractors, M/s Sunil (Hitech) Engineers Ltd; M/s Rayon Infrastructures Pvt. Ltd and M/s Mehar Power India Pvt. Ltd without actual supply of services in violation of Section 16(2)(b) of the CGST Act, 2017, read with relevant provisions of MGST Act, 2017 which is recoverable from them as mentioned hereinabove.

On the basis of the investigation, the Additional Commissioner CGST and CX, Thane Commissionerate has vide his Order dated 21st July, 2023 imposed following on the Company:

- Demand of inadmissible ITC of Rs. 132,591,706/- (CGST Rs. 66,795,853/- & SGST- Rs.66,795,853/- on the Company wrongly availed and utilised by the Company without receipt of the goods/services during the period from July 2017 to March 2021.
- Penalty amounting to Rs. 133,591,706/- on the Company, equivalent to the ITC demand at (ii) above under Section 74(9) of the CGST Act, 2017 read with relevant provisions of the MGST Act, 2017 for availment and utilisation of inadmissible ITC by reason of suppression of facts during the period from July 2017 to March 2021.
- Penalty amount to Rs. 135,464,889/- on the Company under Section 122(1) (ii) of the CGST Act, 2017 read with relevant provisions of the MGST Act, 2017 for passing on ineligible ITC to their clients.

The Company has filed an appeal before the Hon'ble Commissioner Appeals, Thane, challenging the said Order dated 21st July, 2023 and requesting it be set aside and allowing the Appeal in full with consequential reliefs. The aggregate amount involved is Rs. 402,648,301/- and the said Appeal is currently pending.

3. The Company has filed Appeal before the Appellate Authority being Commissioner (Appeals) CGST, Indore challenging the Order dated April 26, 2024 passed by the Joint Commissioner, CGST, Central Excise, Manika Bagh Palace, Indore, holding that the Company has claimed ITC in excess of the entitlement to the tune of Rs. 67,481,603 in respect of Financial Year 2018- 19 to 2020-21. The Company has filed this Appeal on the ground that it has not availed any excess ITC that was available to the Company for the availment during the relevant period. The matter is currently pending.
4. The Company has filed Appeal to the Appellate Authority being Deputy Commissioner, State Tax, Thane Division, 05, in respect of Assessment Year 2017-18 to 2020-2021. In this Appeal the Company has requested the Appellate Authority to grant the Company refunds to the tune of Rs.80,000,000. On August 30, 2019, the Directorate General of GST Intelligence ("DGGI") initiated an investigation against the Company in accordance with Section 67 of the CGST Act 2017. The issue communicated was all about the issuance and receipt of invoices without the underlying supply of any goods or services. The search operations, which spanned two days, exerted significant pressure on the Company's management. The persistent duress was sustained through multiple instances of summons and appearances at the DGGI office subsequent to the execution of the search operation, accompanied by the DGGI officer's intimidation of potential incarceration. In response to the perceived threat of arrest and to alleviate the pressure from the department's coercive tactics, the Appellant had remitted a sum of Rs. 80,000,000/- (Rs. 30,000,000 via Credit and Rs. 50,000,000 via Cash) to the government treasury. Subsequently, an order confirming demand of Rs. 402,648,301/- (Tax interest and Penalty) was passed by the Department, vide Order No. 70/MKS-50/TH-CGST/2023/24. The referred order was duly challenged and is pending before the Commissioner (Appeals), Thane on November 10, 2023. Considering the genuineness of the transaction and vagueness of the allegations drawn by the Department, the Company filed various refund applications to claim refund of excess taxes deposited under duress in accordance to the provisions contained in Section 54 of the CGST Act, 2017, which were merely denied by way of issuance of Deficiency Memo basing the time barring of the said application, without taking into consideration the effect of Notification No. 13/2022 Central Tax dated 05 July, 2022, issued retrospectively from

01st March 2020 and subsequently, the Company was required to re-apply for the referred claim. The Appeal is currently pending.

Eligibility for the Offer

Our Company is eligible for the Offer in accordance with Regulation 6(1) of the SEBI ICDR Regulations as set out under the eligibility criteria calculated in accordance with the Restated Financial Information, as indicated below:

Our Company has had net tangible assets of at least ₹30 million, calculated on a restated basis, in each of the preceding three full years (of 12 months each) (i.e. Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022), of which not more than 50% are held in monetary assets;

Our Company has an average operating profit of at least ₹150 million, calculated on a restated basis, during the preceding three years (of 12 months each), with operating profit in each of these preceding three years;

Our Company has a net worth of at least ₹10 million in each of the preceding three full years (of 12 months each), calculated on a restated basis; and

Our Company has changed its name within the last one year from “Vikran Engineering & Exim Private Limited” to “Vikran Engineering Private Limited” and thereafter pursuant to its conversion into a public limited company. However, our Company continues to pursue the same business activity. Further, at least 50% of the revenue for the preceding one full year has been earned by our Company from the activity indicated by the new name.

Our Company’s net tangible assets, monetary assets, monetary assets as a percentage of the net tangible assets, operating profits and net worth, derived from the Restated Financial Information included in this Draft Red Herring Prospectus as at, and for the last three Financial Years ended March 31, 2024, March 31, 2023 and March 31, 2022, are set forth below:

(₹ in million, unless otherwise stated)

Particulars	Financial Year 2024	Financial Year 2023	Financial Year 2022
Net tangible assets, as restated ⁽¹⁾	2,813.54	1,225.26	833.05
Monetary assets, as restated ⁽²⁾	747.55	576.17	425.00
Monetary assets as a percentage of Net tangible assets (in %), as restated	26.57%	47.02%	51.02% ⁽³⁾

- (1) ‘Net tangible assets’ means the sum of all net assets of the Company, excluding intangible assets as defined in Indian Accounting Standard (Ind AS) 38, deferred tax assets and liabilities as defined in Ind AS 12 and right of use assets as defined in Ind AS 116 issued by Institute of Chartered Accountants of India.
- (2) ‘Monetary assets’ is the aggregate of cash on hand and balance with banks (including other bank balances and committed bank deposits included in other non-current financial assets).
- (3) In FY 2021-22, Monetary assets as a percentage of Net tangible assets comes to 51.02% which is greater than 50% of net tangible assets. As per ICDR regulation 6(1)(a), Company should have net tangible assets of at least Rs. 30 million, calculated on a restated in each of the preceding three full years (of 12 months each), of which not more than 50% were held in monetary assets. In Fiscal 2022, the value of monetary assets includes committed bank deposits (included in other non-current financial assets) i.e. bank deposits having remaining maturity of more than 12 months (held as margin money against borrowings, guarantees and other commitments including collateral securities (with various government authorities and banks) of Rs. 189.40 million., which is deemed as to be utilised or made firm commitments to utilise such excess monetary assets in Company’s business or project. Hence, the ratio of monetary assets (excluding such committed bank deposits) as a percentage of Net tangible assets will be 28.28% which is complying with Regulation 6(1) of the SEBI ICDR Regulations.

(₹ in million)

Particulars	Financial Year 2024	Financial Year 2023	Financial Year 2022
Operating Profit, as restated ⁽²⁾	1,292.44	760.16	226.97
Net Worth, as restated ⁽¹⁾	2,912.80	1,311.35	892.12

- (1) ‘Net worth’ has been defined under Regulation 2(1)(hh) of the SEBI ICDR Regulations as the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation..
- (2) ‘Operating Profit’ has been calculated as profit before tax add finance cost and less other income

The average pre-tax operating profit, as restated for the last three Financial Years is ₹ 759.85 million.

The status of compliance of our Company with the conditions as specified under Regulations 5 and 7(1) of the SEBI ICDR Regulations are as follows:

- (i) Our Company, Promoters, members of our Promoter Group, Directors and the Promoter Selling Shareholder are not debarred from accessing the capital markets by SEBI;
- (ii) The companies with which our Promoters or Directors are associated as a promoter or director are not debarred from accessing the capital markets by SEBI;
- (iii) Neither our Company, nor our Promoters or Directors is a Wilful Defaulter or Fraudulent Borrower;
- (iv) None of our Promoters or Directors have been declared as a Fugitive Economic Offender;
- (v) There are no outstanding warrants, options or rights to convert debentures, loans or other instruments into, or any other right which would entitle any person with any option to receive Equity Shares as on the date of this Draft Red Herring Prospectus;
- (vi) Our Company along with Registrar to the Offer has entered into tripartite agreements dated October 8, 2018 and February 17, 2024 with NSDL and CDSL, respectively, for dematerialisation of the Equity Shares.
- (vii) All the Equity Shares held by our Promoters are in dematerialised form;
- (viii) All the Equity Shares are fully paid-up and there are no partly paid-up Equity Shares as on the date of filing of this Draft Red Herring Prospectus; and
- (ix) There is no requirement for us to make firm arrangements of finance under Regulation 7(1)I of the SEBI ICDR Regulations through verifiable means towards 75% of the stated means of finance.
- (x) Our Company has received in-principle approvals from BSE and NSE for the listing of the Equity Shares pursuant to their letters dated [●] and [●], respectively; and
- (xi) Our Company has appointed [●] as the Designated Stock Exchange

Our Company will ensure compliance with Regulation 7(2) of the SEBI ICDR Regulations, to the extent applicable.

Mechanism for redressal

The Registrar Agreement provides for retention of records with the Registrar to the Offer for a period of at least eight years from the date of listing and commencement of trading of the Equity Shares to enable the Bidders to approach the Registrar to the Offer for redressal of their grievances.

All grievances, other than of Anchor Investors may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary with whom the ASBA Form was submitted, giving full details such as name of the sole or First Bidder, ASBA Form number, Bidder’s DP ID, Client ID, PAN, address of Bidder, number of Equity Shares applied for, ASBA Account number in which the amount equivalent to the Bid Amount was blocked or the UPI ID (for UPI Bidders who make the payment of Bid Amount through the UPI Mechanism), date of ASBA Form and the name and address of

the relevant Designated Intermediary where the Bid was submitted. Further, the Bidder shall enclose the Acknowledgment Slip or the application number from the Designated Intermediary in addition to the documents or information mentioned hereinabove. All grievances relating to Bids submitted through Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Offer.

All grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or First Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the Book Running Lead Managers where the Bid cum Application Form was submitted by the Anchor Investor.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding four Working Days from the Bid/ Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Bid Amount or the entire duration of delay exceeding three Working Days from the Bid / Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in its sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

In terms of SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/22 dated February 15, 2018, SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular bearing number SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and amended by the SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, in terms of SEBI circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLM, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The following compensation mechanism has become applicable for investor grievances in relation to Bids made through the UPI Mechanism for public issues opening on or after May 1, 2021, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensation period
Delayed unblock for cancelled / withdrawn / deleted applications	₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	1. Instantly revoke the blocked funds other than the original application amount; and 2. ₹ 100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	1. Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount; and 2. ₹ 100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non – Allotted/partially Allotted applications	₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalisation of the Basis of Allotment till the date of actual unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the Book Running Lead Managers shall be liable to compensate the investor ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period

ranging from the day on which the investor grievance is received till the date of actual unblock.

Our Company, the Promoter Selling Shareholder and the Book Running Lead Managers and the Registrar to the Offer accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations.

For helpline details of the Book Running Lead Managers pursuant to the SEBI circular bearing number SEBI/HO/CFD/DIL-2/OW/P/2021/2481/1/M dated March 16, 2021, see “*General Information – Book Running Lead Managers*” on page 80.

Further, the Bidder shall also enclose a copy of the Acknowledgment Slip duly received from the concerned Designated Intermediary in addition to the information mentioned hereinabove.

All grievances relating to Bids submitted with Registered Brokers may be addressed to the Stock Exchanges with a copy to the Registrar to the Offer. The Registrar to the Offer shall obtain the required information from the SCSBs and Sponsor Banks for addressing any clarifications or grievances of ASBA Bidders. Our Company, the Promoter Selling Shareholder, the Book Running Lead Managers and the Registrar to the Offer accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under the SEBI ICDR Regulations. Bidders can contact our Company Secretary and Compliance officer or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of Allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode.

Disposal of Investor Grievances by our Company

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the relevant Designated Intermediary, for the redressal of routine investor grievances shall be 10 Working Days from the date of receipt of the complaint, provided however, in relation to complaints pertaining to blocking/unblocking of funds, investor complaints shall be resolved on the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible. The Promoter Selling Shareholder, specifically, has authorised our Compliance Officer and the Registrar to the Offer to redress any complaints received from Bidders in respect of its portion of the Offered Shares.

Our Company has also appointed Kajal Rakholiya, Company Secretary of our Company, as the Compliance Officer for the Offer. For further details, see “*General Information*” on page 78.

Our Company has constituted a Stakeholders’ Relationship Committee comprising Arun Unhale as its Chairperson, and Nakul Markhedkar and Rakesh Ashok Markhedkar as its members which is responsible for redressal of grievances of security holders of our Company. For further details on the Stakeholders’ Relationship Committee, see “*Our Management – Committees of the Board – Stakeholders’ Relationship Committee*” on page 256.

Our Company shall obtain authentication on the SCORES in terms of the SEBI circular bearing number CIR/OIAE/1/2013 dated April 17, 2013 read with SEBI circular bearing number SEBI/HO/OIAE/IGRD/CIR/P/2021/642 dated October 14, 2021 and shall comply with SEBI circular bearing number CIR/OIAE/1/2014 dated December 18, 2014 and SEBI Circular SEBI/HO/OIAE/IGRD/P/CIR/2022/0150 dated November 7, 2022 in relation to redressal of investor grievances through SCORES.

Our Company has not received any investor grievances in the last three Financial Years prior to the filing of this Draft Red Herring Prospectus. As on the date of this Draft Red Herring Prospectus there are no outstanding investor grievances.

Our Company does not have any listed group company.

Other confirmations

No person connected with the Offer shall offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any person for making an application in the Offer, except for fees or commission for services rendered in relation to the Offer.

SECTION VII: OFFER INFORMATION

The Offer

The Offer comprises a Fresh Issue by our Company and an Offer for Sale by the Promoter Selling Shareholder. For details in relation to the sharing of Offer expenses, see “*Objects of the Offer*” on page 107.

Ranking of Equity Shares

The Equity Shares being offered and Allotted/ transferred in the Offer shall be subject to the provisions of the Companies Act, SEBI ICDR Regulations, SEBI Listing Regulations, SCRA, SCRR, our MoA and AoA, and shall rank *pari passu* with the existing Equity Shares in all respects including dividends. The Allottees upon Allotment of Equity Shares under the Offer will be entitled to dividend and other corporate benefits, if any, declared by our Company after the date of Allotment. For further details, see “*Description of Equity Shares and Terms of the Articles of Association*” on page 418.

Mode of Payment of Dividend

Our Company shall pay dividends, if declared, to the Shareholders in accordance with the provisions of the Companies Act, our Articles of Association and provisions of the SEBI Listing Regulations and any other guidelines or directions which may be issued by the Government in this regard. Dividends, if any, declared by our Company after the date of Allotment (pursuant to the transfer of Equity Shares from the Offer for Sale), will be payable to the Bidders who have been Allotted or transferred Equity Shares pursuant to the Offer, for the entire year, in accordance with applicable laws. For further details in relation to dividends, see “*Dividend Policy*” and “*Description of Equity Shares and Terms of the Articles of Association*” on pages 271 and 418, respectively.

Face Value, Offer Price, Floor Price and Price Band

The face value of each Equity Share is ₹1. The Floor Price is ₹ [●] per Equity Share and the Cap Price is ₹ [●] per Equity Share, being the Price Band. The Anchor Investor Offer Price is ₹ [●] per Equity Share.

The Price Band and the minimum Bid Lot will be decided by our Company in consultation with the Book Running Lead Managers and shall be advertised in [●] editions of [●], an English national daily newspaper, all editions of [●], a Hindi national daily newspaper and [●] editions of [●], a Marathi regional daily newspaper (Marathi being the regional language of Maharashtra, where our Registered Office is located), at least two Working Days prior to the Bid/Offer Opening Date and shall be made available to the Stock Exchanges for the purpose of uploading the same on their websites. The Price Band, along with the relevant financial ratios calculated at the Floor Price and at the Cap Price, shall be pre-filled in the Bid cum Application Forms available on the websites of the Stock Exchanges. The Offer Price shall be determined by our Company, in consultation with the Book Running Lead Managers after the Bid/Offer Closing Date.

At any given point of time there shall be only one denomination of Equity Shares, unless otherwise permitted by law. There are no outstanding equity shares of the Company having superior voting rights compared to the Equity Shares.

Compliance with disclosure and accounting norms

Our Company shall comply with all disclosure and accounting norms as specified by SEBI from time to time.

Rights of the Equity Shareholders

Subject to applicable laws, rules, regulations and guidelines and our Articles of Association, our Shareholders shall have the following rights:

- Right to receive dividends, if declared;
- Right to attend general meetings and exercise voting rights, unless prohibited by law;
- Right to vote on a poll either in person or by proxy or 'e-voting', in accordance with the provisions of the Companies Act;
- Right to receive offers for rights shares and be allotted bonus shares, if announced;
- Right to receive surplus on liquidation, subject to any statutory and preferential claim being satisfied;
- Right of free transferability of their Equity Shares, subject to applicable laws including any RBI rules and regulations; and
- Such other rights, as may be available to a shareholder of a listed public company under the Companies Act, the SEBI Listing Regulations and our Articles of Association.

For a detailed description of the main provisions of the Articles of Association of our Company relating to voting rights, dividend, forfeiture and lien, transfer, transmission, consolidation or sub-division, see "*Description of Equity Shares and Terms of the Articles of Association*" on page 418.

Allotment only in Dematerialised Form

Pursuant to Section 29 of the Companies Act, 2013 and the SEBI ICDR Regulations, the Equity Shares shall be Allotted only in dematerialised form (i.e. not in the form of physical certificates and be represented by the statement issued through the electronic mode). As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form on the Stock Exchanges. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Offer:

Tripartite agreement dated February 17, 2024 amongst our Company, CDSL and the Registrar to the Offer; and Tripartite agreement dated October 8, 2018, between our Company, NSDL and the Registrar to the Offer.

Market Lot and Trading Lot

Since trading of the Equity Shares is in dematerialised form, the tradable lot is one Equity Share. Allotment in the Offer will be only in dematerialised and electronic form in multiples of one Equity Share subject to a minimum Allotment of [●] Equity Shares. For further details on the Basis of Allotment, see "*Offer Procedure*" on page 397.

Jurisdiction

The courts of Mumbai, India will have exclusive jurisdiction in relation to the Offer.

Joint Holders

Subject to the provisions contained in our Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they shall be entitled to hold the same as joint tenants with benefits of survivorship.

Nomination facility to Bidders

In accordance with Section 72 of the Companies Act, 2013 read with the Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is modified or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer or alienation of Equity Share(s) by the person nominating. A nomination may be cancelled or modified by nominating any other person in place of the present nominee, by the holder of the Equity Shares who made the nomination, by giving a notice of such cancellation or variation to our Company. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agent of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon

the production of such evidence as may be required by our Board, elect either:

- a) to register himself or herself as the holder of the Equity Shares; or
- b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividends, interests, bonuses or other monies payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialised mode there is no need to make a separate nomination with our Company. Nominations registered with respective Depository Participant of the Bidder would prevail. If the Bidder wants to change their nomination, they are requested to inform their respective Depository Participant.

Withdrawal of the Offer

Our Company, in consultation with the Book Running Lead Managers reserve the right not to proceed with the Fresh Issue, and the Promoter Selling Shareholder, reserve the right not to proceed with the Offer for Sale, in whole or in part thereof, to the extent of its Offered Shares, after the Bid/ Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Offer advertisements were published, within two days of the Bid/ Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. The Book Running Lead Managers, through the Registrar to the Offer, shall notify the SCSBs and the Sponsor Banks (in case of UPI Bidders using the UPI Mechanism), to unblock the bank accounts of the ASBA Bidders and the Escrow Collection Bank to release the Bid Amounts to the Anchor Investors, within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which the Equity Shares are proposed to be listed. In terms of the UPI Circulars, in relation to the Offer, the Book Running Lead Manager will submit reports of compliance with the applicable listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it. Further, in case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/ Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding two Working Days from the Bid/ Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The Book Running Lead Manager shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Notwithstanding the foregoing, the Offer is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company, in consultation with the Book Running Lead Manager withdraw the Offer after the Bid/ Offer Closing Date and thereafter determine that they will proceed with a public offering of the Equity Shares, our Company shall file a fresh draft red herring prospectus with SEBI and the Stock Exchanges.

** In case of (i) any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/ Offer Closing Date for cancelled / withdrawn / deleted ASBA Forms, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher from the date on which the request for cancellation/ withdrawal/ deletion is placed in the Stock Exchanges bidding platform until the date on which the amounts are unblocked (ii) any blocking of multiple amounts for the same ASBA Form (for amounts blocked through the UPI Mechanism), the Bidder shall be compensated at a uniform rate ₹ 100 per day or 15% per annum of the total cumulative blocked amount except the original application amount, whichever is higher from the date on which such multiple amounts were blocked till the date of actual unblock; (iii) any blocking of amounts more than the Bid Amount, the Bidder shall be compensated at a uniform rate of ₹ 100 per day or 15% per annum of the difference in amount, whichever is higher from the date on which such excess amounts were blocked till the date of actual unblock; (iv) any delay in unblocking of non-allotted/ partially allotted Bids, exceeding two Working Days from the Bid/ Offer Closing Date, the Bidder shall be compensated pursuant to SEBI circular no. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/76 dated May 30, 2022 and SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 (to the extent these have not been rescinded by the SEBI master circular bearing number SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024, and SEBI master circular bearing reference number SEBI/HO/CFD/PoD-2/P/CIR/2023/00094, dated June 21, 2023), which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of our Company with the SCSBs, to the extent applicable. The processing fees for applications made by UPI Bidders may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.*

The above timetable is indicative and does not constitute any obligation or liability on our Company or the Promoter Selling Shareholder or the Book Running Lead Manager.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within such time as prescribed by SEBI, the timetable may be subject to change due to various factors, such as extension of the Bid/ Offer Period by our Company, in consultation with the Book Running Lead Manager, revision of the Price Band or delay in receipt of final certificates from SCSBs, etc resulting in delay in receiving the final listing and trading approval from the Stock Exchanges. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws.

In terms of the UPI Circulars, in relation to the Offer, the Book Running Lead Manager will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within such time as prescribed by SEBI, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Any circulars or notifications from SEBI after the date of this Draft Red Herring Prospectus may result in changes to the listing timelines. Further, the Offer procedure is subject to change to any revised SEBI circulars to this effect.

Submission of Bids (other than Bids from Anchor Investors):

Bid/ Offer Period (except the Bid/ Offer Closing Date)	
Submission and Revision in Bids	Only between 10.00 a.m. and 5.00 p.m. Indian Standard Time (“IST”)
Bid/ Offer Closing Date	
Submission and Revision in Bids	Only between 10.00 a.m. and 3.00 p.m. IST

**UPI mandate end time and date shall be at 5:00 pm on the Bid/Offer Closing Date.*

On the Bid/ Offer Closing Date, the Bids shall be uploaded until:

- (i) 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- (ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by RIBs.

On Bid/ Offer Closing Date, extension of time will be granted by Stock Exchanges only for uploading Bids received from the RIBs, after taking into account the total number of Bids received and as reported by the Book Running Lead Manager to the Stock Exchanges.

The Registrar to the Offer shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on daily basis within 60 minutes of the Bid closure time from the Bid/ Offer Opening Date till the Bid/ Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the Book Running Lead Manager and the RTA on a daily basis, as per the format prescribed in SEBI circular bearing reference number SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case

may be, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/ Offer Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/ Offer Closing Date and in any case no later than 1:00 p.m. IST on the Bid/ Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/ Offer Closing Date, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Offer. Bids and any revision in Bids will be accepted only during Working Days. Investors may please note that as per letter no. LIST/SMD/SM/2006 dated July 3, 2006 and letter no. NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges. The Designated Intermediaries shall modify select fields uploaded in the Stock Exchange Platform during the Bid/Offer Period till 5.00 pm on the Bid/Offer Closing Date after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing. None of our Company, the Promoter Selling Shareholder or any member of the Syndicate is liable for any failure in uploading the Bids due to faults in any software or hardware system or otherwise or blocking of application amount by SCSBs on receipt of instructions from the Sponsor Banks due to any errors, omissions, or otherwise non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in the UPI Mechanism.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid cum Application Form, for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

Our Company, in consultation with the Book Running Lead Managers, reserve the right to revise the Price Band during the Bid/ Offer Period in accordance with the SEBI ICDR Regulations. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly, but the Floor Price shall not be less than the face value of the Equity Shares. In all circumstances, the Cap Price shall be less than or equal to 120% of the Floor Price. Provided that the Cap Price of the Price Band shall be at least 105% of the Floor Price.

In case of any revision to the Price Band, the Bid/ Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/ Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar unforeseen circumstances, our Company in consultation with the BRLMs may, for reasons to be recorded in writing, extend the Bid/ Offer Period for a minimum of one Working Day, subject to the Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/ Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a public notice, and also by indicating the change on the website of the Book Running Lead Managers and at the terminals of the Syndicate Members and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Banks, as applicable.

In case of discrepancy in data entered in the electronic book vis-à-vis data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

Minimum Subscription

If our Company does not receive the minimum subscription in the Offer as specified under Rule 19(2)(b) of the SCRR or the minimum subscription of 90% of the Fresh Issue on the Bid/ Offer Closing Date; or subscription level falls below aforesaid minimum subscription after the Bid/ Offer Closing Date due to withdrawal of Bids or technical rejections or any other reason; or in case of devolvement of Underwriting, aforesaid minimum subscription is not received within 60 days from the date of Bid/ Offer Closing Date or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares in the Offer, our Company shall forthwith refund the entire subscription amount received in accordance with applicable law including the master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023. If there is a delay beyond four days after our Company becomes liable to pay the amount, our Company, and every Director of our Company, who are officers in default, shall pay interest at the rate of 15% per annum. It is clarified that the Promoter Selling Shareholder shall be liable to refund money raised in the Offer together with any interest for delays in making refunds as per applicable law, only to the extent of its portion of Offered Shares. Notwithstanding the foregoing, no liability to make any payment of interest shall accrue on any Promoter Selling Shareholder and such interest shall be borne by our Company unless any delay of the payments to be made hereunder, or any delay in obtaining listing and/or trading approvals or any approvals in relation to the Offer is solely and directly attributable to an act or omission of such Promoter Selling Shareholder.

The requirement for minimum subscription is not applicable to the Offer for Sale. In the event of under-subscription in the Offer, subject to receiving minimum subscription for 90% of the Fresh Issue and compliance with Rule 19(2)(b)

of the SCRR, the Allotment for the valid Bids will be made in the following order: (i) such number of Equity Shares will first be Allotted by the Company such that 90% of the Fresh Issue portion is subscribed; (ii) upon achieving (i) above, all the Equity Shares held by the Promoter Selling Shareholder and offered for sale in the Offer for Sale will be Allotted (in proportion to the Offered Shares being offered by such Promoter Selling Shareholder); and (iii) once Equity Shares have been Allotted as per (i) and (ii) above, such number of Equity Shares will be Allotted by the Company towards the balance 10% of the Fresh Issue portion.

Undersubscription, if any, in any category except the QIB portion, would be met with spill-over from the other categories at the discretion of our Company, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange.

Further, our Company shall ensure that the number of prospective Allottees to whom the Equity Shares will be Allotted shall not be less than 1,000 in compliance with Regulation 49(1) of SEBI ICDR Regulations failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders. In case of delay, if any, in unblocking the ASBA Accounts within such timeline as prescribed under applicable laws, our Company shall be liable to pay interest on the application money in accordance with applicable laws.

Arrangements for Disposal of Odd Lots

Since the Equity Shares will be traded in dematerialised form only, and the market lot for our Equity Shares will be one Equity Share, no arrangements for disposal of odd lots are required.

New Financial Instruments

Our Company is not issuing any new financial instruments through the Offer.

Restrictions, if any on Transfer and Transmission of Equity Shares

Except for the lock-in of the pre-Offer equity share capital of our Company, lock-in of the Promoters' minimum contribution and the Anchor Investor lock-in as provided in "*Capital Structure*" on page 88, and except as provided in our Articles of Association, there are no restrictions on transfer or transmission of Equity Shares and their consolidation or sub-division. For further details see "*Description of Equity Shares and Terms of the Articles of Association*" on page 418.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds was discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”). Subsequently however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders (“UPI Phase III”) and modalities of the implementation of UPI Phase III was notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023. The Offer will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 had introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. Subsequently, vide the SEBI master circular bearing number SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024, consolidated the aforementioned circulars to the extent relevant for RTAs, and rescinded these circulars. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings whose application sizes are up to ₹500,000 shall use the UPI Mechanism. Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings shall be processed only after application monies are blocked in the bank accounts of investors (all categories). These circulars are effective for initial public offers opening on/or after May 1, 2021, and the provisions of these circulars, as amended, are deemed to form part of this Draft Red Herring Prospectus.

In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI master circular bearing number SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024, shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and the BRLMs shall continue to coordinate with intermediaries involved in the said process.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding two Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated in accordance with applicable law. The Book Running Lead Managers shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, Investors shall be entitled

to compensation in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 in case of delays in resolving investor grievances in relation to blocking/unblocking of funds.

Our Company, the Promoter Selling Shareholder and the BRLMs, members of the syndicate do not accept any responsibility for the completeness and accuracy of the information stated in this section and the General Information Document and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in this Draft Red Herring Prospectus, the Red Herring Prospectus and the Prospectus.

Further, our Company, the Promoter Selling Shareholder and the Members of the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in the Offer.

Book Building Procedure

The Offer is being through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Offer shall be allocated on a proportionate basis to QIBs, provided that our Company may, in consultation with the Book Running Lead Managers, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allotment in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Offer shall be available for allocation to Non-Institutional Bidders out of which (a) one third of such portion shall be reserved for Non-Institutional Bidders with Bid size exceeding ₹ 0.20 million and up to ₹ 1.00 million; and (b) two third of such portion shall be reserved for Non-Institutional Bidders with Bid size of more than ₹ 1.00 million, provided that the unsubscribed portion in either of such sub-categories may be allocated to Non-Institutional Bidders in the other sub-category of Non-Institutional Bidders and not less than 35% of the Offer shall be available for allocation to RIBs in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories, at the discretion of our Company, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange and subject to applicable laws. Under-subscription, if any, in the QIB Portion, would not be allowed to be met with spill-over from any other category or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialised segment of the Stock Exchanges.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with the notification by the CBDT dated February 13, 2020 read with press releases dated June 25, 2021 and September 17, 2021, read with press release dated September 17, 2021. CBDT circular no.7 of 2022, dated March 30, 2022, read with press release dated March 28, 2023.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms, which do not have the details of the Bidders' depository account, including DP ID, Client ID, UPI ID (in case of UPI Bidders using the UPI Mechanism) and PAN, shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares rematerialised subsequent to Allotment of the Equity Shares in the Offer, subject to compliance with applicable laws.

Phased implementation of UPI

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of, *inter alia*, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidders through Designated Intermediaries with the objective to reduce the time duration from public issue

closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars and the Previous UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RIB had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular bearing number SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, pursuant to SEBI circular dated March 30, 2020, this phase was extended till further notice. Under this phase, submission of the ASBA Form without UPI by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continued to be six Working Days during this phase.

Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("**T+3 Notification**"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such banks provide a written confirmation, in compliance with the SEBI master circular bearing number SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024 in a format as prescribed by SEBI, from time to time, and such payment of processing fees to the SCSBs shall be made in compliance with circulars prescribed by SEBI and applicable law. The Offer will be made under UPI Phase III of the UPI Circular.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders using the UPI.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law.

Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the Book Running Lead Managers, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Book Running Lead Managers.

Bid cum Application Form

Copies of the Bid cum Application Form (other than for Anchor Investors) and the Abridged Prospectus will be available with the Designated Intermediaries at the Bidding Centres, and our Registered Office. An electronic copy of the Bid cum Application Form will also be available for download on the websites of the Stock Exchanges (www.nseindia.com and www.bseindia.com) at least one day prior to the Bid/ Offer Opening Date.

Copies of the Anchor Investor Application Form will be available at the offices of the Book Running Lead Managers.

All Bidders (other than Anchor Investors) shall mandatorily participate in the Offer only through the ASBA process. UPI Bidders are mandatorily required to use the UPI Mechanism for submitting their bids to Designated Intermediaries and are allowed to use ASBA Process by way of ASBA Forms to submit their bids directly to SCSBs. Anchor Investors are not permitted to participate in the Offer through the ASBA process.

UPI Bidders bidding using the UPI Mechanism must provide the UPI ID in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that does not contain the UPI ID are liable to be rejected.

ASBA Bidders (including UPI Bidders using UPI Mechanism, as applicable) must provide bank account details and authorisation to block funds in their respective ASBA Accounts in the relevant space provided in the ASBA Form and the ASBA Forms that do not contain such details are liable to be rejected or the UPI ID, as applicable, in the relevant space provided in the ASBA Form. Applications made using third party bank account or using third party linked bank account UPI ID are liable for rejection. UPI Bidders using the UPI Mechanism may also apply through the mobile applications using the UPI handles as provided on the website of the SEBI.

ASBA Bidders shall ensure that the Bids are made on ASBA Forms bearing the stamp of the Designated Intermediary, submitted at the Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp are liable to be rejected. ⁽²⁾ Bid cum Application Forms for Anchor Investors shall be available at the offices of the Book Running Lead Managers.

In case of ASBA Forms, the relevant Designated Intermediaries shall upload the relevant bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. For UPI Bidders using UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Banks on a continuous basis to enable the Sponsor Banks to initiate UPI Mandate Request to UPI Bidders for blocking of funds. For ASBA Forms (other than RIBs) Designated Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID / Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re- submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DPID / Client ID or PAN ID, bank code and location code in the Bid details already uploaded.

For UPI Bidders using UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Banks on a continuous basis through API integration to enable the Sponsor Banks to initiate UPI Mandate Request to RIBs for blocking of funds. The Sponsor Banks shall initiate request for blocking of funds through NPCI to RIBs, who shall accept the UPI mandate request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. In accordance with BSE Circular No: 20220803-40 and NSE Circular No: 25/2022, each dated August 3, 2022, for all pending UPI Mandate Requests, the Sponsor Banks shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Offer Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI mandate requests for blocking of funds prior to the Cut-Off Time and all pending UPI mandate requests at the Cut-Off Time shall lapse. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (using the UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e. the Sponsor Banks, NPCI or the Bankers to the Offer) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Banks and the Bankers to the Offer.

The Sponsor Banks and Bankers to the Offer shall provide the audit trail to the Book Running Lead Managers for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in circulars prescribed by SEBI, from time to time.

The processing fees for applications made by the UPI Bidders using the UPI Mechanism may be released to the SCSBs only after such SCSBs provide a written confirmation in compliance with the SEBI master circular bearing number SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024, in a format prescribed by SEBI or applicable law.

Pursuant to NSE circular dated August 3, 2022, the following is applicable to all initial public offers opening on or after September 1, 2022:

- c. Bid entry and modification/ cancellation (if any) shall be allowed in parallel to the regular bidding period upto 5:00 pm on the initial public offer closure day.
- d. Exchanges shall display bid details of only successful ASBA blocked applications i.e. Application with latest status as RC 100 – Block Request Accepted by Investor/ Client.

Electronic registration of Bids

- a. The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Offer, subject to applicable laws.
- b. On the Bid/Offer Closing Date, the Designated Intermediaries may upload the Bids until such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.

- c. Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation/Allotment. The Designated Intermediaries are given until 5:00 pm on the Bid/Offer Closing Date to modify select fields uploaded in the StockExchange Platform during the Bid/Offer Period after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

Participation by Promoters, Promoter Group, the Book Running Lead Managers, the Syndicate Members and persons related to Promoters/Promoter Group/the Book Running Lead Managers

The Book Running Lead Managers and the Syndicate Members shall not be allowed to purchase Equity Shares in the Offer in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the Book Running Lead Managers and the Syndicate Members may Bid for Equity Shares in the Offer, either in the QIB Portion or in the Non-Institutional Portion as may be applicable to such Bidders, and such subscription may be on their own account or on behalf of their clients. All categories of investors, including associates or affiliates of the Book Running Lead Managers and Syndicate Members, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

Except as stated below, neither the Book Running Lead Managers nor any associate of the Book Running Lead Managers can apply in the Offer under the Anchor Investor Portion:

- (i) mutual funds sponsored by entities which are associate of the Book Running Lead Managers;
- (ii) insurance companies promoted by entities which are associate of the Book Running Lead Managers;
- (iii) AIFs sponsored by the entities which are associate of the Book Running Lead Managers; or
- (iv) FPIs other than individuals, corporate bodies and family offices, sponsored by the entities which are associate of the Book Running Lead Managers.

Further, the Promoters and members of the Promoter Group shall not participate by applying for Equity Shares in the Offer. Further, persons related to the Promoters and Promoter Group shall not apply in the Offer under the Anchor Investor Portion. A qualified institutional buyer who has any of the following rights in relation to our Company shall be deemed to be a person related to the Promoters or Promoter Group of our Company:

- (i) rights under a shareholders' agreement or voting agreement entered into with the Promoters or Promoter Group of our Company;
- (ii) veto rights; or
- (iii) right to appoint any nominee director on our Board.

Further, an Anchor Investor shall be deemed to be an "associate of the Book Running Lead Manager" if:

- (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or
- (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or
- (iii) there is a common director, excluding nominee director, amongst the Anchor Investors and the Book Running Lead Managers.

Bids by Mutual Funds

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Managers reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids

provided that the Bids clearly indicate the scheme concerned for which such Bid has been made.

No Mutual Fund scheme shall invest more than 10% of its NAV in equity shares or equity-related instruments of any single company, provided that the limit of 10% shall not be applicable for investments in case of index fund or sector or industry specific scheme. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

Bids by Eligible NRIs

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents ([●] in colour). Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non-Residents ([●] in colour). Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment.

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Eligible NRI Bidders Bidding on a repatriation basis by using the Non-Resident Forms should authorize their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External (“NRE”) accounts, or Foreign Currency Non-Resident (“FCNR”) Accounts, and eligible NRI Bidders Bidding on a non-repatriation basis by using Resident Forms should authorize their respective SCSBs (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary (“NRO”) accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

Participation of Eligible NRIs in the Offer shall be subject to compliance with the FEMA Rules. In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity share capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company. Pursuant to the special resolution dated September 25, 2024, passed by our Shareholders, the aggregate ceiling of 10% was raised to 24%.

NRIs will be permitted to apply in the Offer through Channel I or Channel II (as specified in the UPI Circulars). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circulars) to apply in the Offer, provided the UPI facility is enabled for their NRE/ NRO accounts.

For further details of restrictions on investment by NRIs, see “*Restrictions on Foreign Ownership of Indian Securities*” on page 416.

Participation of Eligible NRIs in the Offer shall be subject to the FEMA Rules.

Bids by HUFs

Bids by Hindu Undivided Families or HUFs should be made, in the individual name of the *Karta*. The Bidder/applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: “Name of sole or first Bidder/applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the *Karta*”. Bids/Applications by HUFs may be considered apart with Bids/Applications from individuals.

Bids by FPIs

An FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognised stock exchange in India, and/or may purchase or sell securities other than equity instruments.

FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of our total paid-up Equity Share capital on a fully diluted basis. Further, in terms of the FEMA Rules, the total holding by each FPI (or a group) shall be less than 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis and the aggregate limit for FPI investments shall be sectoral

caps applicable to our Company, which is 100% of the total paid-up equity share capital of our Company on a fully diluted basis.

In terms of the FEMA Non-debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case the total holding of an FPI increases beyond 10% of the total paid-up equity share capital, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Managers, reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non-Residents ([●] in colour).

As specified in the General Information Document, it is hereby clarified that bids received from FPIs bearing the same PAN shall be treated as multiple Bids and are liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of SEBI FPI Regulations (“**MIM Structure**”), provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs. Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure and indicate the name of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Bids are liable to be rejected. Further, in the following cases, the bids by FPIs will not be considered as multiple Bids: involving (i) the MIM Structure and indicating the name of their respective investment managers in such confirmation; (ii) offshore derivative instruments (“**ODI**”) which have obtained separate FPI registration for ODI and proprietary derivative investments; (iii) sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration; (iv) FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager; (v) multiple branches in different jurisdictions of foreign bank registered as FPIs; (vi) Government and Government related investors registered as Category 1 FPIs; and (vii) Entities registered as Collective Investment Scheme having multiple share classes.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with ‘know your client’ norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instruments issued by or on its behalf, is carried out subject to *inter alia* the following conditions:

- (a) such offshore derivative instruments are transferred only to persons in accordance with Regulation 21(1) of the SEBI FPI Regulations; and
- (b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

Participation of FPIs in the Offer shall be subject to the FEMA Rules.

Please note that in terms of the General Information Document, the maximum Bid by any Bidder including QIB Bidder should not exceed the investment limits prescribed for them under applicable laws. Further, MIM Bids by an FPI Bidder utilising the MIM Structure shall be aggregated for determining the permissible maximum Bid. Further, please note that as disclosed in this Draft Red Herring Prospectus read with the General Information Document, Bid cum Application Forms are liable to be rejected in the event that the Bid in the Bid cum Application Form “*exceeds the Offer size and/or investment limit or maximum number of the Equity Shares that can be held under applicable laws or regulations or maximum amount permissible under applicable laws or regulations, or under the terms of the Red Herring Prospectus.*”

For example, an FPI must ensure that any Bid by a single FPI and/ or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) (collective, the “**FPI Group**”) shall be below 10% of the total paid-up equity share capital of our Company on a fully diluted basis. Any Bids by FPIs and/ or the FPI Group (including but not limited to (a) FPIs Bidding through the MIM Structure; or (b) FPIs with separate registrations for offshore derivative instruments and proprietary derivative instruments) for 10% or more of our total paid-up post Offer equity share capital shall be liable to be rejected.

Bids under Power of Attorney

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, eligible FPIs, AIFs, Mutual Funds, insurance companies, insurance funds set up by the army, navy or airforce of India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of ₹ 250 million and pension funds with a minimum corpus of ₹ 250 million (in each case, subject to applicable law and in accordance with their respective constitutional documents), a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws, as applicable must be lodged along with the Bid cum Application Form. Failing this, our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Managers, reserve the right to accept or reject any Bid in whole or in part, in either case, without assigning any reasons thereof.

Our Company, in consultation with the Book Running Lead Managers in their absolute discretion, reserve the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form.

Bids by SEBI registered VCFs, AIFs and FVCIs

The SEBI FVCI Regulations as amended, *inter alia*, prescribe the investment restrictions on VCFs, and FVCIs registered with SEBI. Further, the SEBI AIF Regulations prescribe, amongst others, the investment restrictions on AIFs. Accordingly, the holding in any company by any individual VCF or FVCI registered with SEBI should not exceed 25% of the corpus of the VCF or FVCI. Further, VCFs and FVCIs can invest only up to 33.33% of their investible funds in various prescribed instruments, including in public offerings.

Category I AIFs and Category II AIFs cannot invest more than 25% of the investible funds in an investee company directly or through investment in the units of other AIF. A Category III AIF cannot invest more than 10% of the investible funds in an investee company directly or through investment in the units of other AIF. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Pursuant to the repeal of the SEBI VCF Regulations, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. Our Company, the Promoter Selling Shareholder, severally and not jointly, and the Book Running Lead Managers will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Participation of VCFs, AIFs or FVCIs in the Offer shall be subject to the FEMA Rules.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

Bids by Limited Liability Partnerships

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Managers

reserve the right to reject any Bid without assigning any reason thereof.

Bids by banking companies

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the Book Running Lead Managers reserves the right to reject any Bid without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended ("**Banking Regulation Act**") and the Master Direction - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10% of the banking company's own paid-up share capital and reserves, whichever is less. Further, the aggregate investment by a banking company in subsidiaries and other entities engaged in financial and non-financial services company cannot exceed 20% of the bank's paid-up share capital and reserves.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company, subject to prior approval of the RBI, if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act; (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company; (iii) hold along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above.

Further, the aggregate investment by a banking company in all its subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments, cannot exceed 20% of the banking company's paid up share capital and reserves.

The banking company is required to submit a time-bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make investment in a (i) subsidiary or a financial services company that is not a subsidiary (with certain exceptions prescribed); and (ii) non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in para 5(a)(v)(c)(i) of the Master Direction - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

Bids by SCSBs

SCSBs participating in the Offer are required to comply with the terms of the circulars bearing numbers CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013 dated September 13, 2012 and January 2, 2013, respectively, issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

Bids by Insurance Companies

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Managers reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The exposure norms for insurers are prescribed under the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016, as amended ("**IRDAI Investment Regulations**"), based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Insurance companies participating in the Offer are advised to refer to the IRDAI Investment Regulations for specific investment limits applicable to them and shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

Bids by Provident Funds/Pension Funds

In case of Bids made by provident funds/pension funds with minimum corpus of ₹ 250 million, subject to applicable law, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension

fund must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Managers reserve the right to reject any Bid, without assigning any reason thereof.

Bids by Systemically Important Non-Banking Financial Companies

In case of Bids made by Systemically Important Non-Banking Financial Companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) certified copy of its last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditor, and (iv) such other approval as may be required by the Systemically Important Non-Banking Financial Companies, are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Managers, reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law. Systemically Important NBFCs participating in the Offer shall comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

Bids by Anchor Investors

For more information, please read the General Information Document.

The information set out above is given for the benefit of the Bidders. Our Company, the Promoter Selling Shareholder, severally and not jointly and the Book Running Lead Managers are not liable for any amendments or modification or changes to applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable law or regulations, or as will be specified in the Red Herring Prospectus.

Information for Bidders

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he/she shall surrender the earlier Acknowledgement Slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company, the Promoter Selling Shareholder and/or the Book Running Lead Managers are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Draft Red Herring Prospectus or the Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

General Instructions

Names of entities responsible for finalising the basis of allotment in a fair and proper manner

The authorised employees of the Designated Stock Exchanges, along with the Book Running Lead Managers and the Registrar, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

Method of allotment as may be prescribed by SEBI from time to time

Our Company will not make any allotment in excess of the Equity Shares offered through the Offer through the Red Herring Prospectus and the Prospectus except in case of oversubscription for the purpose of rounding off to make allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an allotment of not more than 1% of the Offer may be made for the purpose of making allotment in minimum lots.

The Allotment of Equity Shares to applicants other than to the RIBs, Non-Institutional Bidders and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size as determined and disclosed. The Allotment of Equity Shares to Anchor Investors shall be on a discretionary basis.

The Allotment of Equity Shares to each Retail Individual Investor shall not be less than the minimum Bid Lot, subject to the availability of shares in Retail Individual Investor category, and the remaining available shares, if any, shall be allotted on a proportionate basis. Not less than 15% of the Offer shall be available for allocation to Non-Institutional Bidders. The Equity Shares available for allocation to Non-Institutional Bidders under the Non- Institutional Portion, shall be subject to the following: (i) one-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with an application size of more than ₹ 0.20 million and up to ₹ 1.00 million, and (ii) two-third of the portion available to Non-Institutional Bidders shall be reserved for applicants with an application size of more than ₹

1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders. The allotment to each Non-Institutional Bidder shall not be less than the Minimum NIB Application Size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares.

Payment into Anchor Investor Escrow Accounts

Our Company, in consultation with the Book Running Lead Managers will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which, the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Anchor Investor Escrow Account should be drawn in favour of:

- (a) In case of resident Anchor Investors: “[●]”
- (b) In case of non-resident Anchor Investors: “[●]”

Anchor Investors should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Promoter Selling Shareholder, the Syndicate, the Escrow Collection Banks and the Registrar to the Offer to facilitate collections of Bid amounts from Anchor Investors.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA and the FEMA Rules. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The responsibility of granting approval for foreign investment under the Consolidated FDI Policy (defined herein below) and FEMA has been entrusted to the concerned ministries/ departments of the Government of India.

Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry (formerly Department of Industrial Policy and Promotion), Government of India (“**DPIIT**”) issued the Consolidated FDI Policy Circular dated October 15, 2020, with effect from October 15, 2020 (the “**Consolidated FDI Policy**”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. The Consolidated FDI Policy will be valid until the DPIIT issues an updated circular. As on date, under the Consolidated FDI Policy, up to 100% foreign investment under the automatic route is currently permitted for our Company.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that: (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“**Restricted Investors**”), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. These investment restrictions shall also apply to subscribers of offshore derivative instruments. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Bid/ Offer Period.

In accordance with the FEMA Rules, the total holding by any individual NRI or OCI, on a repatriation basis, in a listed Indian company shall not exceed: (i) 5% of the total paid-up equity capital on a fully diluted basis; or (ii) shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis; or (iii) shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant, provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company. Our Company has by way of a special resolution dated September 25, 2024 increased the aforesaid aggregate ceiling of 10% to 24%.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

5. **CORPORATE GOVERNANCE**

3.1. **Board of Directors:**

The Board shall consist of such number of directors as may be required or permitted, including such number of whole-time directors and independent directors, in accordance with the provisions of the the Companies Act, 2013 and the rules framed thereunder and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, and the composition of the Board of the Company shall be, subject to compliance with the applicable Law.

3.2. **Investor Board Observer:**

In addition to the rights related to appointment of Investor Director as provided in this Agreement, the Investor shall also be entitled to nominate 1 (one) of its respective representatives to attend all the Board meetings and all meetings of the committees of the Board as an observer (each such observer the “**Investor Board Observer**”). The Investor Board Observer shall not have any voting rights at Board meetings or Board committee or sub-committee meetings of the Company. The Company shall:

- 3.2.1. invite the Investor Board Observer to attend all the Board meetings of the Company as well as meetings of all Board committees and sub-committees, as the case may be;
- 3.2.2. send the notices, agenda, minutes and other materials for all Board meetings and Board committee and sub-committee meetings to the Investor Board Observer;
- 3.2.3. invite the Investor Board Observer to take part in all discussions at Board Meetings as well as meetings of all Board committees and sub-committee meetings, as the case may be;
- 3.2.4. circulate the notices, agenda, minutes, circular resolutions, and other materials to the Investor Board Observer at the same time and in the same manner as such materials are circulated to the Directors; and
- 3.2.5. reimburse the Investor Board Observer for reasonable out of pocket expenses incurred for attending the Board meetings including but not limited to travel and accommodation at actuals as per Clause 3.2.6.

Notwithstanding what is stated, the provisions of this Article shall no longer apply.

- 3.3. **Qualification Shares and Rotation:** The Investor Director shall not be required to hold any qualification shares and shall not be liable to retire by rotation.

3.4. **Removal of Directors**

- 3.4.1. Except in case of fraud or misstatement by the Investor Director or in case the Investor Director becomes disqualified to act as a director under the provisions of the Act, the Investor Director nominated by the Investor can be removed only by the Investor, in its absolute discretion and by nobody else, by giving a notice in writing to the Company. The Investor shall be entitled to nominate another Director in his or her place for appointment by giving notice in writing to the Company and the Board shall accept the decision of the Investor in this regard. Any such removal shall take effect upon receipt of such notice by the Company and any appointment shall take effect from the date the nominee is appointed by a resolution of the Board.
- 3.4.2. The independent Director appointed on the Board may be removed only with the mutual consent of the Investor and the Promoters, and any new independent Director to be appointed on the Board shall be appointed in accordance with Clause 3.1.1.

3.5. **Voting Compliance**

- 3.5.1. Subject to Reserved Matters, the Promoter, and the Investor shall each exercise their vote in relation to all the Shares held by them at any meeting of the Shareholders called, for the purpose of filling the positions on the Board or in any decision of the Board for such purpose to elect and / or remove

any such Director, and shall take all other actions necessary to ensure the election to, and/or removal from, the Board of such Directors as specified in Clause 3.2 and Clause 3.6.

- 3.5.2. Where any Director is liable to retire by rotation, and the nominating Shareholder of such Director so requests, the Shareholders undertake to vote at general meetings and board meetings and cause their nominee Directors to vote in a manner so as to ensure their re-appointment, if eligible to be reappointed.

3.6. Alternate Directors

- 3.6.1. A Director may nominate, and the Board shall appoint, an alternate Director to act for an existing Director (hereinafter in this Clause "**Original Director**") if the Original Director is absent for the period specified by the Act. For avoidance of doubt, if the Original Director is an Investor Director, then the nomination of an alternate Investor Director shall be at the sole discretion of the Investor to ensure that the absence of the Original Director does not disrupt the proportional representation of the Investor on the Board. An alternate Director, so appointed, shall be entitled to constitute the quorum, vote, issue consent and sign a written resolution on behalf of the Original Director.
- 3.6.2. An alternate Director appointed under Clause 3.8.1 (above) shall not hold office as such for a period longer than that permissible to the Original Director in whose place he has been appointed and shall vacate office as specified in the Act if and when the Original Director returns to India.
- 3.6.3. If the term of office of the Original Director is determined before he returns to India as aforesaid, any provision for the automatic re-appointment of such Original Director in default of another appointment shall apply to the Original Director and not to the alternate Director.

3.7. Chairman

The Parties hereby undertake and agree that immediately post Closing, Mr. Rakesh Markhedkar shall be appointed as the chairman of the Board ("**Board Chairman**"). The Board Chairman shall be entitled to exercise a casting vote. The Board Chairman shall preside over all the meetings of the Board. In case the Board Chairman is unavailable for a meeting, or not present at the time appointed for holding a meeting of the Board, or is not willing to act as the Board Chairman, the directors present shall by majority select a director from amongst the directors present to act as 'chairman' of that meeting. It is expressly clarified that any such casting vote of the Board Chairman shall under no circumstances whatsoever override the vote of the Investor on a Reserved Matter.

3.8. Investor Directors' Liability Exceptions: Subject to Applicable Law, the Promoters and the Company expressly agree and undertake that:

- 3.8.1. The Investor Director shall not be liable for any default or failure of the Company in complying with the provisions of any Applicable Law, including but not limited to, defaults under the Act, Tax and labour laws of India;
- 3.8.2. The Investor Director shall not be identified as a "principal officer", "responsible officer", the "authorised officer", "compliance officer", "officer having knowledge", "officer in charge", "officer who is in default", "an employer of the employees" and "occupier". Further, the Promoters and the Company undertake to ensure that another Person is nominated for the purpose of statutory compliances or otherwise, in order to ensure that the Investor Director does not incur any liability;
- 3.8.3. Subject to Applicable Law, any liability incurred by an Investor Director solely by reason of the fact that he is or was or has agreed to become a director of the Company and any costs and expenses incurred by an Investor Director in defending any action, lawsuit, proceeding, investigation, demand or claim ("**Proceeding**") (whether civil or criminal, administrative or investigative), or in connection with investigating, defending, being a witness in or otherwise participating in any such Proceedings, shall be indemnified out of the proceeds received under the 'directors' and officers' liability insurance policy' held by the Company and, if the Investor Director is unable to recover the loss from the directors' and officers' liability insurance policy or the amount recovered is insufficient, in such an event the Company agrees to indemnify the Investor Director out of the Assets of the Company to the extent permissible under Applicable Law. It is understood between the Parties that the Investor Director shall not be required to be out of pocket at any time with respect to any Proceeding;

- 3.8.4. Notwithstanding anything contained in this Agreement, the Investor Director will be a non-independent non-retiring non-executive nominee Director. The Investor Director (unless otherwise expressly agreed to by the Investor in writing) will not be responsible for the day-to-day management or affairs of the Company, or will be responsible for, or be designated to, ensure that the Company complies with the provisions of any Applicable Laws, other than to the extent that such liability or responsibility cannot be waived or delegated under Applicable Laws; and
- 3.8.5. The Company shall procure and maintain a suitable ‘directors’ and ‘officers’ liability insurance policy’ for all the Directors and senior officers of the Company, which insurance shall be for a sufficient amount and with such coverage as is reasonably required by the Investor and agreed by the Company and the Promoters.

3.9. Access

The Investor Director, and each of the Investors’ authorised representatives will be entitled to examine the books, accounts and records of the Company and will have reasonable access, at all times and with reasonable prior written notice, to the Assets and properties of the Company. The Investor Director (and if an Investor Director is as on such date not appointed, each Investor) may, pursuant to indication regarding fraudulent activity in the Company or identification of evidence regarding fraudulent activity in the Company, at its sole discretion, propose in writing a special audit of the Company to inspect any fraudulent activity in the Company. The Board shall reasonably consider any such proposal made by the Investor Director or each Investor as the case may be, indicating fraudulent activity, and the Board shall appoint an Approved Firm to conduct a special audit regarding the fraudulent activity. The costs for such audit shall be borne by the Company provided, however that, if the audit does not disclose any fraudulent activity, then the costs of the audit shall be borne by such Investor that required it.

3.10. Meetings of the Board

- 3.10.1. The Board shall meet at least once in every calendar quarter during regular business hours on Business Days at the registered office of the Company or any other location as may be agreed to by the Investor in writing and no more than 3 (three) calendar months shall pass between 2 (two) subsequent Board meetings.
- 3.10.2. At least 7 (seven) Business Days clear written notice shall be given for any meeting of the Board to the Directors and Investor Board Observer. The Investor Director shall be entitled to convene a meeting of the Board or committee or include new items on the agenda of any meeting of the Board through issue of a written notice to the Company and the Company shall procure that such notice or revised agenda (as applicable) is sent to all the other Directors. Notice of any meeting shall be sent to the Directors and the Investor Board Observer by electronic mail followed by a confirmation copy by post at his address as provided by the Director / Investor Board Observer to the Company, if any, unless otherwise agreed by the Parties. A meeting of the Board may be called by shorter notice with the written consent of majority of the Directors of the Company, which majority must include an Investor Director.
- 3.10.3. Every such notice convening a Board meeting shall contain an agenda for the Board meeting identifying in sufficient detail each business to be transacted at the Board meeting together with all relevant supporting documents in relation thereto. No matter which has not been detailed in the agenda shall be discussed at any meeting of the Board, except with the consent of the Investor Director and the Promoter Directors; *provided however that*, if the Investor Director is not present at the meeting of the Board, a matter which has not been detailed in the agenda shall be discussed and voted upon at any meeting of the Board only if it is an exigency required by Applicable Law and there is unanimous consent of all the Directors present, which exigency and consent shall be recorded in the minutes of the meeting of the Board, certified true copies of which shall be presented to the Investor Director by the Company.
- 3.10.4. The Directors and Investor Board Observer shall be afforded the opportunity to and may participate in a meeting of the Board or any committee or sub-committee by means of conference telephone, videoconference or similar communications equipment by means of which all persons participating in the meeting can hear each other and, participation in such a meeting, unless prohibited by Applicable Law, shall be accepted as valid presence of such person at such meeting.

3.11. Circular Resolution

- 3.11.1. The Board, any committee and sub-committee of the Board may act by resolution by circulation on any matter except those matters which under the Act must only be acted upon at a meeting in person (or by

electronic means as permissible by Applicable Law) of the Board / committee / sub-committee.

- 3.11.2. Subject to the provisions of the Act and other provisions of this Agreement, a resolution by circulation shall be as valid and effectual as a resolution duly passed at a meeting of the Directors / committee / sub-committee called and held provided it has been circulated for a minimum period of 5 (five) Business Days in draft form, together with the relevant papers, if any, to all the relevant Directors followed by a reminder email to the Directors on the 3rd (third) day after the circulation of a resolution, and has been approved by the requisite number of Directors as required under Applicable Law and an Investor Director.
- 3.11.3. Notwithstanding anything contained in Clause 3.13, no Reserved Matter shall be resolved by a resolution by circulation without an Affirmative Vote.

3.12. Quorum

- 3.12.1. The quorum at the time of commencement and during the meeting of the Board or any committee or sub-committee thereof, shall be the presence, in person or by such means of telephonic and / or virtual presence as provided for in the Act, of at least 2 (two) Directors, or such higher number as is required under Applicable Law, provided that there shall be no quorum unless the Investor Director is present in person (or by electronic means as permissible by Applicable Law) or represented by an alternate Directors at and throughout each meeting of the Board. The Investor Director and the Promoter Director may with respect to himself or herself waive his presence in writing for the purpose of constituting quorum.
- 3.12.2. If at a meeting of the Board (“**Original Board Meeting**”) a valid quorum is not present, as a result of absence of the Investor Director, despite being properly notified, within half an hour of the time appointed for the meeting or, ceases to be present, the meeting shall stand automatically adjourned by 1 (one) week with a subsequent meeting to occur at the same time and at the same location (“**Adjourned Board Meeting**”), unless all the Directors agree to a different time and location. In the event the Investor Director is again absent at such Adjourned Board Meeting and has not waived, in writing, his presence for constituting quorum, even after being properly notified, it shall be deemed that the other Directors present at such Adjourned Board Meeting shall constitute a quorum provided that:
 - 3.12.2.1. written notice of the adjournment has been given to each Director (or his / her alternate Director, as the case may be) by email and at their usual address for service of notices of Board meetings not less than 5 (five) days prior to the date of the Adjourned Board Meeting;
 - 3.12.2.2. no items are considered at the Adjourned Board Meeting which were not on the agenda for the Original Board Meeting, which was adjourned, *provided however that*, subject to Clause 3.14.2.3 a matter which has not been detailed in the agenda shall be discussed and voted upon at any meeting of the Board only if it is an exigency required by Applicable Law and there is unanimous consent of all the Directors present, which exigency and consent shall be recorded in the in the minutes of the meeting of the Board; and
 - 3.12.2.3. no Reserved Matters shall be considered, discussed or resolved upon at such meeting; and
 - 3.12.2.4. the requisite quorum as per the Act is present.
- 3.12.3. In the case of any Original Board Meeting or Adjourned Board Meeting, where any Reserved Matter is considered, discussed, or resolved, the presence of at least 1 (one) Investor Director will be mandatory to constitute a valid quorum.

3.13. Decision making by the Board

- 3.13.1. Subject to Clause 3.15.2, resolutions of the Board shall be passed by a simple majority of votes of the Directors entitled to vote thereon and each Director shall have 1 (one) vote.
- 3.13.2. The Company shall not, at a duly constituted Board Meeting, approve any of the actions or matters as set forth in SCHEDULE III (“**Reserved Matters**”) without having received either: (i) the affirmative vote / approval of the Investor Director; or (ii) if the Investor Director is not appointed or, at the request of an Investor Director, the prior written consent or approval of the Investor (“**Affirmative Vote**”). Any decision taken by the Board with respect to Reserved Matters, without an Affirmative Vote shall be deemed to be null and void.

3.14. Day-to-Day Management

Subject to the powers and procedure of the Board enumerated in this Agreement and in the Act, the day to day affairs and management of the Company shall be performed by the Managing Director of the Company who shall provide quarterly reports of the actions performed by him, pursuant to Board resolutions passed in every last quarter.

3.15. Investor rights

Notwithstanding anything contained in this Agreement or any other agreement and/ or arrangement entered into by the Promoter, his Affiliate(s) and/ or Company, the Company and the Promoter expressly agree that the rights as granted to the Investor shall not be granted to any other Shareholder. In the event that any other Shareholder is provided with rights, preferences, privileges and other favourable terms superior to those available to the Investors, the Parties shall ensure that such superior rights, preferences, privileges and other terms are automatically made available to the Investor (as may be acceptable to each Investor) to the extent permissible under Applicable Law. It is hereby clarified that the Promoter and the Company shall be under an obligation to ensure that they comply with the terms of this Clause 3.17 and any non-compliance shall be deemed to be a material breach of this Agreement.

3.16. Business Plan:

- 3.16.1. A business plan for the Company shall be presented to the Board for approval prior to the commencement of the new Financial Year (such business plan, the “**Business Plan**”) set out in SCHEDULE IX.
- 3.16.2. If the draft Business Plan presented to the Board for the relevant Financial Year is not adopted by the Board prior to the commencement of such Financial Year, then the Business Plan for the previous Financial Year, with increments/ modifications for the parameters therein as determined by the Board, shall be considered to be adopted by the Company as the Business Plan.
- 3.16.3. The consideration received by the Company from the Investor in accordance with the terms of the Share Subscription Agreement shall be used for the planned capital expenditure and/or working capital and/or as set out in the Business Plan and in accordance with applicable Law. Any other use of the Subscription Consideration (including repayment or settlement of any indebtedness owed to any shareholder, director, officer, employee of the Company or any Person affiliated to or associated with such Person) shall be subject to prior written approval of the Investors.

3.17. Minutes

The company secretary will be responsible for maintaining minutes of each meeting of the Board (including, adjourned meetings of the Board) in the books and records of the Company in accordance with the Act. A copy of the minutes of each meeting will be delivered to all Directors within the time period prescribed under the Act.

3.18. Walk Your Talk

The Company has provided the financial projections to achieve audited PAT of INR 75,00,00,000 (Indian Rupees Seventy Five Crores only) for FY 2023-24. The Investor has set the tolerance limit of 7% on PAT. In the event the audited numbers of the Company for FY 2023-24 deviate negatively more than 7% from the audited PAT figures as set out hereinbefore, then the Company shall issue such percentage of additional Equity Shares to each Investor equal to the percentage variance beyond the tolerance limit of 7% of audited PAT. However, this clause shall not apply in cases where such targets have not been met on account of a Force Majeure event and/ or as a result of change in accounting policies.

3.19. Sole and Exclusive Advisor

The Company has appointed Pantomath Capital Advisors Pvt Ltd (“**Pantomath**”), as the sole and exclusive advisor to the present transaction with primary responsibility to co-ordinate and execute all such actions as may be required to consummate the said transaction. Till the time the Investor holds any Equity Securities in the Company, Pantomath and/or any of its subsidiary / affiliated company (collectively referred to as the “**Pantomath Group**”) shall have the exclusive rights of advising the Company on all of its financial matters limited to fund raising via equity, quasi- equity or the IPO of the Company. The rights under this agreement

shall terminate after the IPO.

3.20. Investor's Shareholding to Remain Intact

Notwithstanding anything contained in this Agreement and notwithstanding any rights of the Promoters to transfer their *inter-se* shares, or complete any internal restructuring, the absolute shareholding of the Investors shall remain intact at 11.43% or part thereof, and shall under no circumstances be reduced.

3.21. Effectiveness of Investor's Rights

The Parties expressly agree that the rights of the Investors under this Agreement (save and except the rights of the Investors as a shareholder in accordance with the Act) shall continue to be in force until such time as the IPO (*defined below*) is completed, or until such time as the Investors continues to hold 7% (seven per cent only) Equity Securities in the Company.

In the case of a Shareholder residing outside India, notice of such meeting shall be sent to them by electronic mail followed by a confirmation copy by post at his usual address outside India provided by the Shareholder and at his address, if any, in India provided by the Shareholder, unless otherwise agreed by the Parties. A meeting of the Shareholders may be called by shorter notice with the prior written consent of each Investor.
- 4.2. Every such notice convening a meeting of the Shareholders shall contain an agenda for the meeting identifying in sufficient detail each business to be transacted at the general meeting together with all relevant documents in relation thereto. No matter which has not been detailed in the agenda shall be transacted at any meeting of the Shareholders; *provided however that*, a matter not included in the agenda may be transacted at the meeting with the written consent of the Investor.
- 4.3. The quorum for a general meeting of the Shareholders shall be the presence in person of at least 2 (two) members or such other minimum number prescribed under Applicable Law, provided however, the presence of the authorized representative of each Investor and the Promoters shall be necessary for forming a quorum at every general meeting of the Shareholders. Subject to the quorum being physically present at the place of the meeting, Shareholders not so present shall be entitled to join the Shareholders' meeting via videoconference or teleconference to the extent permissible by Applicable Law.
- 4.4. If at a meeting of the Shareholders ("**Original Shareholders Meeting**") a valid quorum is not present, as a result of absence of the authorized representative of an Investor or a Promoter, as the case maybe, despite being properly notified, within half an hour of the time appointed for the meeting, or ceases to be present, the meeting shall stand automatically adjourned by 1 (one) week at the same time and at the same location ("**Adjourned Shareholders Meeting**"), unless each Investor and the Promoters agree to the meeting being held at a different time or place.
- 4.5. The Company shall not, at a duly constituted Shareholders Meeting, approve any of the Reserved Matters without having received either: (i) the affirmative vote of the authorised representative of each Investor; or (ii) the prior written consent or approval of each Investor ("**Shareholder's Affirmative Vote**"). Any decision taken by the Company with respect to Reserved Matters, without the Shareholder's Affirmative Vote shall be deemed to be null and void.
- 4.6. Subject to Clause 4.5 above, all resolutions in relation to the Company which are required by Applicable Laws to be referred to or passed by Shareholders must be passed by the majority required under Applicable Laws for such matters in respect of which a special resolution is required. Voting on all matters to be considered at a Shareholders Meeting shall be by way of a poll unless otherwise agreed upon in writing by each Investor.
- 4.7. The Chairman of the Board shall be the Chairman of any Shareholders' meeting. In the absence of such Chairman at any meeting of the Shareholders, the Chairman of such meeting shall be appointed with the consent of the majority of the Shareholders present. No Chairman of any Shareholders' meeting shall have a second or casting vote.

- 4.8. Each Shareholder shall vote on its Equity Securities at any General Meetings or in any written consent of Shareholders, and shall take, subject to Applicable Law, all other actions necessary or required to give full effect to the intent, spirit and specific provisions of this Agreement, including approving and amending the Articles of Association to ensure that they do not at any time conflict and are otherwise consistent with the provisions of this Agreement.
- 4.9. The Promoters shall at all times vote his Equity Shares (and cause any of its Affiliates holding Equity Shares to vote) in a manner consistent with, and so as to uphold and give effect to, the provisions of this Agreement and shall take or cause to be taken all actions and do or cause to be done all things necessary or desirable to consummate or implement expeditiously the agreement and understanding contained in this Agreement including voting in a manner such that the Reserved Matters are undertaken by the Company only with the Shareholder's Affirmative Vote as contemplated herein.

RESERVED MATTER

- 5.1. Notwithstanding anything to the contrary contained in this Agreement, no action or decision shall be taken by the Company (whether in any Shareholders' meeting, any meeting of the Board or committees/sub-committees thereof or by any officer or employee of the Company) in respect of any of the matters set out in **SCHEDULE III** hereof (hereinafter called "**Reserved Matters**") unless an Affirmative Vote is provided in relation to such matter by Investor, except in such cases where the Investor and/ or Investor Director has a proved conflict of interest. In such cases of conflict, the Affirmative Vote rights of the Investor shall not be triggered including in cases of a Reserved Matter.
- 5.2. Any resolution to be passed in relation to a Reserved Matter shall be deemed to have been passed or approved only if each Investor has voted in favor of that resolution or given its written consent in favor of such matter.
- 5.3. In the event any matters listed in **SCHEDULE III** are to be taken up for consideration in the Subsidiaries and/or joint ventures to which the Company and/or a Subsidiary is a party to, then such resolution shall be first taken up and determined at the Board and, or Shareholders' meeting of the Company as a Reserved Matter. The Company will exercise its voting rights on such resolutions involving Reserved Matters at the board or general meetings of the relevant Subsidiaries, in accordance with the decision of the Board and, or Shareholders of the Company provided as per this Clause 5.

RESPONSIBILITIES OF PARTIES

- 6.1. The Company, the Promoters and each Investor hereby acknowledge and covenant to each other to assume and take on the following respective responsibilities and undertake the following respective obligations in respect of the Company, its Business and operations.
- 6.2. The Promoters agree to be bound by and fulfil their respective responsibilities under **SCHEDULE IV**. The Investor agrees to be bound by and fulfil its responsibilities under **SCHEDULE V**.

INVESTOR'S IRR ENTITLEMENTS

Each Investor shall have the right but not the obligation to exercise Buyback Right at an IRR of 24% (twenty four per cent only) per annum, in the following events: (i) breach of Representations and Warranties under Clause 25; (ii) failure by the Company to appoint the Investor Director to the Board as per this Agreement; (iii) in the event the Company takes decisions in breach of the quorum requirements as per this Agreement; (iv) breach of Investors' rights under Clause 3.17; (v) in the event the Company takes any decisions on Reserved Matters without the Investors' prior consent as per Clause 5; (vi) in the event any transfers under Clause 10.3 are undertaken in breach of the ROFR and Investors' tag along right; (vii) any breach of the non-compete obligations of the Promoter under Clause 21, and/ or (viii) failure by the Promoters to fulfil their responsibilities under **SCHEDULE IV**; and (ix) failure to remedy such breach within 3 (three) months of being intimated of such breach, or such longer duration (a) warranted by under Applicable Law and/ or by any governmental authority; or (b) mutually agreed between the Investors, the Promoters and the Company.

EMPLOYEE INCENTIVE SCHEME

Any commitments which are undertaken by the Company towards the Key Managerial Persons by way of

an Employee Incentive Scheme shall be subject to such modifications and/ or alternations as required by the Investor.

FURTHER FUNDING

9.1. Participation Right

9.1.1. If the Company intends to offer issuance of Equity Shares to any Person (“**Further Shares**”), the Company shall ensure the following procedure is followed:

9.1.1.1. At least 15 (Fifteen) days prior to the meeting of the Board held to approve the issuance of any Further Shares, the Company shall send a written notice (“**Further Issuance Notice**”) informing each Investor of the proposed plan of the Company to issue Further Shares, providing details of the identity of the proposed investor, the number of Further Shares to be issued, the price at which they are to be issued and such other terms and conditions regarding the issue of Further Shares.

9.1.1.2. The Investors shall each deliver a written notice to the Company within a period of 15 (fifteen) days from the date of receipt of the Further Issuance Notice (a) rejecting the proposed issuance in accordance with the Further Issuance Notice; or (b) exercising its right to subscribe to all or a part of the Further Shares (“**Investors’ Notice**”).

9.1.1.3. If an Investor delivers the Investor Notice to the Company accepting the terms of the Further Issuance Notice, the Company and such Investor shall be bound to consummate the proposed issuance within 60 (sixty) days (subject to reasonable extensions to obtain requisite Governmental Approvals) from the date of receipt of such Investor’s Notice.

9.1.2. In the event that an Investor does not issue an Investors’ Notice within the timeline prescribed in Clause 9.1.1.3, or confirms in writing that it does not intent to subscribe to the Further Shares, the Company shall have the right to offer the Further Shares to any Shareholder or Third Party. It is expressly agreed by the Company that the issuance of such Further Shares shall be on such terms and conditions that are no more favourable than the terms offered to such Investor and at a premium not less than that offered to be paid by such Investor for the said shares. Moreover, it is expressly agreed that such proposed issuance shall be consummated within 180 (one hundred and eighty) days of the acceptance of the terms of the Investors’ Notice by the Company. If the allotment is not completed within 180 (one hundred and eighty) days, the Company will be required to comply with the process set out in this Clause 9.1 again for undertaking an issuance and allotment of the Further Shares.

9.2. Pre-emption Rights

9.2.1. If the Company intends to offer issuance of Equity Shares to any Person (“**Further Shares**”), the Shareholders (either through themselves or through their Affiliates) shall be entitled to a pro-rata pre-emptive right at their sole discretion (but not an obligation) to subscribe to such proportion of Further Shares (“**Pre-emptive Shares**”) offered by the Company to any other Person (including a Strategic Investor), on the same price, terms and conditions as the Company proposes to offer such Pre-emptive Shares to such other Persons, as would enable an Investor to maintain its proportion of existing shareholding (i.e. shareholding prior to the allotment of the Pre-emptive Shares) on a Fully Diluted Basis.

9.2.2. The Company shall ensure that the following procedure is followed in issuing any Pre-emptive Shares:

9.2.2.1. Notice: At least 15 (fifteen) days prior to the meeting of the Board held to approve the issuance of any Pre-emptive Shares, the Company shall send a written notice (“**Pre-Emptive Notice**”) informing the Shareholders of the proposed plan of the Company to issue Pre-emptive Shares, providing details of the number of Pre-emptive Shares to be issued, the price at which they are to be issued and such other terms and conditions regarding the issue of Pre-emptive Shares. The Pre-Emptive Notice shall also specify the number of Pre-emptive Shares to be issued to the Shareholders (“**Entitlement**”) that the Shareholders can maintain their proportion of shareholding.

9.2.2.2. Exercise of Rights: Within 15 (fifteen) days after the date of receipt of the Pre-Emptive Notice, the Shareholders shall notify to the Company whether they are willing or unwilling to subscribe to all (or none) of their Entitlement specified in the Pre-Emptive Notice (“**Pre-emptive Right Period**”).

- 9.2.2.3. **Issuance:** The allotment of Pre-emptive Shares to the Shareholders shall be completed within 60 (sixty) days of the date of receipt of the Shareholders' approval pursuant to Clause 9.2.2.2. If any of the Shareholders do not subscribe to the Pre-emptive Shares within the aforementioned 60 (sixty) day period for reasons not attributable to the Company and the Promoters, then such Shareholder's rights under this Clause 9.2 shall fall away.
- 9.2.2.4. **Applicability:** The provisions of this Clause 9.2 will not apply to any issuance of Equity Shares: (a) in an IPO in accordance with this Agreement; (b) any Employee Incentive Schemes; or (c) any issuance of shares of the Company in accordance with the Transaction Documents.

- 10.1.3.2. The Shareholders other than the Investor shall not (i) create any Encumbrance on their Equity Securities, without the express written consent of each Investor; provided however that, the Shareholders shall have the right to Transfer their Equity Securities in accordance with the terms set out in this Clause 10.1.
- 10.1.4. The Promoters shall not, without the prior approval of each Investor, transfer any Equity Shares held by them till the expiry of the Lock-in Period, and such Equity Shares held by the Promoters shall be referred to as the "**Locked-In Securities**". Notwithstanding anything contained in this Agreement, in the event the Promoters require urgent funds for legitimate reasons, the Promoters shall, subject to the Investors' ROFR Right, be permitted to transfer up to 5% (five percent) of the total Locked-In Securities held by them collectively on a Fully Diluted Basis ("**Promoter Liquidity Limit**").
- 10.1.5. Notwithstanding anything to the contrary herein, (a) any transfer of shares of the Company by the Promoters within the Promoter Liquidity Limit, (b) *inter-se* transfers of shares of the Company amongst the Promoters, and/ or (c), shall not be subject to the provisions of Clause 10.1.3.2 or Clause 10.3 (*Investors' Right of First Refusal and Tag Along Right*) or any other restrictions set out under this Agreement, however, the aforesaid transfers shall be subject to Clause 10.4 (*Deed of Adherence*).
- 10.1.6. Notwithstanding anything to the contrary herein, neither Investor shall directly or indirectly transfer any shares of the Company held by such Investor, to any Competitor save except in case of invoking of Drag Along Right.
- 10.1.7. The Parties hereby acknowledge and agree that any transfer of Equity Shares by the Parties will be subject to the provisions of Clause 10.2, Clause 10.3 and Clause 10.4.
- 10.1.8. No transfer of any Equity Shares shall take place either directly or indirectly and the Board shall not register any transfer of any Equity Shares unless such transfer complies with the provisions of this Agreement, including, this Clause 11 and Applicable Laws.
- 10.1.9. Any transfer of Equity Shares which violates this Clause 10 (whether directly or indirectly) shall be void *ab initio* and the Company shall not in any way give effect or register any such impermissible transfer.

10.2. Promoters' Right of First Offer

If an Investor proposes to transfer all or any portion of its Equity Shares ("**Selling Shareholder**"), the Promoters (each being a "**Non Transferring Shareholder**") shall have a right of first offer with respect to

such transfer in the manner set out in this Clause 10.2 ("**ROFO**").

- 10.2.1. **Notice:** The Selling Shareholder shall give written notice ("**Offer Notice**") to the Non-Transferring Shareholder specifying the number of Equity Shares that are proposed to be transferred (the "**Offered Shares**").
- 10.2.2. **ROFO Exercise Notice:** The Non Transferring Shareholders may exercise the ROFO by delivering a written notice ("**ROFO Acceptance Notice**") to the Selling Shareholder within a period of 15 (fifteen) days from the date of receipt of the Offer Notice ("**ROFO Period**"). The ROFO Acceptance Notice shall include: (i) a statement that the Non Transferring Shareholder is willing to pay for the Offered Shares; (ii) the amount of cash consideration which the Non Transferring Shareholder is willing to pay for the Offered Shares ("**ROFO Price**"); and (iii) the payment terms and conditions on which the Non Transferring Shareholder proposes to acquire the Offered Shares (collectively, the "**Offer Terms**").
- 10.2.3. **Acceptance or Rejection of the ROFO:** Within 15 (fifteen) days of the receipt of the ROFO Acceptance Notice by the Selling Shareholder ("**ROFO Acceptance Period**"), the Selling Shareholder shall intimate the relevant Non Transferring Shareholder by a written notice that it either accepts or rejects the Offer Terms set out in the ROFO Acceptance Notice ("**ROFO Decision Notice**"). If the ROFO Acceptance Notice of the Non-Transferring Shareholder is accepted by the Selling Shareholder by issuing a ROFO Decision Notice, such Non Transferring Shareholder and the Selling Shareholder shall be bound to consummate the sale and purchase of the Offered Shares within 60 (sixty) days from the date of receipt of a ROFO Decision Notice in accordance with this Clause 10.2.3.
- 10.2.4. In the event that the Promoter does not issue a ROFO Acceptance Notice within the timeline prescribed in Clause 10.2.4 or confirms in writing that it does not intend to purchase the Offered Shares or the Selling Shareholder rejects the Offer Terms set out in the ROFO Acceptance Notice, the Selling Shareholder shall have the right to transfer the Offered Shares to any other Shareholder or Third Party, provided that such transfer of Offered Shares shall not be on rights/ terms inferior to the rights/ terms offered to the Non-Transferring Shareholder. If the transfer is not completed within 260 (two hundred and sixty days) the Selling Shareholder will be required to comply with the process set out in this Clause 11.2 again for undertaking a transfer of the Offered Shares.

10.3. **Investors' Right of First Refusal ("ROFR") and Tag Along Right**

If any Shareholder (other than an Investor) proposes to transfer all or part of the Securities held by it (for the purpose of this Clause 10.3, "**Subject Securities**") to a Third Party Purchaser subject to the approval of each Investor and receives an offer in writing from such Third Party Purchaser for the transfer of such Subject Securities (for the purpose of this Clause 10.3, "**Proposed Sale**"), the following provisions shall apply provided, however, that this Clause 10.3 shall not apply in respect of any transfer of Securities by the Promoters as per Clause 10.1.2:

- 10.3.1. **Notice:** The selling Shareholder will deliver a written notice in relation to such Proposed Sale to the Investor within 15 (fifteen) days of receipt of the written notice by the relevant Shareholder from the Third Party Purchaser (for the purpose of this Clause 10.3, "**Proposed Sale Notice**"). The Proposed Sale Notice must specify relevant details of the Proposed Sale including:
 - 10.3.1.1. the number and the kind of Subject Securities being transferred;
 - 10.3.1.2. the identity of the Third Party Purchaser;
 - 10.3.1.3. the price per Subject Security offered by the Third Party Purchaser to the selling Shareholder ("**ROFR Price**");
 - 10.3.1.4. the aggregate consideration being offered by the Third Party Purchaser for the Proposed Sale and any other relevant terms; and
 - 10.3.1.5. the proposed date of consummation of the Proposed Sale (which shall be no more than 180 (one hundred and eighty) days from the date of delivery of the Proposed Sale Notice.

The Proposed Sale Notice will be valid for a period of 15 (fifteen) days from its date of delivery to the Investor and for the purposes of Clause 10.3.2 below, will constitute an offer by the selling Shareholder to

sell all or part of the Subject Securities to the Investor at the ROFR Price and on the terms and conditions set out in the Proposed Sale Notice.

10.3.2. Investors' ROFR

10.3.2.1. Exercise of ROFR: Within 15 (fifteen) days of the date of delivery of the Proposed Sale Notice (“**Investor Response Period**”), an Investor may (either by itself or through its Affiliates) agree to purchase all, or part of the Subject Securities on the terms set forth in the Proposed Sale Notice by delivering a written notice to the Selling Shareholder (“**ROFR Acceptance Notice**”).

10.3.2.2. Irrevocable Acceptance: If an Investor delivers a ROFR Acceptance Notice, then the selling Shareholder shall be obligated to sell, and such Investor shall be obligated to purchase from the Selling Shareholder, such number of Subject Securities which such Investor has agreed to purchase in the ROFR Acceptance Notice at the ROFR Price and on the terms and conditions set out in the Proposed Sale Notice, on or before the expiry of 45 (forty-five) days of delivery of the ROFR Acceptance Notice.

10.3.2.3. Sale Consummation: If an Investor does not deliver a valid ROFR Acceptance Notice within the Investor Response Period, then the selling Shareholder will be free to sell all or part of the Subject Securities to the Third Party Purchaser at the ROFR Price on terms and conditions which are not more favourable to the Third Party Purchaser as compared to the terms and conditions offered to an Investor in the Proposed Sale Notice within 180 (one hundred and eighty) days of the expiry of the Investor Response Period (“**ROFR Revival Date**”).

10.3.2.4. Revival: If the selling Shareholder has not completed the sale of Subject Securities to the Third Party Purchaser on or prior to the ROFR Revival Date for reasons solely and directly attributable to the relevant selling Shareholder, the Proposed Sale Notice will be void *ab initio*, and such selling Shareholder will be required to once again comply with the provisions of this Clause 10.3.2 prior to consummating a sale of any of the Subject Securities.

10.3.3. Investors' Tag Along Right

10.3.3.1. If an Investor does not deliver a valid ROFR Acceptance Notice within the Investor Response Period pursuant to receipt of a Proposed Sale Notice issued by a Promoter (as a selling Shareholder), such Investor will have the right (but not the obligation) to sell its pro-rated share of Subject Securities (“**Investor Tag Along Entitlement**”) as part of the Proposed Sale to the Third Party Purchaser in the manner set out in this Clause 10.3.3 which will be applicable only in relation to a Proposed Sale Notice issued by a Promoter and not any other Shareholder.

10.3.3.2. Exercise: An Investor may exercise its tag-along right within 15 (fifteen) days of the date of delivery of the Proposed Sale Notice (“**Investor Tag Response Period**”), by delivering a notice specifying the aggregate number of Equity Securities, not exceeding the Investor Tag-Along Entitlement (such specified number, the “**Investor Tagged Securities**”), that such Investor wishes to sell to the Third Party Purchaser, at the price and on the terms and conditions specified in the Proposed Sale Notice (“**Investor Tag Exercise Notice**”).

10.3.3.3. Sale Consummation: The closing/ completion of the sale and purchase of the relevant number of Investor Tagged Securities will take place simultaneously with the Subject Securities, on terms and conditions set out in the Proposed Sale Notice, as follows:

- A. if an Investor does not deliver an Investor Tag-Exercise Notice within the Investor Tag Response Period, the selling Shareholder will be free to sell all or part of the Subject Securities to the Third Party Purchaser; and
- B. if an Investor delivers an Investor Tag-Exercise Notice within the Investor Tag Response Period, then:
 - i. if the Third Party Purchaser agrees to purchase an aggregate number of Equity Securities equal to the sum of the total number of Subject Securities and Investor Tagged Securities, then an Investor shall be permitted to sell all of the Investor Tagged Securities proposed to be sold by such Investor and the selling

Shareholder will be entitled to sell all of the Subject Securities proposed to be sold by the selling Shareholder in such Proposed Sale; and

- ii. if the Third-Party Purchaser refuses to purchase an aggregate number of Equity Securities equal to the total number of Investor Tagged Securities being sold by such Investor in the Proposed Sale and the total number of the Subject Securities of the Promoter, then:
 - a. the total number of Equity Securities to be purchased by the Third Party Purchaser in such Proposed Sale will be reduced to the maximum number of Equity Securities that such Third Party Purchaser is willing to purchase; and
 - b. the total number of Subject Securities to be sold by the selling Shareholder will be reduced so that the maximum number of Investor Tagged Securities can be sold to the Third Party Purchaser; provided that, the selling Shareholder and such Investor shall at all times have the ability to jointly discontinue the entire Proposed Sale at any time prior to the consummation of any sale of the Investor Tagged Securities or Subject Securities to the Third Party Purchaser.
- iii. Revival: If the Proposed Sale to the Third Party Purchaser is not completed or consummated within 180 (one hundred and eighty days) of the expiry of the Investor Tag Response Period, then the Proposed Sale Notice will be void *ab initio*, and the provisions of this Clause 10.3 must be once again complied with prior to any sale of Equity Securities to the Third Party Purchaser.

10.3.3.4. The selling Shareholder shall not proceed with a sale of any of the Subject Securities to the Third-Party Purchaser without complying with this Clause 10.3 (Investor Right of First Refusal and Investor Tag Along Right). Further, if the consummation of the Proposed Sale in a single or multiple tranches can cause a Change of Control, an Investor shall have the right (but not the obligation) to sell its entire Aggregate Shareholding in the Company to the relevant Third-Party Purchaser simultaneously with the Subject Securities at the same terms and conditions offered by the Third-Party Purchaser to the selling Shareholder. Provided that, in such a scenario the selling Shareholder may not sell the Subject Securities unless the Third-Party Purchaser agrees to purchase the entire Aggregate Shareholding of such Investor.

10.4. **Deed of Adherence**

Each of the Parties agree that it shall cause each Person to which it proposed to transfer any Equity Securities, including any of its Affiliates to whom it transfers any Equity Securities, to execute a Deed of Adherence simultaneously with such transfer substantially in the form set out in **SCHEDULE VI** (*Form of Deed of Adherence*). For the avoidance of doubt:

- 10.4.1. the Shareholders specifically agree and acknowledge, that upon a transfer of any Equity Securities by a Shareholder to any of its Affiliates, all references in (transfer) to such Shareholder, either as a Shareholder, Promoter or an Investor shall include references to the Affiliate of such Person to whom any Equity Securities have been transferred, and all calculations involving Equity Securities held by a Shareholder shall include Equity Securities held by such Shareholder and any Affiliates of such Shareholder to whom any Equity Securities have been transferred; and
- 10.4.2. the non-receipt of the Deed of Adherence by any of the other Party (or their failure to acknowledge receipt) shall not in any manner invalidate the Deed of Adherence or the relevant transfer (as long as such transfer took place in accordance with the terms of this Agreement).

10.5. **Further Assurances**

Each of the Parties shall take or cause to be taken, all such actions as may be necessary or reasonably requested in order to expeditiously consummate each sale to which it is a party under the terms of this Agreement, and any related transactions, including executing, acknowledging and delivering consents, assignments, waivers and other documents or instruments, furnishing information and copies of documents, filing applications, reports, returns, filings and other documents or instruments with Governmental

Any compensation or indemnity as referred to above shall be such as to indemnify each Investor or, at the election of each Investor, the Company, of all Losses, and as if the Warranty and/or covenant under which the Indemnified Party is to be indemnified in relation to, had been true and correct. The Indemnified Parties shall have the right to nominate any Affiliate, for the purpose of receiving the amounts payable by the Indemnifying Parties pursuant to this Clause 15 (*Indemnities*). The rights and remedies of each Investor in respect of any breach, including without limitation breach of any of the Warranties, shall not be affected by any act or happening which otherwise might have affected such rights and remedies, except by a specific written waiver by each Investor.

15.3. Notwithstanding anything to the contrary contained in this Agreement, applicable Law or equity or otherwise, the liability of the Promoters and the Company under this Agreement shall be at actuals and not limited or restricted and shall be in accordance with the Share Subscription Agreement.

15.4. **Indemnification Procedure**

15.4.1. If the Indemnified Party seeks to make a Claim in relation to a Loss which does not arise from a Third Party Claim (as defined hereinafter) pursuant to this Clause 15 (*Indemnity*), the Indemnified Party shall give a written notice of the Claim to the Indemnifying Parties within 7 (Seven) days from the date on which the Indemnified Party suffers the Loss, describing, in reasonable detail, the breach alleged and the quantum of Loss suffered by the Indemnified Party (along with relevant documents, if any) (“**Claim Notice**”). The Parties agree that any reasonable delay or failure to give such notice shall not relieve the Indemnifying Party of liability hereunder, unless the Indemnifying Parties are prejudiced by such delay or failure and Indemnifying Party shall not be responsible in any manner for any incremental Loss directly arising out of such delay or failure to give Claim Notice. Within 30 (Thirty) days of receipt of the Claim Notice, the Indemnifying Party may either:

15.4.1.1. accept the Claim raised under the Claim Notice and make payment of the amount claimed by the Indemnified Party under the Claim Notice; or

15.4.1.2. issue a notice (“**Dispute Notice**”) to the Indemnified Party stating that it is disputing, in full or in part, the Claim raised by the Indemnified Party under the Claim Notice and denying, in full or in part, the liability to indemnify the Indemnified Party for the breach or Loss alleged to have been suffered by the Indemnified Party.

15.4.2. On issue of a Dispute Notice, or acceptance in part of a claim raised, the Indemnified Party and the Indemnifying Party shall discuss the claim in good faith and resolve the same. In the event the relevant Claim is not resolved within 30 (Thirty) days from the date of the Dispute Notice, both the Indemnified Party and the Indemnifying Party shall be entitled to issue notice to the other party initiating arbitration proceedings in accordance with Clause 19 (*Governing Law and Dispute Resolution*).

15.5. **Third Party Claims**

15.5.1. If any Third Party (other than an Affiliate of a Party to this Agreement) commences a legal action against an Indemnified Party in a manner that gives rise to a Loss and the Indemnified Party seeks indemnification from the Indemnifying Parties under Clause 15 (*Indemnities*) (“**Third Party Claim**”) then the Indemnified Party shall within 30 (thirty) days of receipt of such Third Party Claim, or such shorter period set out in the Third Party Claim, inform the Indemnifying Parties in writing of the Third Party Claim and the relevant details of such Third Party Claim. For the avoidance of doubt, any failure by the Indemnified Party(ies) to give a Third Party Claim notice in relation to any matter or circumstance shall not, prevent the Indemnified Party from making any claim for indemnity, arising from that matter or circumstance, unless the Indemnifying Parties are prejudiced by such delay and Indemnifying Party shall not be responsible in any manner for any incremental Loss directly arising out of such delay or failure to give Claim Notice.

15.5.2. Subject to the Indemnifying Parties keeping the Indemnified Parties fully indemnified in accordance with Clause 15 (*Indemnities*), the Indemnifying Parties shall, within 30 (thirty) days from the receipt of the Third Party Claim or such shorter time period as may be required under the circumstances of the relevant Third Party Claim, have the right to participate in, or assume the control of the defence and negotiation of such Third Party Claim, in respect of which the Third Party Claim has been issued, at its sole cost and expense, and by appointing a reputable counsel basis consultation with the Indemnified Party. It is hereby clarified that pursuant to this Clause 15.5.2(*Third Party Claims*), the Indemnifying Party shall have the right, at its discretion, to participate or assume control and defence of a Third Party Claim; provided that, upon participation or assumption of control of the defence of Third Party Claim, the Indemnifying Party shall be deemed to have acknowledged its obligation to indemnify the Indemnified Party(ies) without any demur in connection with the Loss arising out of the Third Party-Claim, if any.

15.5.3. In the event an Indemnifying Party assumes control of the defence of a Third Party Claim in accordance with Clause 15.5.2 (*Third Party Claims*) above, then:

15.5.3.1. the Indemnifying Party shall keep the Indemnified Party fully informed of the progress of, and all material developments in relation to, the Third Party Claim;

15.5.3.2. the Indemnifying Party shall provide the Indemnified Party with copies of all material information and correspondence relating to the Third Party Claim; and

15.5.3.3. the Indemnified Party shall continue to have the right to participate in the defence of any such Third Party Claim with a counsel selected by it, at its own cost.

15.5.4. Notwithstanding anything to the contrary contained in this Agreement, in the event:

15.5.4.1. the Indemnifying Party elect to not control or defend such Third-Party Claim; and / or

15.5.4.2. the Indemnifying Party fails to notify the Indemnified Party in writing of its election to defend in the manner as set out in this 15 (Indemnity); or

15.5.4.3. the Third Party Claim involves criminal liability against Indemnified Party; or

15.5.4.4. in the Indemnified Party's opinion, the Third Party Claim may adversely affect the brand name or goodwill of the Indemnified Party,

the Indemnified Party shall have the right to take such action acting reasonably and in good faith as it may deem necessary to avoid, dispute, deny, resist, appeal, compromise or contest or settle any Third Party Claim (including without limitation, assuming the control of the defence and negotiation of such Third Party Claim, making Claims and/or counterclaims against Third Parties). No such action of the Indemnified Parties shall prejudice its Claim(s) or rights under this Agreement or under applicable Laws or equity.

TERM AND TERMINATION

16.1. Term

This Agreement shall come into full force and effect from the Closing Date and shall remain valid and binding on the Parties until such time that it is terminated in accordance with Clause 16.2 (*Termination*).

16.2. Termination

This Agreement shall terminate automatically, upon the filing of the red herring prospectus by the Company in relation to the IPO with the jurisdictional Registrar of Companies without any further act or deed required by any Party.

16.3. Effect of Termination

The termination of this Agreement shall not relieve any Party of any obligations or liabilities accrued prior to the date of termination.

16.4. Survival: Clause 1 (*Definitions and Interpretation*), Clause 24 (*Representations and Warranties*), Clause 15 (*Indemnity*), Clause 16.3 (*Effect of Termination*), Clause 18 (*Confidentiality and Non-Disclosure*), Clause 19 (*Governing Law and Dispute Resolution*), Clause 20 (*Notices*), and Clause 25 (*Miscellaneous*) shall survive the termination of this Agreement.

ASSIGNMENT

Except as expressly provided in this Agreement, none of the Parties shall be entitled to assign its rights and obligations under this Agreement to a third party without the prior written consent of all the other Parties. Each Investor shall however be allowed to assign its rights and obligations under this Agreement to its Affiliates or to a transferee of its Equity Shares after the Closing Date. In the event an Investor assigns entirely or partially, its right and obligations under this Agreement to any such Affiliate, the Parties agree that 15 February 2024 as set out in the Share Subscription Agreement, shall not be construed

as the Long Stop Date.

CONFIDENTIALITY

- 18.1. The Parties agree that the terms of this Agreement, its existence and all information exchanged between the Parties under this Agreement or during the negotiations preceding the Effective Date shall not be disclosed to any third Person, save and to the extent that such information may be required:
- 18.1.1. to be disclosed to any Party's professional advisors (including legal advisors), Affiliates, in each case where such disclosure is solely on the need-to-know basis and in which case the said third person shall be made aware of and adhere to the confidentiality obligations under this Agreement;
 - 18.1.2. to the extent necessary to comply with any laws or regulations binding on it;
 - 18.1.3. required by or for enforcement of the rights of a Party before, any Governmental Authority including a court of competent jurisdiction or any other competent judicial, quasi-judicial, governmental, supervisory or regulatory body;
 - 18.1.4. the confidential information is in the public domain otherwise than by a breach of this Clause;
 - 18.1.5. an Investor may disclose any information in relation to the Company to a potential purchaser of the Subscription Shares held by such Investor, provided that such potential purchaser is advised of the confidential nature of such information and is subject to standard obligations of confidentiality.

Provided that, the above restrictions shall not apply to the disclosure by such Investor of any information to: (a) contributors of such Investor or any schemes of such Investor; and/or (b) directors, employees, representatives, shareholders, representatives, advisors, lawyers and consultants of the investment manager of the Investor or investment advisors of the Investor; and/ or (c) Affiliates of such Investor, provided that, such Affiliate shall not be a Competitor; provided that such receiving parties are advised of the confidential nature of such information and agree to treat all such information confidentially on terms no less restrictive than those set forth in this Clause 18 or are otherwise bound by a duty of confidentiality on terms no less restrictive than those set forth in this Clause 18.

- 18.2. Further no Party shall make any announcements to the public or to any third party regarding the arrangements contemplated by this Agreement without the prior written consent of the other Parties (such approval not to be unreasonably withheld or delayed).

GOVERNING LAW AND DISPUTE RESOLUTION

- 19.1. This Agreement shall be governed by the laws of India.
- 19.2. The Parties shall endeavour to settle any dispute, difference, claim, question, or controversy between the Parties arising out of or in relation to this Agreement ("**Dispute**") amicably within a period of 30 (thirty) days from the date such Dispute has arisen. It is hereby clarified that a Dispute shall be said to have been arisen upon written notice by a Party ("**Disputing Party**") to the other referencing the contents of this Clause 19.2.
- 19.3. In the event that the Dispute in question is not resolved amicably through consultation within 30 (thirty) days from the date of receipt of written notice as per Clause 19.2 by the other Party from the Disputing Party, then the Dispute shall be settled by means of arbitration. The arbitral tribunal shall consist of a sole arbitrator to be mutually appointed by the Parties in dispute and if the Parties in dispute fail to appoint such arbitrator within 30 (thirty) days, then the sole arbitrator shall be appointed in accordance with the Indian Arbitration and Conciliation Act, 1996 (as amended from time to time).
- 19.4. All proceedings in any such arbitration shall be conducted in the English language.
- 19.5. The seat and venue of the arbitration proceedings shall be Mumbai.

- 19.6. The arbitration award shall be final and binding on the Parties, and the Parties agree to be bound thereby and to act accordingly. The cost of arbitration and its apportionment shall also be decided by the arbitral tribunal.
- 19.7. Subject to the requirements of this Clause 19, the courts at Mumbai only shall have exclusive jurisdiction, to the exclusion of all other courts, in respect of all matters and Disputes arising out or relating to this Agreement.
- 19.8. The provisions of this Clause 19 (*Governing Law and Dispute Resolution*) shall survive the termination of this Agreement.
- 19.9. Nothing shall preclude any Party from seeking interim equitable or injunctive relief, or both. The pursuit of equitable or injunctive relief shall not be a waiver of the right of the Parties to pursue any other remedy or relief through the arbitration described in this Clause 19 (*Dispute Resolution*).

21. NON-COMPETE AND NON-SOLICIT OBLIGATIONS

- 21.1. In consideration of the investment and goodwill of the Company and receipt of the Subscription Price as per the SSA, on and from the Closing Date and for a period of 3 (three) years from the later of: (a) Promoters ceasing to be employees of the Company; (b) all the Promoters and/ or the Investor ceasing to hold any Equity Shares of the Company; or (c) the Investor and the Promoters ceasing to hold any incentives or stock options or securities of the Affiliates of the Company, whichever is later (“**Non-Compete Period**”), the Promoters each hereby agrees and undertakes to the Investor that, they shall not and shall ensure that any entities Controlled by the Promoters shall not, directly or indirectly, in any capacity, whether through partnership or as a shareholder, joint venture partner, collaborator, consultant, by way of investment, or agent or in any other manner whatsoever, whether for profit or otherwise:
 - 21.1.1. Carry on or participate (whether as a partner, angel investor, independent director, shareholder, principal, agent, director, employee, financier or consultant) in any business and/or activity which is: (a) the same as or competing with the Business; and/or (b) which is detrimental to the Business;
 - 21.1.2. render any services to a competitor, or enter into employment with any competitors;
 - 21.1.3. hold any securities, directly or indirectly, in any company, limited liability company / partnership, joint venture company / partnership, association of persons, or any other entity, whether incorporated or not, or in any business and/or activity which is similar to the Business;
 - 21.1.4. solicit or influence or attempt to influence or contact, in any manner, any client / customer / business associate or solicit from any client / customer / business associate, except on behalf of the Company, business of the type carried on by the Company or to persuade any Person, which is a client / customer / business associate of the Company to cease doing business or to reduce the amount of business which any such client / customer has customarily done or might propose doing with the Company or damage in any way the business relationship that the Company has with any customer / client / business associate, whether or not the relationship between the Company and such client / customer / business associate was originally established in whole or in part through his efforts;
 - 21.1.5. solicit, employ, hire, or entice away or attempt to solicit, employ, hire, or entice away or assist anyone else to employ or otherwise associate any Person who is in the employment of the Company or associated with the Company as on such date of the events happening in Clause 21.1, or was in the employment of the Company or otherwise associated with the Company at any time during the preceding 12 (twelve) months from the Closing Date;
 - 21.1.6. cause or permit any Person, directly or indirectly, engaged by the Company, to do any of the foregoing acts or things; and/or
 - 21.1.7. make any disparaging statements against the Company, the Investor or its Affiliates, the Business and operations of the Company.
- 21.2. Notwithstanding anything contained herein, the Promoters are not restricted from making (i) financial investments (where Promoters are not Controlling the company) up to 5%, it being expressly agreed by the Promoters that no investment is allowed in any competing business. However, the investment limits may be enhanced subject to the written approval of the Investor Director; or (ii) an investment in any listed companies up to 3%. It is expressly agreed between the Parties that the aforesaid restrictions shall

not apply in all cases where the Promoters have made any investments or started any businesses prior to the execution of this Agreement.

21.3. Undertakings and Reasonableness:

- 21.3.1. The Company agrees and acknowledges that no separate consideration is payable to it, and the consideration for the non-compete restrictions contained herein are deemed to have been received under this Agreement and mutual covenants in this Agreement. The Company also acknowledges the receipt and sufficiency of such consideration received towards the non-compete restriction contained herein.
- 21.3.2. Each of the restrictions in each clause or sub-clause above shall be enforceable by each Investor independently of each other and its validity shall not be affected if any other restriction is invalid.
- 21.3.3. The Company and the Promoters jointly and/ or severally acknowledge and agree that each of the prohibitions and restrictions contained in this Clause 21: (a) will be read and construed and will have effect as a separate, severable and independent prohibition or restriction and will be enforceable accordingly; (b) are fair and reasonable as to period, scope and subject matter for the legitimate protection of the Business and goodwill acquired by the Company; and (c) are no greater than what is reasonable and necessary for the protection of the legitimate interests of the Business of the Company. However, in the event that such restriction shall be found to be void but would be valid if some part thereof was deleted or the scope, period or area of application were reduced, the above restriction shall apply with the deletion of such words or such reduction of scope, period or area of application as may be required to make the restrictions contained in this clause valid and effective. Provided however, that on the revocation, removal or diminution of the Law or provisions, as the case maybe, by virtue of which the restrictions contained in this clause were limited as provided hereinabove, the original restrictions would stand renewed and be effective to their original extent, as if they had not been limited by the applicable Law or provisions revoked.
- 21.3.4. The Company and the Promoters jointly and/ or severally acknowledge and agree that the covenants and obligations with respect to non-competition and non-solicitation as set forth above shall not be construed to be a restraint of trade against the Company or its Affiliates and relate to special, unique and extraordinary matters, and that a violation of any of the terms of such covenants and obligations will cause the Investor and the Company as the case maybe, irreparable injury.
- 21.3.5. Promoters shall not involve in providing any direct R&D, Engineering, pilot production, production setup, QA setup, buying, selling and repairing assistance under the non-compete obligation to any party including themselves till the non-compete time period elapses.
- 21.3.6. Promoters shall be free to enter any product line other than the one which is not a part of the current portfolio or the development portfolio at the time of exit.

22. FORCE MAJEURE

No Party hereto shall be held liable or responsible for any failure or delay in performance of any or all of its obligations under this Agreement directly or indirectly caused by any circumstances beyond the reasonable control of the Party responsible or affected, including, but not limited to, acts of God, orders or restrictions of Governmental Authorities, war, warlike conditions, hostilities, sanctions, pandemic, lockdown due to pandemic, mobilizations, blockades, embargoes, detentions, revolutions, riots, looting, strikes, stoppages of labour, lockouts or other labour troubles, earthquakes, fires or accidents (“**Force Majeure**”); provided, however, that the Party whose performance is prevented by Force Majeure shall take all reasonable action within its power to comply as fully as possible herewith and to preserve and protect the respective interests of the other Parties hereto. Immediately upon the occurrence of any event or condition of Force Majeure which affects the performance of a Party under this Agreement, the affected Party shall notify the other Parties of the nature of the event or condition, the effect of the event or condition on the Party’s performance and the estimated duration of the event or condition. The affected Party shall also notify the other Parties immediately upon cessation of or changes in the event or condition constituting Force Majeure.

23. USE OF PROCEEDS

The Promoters hereby agree and undertake that the Subscription Consideration received by the Company from the Investor in accordance with the terms of the Share Subscription Agreement shall be used for the planned capital expenditure and/or working capital and/or as set out in the Business Plan of the Company and in accordance with applicable Law. Any other use of the Subscription Consideration (including repayment or settlement of any indebtedness owed to any shareholder, director, officer, employee of the Company or any Person affiliated to or associated with such Person) shall be subject to prior written approval of the Investor.

24. REPRESENTATIONS AND WARRANTIES BY THE PARTIES

24.1. **General Warranty:** Each Party hereby represents and warrants for itself to the other Party that all the representations and warranties as set forth below are true, correct and complete as on the Effective Date and shall remain true, correct and complete as on the Closing Date by reference to the facts and circumstances then existing as if references to the Effective Date were references to the Closing Date:

24.1.1. where applicable, it has been duly incorporated or established, is validly existing and in good standing, under Applicable Law;

24.1.2. all corporate / fiduciary actions necessary for the authorization, execution and delivery of, and the performance by it of all its obligations under, this Agreement have been duly taken and obtained and the same are valid and in full force and effect and the individuals executing this Agreement have been duly authorised to do so and have the full power and authority to bind the Party on whose behalf they are executing this Agreement;

24.1.3. the execution and delivery by it of this Agreement and the performance of its obligations under this Agreement do not and will not: (i) violate or conflict with any Applicable Law; (ii) violate or conflict with any provisions of its constitutional documents or any order or judgment of any court or other Governmental Authority applicable to it or any of its assets; (iii) require any consent, permission or Approval to be obtained from any Person pursuant to the Applicable Law or any instrument, contract or other agreement to which such Party is bound (other than any such consent, Approval, action or filing that has already been duly obtained or made); (iv) conflict with or result in any breach or violation of any of the terms and conditions of, or constitute (with notice or lapse of time or both) a default under, any instrument, contract or other agreement to which such Party is bound; and (v) there are no pending actions, suits or proceeding, existing, threatened, anticipated or pending against them which may prejudicially affect the due performance or enforceability of this Agreement or any obligation, act, omission or transactions contemplated hereunder, respectively;

24.1.4. this Agreement constitutes its legal, valid, and binding obligations enforceable against it in accordance with its terms;

24.1.5. no insolvency proceedings of any character, including without limitation, bankruptcy, receivership, reorganization, composition, or arrangement with creditors, voluntary or involuntary, affecting the Party is pending or threatened, and such Party has not made any assignment for the benefit of creditors or taken any action in contemplation of, or which would constitute the basis for, the institution of such insolvency proceedings. No order has been made, petition presented, or meeting convened for the winding up of such Party or for the appointment of a liquidator or insolvency professional; and

24.1.6. neither such Party nor any of its assets or properties has any immunity from the jurisdiction of any court or Governmental Authority or from any legal process (whether through service or notice, attachment prior to judgment, attachment in aid of execution or otherwise).

24.2. **Warranties Separate:** Each representation and warranty in this Agreement shall be separate and independent and (except as expressly provided otherwise) no representation and warranty shall be limited by reference to any other representation and warranty.

25. MISCELLANEOUS:

25.1. Favourable Terms

Notwithstanding any other term of this Agreement, if any Shareholder is provided with rights, preferences, privileges and other favorable terms superior to those available to an Investor, the Parties shall ensure that such superior rights, preferences, privileges and other terms are automatically made available to an Investor, to the extent permissible under Applicable Law.

25.2. Waiver of Rights

The Company, Promoters and the Existing Shareholders (Except Investor 1) hereby waive any and all pre-emptive rights, rights of first offer, rights of first refusal and other rights, whether conferred by the Charter Documents or any other agreement that they are party to, with respect to the issuance and allotment of the Equity Shares under the SSA.

25.3. No Third Party Rights

This Agreement is for the sole benefit of the Parties and their respective successors, legal representatives, heirs and permitted assigns (as applicable). Nothing herein, express or implied, is intended to or shall confer upon any other Person any legal or equitable right, benefit or remedy of any nature whatsoever under or by reason of this Agreement.

25.4. Entire Agreement

This Agreement constitutes the entire agreement between the Parties, and revokes and supersedes all other previous written or oral agreements including the Term Sheet dated 28th Dec 2023, understandings, negotiations, communications, commitments and discussions (either oral or written) between the Parties (including their Affiliates) or any of them, in relation to their mutual rights and obligations and the terms and conditions governing the relationship between the Investors, Promoters and the Existing Shareholders (inter-se) and their relationship with the Company.

25.5. Amendment

No modification or amendment of any of the provisions of this Agreement shall be effective unless made in writing specifically referring to this Agreement and duly signed and executed by all the Parties.

25.6. Severability

Any provision of this Agreement which is prohibited, unenforceable or is declared or found to be illegal, invalid, unenforceable or void shall be ineffective only to the extent of such prohibition or unenforceability without invalidating the remainder of such provision or the remaining provisions of this Agreement. If any such prohibition or unenforceability substantially affects or alters the commercial terms and conditions of this Agreement, the Parties shall negotiate in good faith to amend and modify the provisions and terms of this Agreement as may be necessary in the circumstances to achieve, which provisions shall, as nearly as practicable, leave the Parties in the same or nearly similar position to that which prevailed prior to such invalidity, illegality or unenforceability.

25.7. Assignment

This Agreement shall be binding upon, and inure to the benefit of, the Parties and their successors and permitted assigns. Any or all of the rights of a Shareholder under this Agreement may be assigned or otherwise conveyed by any Shareholder only in connection with a Transfer of Equity Securities or other securities of the Company which is in compliance with this Agreement, and any assignment or transfer or attempted assignment or transfer other than in compliance herewith shall be void ab initio.

25.8. Specific Performance

This Agreement shall be specifically enforceable at the instance of the Parties. The Parties agree that damages may not be an adequate remedy and each Party shall be entitled to seek an injunction, restraining order, right for recovery, suit for specific performance or such other equitable relief as a court of competent jurisdiction / arbitration tribunal may deem necessary or appropriate to restrain the defaulting Party from committing any violation, or enforce the performance, of the covenants, representations and obligations

contained in this Agreement. These injunctive remedies are cumulative and are in addition to any other rights and remedies that the Parties may have at law or in equity, including without limitation a right for damages.

25.9. No Waiver

The failure of any Party to enforce, in any one or more instances, performance of any of the terms, covenants or conditions of this Agreement shall not be construed as a waiver or a relinquishment of any right or claim granted or arising hereunder or of the future performance of any such term, covenant, or condition, and such failure shall in no way affect the validity of this Agreement or the rights and obligations of the Parties. The Parties acknowledge that a waiver of any term or provision of this Agreement can only be provided by a written notice issued by the relevant Party who is entitled to benefit from such term or provision of this Agreement. Any such waiver shall constitute a waiver only with respect to the specific matter described in such writing and shall in no way impair the rights of the Party granting such waiver in any other respect or at any other time, nor does a single or partial exercise of a right, power or privilege preclude any exercise of other rights, powers or privileges.

25.10. Reservation of Rights

No forbearance, indulgence or relaxation or inaction by any Party at any time to require performance of any of the provisions of this Agreement shall in any way affect, diminish or prejudice the right of such Party to require performance of that provision, and any waiver or acquiescence by any Party of any breach of any of the provisions of this Agreement shall not be construed as a waiver or acquiescence of any continuing or succeeding breach of such provisions, a waiver of any right under or arising out of this Agreement or acquiescence to or recognition of rights other than that expressly stipulated under this Agreement.

25.11. Cumulative Rights

Subject to the other terms of this Agreement:

- i. each of the rights, powers, privileges and remedies of the Parties under this Agreement are independent, cumulative and without prejudice to all other rights, powers, privileges or remedies available to them under Applicable Law or otherwise;
- ii. no failure to exercise nor any delay in exercising any right, power, privilege or remedy under this Agreement shall in any way impair or affect the exercise thereof or operate as a waiver thereof in whole or in part; and
- iii. no single or partial exercise of any right, power, privilege or remedy under this Agreement shall prevent any further or other exercise thereof or the exercise of any other right, power, privilege or remedy.

25.12. Further Assurance

Each of the Parties shall co-operate with each other and execute and deliver such instruments and documents and take such other actions as may be reasonably requested from time to time (whether before or after the Effective Date) in order to carry out, give effect to and confirm their rights and intended purpose of this Agreement provided that no such documents or agreement shall be inconsistent with the spirit and intent of this Agreement. If, for any reason whatsoever, any term contained in this Agreement cannot be performed or fulfilled in the reasonable opinion of any Party, the Parties agree to meet and explore alternative solutions depending upon the new circumstances, but keeping in view the spirit and core objectives of this Agreement, including entering into such other agreements, as may be necessary and on the basis of the principles set out in this Agreement.

25.13. Relationship

SCHEDULE VII

ANTI DILUTION PROTECTION OF THE INVESTOR

Weighted Average Anti-Dilution Formula

Additional Shares = (AA/ NP) — Equity Securities

Equity Securities = Securities (reckoned on a Fully Diluted Basis) acquired by an AD Investor in a round of financing or a secondary acquisition that was above the Down-round Price

AA = The aggregate investment made by an AD Investor to acquire Equity Securities

NP = OP * ((CSO + CSP) / (CSO + CSAP))

Where:

NP = New Price

OP = The per share price at which the AD Investor subscribed to the relevant Equity Securities

CSO = the aggregate of securities outstanding immediately prior to the down-round reckoned on a fully diluted basis

CSP = the consideration received by the Company in the down-round (“**Down-round Price**”), divided by OP

CSAP = Number of Securities (on a Fully Diluted Share Capital basis) actually issued in the Down-round

It is clarified that if an AD Investor has acquired any securities of the Company at different prices in different series of financing in the Company, then the above formula shall be applied severally to each such series of securities. As a result, references to AA, NP, OP and Equity Securities shall be construed and applied in the context of each such series of Securities held by an AD Investor.

For the purposes of this SCHEDULE (Weighted Average Anti-Dilution Formula), “**AD Investor**” means the Investor or an Affiliate of the Investor who has acquired by primary subscription Equity Securities at a price per Equity Security that is higher than the down-round Price.

SCHEDULE VIII

COMPUTATION OF FAIR MARKET VALUE

Any determination of Fair Market Value shall be done, by a reputed independent valuer in the manner set out below:

Process:

- a. The Promoters and the relevant Investor shall, each, appoint a reputed independent valuer (“**Independent Valuers**”) who shall determine the Fair Market Value using any internationally accepted methodology (“**Valuation Methodology**”).
- b. If the difference between the Fair Market Value determined by the Independent valuers appointed by the Promoters and such Investor pursuant to (a) above is:
 - i. less than 20%, then the average of such Fair Market Value will be considered as the final Fair Market Value; and
 - ii. more than 20%, then such Investor and the Promoters shall mutually appoint a third independent valuer out of the Big Four Accounting Firms to determine the Fair Market Value.
 - iii. The Fair Market Value determined by this third Independent Valuer shall be deemed to be final and binding on the Parties (which shall not be disputed by any Party thereafter).

Information:

The Company shall, and each of the Shareholders shall, exercise their rights and extend good faith co-operation so as to cause the Company to promptly provide all relevant information, projections and documents to the relevant independent valuer as may be reasonably requested by the Independent Valuers for the purposes of determining the Fair Market Value.

Fees and Expenses of Independent Valuers

The fees and expenses of the Independent Valuer shall be paid by the relevant Party who has appointed such Independent Valuer.
